

ANNUAL REPORT

OF THE

POSTMASTER-GENERAL

91387

OF THE

UNITED STATES

FOR THE

FISCAL YEAR ENDED JUNE 30, 1882.

WASHINGTON:  
GOVERNMENT PRINTING OFFICE.  
1882.

# CONTENTS.

	Page.
<b>REPORT PROPER OF THE POSTMASTER-GENERAL.....</b>	<b>V-XXX</b>
Financial statement, v; Star service, vi; Estimates for 1884, vi; Compensation of postmasters, vii; Post-offices established and postmasters appointed, vii; Employees in the postal service, viii; The free-delivery system, viii; Postage on local matter, viii; Aggregate result of free-delivery system, ix; Biennial adjustment of salaries of postmasters, ix; Box rents, ix; Leases, x; Additional facilities for fourth-class post-offices, x; Reorganization of the bureau of the First Assistant Postmaster-General, x; Purchase of stationery, x; Salaries of and allowances to postmasters, xi; Star transportation, xv; Railroad transportation, xvi; Railway mail service, xvii; Fast mails and special facilities, xviii; Issue of postage stamps, stamped envelopes, and postal cards, xix; Postage on second-class matter, xx; Reduced prices of stamped envelopes, xx; Dead letters and parcels, xx; New mode of treating held-for-postage matter, xxi; Registration of letters and parcels, xxi; Postal money-order system, xxi; Foreign mails, xxii; Topographer's office, xxiii; Mail depredations, xxiii; New money-order office building, xxiii; Rates of postage, xxiv; Postal collection system, xxvi; Postal savings banks, xxvii; Postal telegraph system, xxvii.	
Contract for building for money-order office.....	xxx
Report of Chief Post-Office Inspector.....	xxxv
<b>ESTIMATES OF THE APPROPRIATIONS FOR THE POSTAL SERVICE FOR THE FISCAL YEAR ENDING JUNE 30, 1884 .....</b>	<b>3-23</b>
Estimates for office of Postmaster-General, 5, 6; estimates for office of First Assistant Postmaster-General, 7-17; Compensation to postmasters, 7; Clerks in post-offices, 8; Free-delivery service, 9; Rent, light, and fuel, 10; Post-office furniture, 11; Stationery for post-offices, 11; Miscellaneous and incidental items, 12; Wrapping paper and twine, 13; Marking and rating stamps, 14; Ink for canceling and stamping, 15; Pads for stamping, 16; Estimates for office of Second Assistant Postmaster-General, 18-19; Estimates for office of Third Assistant Postmaster-General, 20-23; Estimates for foreign mails, 23.	
<b>REPORT OF THE FIRST ASSISTANT POSTMASTER-GENERAL.....</b>	<b>27-80</b>
Post-offices established and postmasters appointed, 27; Appointment division—bond division, 28; The free-delivery system—postage on local matter, 29; Salary and allowance division—biennial readjustment of salaries of postmasters, 30; Leases of post-office buildings, 32; Division of postal laws and regulations, 33; Blank agency, 34; Reorganization of bureau, 37; Stationery for post-offices, 38; Tabular statements of number of post-offices, and of appointments of postmasters, 40, 41; Tabular statement of operations of free-delivery system, 42; Issue of post-office supplies, 46-49; Estimates, 50-60.	
<b>REPORT OF THE SECOND ASSISTANT POSTMASTER-GENERAL.....</b>	<b>63-324</b>
Cost of inland transportation—star service, 63; Productiveness of routes—service going into operation July 1, 1882—comparison of cost of star service, 64-65; Decrease of cost—needed legislation—orders of expedition—steamboat service, 66; Mail messengers—mail transfers in larger cities, 67; Mail equipments—special facilities—railway postal clerks—fines and deductions, 68; Railroad service, general statement—estimate for 1884, 69; Pacific railroads—estimate for railway post-office cars—extension of the railroad system, 70; Rates of pay to railroads, 71.	
Table A. Inland transportation, June 30, 1882—cost, appropriation, estimates, and rate of increase and decrease.....	78
Table B. Inland mail service in operation June 10, 1882, by States, showing the character of the service, length of mail routes, number of miles of annual transportation, and the contract cost thereof.....	74
Table C. Exhibiting, by States, the railroad service in operation June 30, 1882, with the total cost and cost per mile of each route.....	76-123
Table D. Exhibiting, by States, the steamboat service in operation June 30, 1882, with the annual cost of each route.....	124-129

	Page.
REPORT OF THE SECOND ASSISTANT POSTMASTER-GENERAL—Continued.	
Table E. Showing the increase and decrease in mail transportation and cost thereof in each State during the year ended June 30, 1882.....	130
Table F. Statement of expedited star service, January 1, 1872 to April 30, 1881.....	132-135
Table G. Showing the weight of the mails, the speed with which they are conveyed, the accommodations for mails and postal clerks, the trips per week, and the rates of pay per mile per annum on railroad routes in States in which the contract term expired June 30, 1882; and also in other States and Territories where reweighing of the mails was ordered, the returns having been obtained with a view to the readjustment of the pay in accordance with the acts of March 3, 1873, July 12, 1876, and June 17, 1878.....	136-163
Table H. Showing the readjustment of the rates of pay on railroad routes in States and Territories, in which the contract term expired June 30, 1882; and also in other States and Territories, and on certain new routes, the readjustment of the rates based upon returns of the weight of the mails, the speed with which they are conveyed, the accommodations for mails and postal clerks, and the number of trips per week, in accordance with the acts of March 3, 1873, July 12, 1876, and June 17, 1878. (Note.—Upon pp. 165, 167, 169, 171, 173, the date is erroneously printed 1881, instead of 1882).....	104-180
INDEX TO TABLE G.....	190-192
INDEX TO TABLE H.....	193-195
Table I. Showing the rate of pay per annum for railway post-office cars for the fiscal years ended June 30, 1881, and June 30, 1882, and the increase or decrease for 1882 as compared with 1881, and the reasons therefor.....	196-203
Table K. Statement of expenditures on account of special facilities for the fiscal year ended June 30, 1882, out of the \$425,000 appropriated by act of March 1, 1881.....	204
Table L. Showing the miles of new and extended railroad service ordered from July 1, 1881, to June 30, 1882.....	205-213
Table M. Statistics of mileage, increase of mileage, annual transportation, and cost of the railroad service from 1836 to June 30, 1882.....	214
Table N. Statement of all contracts for mail-bags, mail-catchers, mail-bag tags, mail-bag label-cases, fasteners, use of patents, and mail locks and keys, in operation June 30, 1882.....	215
Table O. Statement of the number, description, and prices of mail-bags, mail-catchers, &c., purchased, and of the expense incurred on account thereof, during the fiscal year ended June 30, 1882.....	216
Table P. Statement of mail-locks purchased and repaired, and of the expense incurred on account thereof, during the year ended June 30, 1882.....	216
TRANSFER OF MAILS BETWEEN RAILROAD DEPOTS AND POST-OFFICES IN THE LARGER CITIES.	
A letter from the Chief Post-Office Inspector.....	217-220
REPORT OF THE GENERAL SUPERINTENDENT OF RAILWAY MAIL SERVICE.....	
Reorganization of the railway mail service, 223; Railway postal clerks—railway post-office lines, 225; Growth of the service, 226; Estimate for 1884—mail distributed, errors checked, &c., 227; Facing slips, 228; Case examinations—chief clerks—probationary appointments—casualties—relief for the victims, 229; Railway postal cars—estimate—local railway post-office service, 230; fast mails and special facilities—results obtained, 231; Estimates for special facilities for 1884, 234; Conclusion—permanent tenure of office for postal clerks recommended, 235.	223-324
Table A'. Statement of railway post-offices in operation in the United States on June 30, 1882, showing the designations of the railway post-offices, the distance run in miles, the railroads over which they run, the annual miles of service, number of round trips per week, number and dimensions of cars and apartments, number of crews, and total number of clerks at work on lines.....	236-312
Table B'. Comparative statement of the railway mail service, 1830 to 1882.....	313
Table C'. Statement of mails distributed en route on the cars by railway postal clerks during the fiscal year ended June 30, 1882.....	314
Table D'. Statement of errors made by the railway postal clerks during the fiscal year ended June 30, 1882.....	314
Table E'. Statement of errors in the distributing and forwarding of mails by post-offices during the fiscal year ended June 30, 1882.....	315
Table F'. Statement of case examinations of permanent railway postal clerks for the fiscal year ended June 30, 1882.....	315
Table G'. Statement of case examinations of railway postal clerks during probation for the fiscal year ended June 30, 1882.....	316
Table H'. Statement of casualties in the railway mail service during the fiscal year ended June 30, 1882.....	317-324
Table I'. Recapitulation of casualties in the railway mail service from 1875 to 1882.....	324

