1 cents

2 cents

4 cents

Bucks Richmond Express stamps were first reported in April, 1863 by Mount Brown. A listing appeared in J.B. Moens in 1864 with an illustration as plate 26. A.C. Kline listed the stamps in 1865 as did Dr. John Gray in 1866. It is possible that there was some actual Richmond Express that served as a basis for these fabrications. August Dietz in 1947 told of remembrances of an old freed Negro who had a horse and wagon and made his living carting people's baggage from the Richmond railway station before the war.
