Cleveland, Ohio 44114

INTRODUCTION

We are very pleased to present the Thomas J. Alexander collection in this public auction. Mr. Alexander has been actively collecting for 30 years and has specialized in the stamps and postal history of the 1851-1861 period for most of that time. His awards are numerous and include the Luff Award, the Ashbrook Cup, and the Brookman Cup, and he twice received the Chase Award for his original research on the 3c 1851-1861 stamps. He is a past President of the U.S. Philatelic Classics Society and a long time section editor for "The Chronicle."

The Thomas Alexander collection is as much a collection of history through the mails as it is a collection of postal history. The primary historical focus is the Western expansion of the United States. The romance, and often drama, of many of the covers and letters can only be spotlighted within the confines of a catalog description. The narrow shadows and shading must be added by the knowledge and interpretation of the catalog users.

As an example, lot 317 is a cover that bears a manuscript "Pawnee Fork" Kansas Territory postmark and encloses an October 23, 1860 letter. Pawnee Fork was a very small office, located on the Santa Fe Trail many miles from a major city. In existence less than six years, the office handled the Fort Larned mails. The Fort had been established in October, 1859 to protect the Santa Fe Trail from Indians and served as a post for the distribution of annuities to the Cheyenne and Araphahoe Indians. The enclosed letter is from the wife of an officer on his way to Santa Fe and describes the sod house of the post commander, and mentions that they have passed the most dangerous section of the Santa Fe Trail. This cover is the only recorded example of the Pawnee Fork manuscript postmark and the earliest recorded usage from Fort Larned. The letter provides a brief glimpse of the fort, frontier life, and the dangers of the trail. The lot almost encapsulates the brief history of this lonely outpost on the Santa Fe Trail. Many, if not most, of the lots in this sale have their own unique stories to tell.

From a postal history perspective, the collection provides a comprehensive overview of the many ways, both private and public, that mails were handled in the expanding United States from 1800 to 1861. This includes mail handled by military expresses, stage coach expresses, railroads, clipper ships, Ocean Steamers, River steamboats, and trail letters handed to fellow travelers heading in the opposite direction. A major focus of the collection is the role played by the U.S. Post Office Route Agents. The railway and inland waterway route agent markings are relatively well known. The route agent markings used by agents on the Ocean steamers, handling the California mails, are not so well known and this collection is the largest yet formed.

Mr. Alexander organized his various collections along lines that are different from the way they appear in the catalog. Famous Americans, Military Forts, Missouri, Kansas, Manuscript Postmarks of Important Cities, Western Trails, and Steam Ship Routes to California are his names for some of those collections. In organizing the catalog it has been necessary to intermix these various collections so that individual items of interest to prospective bidders can be found more readily. Originally part of a Western Trails collection, a trail letter written from Fort Kearney is listed in this catalog under Nebraska, the present location, rather than by the origin postmark of Fort Leavenworth, Missouri.

Another major portion of the collection, and perhaps the one that Mr. Alexander is best known for, is the collection of 3 cent 1851-1857 issue. This collection, with assistance from numerous fellow philatelist, both living and dead, formed the nucleus for his master work on the postal history of the period. Published by U.S. Philatelic Classics Society in 1979 and authored by Thomas Alexander "Simpson's U.S. Postal Markings, 1851-61" is must reading for anyone interested in U.S. postal history. The auction catalog presentation of the collection basically follows the method of listing used in this book.

The collection of off cover 3 cent 1851-1857 issue is offered intact as lot 813. Numerous covers are present, largely selected because of the adhesives they bear, and remain as an integral part of the collection. The collection represents the distillation of over 30 years of specializing in the issue. Because of the extraordinary amount of original research present, the depth of the collection, and the many unique or extremely rare items, it was decided to offer the collection intact. As a single lot it provides a unique opportunity to acquire intact one of the most comprehensive collections of this popular issue, formed by one of it's premier students.

This sale is being held in conjunction with the Garfield Perry March Party stamp show in Cleveland, Ohio. This 1990 show is the 100th anniversary of Garfield Perry and is a four day show. The U.S. Philatelic Classics Society is holding its' annual meeting at the show and it promises to be a major philatelic event. I look forward to meeting you there.

Below is an application to join the U.S. Philatelic Classic Society. For those of you who are not already members, I would like to personally invite you to join. The "Chronicle" published quarterly by the Society is the leading publication dealing with the 19th Century U.S. Philately.

The U.S. Philatelic Classics Society, Inc.