	Page.
REPORT OF THE THIRD ASSISTANT POSTMASTER-GENERAL .....	327-380
Explanation of tables, 327; Financial statement, 328; Amount drawn from the Treasury—condition of deficiency appropriations—bad debts—transactions at depositories, 380; Contracts entered and accounts kept—estimates for 1884, 334; Appropriations, expenditures, and estimates for this office—division of postage-stamps, stamped envelopes, and postal cards, 332; Postage on second-class matter, 334; New contract for stamped envelopes at reduced prices, 335; Popularity of return-request system, 336; New five-cent stamp—division of dead letters, 337; Matter opened in Dead Letter Office—foreign dead mail matter, 338; Matter returned from foreign countries—dead registered matter—valuable inclosures—revenue from dead matter—change in treatment of held-for-postage letters, 339; Division of registration—losses, 341; Through pouch system—brass-lock registry exchange system—international registered through pouch exchange, 342; General remarks upon registry system, 343; Division of files, records, and mails, 344; Estimates for 1884, 344; Receipts and expenditures, 348; Appropriations and expenditures, 352; Receipts and disbursements at Treasury depositories for 1882, 354; Receipts and disbursements at depository post-offices for 1882, 358; Issues of postage-stamps, &c., 360-367; Dead-letter statistics, 368-373; Statistics of registry system, 374-380.	
REPORT OF THE SUPERINTENDENT OF THE POSTAL MONEY-ORDER SYSTEM .....	383-397
Number of domestic money-order offices—issues and payments of domestic money orders, 383; Duplicate money orders—drafts and transfers, 384; Remittances of surplus money-order funds—lost remittances—erroneous payments of money orders, 385; Revenues and expenses—bad debts, 386; International money-order business—additional conventions—statistics of the international money-order business, 387; Revenue from international money-order business—general financial results, 388; Modifications of the postal money-order system—the postal note, 389; Tables exhibiting the operations of the money-order system, 391-397.	
NEW MONEY-ORDER CONVENTION WITH SWITZERLAND .....	401-427
NEW MONEY-ORDER CONVENTION WITH JAMAICA .....	431-444
MONEY-ORDER CONVENTION WITH NEW SOUTH WALES, AUSTRALIA .....	447-460
MONEY-ORDER CONVENTION WITH VICTORIA, AUSTRALIA .....	463-476
MONEY-ORDER CONVENTION WITH NEW ZEALAND .....	479-492
MONEY-ORDER CONVENTION WITH PORTUGAL .....	495-510
REPORT OF THE SUPERINTENDENT OF FOREIGN MAILS .....	513-528
Weight of mails, 513; Number of letters exchanged—cost of foreign mail service, 514; Admissions to the Universal Postal Union—modifications of Postal Union arrangements and details, 515; Modifications of arrangements with Canada, and non-union countries, 516; Foreign mail statistics, 517; Subjects requiring legislation, 519; Special Postal Union international relations, 520; Miscellaneous, 521; Payments for ocean mail transportation, 522; Accessions to Postal Union since June 30, 1876, 523; Postal Union postage equivalents, 524; Poste-restante letters, 525; Return of letters to writers in Postal Union, 526; Statement of surtaxes, 528.	
AMENDED POSTAL TREATY WITH CANADA .....	529
AGREEMENT WITH BELGIUM INCREASING LIMITS OF WEIGHT AND SIZE OF PATTERNS OF MERCHANDISE .....	530
AGREEMENT WITH SWITZERLAND TO SAME EFFECT .....	532
REPORT OF THE TOPOGRAPHER OF THE POST-OFFICE DEPARTMENT .....	537-541
REPORT OF THE AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT .....	545-578
Revenue account of the Post-Office Department—summary of revenues and expenditures, 545; Deficiency account—postmasters' quarterly accounts current—stamps sold, 546; Letter postages—balances due foreign countries—mail transportation, 547; Foreign mail transportation—Pacific Railroad account—statement of the condition of accounts of late postmasters, 548; Money-order revenue—quarterly receipts, 549; Quarterly expenditures, 550; Receipts and expenditures by States, 552; Condition of appropriations, 555; Miscellaneous payments, 556-560; Revenues and expenses of free-delivery offices, 561; Comparative statement of receipts and expenditures, 1836-1882—money-order business, 564, 573; Weight of foreign mails, 575-578.	
ALPHABETICAL INDEX .....	579

# REPORT OF THE POSTMASTER-GENERAL.

## POST-OFFICE DEPARTMENT,

*Washington, D. C., November 18, 1882.*

SIR: I have the honor to submit herewith a report of the operations of this department for the fiscal year which ended on the 30th of June, 1882:

### FINANCIAL STATEMENT.

The total disbursements for postal service during the year were.....	\$40,482,021 23
The ordinary receipts were .....	41,515,642 80
The receipts from money orders were .....	860,767 35
Total .....	41,876,410 15
Excess of receipts over expenditures was .....	1,394,388 92

For the first time in thirty-one years the postal service is not a burden upon the Treasury.

In order to determine the real *cost* of the postal service for the past year, three important modifications of the foregoing figures should be made:

First. There should be deducted from the total disbursements the sum of \$442,386.48; which, though paid out during the last year, was for service rendered during previous years, and was an outstanding liability on the 30th of June, 1881.

Second. There should be added the sum of \$328,550.46, estimated to be due for service rendered during the last year, and which was an outstanding liability on the 30th of June last.

Third. There should also be added the sum of \$1,178,174.05, earned by certain railway companies for transportation of the mails between the Missouri River and the Pacific. The earnings of those companies are not paid by the Post-Office Department; but, pursuant to the act of March 3, 1879, are passed to the credit of the several companies upon the books of the Treasury, and, therefore, have not been heretofore computed with the annual statement of disbursements. The account thus stated shows an excess of earnings of but \$330,050.89.

During the fiscal year which ended June 30, 1881, the expenditures for the postal service were \$39,251,736.46. The total revenues were \$36,785,397.97. The deficiency was \$2,466,338.49. In 1860 the deficiency was more than \$10,000,000.

Some part of this great improvement is due to the wonderful growth and prosperity of the country; but a larger part is due to the improved methods in the administration of the service.

During the fiscal year which ended June 30, 1877, the revenues were \$27,531,585.26. The expenditures were \$33,486,322.44.

The following table shows how steadily the revenues have increased year by year since that time:

1877 the postal revenues were.....	\$27, 531, 585 26
1878 the postal revenues were.....	29, 277, 516 95
1879 the postal revenues were.....	30, 041, 982 86
1880 the postal revenues were.....	33, 315, 479 34
1881 the postal revenues were.....	38, 785, 397 97
1882 the postal revenues were.....	41, 876, 410 15

Happily the expenditures have not kept pace with these earnings. It would seem to be quite as easy to expend \$1.20 now to earn \$1 as it was in 1877. In one respect it would seem more natural to do so. The revenues are gathered from a broader field now than they were in 1877. The new territory is the most barren, and yields the most meager returns.

The heaviest item of expenditure is for the transportation of mails on railways. The next heaviest is that for the pay of postmasters. These two items do, and under existing laws must, swell with the volume of business, since the rate of compensation is proportioned to the amount of business done.

The expenditure next in rank is that for what is known as

#### STAR SERVICE.

That includes all mail transportation not on railways nor on steam-boats. The amount and cost of that service is left almost wholly to the arbitrary control of the department.

The following table exhibits in parallel columns the number of miles of such transportation furnished annually, and the cost for each year since 1876:

Year.	Annual miles of transportation.	Cost.
1877.....	57, 956, 203	\$5, 663, 976
1878.....	61, 435, 682	5, 714, 943
1879.....	69, 124, 339	6, 401, 830
1880.....	76, 070, 995	7, 321, 499
1881.....	79, 557, 296	6, 957, 355
1882.....	76, 924, 867	5, 538, 849

The estimates for 1884 promise financial results still more flattering than those realized during the last fiscal year. Those estimates are as follows:

#### ESTIMATES FOR 1884.

Ordinary revenues.....	\$50, 233, 927 78
From money orders (not revenue).....	436, 528 49
Total estimated revenue.....	50, 670, 456 27
Total expenditures estimated.....	46, 741, 111 25
Estimated excess of revenue.....	3, 929, 345 02

In the appendix to this report, on pages 7-16, will be found the estimates submitted by the First Assistant Postmaster-General of the appropriations required for the use of his office for the next fiscal year, together with his explanation of the same.

The estimate for the

#### COMPENSATION OF POSTMASTERS

is largely in excess of the sum appropriated or asked for the same purpose during the current year. The reason assigned for that is that the sum appropriated for the current year is wholly inadequate. That is obvious. The sum was not equal to the compensation of postmasters for the past year. Of course it is yet more unequal to the pay of the postmasters for the current year, and still more inadequate to their pay for the next year.

Another reason quite as cogent may be stated: Whatever may be the sum put into the annual appropriation bills for the pay of postmasters, the fact remains that under existing laws that expenditure is not restricted by such bills. The pay of postmasters is limited, not by appropriation bills, but by fixed statutes; and to the extent of their legal compensation, the gross revenues of the postal service are not only appropriated but hypothecated to their payment.

Appropriations are necessary to get money out of the Treasury, but the salaries of postmasters never get into the Treasury. Postmasters collect the postal revenues, and they are authorized by law to deduct from the moneys in their hands their legal compensation. They account to the Treasury for the excess only. If not a dollar is appropriated in the annual bill, postmasters will receive their salaries all the same.

It seems hardly practicable, therefore, to effect much in the interest of economy by appropriating \$8,000,000 to pay postmasters, while we place \$40,000,000 in their hands out of which they may help themselves to the full extent of their legal dues.

From the report of the First Assistant Postmaster-General the following statistics are gleaned, which afford a partial view of the work performed under the direction of that officer:

#### POST-OFFICES ESTABLISHED AND POSTMASTERS APPOINTED.

Number of post-offices established during the year .....	3, 166
Number discontinued .....	1, 447
Increase .....	1, 719
Number in operation June 30, 1881 .....	44, 512
Number in operation June 30, 1882 .....	46, 231
Number filled under appointment by the President .....	1, 951
Number filled under appointment by the Postmaster-General .....	44, 280

#### Appointments were made during the year—

On resignations and commissions expired .....	7, 346
On removals .....	1, 021
On changes of names and sites .....	349
On deaths of postmasters .....	461
On establishment of new post-offices .....	3, 166
Total appointments .....	12, 343
Number of cases acted upon during the year was .....	14, 340

## EMPLOYÉES IN THE POSTAL SERVICE.

The following table shows the number of employés in the Post-Office Department; also the number of postmasters, contractors, clerks in post-offices, railway post-office clerks, route-agents, and other officers in the service June 30, 1881, and June 30, 1882:

Officers and employés.		June 30, 1881.	June 30, 1882.
DEPARTMENTAL OFFICERS AND EMPLOYÉS.			
Postmaster-General	.....	1	1
Assistant Postmasters-General	.....	3	3
Superintendent of money-order system	.....	1	1
Superintendent of foreign mails	.....	1	1
Superintendent of railway adjustment	.....	1	1
Chief clerk of the Postmaster-General	.....	1	1
Chiefs of divisions	.....	5	4
Topographer for Post-Office Department	.....	1	1
Disbursing officer and superintendent of building	.....	1	1
Law clerk	.....	1	1
Stenographer	.....	1	1
Appointment clerk	.....	1	1
Superintendent of blank agency	.....	1	1
Chief clerks of bureaus	.....	5	5
Clerks, messengers, watchmen, &c	.....	472	408
		496	521
POSTMASTERS AND OTHER OFFICERS AND AGENTS.			
Postmasters	.....	44,512	46,231
Contractors	.....	5,156	5,156
Clerks in post-offices	.....	5,200	7,100
Letter-carriers	.....	2,861	3,115
Railway post-office clerks	.....	1,283	1,517
Route-agents	.....	1,386	1,537
Mail-route messengers	.....	322	334
Local agents	.....	176	162
Post-office inspectors and railway-mail-service superintendents	.....	77	84
		61,479	65,777

## THE FREE-DELIVERY SYSTEM.

This system was in operation during the year in 112 of the principal cities of the country, and employed 3,115 carriers. The regular appropriation for this service was \$2,600,000; to which was added, by special appropriation, \$25,000 to meet an anticipated deficiency; making a total appropriation of \$2,625,000, an increase of \$125,000 over that of the previous year. The total cost of the service was \$2,623,262.74, leaving an unexpended balance of \$1,737.26. The increase of the cost of the service over that of the preceding year was \$123,351.20. This was owing principally to the appointment of additional carriers in cities where the service was already in operation, only three new cities having been added to the list during the year, viz, Augusta, Me.; Burlington, Vt., and Concord, N. H.

## POSTAGE ON LOCAL MATTER.

The postage on local matter at the several free-delivery offices amounted to \$3,816,576.09; an increase over that of the preceding year of \$542,945.70; and also over the total cost of the service of \$1,193,316.45. This increase in postage on local matter was 16.50 per cent., while the increase in the cost of service was 4.93 per cent.

