### Condition

Condition grades mentioned in the description refer to overall appearance of the item. On covers bearing adhesives, expect normal average centering or margins for the particular issue, only when adhesive condition is above the normal will it be specifically described. File folds on folded letters that do not detract from appearance are not mentioned, nor are missing back flaps on covers if no postal markings are affected.

extremely fine—the best possible condition

very fine—pleasing appearance with all markings well struck

fine—averages appearance for period, markings readable

about fine—somewhat below average, markings partially readable

### Estimates

Following each lot is an estimate of what, in the auctioneers opinion, the lot should realize. This is provided as a guide to bidders. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserves but merely a guide to bidding. Cat. when noted refers to catalog value rather than estimate.

### Telephone Bids

Late bids may be placed by phone, on the day of the sale, by calling the Danbury Hilton Inn at (203) 794-0600. Please ask for Richard C. Frajola, Inc. extension.

## CONDITIONS OF SALE

1. Lots are sold to the highest bidder at a slight advance over the second high bid. All bids will be held confidential. "Buy" bids cannot be accepted. In case of tie, the first bid received prevails.
2. All bids are per lots as numbered in the catalogue unless otherwise announced by the auctioneer at the time of sale.
3. Any lot, the description of which is incorrect, is returnable, but only within five days of receipt. All disputed lots must be returned intact as received and lots containing five or more items are not returnable at any time. No lots may be returned by purchasers who have had the opportunity to examine them prior to the sale. We do not regard covers as defective that have slightly torn or partially missing backflap. This factor is not justification for return of a lot or lots.
4. Successful bidders, unless they are known to us or supply acceptable references in time to be properly checked are expected to make payment in full before the lots are delivered. The fact that an item is placed on extension (submitted to an expertising committee for certification) does not relieve the successful bidder from this condition of sale.
5. If the purchase price has not been paid within the time limit, nor lots taken up within seven days from date of sale they must be resold and any loss arising from such sale will be charged to the defaulter. Any account more than thirty days in arrears is subject to a late payment charge of 1½% per month so long as the account remains in arrears. If the auctioneer, in his discretion, should institute any legal action to secure payment of a delinquent account, the defaulting purchaser shall pay all legal expense incurred by the auctioneer and such charges will be added to the amount owed.
6. All lots are sold as genuine but should any lot be proved otherwise by written opinion of any competent, responsible authority acceptable to us, immediate refund of the full purchase price will be made, provided that such claim is made in writing within 14 days from date of sale. If claim is not made within this period, no lots are returnable for any reason at any time. So long as we are notified within the 14 day period that an opinion is being sought the matter will remain open until such opinion is rendered. We will not be responsible for any charges incurred by the buyer for expertization fees and costs unless the opinion states the item is not genuine, in which case we will pay actual costs up to a maximum of \$50.00. In the event an item is proved "not as described" it is returnable for full refund, and the buyer will be paid interest (at the prevailing Treasury Bill Rate) for the time his funds have been on deposit with us during the extension period.
7. The right is reserved to group two or more lots, also withdraw any lot or lots from the sale, or to act on behalf of the seller.
8. Until paid for in full all lots remain the property of Richard C. Frajola, Inc. on behalf of the seller.
9. A premium equal to 10% of the successful bid price will be added thereto and is payable by the buyer as part of the total purchase price. The mode of shipment shall be at our option. All forwarding charges will be added to the purchase price.
10. Upon written application lots may be sent for examination prior to the auction, condition upon being mailed back by registered mail, adequately insured, within 24 hours of receipt. The applicant is completely responsible for all lots sent for examination, and for the insurance of same against mishap, from the time of receipt until they are actually received back, and is to pay all expenses of postage and insurance. No lots can be sent for inspection within ten days of the date of sale. Photocopies of lots are available at 25¢ per copy, maximum 10 copies, and stamped self addressed return envelope required.
11. Agents are responsible for all purchases made in behalf of their clients unless other arrangements are made prior to the sale.
12. Telephone bids are entered when received but must be followed up by written confirmation of the bidder.
13. Unless otherwise noted Catalog numbers refer to current Scott U.S. Specialized Catalog, and other references work as indicated.
14. The placing of a bid shall constitute acceptance of the foregoing conditions of sale.

## INSTRUCTIONS

FOR THE PRIVATE ARMED VESSELS OF THE UNITED STATES.