ADVANTAGES OF MEMBERSHIP

- Close contact with a select group of collectors from all over the world. Many are experts in their particular fields of interest. A membership list is furnished to help you establish informative and mutually beneficial relationships.
- Subscription to the "Chronicle of the U.S. Classic Postal Issues." This journal, published four times yearly, contains much new information resulting from research by Society members who are recognized specialists and students. The Chronicle is the only journal devoted exclusively to U.S. nineteenth century philately.
- Subscription to the "Chairman's Chatter," a bulletin which chats informally about the activities of the Society and its members, and also provides information on seminars conducted around the country, plans for the future, names of new members, etc.
- The Society occasionally sponsors philatelic publications which add materially to existing knowledge about early U.S. stamps and postal history.

HISTORY: The Society is the successor of the group formed in 1948 under the name "The 3 Cent 1851-57 Unit" which changed its name in 1957 to "The U.S. 1851-60 Unit." This group restricted its interest to the stamps and postal history of the decade following the issue of the 1851 series.

In 1964 the Society adopted its present name to indicate the broader field of study now covered, which includes all postal issues and postal history prior to the Bureau Issues. It continues its association with The American Philatelic Society as Unit No. 11.

APPLICATION INFORMATION: Members, in good standing, of The American Philatelic Society may be admitted without furnishing further references. Others should submit two philatelic trade references. Members of The U.S. Philatelic Classics Society, Inc. may be used in place of philatelic trade references.

Annual Dues - Payable July 1

Regular	\$15.00	Sustaining	\$37.50	Life Membership
Contributing	\$22.50	Patron	\$75.00	\$300.00

For new members joining between January 1 and April 15, the regular dues until June 30 are reduced to \$9.00. Remit \$15.00 with an application submitted after April 15 to start membership July 1.

Please detach, complete and return.

Condition

Condition grades mentioned in the description refer to overall appearance of the item. On covers bearing adhesives, expect normal average centering or margins for the particular issue, only when adhesive condition is above the normal will it be specifically described. File folds on folded letters that do not detract from appearance are not mentioned, nor are missing back flaps on covers if no postal markings are affected.

extremely fine—the best possible condition

very fine—pleasing appearance with all markings well struck

fine—averages appearance for period, markings readable

about fine—somewhat below average, markings partially readable

Estimates

Following each lot is an estimate of what, in the auctioneers opinion, the lot should realize. This is provided as a guide to bidders. Lots may actually realize more or less than our estimates, which are under no circumstances to be considered reserved but merely a guide to bidding. Cat. when noted refers to 1988 Scott Specialized catalog value.

Telephone Bids

Late bidders wishing to phone bids may do so by calling our office (203) 790-4311 during business hours until Thursday, March 8th. Bids received after Tuesday will be transmitted to us in Cleveland by a secretary. No phone service will be available at Cleveland.

FAX Bids

We now have a FAX machine that can be used to transmit bids. The FAX number is (203) 743-3496. Bids received by FAX will be transmitted to us in Cleveland daily.

Major Johnson & Co.

San Antonio

Dear Sir,

You advise me of once after the purchase
of buying the Reserve Indians -
The Times informed me that you
were a certain your contract and
the Indians, trusting to the magna-
nimity & sense of justice of what-
ever government assumes the pro-
tection of the Indians, for your com-
pensation - I am very anxious to know
whether you will be able to do so.
If you cannot find them then of
course arrangements must be made
to secure them a share in the com-
pensation being made by the charitable
people of Texas - I trust you will in-
form me fully in this matter as soon
as possible must be taken without delay.
I am Respectfully

16

Yours Obedt Servt

38 NEW YORK CRYSTAL PALACE FOR THE EXHIBITION OF THE INDUSTRIES OF ALL NATIONS.

This building constructed of iron and glass is erected on Rensselaer Square in the City of New York by the order of the Legislature of the State of New York, in 1845. The building is erected by the Municipal Authorities of the City. The ground plan of the building forms a semi-circle with a focus near the intersection. The greatest length and breadth of the building are each 600 feet. The interior space is divided into three great squares, each 100 feet square, and 100 feet wide.

DIRECTORS.

813	#10/26, 3c 1851 to 1857 Issues , the highly important, intact collection of stamps, proofs, essays and stamps on cover. Several thousand items attractively mounted and thoroughly annotated in 10 albums. Essays include Gavit (4), Bradbury Wilkinson (1), Draper Welsh (4), Danforth Bald (10), and Toppan Carpenter (3). Proofs include the unique large die proof in black. The issued stamps include the only recorded example of 3c Orange Brown printed on both sides, several plate blocks incl. plates 9, 15, 20, 24 and 25 and numerous imprint pieces and multiples. Major sections include an extensive shade study, perforation trials and early contracts, and a type study. The majority of the material is a study, by plate number, of the plate varieties (many illustrated with enlarged photos), imprint pieces, and multiples. The entire collection is well above average condition and a very large number of covers are present. This lot provides an exceptional opportunity to acquire intact one of the most comprehensive and highly specialised collections of this issue, formed by one of it's premier students, photos see page 181-182.....Est.	50,000-75,000