The average cost per piece for handling matter was 2.3 mills, a decrease of 0.1 mill as compared with last year. The average cost per carrier was \$835.75, a decrease of \$37.79.

This decrease was owing to the appointment of additional carriers (auxiliaries) at \$400 per annum, the appropriation being insufficient to employ carriers at a higher salary.

*Aggregate result of free-delivery service for the fiscal year ended June 30, 1882.*

Statistics of free delivery.	Total.	Increase over last year.	Per cent. of increase.
Number of offices .....	112	3	2.79
Number of carriers .....	3,115	274	8.88
Mail letters delivered .....	298,266,739	35,841,071	13.66
Mail postal-cards delivered .....	71,481,742	11,513,183	19.20
Local letters delivered .....	90,062,317	13,269,109	17.29
Local postal-cards delivered .....	50,923,724	7,625,566	16.04
Registered letters delivered .....	2,552,894	426,585	20.06
Newspapers, &c., delivered .....	160,794,706	14,377,592	9.82
Letters collected .....	308,352,819	23,592,874	8.28
Postal-cards collected .....	99,421,132	13,628,007	15.88
Newspapers collected .....	61,722,814	7,647,338	14.14
Whole number of pieces handled .....	1,143,518,887	127,321,325	12.53
Pieces handled per carrier .....	367,455	11,519	3.23
Total cost of service, including pay of post-office inspectors ..	\$2,623,262.74	\$123,351.20	4.93
Average cost per piece in mills .....	2.3	10.1	10.4
Average cost per carrier* .....	\$835.75	\$837.79	14.32
Amount of postage on local matter .....	\$3,816,576.09	\$542,945.70	16.58
Excess of postage on local matter over the total cost of service ..	\$1,193,313.35	\$419,594.50	54.23

\* Based on the aggregate (\$2,617,574.56) paid carriers, including incidental expenses at the several offices, less \$5,888.18 paid post-office inspectors.

† Decrease.

‡ Increase.

[For detailed statement of the operations of the service during the year, see table C, page 42.]

#### BIENNIAL ADJUSTMENT OF SALARIES OF POSTMASTERS.

During this year the regular biennial adjustment of 2,012 presidential postmasters' salaries was made; an increase of 248, or 14 per cent., as compared with the previous adjustment.

The returns, coming from all parts of the Union, show a very gratifying and general increase of business; and the sum necessary to pay the increased salaries of postmasters, including 335 special adjustments, amounts to \$563,400, or 18.14 per cent. more than last year.

#### BOX RENTS.

A system of recording the number of boxes rented at the first and second class offices has been inaugurated since the beginning of the present fiscal year. Heretofore the matter of renting boxes has been treated by postmasters with less importance than in my judgment it deserves. Under the present system, furnishing a receipt to each person who rents a box, a duplicate of which is kept by the postmaster as a stub in the book supplied for that purpose, a better service has been secured in this branch of the postal business.

## LEASES.

Special attention of late having been given to securing suitable accommodations for the post-offices whose class entitles them to proper consideration, it is gratifying to state that, at many offices where the business has heretofore been conducted in buildings unsuitable, by reason of defective facilities, improper location, &c., suitable premises now have been secured, under leases, including in many instances complete outfits of boxes, furniture, fixtures, &c., at what are regarded as reasonable rentals.

## ADDITIONAL FACILITIES FOR FOURTH-CLASS POST-OFFICES.

Provision having been made by Congress for supplying all post-offices, the gross receipts of which are less than fifty dollars per annum, with letter-balances, marking-stamps, ink, and pads, it is expected that more than 7,000 offices will be thus supplied during the present fiscal year; thereby enabling the postmasters at these offices to make up and dispatch mails with more accuracy and a greater saving to the government in the matter of cancellation of stamps.

I quite concur in the recommendation of the First Assistant Postmaster-General for the reformation and augmentation of that division of the service known as the Blank Agency.

## REORGANIZATION OF THE BUREAU OF THE FIRST ASSISTANT POSTMASTER-GENERAL.

Still more cordially do I recommend the suggestions of that officer as to the general reorganization of his office. Briefly stated, his argument is, that whenever a given amount of work is to be done it is wiser to employ the requisite force, place it under the control of one man, and hold him singly responsible for doing the work, than to divide the responsibility equally among the individual members of the corps.

The soundness of that argument is approved by reason; it is attested by the general practice of the government, and by the uniform observance of all great private enterprises.

## PURCHASE OF STATIONERY.

I do not doubt that a substantial saving of expenditure would follow the adoption of the First Assistant Postmaster-General's suggestion, that all stationery to be used in first and second class offices should be purchased by his office and issued upon requisition, instead of being purchased as now by the several postmasters, and having their purchases audited in his office. Stationery required for the money-order business is now, in fact, purchased by the superintendent of that service, and issued to the several postmasters. It does not seem quite logical to employ two different methods for supplying the same office with a single article.

## SALARIES OF AND ALLOWANCES TO POSTMASTERS.

The very able report of the First Assistant Postmaster-General calls attention to the great difficulty experienced in adjusting salaries to postmasters of the first three classes, and in making allowances for office expenses to those of the first two classes.

He does not exaggerate those difficulties. It may well be doubted if he could exaggerate them. It would be easy to frame a law more unjust than that under which the salaries of postmasters are now settled, but it is quite unnecessary to do so—the existing law is sufficiently unjust. But necessity herself, though admitted to be the mother of invention, could not invent a more cumbrous or complex method of adjusting salaries. Postmasters at the smallest offices are paid alike. Their pay is apportioned in part upon the revenues of their offices, and in part according to the labor performed in them. So far as revenue is derived from the rent of boxes, postmasters take the whole. So far as it is derived from the sale of “waste paper, dead newspapers, printed matter, and twine,” they receive 60 per cent. So far as it is derived from the sale of money orders, they receive one-third. So far as it is derived from the sale of stamps, envelopes, and postal cards, they receive nothing. They may sell thousands in value, but they get no share of the proceeds. If, however, they cancel a stamp on matter mailed at their offices, no matter where the stamp is sold, they get 60 per cent. of its value. If they pay a money order they receive a quarter of one per cent. of its amount.

This rule is sufficiently cumbrous, but sufficiently equal. Postmasters continue to be so paid until their sales and cancellations, exclusive of money orders, reach \$400 per year. At that point a new rule is introduced. They still get the whole of the box rents, they still get the same commission on the sale and payment of money orders; but, upon the proceeds from the sale of waste paper, dead newspapers, printed matter, and twine, and upon the cancellation of stamps, they get 50 per cent. instead of 60, on the excess over \$400.

This new rule controls until such sales and cancellations, exclusive of money orders, reach \$1,200 a year. Then a new rule obtains. It is difficult to see why, but thereafter, on the surplus received from the sales of waste paper, dead newspapers, printed matter, and twine, the postmaster receives not 60 per cent., nor 50 per cent., but 40 per cent., and the same percentage on the value of stamps canceled.

When, however, the box rents and these various commissions, exclusive of the money-order business, shall aggregate \$1,000, the office is advanced from the fourth to the third class. Then there is a new and most curious rule for compensation. Then the postmaster receives a salary in lieu of the box rents and commissions before assigned to him.

To determine the amount of the salary in a given case, a fund is set apart. That fund is composed of all the box rents, if the postmaster owns the boxes and the rents do not exceed \$1,350 per annum. It is

composed of two-thirds of the box rents, if the government owns the boxes and the rents do not exceed \$1,000. To those sums, respectively, is added commissions on all other postal revenues of the office in different proportions, to wit, 60 per cent. on the first \$400, 50 per cent. on the next \$800, 40 per cent. on the next \$1,600, and 30 per cent. on the excess until the commissions amount to \$1,350.

That sum, so curiously compounded, does not constitute the salary of the postmaster, but out of it is dipped, so to speak, as many even hundreds of dollars as can be found. That is the salary for all postmasters, unless the gross revenues exceed \$4,000 per annum. When the revenues exceed \$4,000, the postmaster receives a percentage on the excess. That percentage constantly varies. It is one per cent. on all sums between \$4,000 and \$10,000. So often as the revenues double, the percentage is reduced one-tenth of 1 per cent. until the revenues reach the aggregate of \$1,200,000. On all revenues above that maximum the postmaster receives one-tenth of 1 per cent.; and still, when a salary reaches \$4,000, all these streams are turned off, except in the single case of the office at New York. There they continue to flow until the salary is swollen to \$8,000.

But these minute differences in the rate of compensation, which pervade all classes and distinguish one office from another in each class, are all dwarfed by that broad and fundamental difference which distinguishes the two highest from the two lowest classes.

The compensation of a postmaster in the third and fourth class is the equivalent allowed by law for administering his office. Every postmaster receiving less than \$2,000 per annum finds his own office, furnishes, warms, and lights it, does his own work, and buys his own stationery. But the moment his salary reaches \$2,000 the whole condition is changed. Then the office may be and usually is provided by the government; is furnished, warmed, and lighted by the government. His stationery and his clerks are paid for by the government. In possible, if not in actual cases, the salary is a mere sinecure, for which no service is rendered beyond signing official papers. Provision for these expenses, as is well known, is made by annual appropriations. The sums appropriated to these uses for the current year are as follows:

Clerks in post-offices.....	\$4,385,000
Rent, fuel, and light.....	450,000
Office furniture.....	20,000
Stationery.....	55,000

These large sums are distributed among the different post-offices entitled thereto, by a series of orders, allotting so much to one and so much to another. In theory these orders are made by the First Assistant Postmaster General; in practice they are made by a fourth-class clerk in the office of the First Assistant. No matter by whom made, this distribution will not be well made. Finite intelligence could not make a wise and just allotment of such a fund; infinite intelligence cannot be obtained for fourth-class clerks.

Postmasters are eager for large allowances. The most importunate are apt to be best served. They ask earliest and oftenest. They employ every kind of entreaty, and offer every sort of influence, personal and political. The clerk must act upon such a case as the postmaster presents. He has no means of rebutting it. It is not surprising, therefore, that the recent investigation by the First Assistant Postmaster-General resulted in a reduction at eight offices, amounting in the aggregate to \$54,530. It is not to be doubted that a broader inquiry would result in still larger reductions.

The following table will serve to illustrate some of the inequalities in such allowances:

*List of eighteen of the principal post-offices, showing the revenue, salary, and allowances, and the relative cost of the postal service thereat.*

Office.	Allowances.							Gross receipts (four quarters ended March 31, 1882).	Per cent. of gross receipts allowed for clerk hire
	Salary.	Rent.	Fuel.	Light.	Clerks.	Stationery.	Miscellaneous.

\* Government building. ; Heating included.

