CHILSON'S ELEVATED DOUBLE-OVEN COOKING RANGE.

A Revolution in Cooking Ranges.

The ovens elevated over the fire, as they should be, accomplishing the long-desired object, quick and even baking at all times (especially mornings), in one-third the time and with one-half the fuel of the common ranges; saving the cost of the range in fuel in one year. No complication of dampers for the cook to turn this or that way to accomplish this or that thing, but all made simple, and easily understood; and if neatness in appearance, compactness in form, and substantial construction, constitute merits, then this range is unequalled in these points.

Different sizes, adapted for family or hotel use, with or without water backs and hot air fixtures, together with Furnaces, Stoves, Mantels, Grates, Registers, Ventilators, &c., at

99 & 101 Blackstone Street, Boston.

GARDNER CHILSON.

P. S. — These Ovens will brown articles baked equally well upon top, bottom, and sides.

Daguerreotype Miniatures.

WHIPPLE & BLACK'S

Photograph & Daguerreotype Establishment,

No. 96 Washington Street.

They have a large and interesting collection of Photographs and Daguerreotypes, Photographic Views, and Portraits of many of the most distinguished men of our country, and prominent citizens, at their rooms, No. 96 Washington Street, which are open for free exhibition to the public.

They have now an improved process, by which Photographs can be made from the smallest Daguerreotypes, on paper or canvas, *5/8 size*, finished in crayon or oil colors; being the only sure way of obtaining perfect likenesses from small, indistinct Daguerreotypes.

Daguerreotypes executed in every variety of style; in Gold Medallions; Lockets; Union, Velvet, Morocco, and Pearl Cases; Single Portraits, or in Groupings.

Messrs. W. & B. were the first to practise the Photographic Art; receiving Medals for the superiority of their work at every institution where they exhibited. They attend to their patrons in person,—sparring no pains nor efforts to produce not only pleasing likenesses, but those executed in the highest order of the art.

SAFFORD & KINNES PATENT
HYDRO-CARBON VAPOR LAMP.

1 cent all night.

1/2 cent an hour.

1/2 cent an hour.

2/3 cent an hour.

1 cent an hour.

Burners applied to common lamps for One Dollar each.
 Each burner is regulated, by a touch of the hand, to burn two, four, or six brilliant jets. Six jets will burn an hour at a cost of one cent; or two small jets all night for a cent, making a saving of 25 per cent over any other way of burning the fluid. Any concussion or breakage of the lamp will immediately extinguish the light, which renders the lamp the safest known kind for the purpose designed.

State, County, and Town Rights, for sale on the most liberal terms. Agents wanted, both local and travelling.
 General Agency for the sale of Burners, Lamps, or Rights, at the Flower and Grocery Store of
SAMUEL H. GIBBENS, 296 Washington Street, nearly opposite Boston Theatre.
 Address by mail, SAFFORD & KINNES, Boston, Mass.

§ Patent Agencies.

UNITED STATES AND FOREIGN PATENT AGENCY,

Room No. 11 Webster Bank Building,
No. 13 EXCHANGE STREET, BOSTON.

SAMUEL COOPER

Late Chief Examiner in the U. S. Patent Office,

Procures Patents in this and Foreign Countries.

His long official connection with the Patent Office has rendered him familiar with its rules and practice, and with the history of invention in this and other countries; and this experience, with the frequent visits he proposes making to the Patent Office, justifies him in saying that his Agency will offer to Inventors all the advantages of one located in Washington, and, in addition, those which result from a residence in the midst of mechanical and manufacturing industry.

Advice given upon all matters relating to Patents; Drawings and Specifications prepared; Caveats filed; Reconsiderations procured on applications that have been rejected upon imperfectly prepared papers; Applications for Extension and Re-Issue prosecuted; Cases of Interference examined; and all business with the Patent Office transacted with care.

BRITISH AND FOREIGN PATENTS

Procured, through prompt and confidential Agents in London and Paris. Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the expense and trouble attending a visit to Washington. He begs leave to refer those unacquainted with him to the following testimonial.

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb. 28, 1855.

I take great pleasure in stating, that, during the time I have been acting as Commissioner of Patents, SAMUEL COOPER, Esq., of Boston, has been engaged as Solicitor, and has been, in that capacity, in constant correspondence and intercourse with the Office. He has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the Office; a close attention to the interests of his clients; and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this Office with whom I am acquainted.

CHARLES MASON, Commissioner