1. THE tenor of your commission under the act of Congress, entitled "An act concerning letters of marque, prizes, and prize goods," a copy of which is hereto annexed, will be kept constantly in your view. The high seas, referred to in your commission, you will understand, generally, to extend to low water mark; but with the exception of the space within one league, or three miles, from the shore of countries at peace both with Great Britain and with the United States. You may nevertheless execute your commission within that distance of the shore of a nation at war with Great Britain, and even on the waters within the jurisdiction of such nation, if permitted so to do.

2. You are to pay the strictest regard to the rights of neutral powers, and the usages of civilized nations; and in all your proceedings towards neutral vessels, you are to give them as little molestation or interruption as will consist with the right of ascertaining their neutral character, and of detaining and bringing them in for regular adjudication, in the proper cases. You are particularly to avoid even the appearance of using force or seduction, with a view to deprive such vessels of their crews, or of their passengers, other than persons in the military service of the enemy.

3. Towards enemy vessels and their crews, you are to proceed, in exercising the rights of war, with all the justice and humanity which characterize the nation of which you are members.

4. The master and one or more of the principal persons belonging to captured vessels, are to be sent, as soon after the capture as may be, to the judge or judges of the proper court in the United States, to be examined upon oath, touching the interest or property of the captured vessel and her lading; and at the same time are to be delivered to the judge or judges, all passes, charter parties, bills of lading, invoices, letters and other documents and writings found on board; the said papers to be proved by the affidavit of the commander of the capturing vessel, or some other person present at the capture, to be produced as they were received, without fraud, addition, subtraction or embellishment.

## **United States Letter Rates to Foreign Destinations, 1847 to GPU-UPU**

by  
Charles J. Starnes

\$27.50 post paid, 160 pages, 80 lb enamel paper, buckram binding, smythe sewn signatures, gold spine and cover stamping, edition of 1,000.

A tabulation of data, considering the tremendous amount of information and the complexity of the subject tables are the only reasonable approach. Much effort has been spent to insure the tables are both clear and logical.

Postage rates for letters are tabulated by country from the U.S. to every part of the world from 1847 to the UPU. Rates for thirteen different international mail systems are listed with the month of inception and discontinuance. For the 1860's Germany consist of eleven different sets of postal entities with most having five different mail systems. For India in 1871 there are nine different mail systems, each with different rates and prepayment requirements. These tables occupy 48 pages with the facing pages containing 58 covers illustrating the usages and interpreting the rates.

The ten appendices contain much valuable data relating to these rates. The Bremen "Foreign Postage" charges for thirty four destinations are tabulated. The entrance dates for the General Postal Union and the Universal Postal Union are listed by country. Charges for unpaid and part-paid letters from 1868 to the UPU are listed. Charges for heavy letters, ¼ to 1 ½ oz., British Treaty Mail via France are tabulated for all rates. Bremen transit charges, Nova Scotia charges on Halifax - Boston letters, foreign currencies with U.S. equivalents, etc.

## **The Fresno and San Francisco Bicycle Mail of 1894**

Lowell B. Cooper

\$35.00 post paid, 152 pages, 80 lb enamel paper, buckram binding smythe sewn signatures, gold spine and cover stamping, 100 illustrations, edition of 500 copies, will not be reprinted.

All facets of Arthur Banta's emergency mail route that operated between Fresno and San Francisco during the ARU-Pullman strike in 1894. Everything exist from commercial covers and issued stamps to philatelic fun and games:

- 1) Organization and operation of the mail route
- 2) The stamps and reprints
- 3) Issued envelopes and reprints

- 4) Used covers
  - Commercial, Fresno to San Francisco & San Francisco to Fresno
  - Philatelic, Fresno to San Francisco & Fresno to Fresno
  - Covers created after the post, Altered Covers
- 5) The destruction of a counterfeit die as the original
- 6) Defacement of original die and subsequent reprints
- 7) A new die used in 1894 but never studied or catalogued
- 8) The 1935 rerun stamps and covers, authorized by the Post Office
- 9) Handstamps used during and after the post

The story is brought together from various sources including a number that have not been previously published; the diary of Eugene Donze, engraver of the die, original letters, newspaper accounts, the Post Office Department authorization for the rerun stamp, in addition to the examination of numerous stamps, covers, and proofs.

### **The Postal History of Indiana**