In that list of eighteen offices the expenditure for clerk hire varies from 9 to 26.2 per cent. of the gross revenues. There is a difference of 3.6 per cent. between two offices in Illinois, of 4.6 per cent. between two in Massachusetts, of 6 per cent. between two in Missouri, of 6.4 per cent. between two in Texas, of 6.6 per cent. between two in New York, and of 10.8 per cent. between two offices in Colorado.

If the office at Boston could be administered by the expenditure of the same percentage of gross revenues for clerk hire which is spent at Philadelphia, it would effect a saving of \$45,256.82 at that office. If both offices could be administered for the average expenditure made at the whole eighteen, the saving would be nearly \$73,500. If the whole eighteen offices could be administered by the expenditure of 9 per cent. of the gross revenue for clerks, which is the cost at Lowell, the saving would be very great.

I cannot help thinking it wholly practicable greatly to simplify and equalize these disbursements. In the first place, I do not think an allowance for office rent should be made to the postmaster in any case. Such an allowance holds out a double temptation to the postmaster: He is tempted to get large allowances from the department, and to supply cheap accommodations to the public.

It will be my purpose to rent, as early as practicable, every building required for first and second class offices which the government does not own. There are now 587 offices belonging to those two classes. Eighty-eight belong to the government; 269 are leased to the government; and 230 are supplied by postmasters, who are in turn compensated by allowances.

Wherever the department rents an office, it will be its fault if a suitable one is not provided, and its fault also if the terms are not as favorable as the place will afford.

Secondly, I think every post-office that is rented by the department should have a suitable equipment of boxes and drawers supplied, not by the postmaster, but by the department or the lessor of the building.

Of 499 buildings now rented, only 149 are equipped with boxes by the department. The charge to patrons for the use of boxes should be reasonable, and should be uniform. At present they are neither. These reforms can be effected without the aid of further legislation. I venture to suggest, however, some reforms much needed, and which, if approved, will require an amendment of existing laws.

The partnership now existing between the government and the postmaster in the use of letter-boxes should be dissolved. Whenever the government owns the boxes, or hires them with the building, the whole of the rental paid by patrons, and not two-thirds of it, belongs to the revenues of the department as much as the postage does. Where, on the contrary, the postmaster supplies the boxes and the government does not, the latter should no more share in the proceeds from their rent than in the rent of any other property belonging to the officer. In all cases, therefore, in adjusting the pay of postmasters, I think box rents should be wholly eliminated from the calculation; and I am strongly inclined to the opinion that the whole system of regulating the compensation of postmasters should be radically changed. I know of but two reasons for paying postmasters at all: One is, he incurs responsibility; and the other, he performs labor. Both the responsibility and the labor are accurately measured by the business transacted at the several offices. The business transacted at each office is measured with sufficient accuracy by its revenues. The two marked exceptions to this rule are the offices at New York and at Washington. The former office should be excepted because of the large amount of foreign mail handled at that office.

The whole number of foreign letters estimated to be received in a single year at Baltimore, Boston, Chicago, Key West, New Orleans, New York, Philadelphia, and San Francisco was 15,809,021. The number of foreign

postal cards was 177,245. The whole number of other articles received from foreign countries, 14,346,748. Of these aggregates, 13,674,102 letters, 139,100 postal cards, and 12,892,218 other articles were treated in the office at New York.

The office at Washington should be excepted, because of the large percentage of matter handled there emanating from Congress or from the departments, and which yields no revenue to the office. It is estimated that not less than 70 per cent. of all the matter mailed at that office emanates from those two sources.

For those two offices special provision must probably be made. But, with the exception of those two offices, it may well be doubted if there is another postmaster in the United States holding a first or second class office who would not be glad to administer it, furnishing his own help, fuel, light, and stationery, for a sum considerably less than the allowances now made for all those purposes added to his salary. If it is worth 60 per cent. to collect the first \$400 of postal revenue at a given office, I do not see why it is not worth the same percentage to collect the second, or any subsequent sum equal in amount. On the contrary, if \$400 can be collected at a cost of 30 per cent. after \$2,000 have been collected at the same office, I do not see why a larger percentage should be paid for collecting the first \$2,000.

If there are offices from which the revenues are so small, that no citizen will be troubled with its duties for a share of its commissions, it may be expedient to release the whole revenue to the postmaster up to a given point; but when that point is reached and the proper retainer is paid and commissions commence, it seems to me that one rate of commissions should be paid to all postmasters who find their own offices. Another and smaller rate should be paid to such as occupy offices rented by the government, but are warmed and lighted by the postmasters; while another and somewhat smaller rate still should be paid to postmasters who occupy public buildings warmed and lighted by the government, with special provisions made for the offices at New York and Washington.

What these several commissions should be could not be safely determined until after a thorough inquiry, prosecuted by a judicious committee, under legislative authority. Once ascertained, I believe many thousands of officeholders, including postmasters and clerks, would be transmuted into laborers. Clerks would be selected more with reference to what they could do behind the cases and less for what they had done at the hustings. Post-offices would more resemble workshops and less almshouses. They would be administered with less cost to the government and more profit to the incumbent.

Such an inquiry I earnestly commend to the consideration of Congress.

#### STAR TRANSPORTATION.

The report of the Second Assistant Postmaster-General gives a clear and comprehensive exhibit of the management of the star service for

the fiscal year just closed. It will be noticed that the broad purpose of providing adequate postal facilities for all communities, without regard to geographical location, is made the first and leading consideration in the arrangement of the service; and to secure that result without an improvident expenditure of means is the second consideration.

The department is clothed with the widest discretion in regard to the amount of service to be performed on star routes. To provide all needed postal facilities, and at the same time to guard against unnecessary expenditure, is a most difficult duty, and one that calls for the exercise of unusual care and patient inquiry. The results given in the report afford gratifying evidence that during the last fiscal year that delicate duty has been very satisfactorily discharged.

The aggregate length of all star routes on the 30th of June, 1882, was 227,621 miles, showing a decrease during the year of 3,678 miles. The aggregate transportation during the year was 76,924,867 miles, being a decrease of 2,632,429 miles. The annual cost was \$5,553,849, being a decrease of \$1,403,506.

#### RAILROAD TRANSPORTATION.

The expansion of the railroad system has been greater during the past year than ever before in any one year. Important connections have been made with California and Mexico.

The aggregate cost of the service is largely increased each year. Such must continue to be the case so long as the rapid expansion of the service shall continue.

The steady growth of this expenditure has provoked much discussion for some time past concerning the rates of pay for carrying the mails on railroads. The subject is most important; and the suggestions of the Second Assistant Postmaster-General, that additional safeguards be thrown around the large annual disbursement for railroad services, and that any change in the laws governing the rate of pay should be made upon ascertained facts, rather than upon opinion, are recommended to the especial notice of Congress.

The aggregate length of all railways over which mails were transported at the close of the last fiscal year was 101,563 miles, showing an increase during the year of 8,994 miles. The aggregate transportation over such roads during the year was 113,995,318 miles, being an increase of 10,474,089 miles. The cost for the year was \$12,753,184, being an increase of \$1,139,816.

Without entering into the transactions of the contract office in detail, an intelligent understanding of its conduct of affairs in the aggregate may be gathered from the fact that the appropriation for all items incident to inland transportation for 1883 is \$26,067,000, while the estimate for the same items for 1884 is \$25,494,120.

It will thus be seen that the entire transportation service, notwithstanding its rapid growth, will be conducted for the next fiscal year for \$572,880 less than the appropriation for the current year.

## RAILWAY MAIL SERVICE.

The report of the General Superintendent of the railway mail service is an interesting exhibit of the magnitude to which that branch of the service has attained.

On the 30th of June, 1882, the railway post-offices numbered 769. They occupied 342 whole cars and 1,462 apartments in cars. These cars ran over roads whose aggregated length was 87,865 miles, and the service performed during the year amounted to 75,741,438 miles.

In the administration of this service 3,570 postal clerks were employed, with salaries aggregating \$3,486,779, which is an average annual salary for each clerk of \$976.68. The average number of miles traversed by the clerks during the year was 38,564. This is a fraction less than two cents and six mills per mile.

Comparing these figures with those of the Second Assistant Postmaster-General, it appears there were at the close of the year 12,698 miles of railway which were not post-office lines, and that 38,253,880 miles of service was performed during the year with express mails and closed pouches.

During the year there were handled by the railway postal clerks 2,155,213,880 letters and postal cards, 1,278,176,630 pieces of other mail matter, being a total of 3,433,390,480 pieces, besides 14,234,310 registered packages, and 570,483 through registered pouches.

This shows an increase over the work of 1881 of 351,239,160 letters, 228,880,250 pieces of other mail matter, and 2,776,028 registered packages and pouches. But, while the work performed during the the last fiscal year was greatly in excess of the work of the previous year, the salaries paid to the clerks averaged \$1.85 less during 1882 than for the year 1881.

In handling this immense number of pieces 902,489 errors were committed, or one error for every 3,805 pieces handled. During the previous year one error was committed in every 3,624 pieces handled. In 1880 one error was committed in every 3,482, and during 1879 one in every 3,469. During the past year 405,706 errors were checked against postmasters, as against 454,349 errors in 1881.

These figures show that, while the administration of the postal service is not yet perfect, there is a constant improvement in the efficiency, both of postmasters and of postal clerks; and, considering that postal clerks perform their work on cars while in rapid motion, that they must themselves work with great celerity, and yet make but one error in every 3,805 pieces handled, it is believed that for accuracy this corps may safely challenge comparison with any other service in this country or elsewhere.

During the past fiscal year 1,027 postal clerks were appointed upon six months' probation. Of that number 208 failed to pass examination, and were dropped from the rolls at the end of the probationary term. During the same year there were 83 casualties, in which three postal clerks lost their lives; 16 were seriously and 20 were slightly wounded.

I concur in the recommendation of the General Superintendent, that the Postmaster-General be authorized by law to pay out of the appropriation for postal clerks, to the widows or guardians of minor children of such clerks as may be killed while on duty, a sum equal to two years' salary of the grade held at the time of the death; and that postal clerks temporarily disabled while on duty be continued on leave with full pay until recovery, not to exceed one year. Such payments, probably, will involve no increased appropriations, as the deductions from pay for failure to perform service and for absence without leave would amount to enough every year to meet these requirements.

Attention is also invited to the recommendation of the superintendent, that a portion of the appropriation for the transportation of mails by railroad may be applied to the purchase of machinery, &c., for printing facing-slips.

The conclusion of the superintendent's report deserves the serious consideration of Congress. It is as follows:

It should not be forgotten that but for the fact that during the past twenty two years the tenure of office of all postal clerks has been, by the general practice of the Department, permanent during good behaviour, the service could never have attained its present state of efficiency. So long, however, as this general practice remains unsanctioned by positive law compelling it, there is still sufficient uncertainty about the tenure of office to interfere with that entire and perfect confidence that merit and efficiency are certain of reward, if not by immediate promotion, at least by retention in the service, which is necessary to inspire men to devote themselves enthusiastically to the work in which they are engaged.

Were the tenure of office absolutely secure, young men entering the service would devote themselves to it as a life profession, having before their eyes the hope of eventually rising to the position of superintendent, just as the present superintendents have risen step by step from the lowest grade in the service.

That there is a special reason why the railway postal service should be protected by the legislation herein recommended has been recognized for many years by the practice of the Department, but there never was a time before when the public interests would so greatly suffer by the inauguration of a policy which should lead the railway postal clerks to believe that, in any instance or under any circumstances, a good record for the faithful and efficient discharge of their duties would not be sufficient to secure their retention in office during continued good behaviour, because never before has the railway postal service been conducted by men who have made it the sole business of their lives for nearly twenty years to add to its efficiency, and who have learned to meet the wants of the public in postal facilities as fast as such wants arise; and never before have the postal clerks been trained by so many years of experience and study to secure the greatest possible certainty, celerity, and security in forwarding to their destination every letter and other article of mail matter intrusted to their care.

#### FAST MAILS AND SPECIAL FACILITIES.

Among the estimates submitted for the office of the Second Assistant Postmaster-General is an item of \$600,000, to be expended in expediting mails on railways. The same sum was appropriated for the same purpose during the current year.

Touching these items it is proper to say that I have as yet been unable to make any arrangements for fast service out of the existing ap-

propriation upon terms which seemed reasonable. Certain service which I found in operation is still maintained at the rate of compensation originally agreed upon. This service includes the fast mail between New York and Charleston, South Carolina, New York and Springfield, Massachusetts, and the 4.35 forenoon dispatch from New York via the Hudson River and New York Central. A full account of this service is given in the report of the General Superintendent of the Railway Mail Service, page 231.

By reason of explanations quite freely made by me before the appropriation was made, and by the terms of the appropriation itself, I felt it my duty to employ the fund in organizing a fast mail between New York and San Francisco, and between New England and New Orleans. These are the two great trunk lines which feed the most branches. The appropriation was found inadequate to the end contemplated.

I am not, indeed, able to say what sum would accomplish the object first named. A proposition was submitted for a mail from New York to Chicago; but after mature consideration, the managers of the several roads operating between Chicago and the Missouri River jointly declined to submit any proposition, saying:

On information, obtained from officials of the Department, respecting the largest amount of compensation for such service at the disposal of the Department, we are led to conclude that it is not possible to run the train on the time and under the conditions imposed, without a large deficiency of income to meet the expense of the service.

I am inclined to the opinion that some desirable expedition might have been obtained over the lines between the Missouri and the Pacific, if the law would have permitted me to expend the fund upon those companies. As such was not the case, I have thought it proper to leave the money in the Treasury until Congress shall designate some other direction for its employment.

Besides the financial results noted in the commencement of this report, the following instructive facts are gathered from the report of the Third Assistant Postmaster-General:

#### ISSUE OF POSTAGE STAMPS, STAMPED ENVELOPES, AND POSTAL CARDS.

The issue of postage stamps, stamped envelopes, and postal cards upon requisitions during the year were as follows:

	Number.	Value.
Ordinary adhesive stamps .....	1, 114, 560, 330	\$28, 679, 528 00
Newspaper and periodical stamps .....	2, 214, 893	1, 602, 069 70
Special stamps for collection of postage due .....	11, 375, 310	352, 170 00
Postal cards .....	351, 498, 000	3, 516, 015 00
Stamped envelopes, plain .....	114, 774, 700	2, 994, 868 82
Stamped envelopes, special request .....	100, 704, 250	3, 163, 891 85
Newspaper wrappers .....	41, 068, 500	500, 208 80
Official postage stamps .....	2, 319, 555	139, 991 75
Official stamped envelopes and wrappers .....	2, 037, 500	29, 306 50
Aggregating .....	1, 740, 571, 038	40, 978, 053 42

The number of requisitions filled was 464,710.

A statement of the values of stamps issued during the last fiscal year, compared with the issues of the fiscal year which ended June 30, 1881, will be found in the appendix to this report, pages 360-367.

#### POSTAGE ON SECOND-CLASS MATTER.

The postage collected on second-class matter during the past year amounted to \$1,565,103.28. That is an increase of \$166,054.64 over the collections of the previous year.

Of the total amount realized from second-class matter, 27.19 per cent. was collected at New York; 9.92 per cent. at Chicago; 6.16 per cent. at Boston; 5.43 per cent. at Philadelphia; 4.44 per cent. at Saint Louis; 3.56 per cent. at Cincinnati; 3.28 per cent. at Augusta, Maine; 1.71 per cent. at San Francisco; 1.45 per cent. at Detroit; 1.23 per cent. at Milwaukee; 1.22 per cent. at Louisville; 1.01 per cent. at Pittsburgh; .99 of one per cent at Cleveland; .96 of one per cent. at Saint Paul; .92 of one per cent. at Toledo, and .86 of one per cent. at Baltimore. The remainder was collected at 5,064 other offices scattered throughout the country.

#### REDUCED PRICES OF STAMPED ENVELOPES.

A new contract was made in June last for stamped envelopes. The average reduction in price is nearly 7 per cent. That reduction is the more gratifying, because it follows a reduction of about 20 per cent. made in the last contract over the one which preceded it. Estimating the number of the different kinds of envelopes to be issued under the new contract upon the basis of the number actually issued during the year which ended on the 31st of March last, the aggregate cost will be \$456,197.58. Five bids were received for the manufacture of such envelopes. The cost of the same number and kind under the highest proposal submitted would be \$476,585.40. There was thus only a little more than \$20,000 between the highest and the lowest offer made for a contract, which will amount to something like a half million of dollars.

That fact furnishes plenary proof, both that bidders were equally well informed of the services expected and that the bid accepted, while it was the best offer, was not likely to subject the contractor to a loss.

#### DEAD LETTERS AND PARCELS.

The whole number of pieces of mail matter handled during the year, including a balance of 124,731 letters on hand July 1, 1881, was 4,285,285. That is an increase of about 15 per cent. over the previous year. Of these, 3,238,589 were unclaimed domestic letters; 60,476 were unclaimed domestic packages; 356,287 were letters of foreign origin; 954 were letters for foreign countries containing unmailable articles; 17,313 were foreign parcels containing printed matter, samples, &c., returnable to the countries of origin under special postal arrangements; 275,240 were held for postage; 274,715 were misdirected, and 11,711 bore no superscription whatever.

Of the letters opened 19,989 contained money amounting to \$44,326.65; 24,575 contained drafts, checks, money orders, &c., representing a value of \$1,962,413.73; 90,842 letters and parcels contained merchandise; 52,463 contained postage-stamps; 44,731 contained receipts, paid notes, &c.; 39,242 contained photographs. \$7,657 were taken from dead letters which could not be restored to owners; \$3,739.02 were collected upon insufficiently-paid letters. These two items represent the entire revenue derived from the dead-letter service. More minute details will be found in the report of the Third Assistant Postmaster-General, at pp. 368-373 and tables numbered 10-15.

#### NEW MODE OF TREATING HELD-FOR-POSTAGE MATTER.

An important change in the mode of treating held-for-postage matter was inaugurated on the 1st of July under the provisions of a departmental order dated May 11, 1882.

Formerly, first-class matter deposited in a post-office, on which less than one full rate was paid, and third and fourth class matter not paid in full, were sent to the Dead-Letter Office instead of to the addressees.

The new order directs the postmaster at the office of mailing, to notify the addressee by card, of the existence of the letter and of the deficiency in postage, to the end that, if he chooses, he may remit the postage and have the letter forwarded. This new mode is, for the present, confined to the free-delivery offices.

Reports have been received from 97 of those offices, showing that the total number of pieces finally treated by them during the quarter ended September 30 last, was 71,478, of which 59,711, or nearly 84 per cent., were forwarded to the addressees.

#### REGISTRATION OF LETTERS AND PARCELS.

The whole number of letters and parcels forwarded by registered mail during the year was 9,627,922. The amount of registry fees collected was \$841,497.90. The actual estimated losses (some cases being still under investigation) were unusually few in number, consisting of 726 letters or parcels only, or one out of every 13,262 forwarded.

#### POSTAL MONEY-ORDER SYSTEM.

The report of the Superintendent of the Money-Order System is, as usual, interesting and instructive. I extract from it such facts only as touch upon the growth of the business, and the proposed modifications in that branch of the service.

The money-order offices conducting domestic operations numbered 5,491 at the close of the last fiscal year. The orders issued by the same aggregated in value \$113,400,118.21. The orders paid and repaid aggregated \$113,388,301.90. The fees received from the public amounted to \$1,053,710.55. That was an increase of nearly 9 per cent. over the previous year. The gross revenue from the domestic money-order

business was \$280,341.17. That sum, together with \$80,426.18 derived from international money-order business for the year which ended June 30, 1881, has been paid into the Treasury for the service of the Post-Office Department. After deducting therefrom all the expenses of the money-order service, which were paid during the year from appropriations, there remained a net profit of \$165,030.25.

Allowances for clerk-hire were made during the year, amounting to \$175,548.84. These allowances were to offices where the total compensation of the postmaster from all sources amounted to \$4,000.

At the last session of Congress a bill embodying certain modifications in the money-order system, which were recommended by my predecessor in the last annual report, and which received the approval of the Committee on Post-Offices and Post-Roads, passed the House of Representatives. It did not reach the Senate early enough to secure the consideration of that body.

I respectfully renew the recommendation made in that report with reference to a modified scale of fees for money orders, diminishing the cost thereof, and of the desirability of conferring upon this Department authority to issue, in connection with the present money order, orders of a new form, to be called postal notes, for sums under \$5, and at a fee to the public of three cents.

#### FOREIGN MAILS.

From the report of the superintendent of foreign mails it appears that the total weight of the mails dispatched to Postal Union countries, Canada excepted, during the last fiscal year was 2,203,876 pounds, an increase of weight of 452,353 pounds over that of the preceding year.

Of the correspondence dispatched, 42.6 per cent. of the letters and 44.8 of the printed matter, samples, &c., were sent to Great Britain; 24.5 per cent. of the letters and 18.6 per cent. of the prints, samples, &c., were sent to Germany; 24.3 per cent. of the letters and 19.3 per cent. of the prints, samples, &c., were sent to other countries of Europe, and 8.8 per cent. of letters and 17.3 per cent. of prints, samples, &c., were sent to other union countries and colonies.

The percentage of increase over the weights of the preceding fiscal year was  $21\frac{1}{2}$  per cent. for letter mails, and  $26\frac{1}{8}$  per cent. for prints, samples, &c.

The payment for the transportation of ocean mails, under the general law limiting the compensation to the sea-postages on the mails conveyed, amounted to \$280,163.98, an increase of \$41,014.77 over the cost of the same service during the preceding year. Of this amount, \$233,485.34 was expended for the trans-Atlantic service, \$16,537.38 for the trans-Pacific service, \$30,141.26 for the service to Mexico, the West India Islands, Canada, Newfoundland, and countries and colonies of Central and South America. The increased cost over that of the same service for the fiscal year 1881 was 17.1 per cent. Compared with the

cost of the ocean transportation for the fiscal year 1880, the increase in two years was over 41 per cent.

The republics of Nicaragua and Costa Rica have been recently admitted to the Postal Union, and the only countries and colonies of the world which have organized postal establishments, not embraced in the union, are Bolivia and the British Australasian colonies.

The limits of weight and dimensions for packets of samples of merchandise prescribed by article 5 of the Paris convention, have been extended by special arrangements concluded with Belgium and Switzerland, respectively, so as to admit such packets to circulation in the mails exchanged with those countries, when not exceeding the weight of 12 ounces, and the dimensions of 12 inches in length, 8 inches in width, and 4 inches in depth.

#### TOPOGRAPHER'S OFFICE.

The series of postal maps already published now consists of 26, comprising 65 sheets.

New photolithographed maps of New Mexico and Arizona, of Oregon and Washington, and of the Territories of Montana, Idaho, and Wyoming, and engraved plates of Virginia and West Virginia have been completed; also a new map photolithographed of the Mississippi River has been produced. There are under construction, drawings for new maps of Florida, North Carolina, South Carolina, California, and Nevada.

#### MAIL DEPREDACTIONS.

The force employed in the division of the Chief Post-Office Inspector has been active and efficient during the last year, as will be seen by the report of its chief. The number of cases investigated and reported upon during the year are as follows:

Registered cases.....	5,890
Ordinary cases.....	31,460
Miscellaneous cases.....	4,678

Four hundred and ninety-six arrests were made. Of these 441 were prosecuted in the courts of the United States and 55 in the courts of the several States. Of the former, 193 were convicted and 18 acquitted; 7 escaped, 1 forfeited bail; 40 cases were dismissed, and 182 await trial. Of those prosecuted in the State courts 14 were convicted, 7 acquitted, 2 escaped, 27 await trial, and 5 cases were dismissed.

The disbursements on account of appropriation for post-office inspectors and mail depredations during the fiscal year ended June 30, 1882, salaries and expense allowance of post-office inspectors, attorney's fees, rewards, &c., were \$166,551.25.

There are claims against this fund still unadjusted.

#### NEW MONEY-ORDER OFFICE BUILDING.

By the provisions of the act of March 1, 1881, making appropriations for the service of the Post-Office Department for the fiscal year ending

June 30, 1882, the Postmaster-General was authorized "to take the necessary steps to rent a suitable building, or buildings, for the use of the Money-Order Office of the Post-Office Department, and of the money-order division of the Auditor of the Treasury for the Post-Office Department," provided, "that the annual rental of such building or buildings shall not exceed \$5,000." The Postmaster-General, however, was unable to rent a building of the necessary capacity for the amount of money specified in that act. Wherefore, at its last session Congress passed an act extending the limit of the appropriation for the rent of a building for the money-order service to \$8,000. Upon the passage of this act a number of offers were made of buildings in the neighborhood of the Post-Office Department for the use specified; but upon investigation it was found that the buildings tendered either lacked a sufficient amount of space for the purposes of the Department, or were held at too high a rental value. Finally, an offer was made by Messrs. R. A. Hooe, of Washington, and Robert Beverly, of Virginia, the owners of the property on the corner of Eighth and E streets, square numbered 406, to erect a building on said property for the purpose contemplated.

On the 16th of March last I entered into contract with Messrs. Hooe and Beverly, a copy of which will be found in the Appendix. That building has been erected. The clerks composing the Money-Order Office of this Department and the Sixth Auditor's Office are now established in it. The new building contains about 15,000 feet of space for clerks, is furnished with an elevator, good heating appliances, and appropriate electric bells and speaking tubes; is well lighted and ventilated, and is connected with the department building by a light, but substantial iron bridge.

By the terms of the contract, the government is given the option of purchasing this property for \$85,000 at any time within two months after the opening of the next session of Congress. Three considerations commend this opportunity to the prompt acceptance of Congress: First. There seems to be little doubt that the government will soon imperatively need the whole of that square. Second. Good judges of property are of the opinion that if this particular lot is not taken upon the terms and within the time specified, it will never be secured for less than \$100,000. Third. The rent reserved amounts to more than 9 per cent. per annum on the price demanded.

It seems little less than profligate to pay 9 per cent. for rent when the money can be had for  $3\frac{1}{2}$  per cent. to purchase.

#### RATES OF POSTAGE.

I remain of the opinion expressed in my letter of the 18th of May last, addressed to the Speaker of the House of Representatives, that the postage on second-class matter ought properly to be abolished. It does not seem just, and if not just, it cannot be wise to charge for carrying some newspapers and to carry others free, or to charge for carrying a

newspaper to some subscribers and to carry the same newspaper to others without charge.

I wish also to repeat, and to emphasize the opinion expressed in the same letter, that the rate of postage on fourth-class matter should be increased. To charge three cents per half ounce for carrying messages from one post-office to another, and yet to carry merchandise from one side of the continent to the other for one cent an ounce is not approved by good sense, if it is by good morals.

Some anxiety has been manifested to reduce first-class postage to two cents per half ounce. If it should be thought such a reduction in rates would cause too great a shrinkage in the revenues, I would respectfully suggest that correspondence may be cheapened almost as much by another measure, much less costly to the Treasury.

If Congress will authorize the sale of stamped envelopes at the same price at which adhesive stamps are sold, it would lessen the cost of correspondence.

The government is now the largest dealer in envelopes there is. It sells, as nearly as practicable, at the cost of manufacturing, with the postage added. After the first of January next the present tariff of prices will be somewhat reduced, owing to the more favorable terms of a recent contract for their manufacture. Yet, under the reduced tariff, if the single rate be reduced to two cents, a correspondent who buys a single stamped envelope will be compelled to pay three cents for it. If he buys more than five and less than a hundred, he will have to pay  $2\frac{1}{2}$  cents each. If he buys more than a hundred at a time, he will be able to get them at a small fraction less than that. If, on the contrary, the correspondent buys adhesive stamps at the post-office, and his envelopes of private dealers, the cost will be still greater.

Regardless of economy, a large percentage of correspondents do in fact buy the adhesive stamp instead of the stamped envelope. During the last fiscal year 680,463,700 adhesive stamps of the denomination of three cents were issued for prepayment of postage by the public, while only 168,696,250 stamped envelopes of the same denomination were issued. It is safe to assume that the purchasers of those adhesive stamps paid an average price equal to a large fraction of a cent each for the envelopes on which to put them. If the department could have supplied the envelopes at the cost of stamps, it would have been equivalent to a reduction of that fraction of one cent in postage. Yet it would have cost the government, under the present contract, less than \$2,000,000 to furnish the envelopes. And even this apparent loss would have been compensated by two great advantages:

An adhesive stamp, not properly canceled, can be removed and re-used. It is not doubted that the revenue is seriously impaired annually by this one cause. The envelope can never be used but once. So far as the stamped envelope can be substituted for the adhesive stamp, all such depreciation of revenue is avoided.

Another benefit to accrue from the substitution of stamped envelopes for adhesive stamps, is the saving of labor in the administration of the service. A letter deposited in a post-office, on which less than one full rate of postage is prepaid, is treated in one of two ways. If it be deposited in a free-delivery office, and the writer is unknown, the postmaster sends a notice to the addressee that he may, if he will remit the postage, have the letter forwarded. That imposes labor upon the local postmaster. If the same letter is deposited in any other than a free-delivery office, it is sent at once to the dead-letter office, to be treated there. That imposes labor upon the department. The whole number of domestic letters treated in the dead-letter office during the last fiscal year was 3,709,266. Of these, 275,240 were letters held for postage. But a letter once inclosed in a three-cent stamped envelope has one full rate prepaid. That letter cannot be held for postage. It will go forward at once; the postmaster at the office of delivery will tender it to the addressee upon receiving the postage due.

Again, the correspondent who orders stamped envelopes to the number of 500 may have his name and address, with a request to return, printed thereon without additional charge. Then if the addressee cannot be found the writer may be found without resort to the dead-letter office. Out of 6,000 letters sent to the dead-letter office on the 4th instant, only four had such requests upon them. By such means the work of the dead-letter office may be reduced to the minimum.

The Postal Establishment has attained huge proportions. It is conducted at an annual cost of \$50,000,000. It should do whatever it can do well. What it can do elsewhere it can do here. Yet the fact remains that the postal service does in other countries many things which it has not yet attempted in this country.

#### POSTAL COLLECTION SYSTEM.

In Belgium, Switzerland, and Germany, the post-office is employed in the collection of bills not exceeding 500 francs in any one sum. The system is briefly this: The creditor purchases a special envelope of the post-office, for which he pays 25 centimes, and in which he incloses his account, and directs to the postmaster within whose delivery the debtor resides. The bill is handed to the carrier, who presents it to the debtor on his round. If not paid, the bill is simply returned. If paid, the carrier returns the money to the postmaster. For his services he receives 25 centimes if the amount is 100 francs or more; if less than 100 francs, he receives 15 centimes. The postmaster receives a like sum for his services, and sends the creditor a postal order for the balance, less the proper fee for the order.

In Germany, during the year 1876, 2,750,000 accounts were thus collected. In March last the system was authorized in France. I respectfully invite Congress to consider whether, by authorizing a similar system here, something cannot be done to further utilize the postal estab-

lishment and augment its revenues; to lessen the cost of collecting tradesmen's bills, and to inculcate in the people the habit of promptly meeting their small bills as the banks inculcate the habit of meeting large ones.

#### POSTAL SAVINGS-BANKS.

I follow in the steps of many of my predecessors in this office when I invoke Congress to make one more effort to engraft upon the postal service a system of deposits for small sums. The great lesson our people need to learn is that of economy. The American people are apt to earn, but are not wise to save.

The easy introduction to the art of saving is to provide a convenient and safe means of saving. A lucrative means is less essential. A place near at hand where a dollar may be deposited and may be secure against the temptations of the burglar, the thief, and the saloon-keeper, even if it accumulates but very little, has everywhere proved a strong inducement to saving. The post-office is near to every citizen; the savings bank must always be remote from most. The post-office need not be a substitute for the savings bank, nor its rival, but its feeder; a place where small deposits with slow accretions may securely grow into large ones, then to be transferred to savings banks on longer terms and with larger earnings.

#### POSTAL TELEGRAPH SYSTEM.

Another and a broader field of activity not yet occupied by our postal establishment is that of the telegraph. In almost all countries, save this, telegraph service is conducted by the postal authorities. Presidents, Postmasters-General, and committees of both houses of Congress have heretofore urged that the Post-Office Department of the United States should take exclusive possession of that service. Already Congress has provided a mode for adjusting the terms upon which the United States may purchase all telegraph lines, either for postal or other purposes. (Revised Statutes, section 5267.)

After the fullest consideration I have been able to give to the subject, I am forced to the conclusion that the time has fully come when the telegraph and postal service should be embraced under one management. The whole subject has been argued in former years. I shall do but little more than summarize that argument.

The business of the telegraph is inherently the same as that of the mail. It is to transmit messages from one person to another. That is the very purpose for which post-offices and post-roads are established. The power to establish is not limited to any particular modes of transmission. The telegraph was not known when the Constitution was adopted. Neither was the railway. I cannot doubt that the power to employ one is as clear as to employ the other.

If the union of the two services did not improve that of the tele-

graph at all, I think it would improve the postal service in some important respects. It would necessitate the employment of telegraph operators for postmasters in many offices. That would result in giving to the administration of not a few offices men who have learned to do one thing in place of those who have never learned to do anything. If the two offices were united, whenever a mail did not arrive on time, the public thronging the post-office would learn, not merely that the mail had not arrived, but when it would arrive.

Again, the necessity for delivering messages would facilitate and gradually draw after it the free delivery of mails in places where free delivery in itself is impracticable.

But a union of the two services would, I believe, improve the telegraph more than it would the postal service.

I prefer no accusation against the administration of the former service. Admitting it to be honest and efficient, the fact remains that it is not cheap, and under corporate control it cannot be cheap. Rent for both services would cost but little more than the cost for one. So of fuel and of light. Where there is now a free delivery of mail, telegraph messages could be delivered at less cost by the post-office than by a corporation. Besides, if the business was controlled by the government, there would be but a single management for the whole. The business is now charged with the cost of many different managements. One direction is cheaper than several.

Again, corporations will seek, and ought to have, not only remuneration for cost of administration, but interest on the capital invested. Telegraph companies seek and secure a large interest on their capital; and what is still more burdensome to the public is the fact that the aggregate outlay of the companies is always greatly in excess of the actual cost of their property.

The office of the telegraph is not indispensable in the sense that air, water, and food are; but it is so essential to social, political, and commercial life that it must be had. If it cannot be obtained at one price, it will be at another. No one corporation has been or will be allowed quietly to monopolize the business. No one set of men will be permitted exclusively to sell services which all must have. And yet, while monopoly will not be permitted, competition beyond a certain point cannot be tolerated.

When competition profits the public who purchase the service, it becomes injurious to the companies which sell. When it becomes injurious to the companies, the competition is extinguished by the purchase and absorption of the competitor. The price paid for the franchises of a rival concerns the purchaser but little; it concerns the public deeply. The people must pay the fees which will yield dividends on the new and on the old capital. So it has happened that the one corporation which has built most miles of telegraph has been the largest purchaser of telegraph property. It must continue to be so. No matter how rich

a company may be, it is powerless to prevent the organization of new and competing enterprises. Its sole protection is to buy when the new rival proves hurtful. No matter how conservative or just may be the management of the purchasing company, it will demand from the public dividends on the capital invested to extinguish the rival. The only security capital can have against these recurring raids is to surrender the business to the government. The only protection the public can have against these multiplied exactions is, for the government to assume that exclusive control over the transmission of domestic messages by electricity, which it now has over the slower methods by steam and stage-coach. Safety for those who sell and those who buy telegraph service is promoted by the same measure.

But a stronger reason still, why the government should control the telegraph, is found in the fact that it is as potent for evil as for good. Like government itself, it is too terrible to be wielded by other than representatives of the whole people.

In the great commercial centers, public stocks, corporate and mining stocks, bonds, and the staple products of agriculture are bought and sold daily, to the amount of thousands of millions. In all those markets one great telegraph company wags its tongue incessantly. For all those commodities it is the arbiter of prices. Prices go up or down according to its inculcations. Whoever controls its utterances may at pleasure buoy a market in which he wishes to sell, or break one in which he wishes to buy. That is an agency much too dreadful to entrust to private hands.

I am far from asserting that a use so malign ever has been made of this agency. I speak of its capabilities, not of its history. Knowing that it can be so abused, it seems to be the dictate of prudence not to wait until it is so abused. It is manifest that even when the government controls the telegraph a falsehood which may sink a stock or float it may still be sent over the wires. But truth will have equal freedom on the lines. In government hands the telegraph will maintain an exact neutrality between the two fierce parties, which, day by day and year by year, contend for supremacy in the markets. In private hands it may become the mere creature, as malignant as mighty, of that party which its owner, from time to time, chooses to join. If he choose, he may give free course to falsehood, and if he choose, he may imprison the truth. Who else can trade in a market dominated by such a power?

It may be objected, and has been, that the measure proposed would largely extend the roll of Federal officials. That increase has doubtless been exaggerated. At a very large percentage of the offices the telegraph operator would not supplement the postmaster, but would supplant him. Besides, I know of no law but necessity limiting the employment of officials. The government is not wise which employs a single officer not needed. It is unwise if it refuses to employ thousands when they are needed.

Within the life of this generation this government employed more than two and a half millions of officers. They were all armed. They did not destroy the country ; they saved it. It is not difficult to find individuals who employ a thousand men and find profit in it. It does not become fifty millions to shrink from employing a hundred thousand if they have need for their services.

T. O. HOWE,  
*Postmaster-General.*

The PRESIDENT.

# CONTRACT

FOR THE

ERECTION OF A BUILDING FOR THE USE OF  
THE MONEY-ORDER OFFICE.

---

MARCH 16, 1882.

---

XXXI

## CONTRACT FOR BUILDING FOR MONEY-ORDER OFFICE.

---

WASHINGTON, D. C., *March 16, 1882.*

This memorandum of agreement between the United States of America, represented by Timothy O. Howe, Postmaster-General, under and in pursuance of authority given him in his official station by "An act making appropriations for the services of the Post-Office Department for the fiscal year ending June 30, 1882, and for other purposes," approved March 1, 1881; and "An act to provide for certain of the most urgent deficiencies in the appropriation for the service of the government, for the fiscal year ending June 30, 1882, and for other purposes," approved March 6, 1882, and Robert A. Hooe, of the District of Columbia, and Robert Beverly, of Virginia, witnesseth:

That said Hooe and Beverly agree and undertake to erect, under the general and controlling direction of the Postmaster-General, and the immediate superintendence of John L. Smithmeyer, as architect, a substantial building of brick, stone, timber, and other suitable and proper materials, to contain net 14,000 feet of space for the use of clerks, besides that occupied by halls, walls, vestibules, elevator, and water-closets.

The building is to have proper water-closets for the use of the persons employed therein, and a suitable elevator for the use of the persons and freight; and it is to be heated by a system similar to the one in present use in the general Post-Office building in this city, unless another or modified system shall be mutually agreed upon.

The building is to be erected upon lot No. 1, square 406, in this city of Washington, fronting 50 feet on "E" street and 87½ feet on 8th street, N. W., and is to be well ventilated and with sufficient openings for light, with ingress and secure egress, and proper pipes for water and gas and appropriate attachments thereto.

The building is to be completed by the 1st day of October, 1882.

In consideration of the foregoing premises and undertakings, it is agreed by the United States of America, represented by the Postmaster-General, acting under the authority above recited, that upon the completion of said building at the time stipulated, or within a reasonable time thereafter (if unforeseen causes of delay occur) the United States of America will rent the same for a term of five years from such completion, with privilege of renewal, if Congress so authorizes, for the sum of eight thousand dollars per annum, payable quarterly at the end of each quarter.

It is mutually agreed that the building shall be erected for, and occupied by, the United States of America for the uses and purposes stated in the acts of Congress hereinbefore recited; and that said Hooe and Beverly shall not be required to expend in the erection and completion of the said building a sum exceeding sixty thousand dollars.

It is also agreed that a safe and secure iron bridge shall be constructed over the street from said building to the corridor of the Post-Office building, connecting with the second floor thereof; and that upon completion of said building, and for sixty days after the meeting of the next regular session of Congress, the building and lot of ground upon which the same is erected may be purchased by the United States for the sum of \$85,000, and a good and sufficient title given by the owners thereof.

In witness whereof, the seal of the Post-Office Department and the signature of the

XXXIII

Postmaster-General, as well as the hands and seals of the other parties hereto, are hereunto affixed the day and year first above written.

THE UNITED STATES OF AMERICA,  
By TIM. O. HOWE,

*Postmaster-General.*

Witness to the signature of the Postmaster-General.

CHAS. A. RAY,  
R. S. BOSWELL.

ROBERT A. HOOE. [SEAL.]

ROBERT BEVERLY. [SEAL.]

[Seal of the Post-Office Department.]

Witnesses of the signatures of the other parties to the foregoing contract.

L. C. DUNCAN,  
CHAS. A. RAY.

# REPORT OF THE CHIEF POST-OFFICE INSPECTOR.

POST-OFFICE DEPARTMENT,  
OFFICE OF CHIEF POST-OFFICE INSPECTOR,  
Washington, D. C., October 31, 1892.

SIR: I have the honor to hand you with this a report of the operations of the division of post-office inspectors and mail depredations for the fiscal year ending June 30.

I beg to add that the inspectors have worked faithfully and earnestly correcting irregularities existing in the service, as the report will show. I desire to call your attention to the fact that the labor performed by inspectors in connection with contract service, and as well in the investigations conducted by them under the direction of the officers employed in investigating the star-route service, do not appear in this report. Much time has been devoted to this work, however, and I doubt not that proper mention will be made elsewhere of the fact and the attendant results.

## ARRESTS AND CONVICTIONS.

The arrests by post-office inspectors and others, for violations of the postal laws of the United States, during the year numbered 496. Of these 441 were prosecuted in the courts of the United States, and 55 in the several State courts in which the offenders were arrested. Of the former 193 resulted in conviction, and 18 in acquittal. Seven prisoners escaped; in one case bail was forfeited, and in 40 cases the proceedings were dismissed. One hundred and eighty-two offenders are now awaiting trial. There were 14 convictions in the State courts and 7 acquittals. Two prisoners escaped, 5 proceedings were dismissed, and 27 are awaiting trial. This will appear more clearly from the following summary and classification of the arrests.

### SUBJECT TO JURISDICTION OF UNITED STATES COURTS.

Classification of offenders.		Disposition of cases.	
Postmasters .....	23	Convicted .....	196
Assistant postmasters .....	10	Acquitted .....	18
Clerks in post-offices .....	28	Escaped from custody .....	7
Postal clerks and route agents .....	14	Forfeited bail .....	1
Letter carriers .....	28	Proceedings dismissed .....	40
Mail carriers .....	23	Awaiting trial .....	182
Other employes .....	6		
Burglars .....	4		
All others for various offenses .....	305		
<b>Total .....</b>	<b>441</b>	<b>Total .....</b>	<b>441</b>

### SUBJECT TO JURISDICTION OF STATE COURTS.

All offenders .....	55	Convicted .....	14
		Acquitted .....	7
		Escaped from custody .....	2
		Proceedings dismissed .....	5
		Awaiting trial .....	2
<b>Total .....</b>	<b>55</b>	<b>Total .....</b>	<b>55</b>

## CASES ACTED UPON BY INSPECTORS.

The total number of cases referred to inspectors for investigation during the year was 42,423. They are classified as—

1. *Registered cases, Class A, 7,082.*—This class of cases embraces all alleged depredations upon the registered mail, and includes complaints of losses, rifling, wrong delivery, and suspected attempts at opening registered letters. The complaints are both of foreign and domestic origin. The number of registered letters reported lost was 5,087, of which 2,438 were domestic and 2,649 were foreign. By foreign is meant letters going to or coming from foreign countries. Of the domestic letters, 1,481 contained money and other valuable inclosures, and 957 contents not specified. Of the domestic letters 968 were reported as having been delivered, recovered or satisfactorily accounted for, viz: 564 with valuable inclosures, and 404 contents not specified. Of the 1,244 complaints of rifled letters, investigation showed that in 202 cases the claim of valuable inclosure was false. Only 30 registered letters were reported as having been tampered with, and investigation of 11 cases disclosed the fact that there had been no loss. Registered packets (third and fourth class matter) reported lost were 329, of which 193 were found to have been delivered; 18 complaints of rifled packets were received, 9 of the complaints were discovered to be without foundation; 254 complaints were made of loss or separation of registered packets from the registered-package envelope.

Investigation of 134 of these showed that no loss either to sender or addressee had occurred. Forty-five cases of detention were reported; upon investigation of 22 cases no loss was found to have occurred. The wrong delivery of 75 letters was reported. Thirty-seven upon investigation were found to have resulted in no loss. There are still outstanding 1,940 cases undergoing investigation.

Of the complaints in foreign cases, viz, 2,675, 2,065 were found to have been accounted for satisfactorily, leaving 573 cases still undergoing investigation, and 17 in which no discovery could be made and which were closed as lost.

The disbursements of money collected on account of lost and rifled registered letters and packets amounted during the year in 356 cases to \$10,906.06. Of the total number of complaints of depredations upon the registered mail investigation showed that in 4,076 no loss had occurred; that in 493 actual loss had resulted. There are now undergoing investigation 2,513 cases, and should the proportionate loss be as great in these outstanding cases as in those already reported upon it would be estimated as 233. Adding this estimate to the actual losses, 493, we have 726, an unusually small proportion.

These losses include those from all causes, fire, burglary, highway robberies, casualties, and ordinary thefts. By comparing this number 726 with the total number of letters and packets registered during the year, 9,627,922, it is worthy of remark that the safety of the registered mail is demonstrated.

2. *Ordinary cases, Class B, 30,829.*—This class of cases includes all complaints of depredations upon the ordinary mail; 21,527 letters were reported lost, 5,180 with valuable inclosures, and 6,347 contents not specified. Of this number, 2,175 were found to have been delivered. The number of ordinary packets reported lost was 8,342, of which 850 were found to have been delivered or satisfactorily accounted for. The disbursements of money recovered on account of lost ordinary letters amounted in 57 cases to \$363.40.

During the year 387 post-offices were reported to have been burglarized and 116 to have been burned; 39 mails were robbed by highwaymen, and it is gratifying to note that this number is less than half those reported in the fiscal year ending June 30, 1881. Ten mails were burned in postal cars in railway accidents, 50 were lost by carriers in floods, snow blockades, and from other causes; 124 complaints of depredations by postmasters were received. Investigation of 32 of these showed the complaint to have been groundless.

3. *Miscellaneous cases, Class C, 4,512.*—This class embraces cases not strictly speaking mail depredations, but which are most important in their character.

It includes the inspection of post-offices, solvency of the sureties on the bonds of postmasters at money-order offices, and miscellaneous complaints of all kinds.

The amount of money collected by inspectors in this class of cases during the year amounted to \$23,381.20.

Recapitulation of cases reported on by inspectors during the fiscal year ending June 30, 1882: •

Registered cases, including those referred in previous years.....	5,890
Ordinary cases, including those referred in previous years .....	31,460
Miscellaneous cases, including those referred in previous years.....	4,678
Total .....	42,028

Very respectfully,

DAVID B. PARKER,  
*Chief Post-Office Inspector.*

## OF THE

### APPROPRIATIONS FOR THE POSTAL SERVICE FOR THE FISCAL YEAR ENDING JUNE 30, 1884.

#### OFFICE OF THE POSTMASTER-GENERAL.

Mail depredations and post-office inspectors, including amounts necessary for fees to United States marshals, attorneys, &c .....	\$225,000 00
Advertising .....	50,000 00
Miscellaneous items in the office of the Postmaster-General .....	2,000 00

#### OFFICE OF THE FIRST ASSISTANT POSTMASTER-GENERAL.

Compensation to postmasters .....	10,134,091 25
Clerks in post-offices .....	4,850,000 00
Letter-carriers .....	3,600,000 00
Wrapping-paper .....	25,000 00
Wrapping-twine .....	55,000 00
Marking and rating stamps .....	25,000 00
Letter balances, scales, and test-weights .....	25,000 00
Rent, fuel, and light .....	450,000 00
Office furniture .....	30,000 00
Stationery .....	65,000 00
Ink for stamping and canceling purposes .....	10,000 00
Pads for stamping and canceling purposes .....	10,000 00
Miscellaneous and incidental items .....	90,000 00

#### OFFICE OF THE SECOND ASSISTANT POSTMASTER-GENERAL.

Inland transportation, railroad routes .....	12,000,000 00
Railway post-office car service .....	1,626,000 00
For necessary and special facilities on trunk lines .....	600,000 00
Inland transportation, steamboat routes .....	700,000 00
Inland transportation, star routes .....	5,500,000 00
Railway post-office clerks .....	3,977,120 00
Mail-messengers .....	850,000 00
Mail locks and keys .....	20,000 00
Mail-bags and mail-bag catchers .....	220,000 00
Miscellaneous items in the office of the Second Assistant Postmaster-General .....	1,000 00

#### OFFICE OF THE THIRD ASSISTANT POSTMASTER-GENERAL.

Postage stamps .....	130,000 00
Expenses of agency .....	8,100 00

Stamped envelopes, newspaper wrappers, and letter sheets.....	\$632,000 00
Expenses of agency.....	16,000 00
Postal cards.....	253,000 00
Expenses of agency.....	7,300 00
Registered-package, post-office, and dead-letter envelopes.....	140,000 00
Ship, steamboat, and way letters.....	1,500 00
Engraving, printing, and binding drafts and warrants.....	2,000 00
Miscellaneous items in the office of the Third Assistant Postmaster-General.....	1,000 00

## OFFICE OF THE SUPERINTENDENT OF FOREIGN MAILS.

Transportation of foreign mails.....	350,000 00
Balances due foreign countries, including the United States' portion of the expenses of the International Bureau of the Universal Postal Union and the subscription of the department for the monthly journal (L'Union Postale) of that bureau.....	60,000 00
Total.....	46,741,111 25
Estimated amount which will be provided by the department from its own revenues, based upon an annual increase of 10 per cent. on the revenues for the fiscal year ended June 30, 1882.....	50,670,456 27
Surplus of estimated postal revenue over estimated expenditures.....	3,929,345 02

NOTE.—The postal revenue, estimated at an annual increase of 10 per cent. on the revenue for the last fiscal year, will, for the year ending June 30, 1884, amount to \$50,670,456.27, or \$3,929,345.02 more than the estimated expenditures for the same fiscal year. The increase of receipts for the last over the previous fiscal year was at the rate of 13.8 per cent. At the close of the last fiscal year there remained a handsome surplus of receipts over expenditures, and the receipts are now increasing at a much greater rate than the expenditures. Hence no appropriation will be required from the general Treasury to aid the postal revenue in meeting the estimated expenditures for the coming fiscal year, unless there should be changes in the rates of postage, or in the classification of mail matter, injuriously affecting the revenue. A deficiency appropriation from the Treasury of \$2,152,258 for the year ending June 30, 1882, remains undrawn, and it is not believed that it will be necessary to draw any portion of the \$1,902,177.90 appropriated to supply deficiencies in the postal revenue for the current fiscal year.

T. O. HOWE,  
Postmaster-General.

OFFICE OF THE POSTMASTER-GENERAL,  
November 1, 1882.

POST-OFFICE DEPARTMENT,  
OFFICE OF THIRD ASSISTANT POSTMASTER-GENERAL,  
Washington, D. C., October 23, 1882.

SIR: I have the honor to submit herewith, for your consideration, a table showing the estimates of appropriations required for the service of the Post-Office Department for the fiscal year ending June 30, 1884, prepared in accordance with your directions. The communications from the several officials from whose estimates the table was compiled, and explanatory thereof, will also be found herewith, marked from A to F.

Very respectfully, your obedient servant,

A. D. HAZEN,  
Third Assistant Postmaster-General.

Hon. T. O. HOWE,  
Postmaster-General.

---

A.

POST-OFFICE DEPARTMENT,  
OFFICE OF CHIEF CLERK TO THE POSTMASTER-GENERAL,  
Washington, D. C., October 18, 1882.

SIR: In compliance with your request of October 2, I have the honor to inform you that the following are the estimates of appropriations necessary for the office of the Postmaster-General for the fiscal year ending June 30, 1884, viz:

Mail depredations and post-office inspectors, including amounts necessary for fees to United States marshals and attorneys.....	\$225,000
Advertising.....	50,000
Miscellaneous items in the office of the Postmaster-General.....	2,000

Letter of the chief post-office inspector on the subject is herewith inclosed.

Very respectfully,

F. H. HOWE,  
Chief Clerk.

Hon. A. D. HAZEN,  
Third Assistant Postmaster-General.

B.

POST-OFFICE DEPARTMENT,  
OFFICE OF CHIEF POST-OFFICE INSPECTOR,  
*Washington, D. C., October 21, 1882.*

SIR: I have the honor to acknowledge the receipt of your communication of the 3d instant, asking that you be furnished with an estimate of appropriation for mail depredations and post-office inspectors for the fiscal year ending June 30, 1884.

The force of inspectors now employed upon the general work of the inspection of post-offices, correction of irregularities, the investigation of all depredations on the mails, assisting the contract office in determining and arranging post-routes, and other miscellaneous duties, as well as those detailed to the money-order, free-delivery, and railway mail service, are rendering most important and valuable aid in their several branches. Their duties are continuous and arduous, and their compensation should be increased.

At present ten inspectors are paid \$2,500 each per annum, the others not exceeding \$1,600. A per diem allowance not exceeding \$5 is made to cover expenses incurred while actually traveling upon official business. This allowance covers sleeping-car fares and all other necessary expenses, except transportation, and is now based upon the ascertained requirements of the different sections where inspectors are located, varying from \$3 minimum to \$5 maximum per day. From this it will be seen that inspectors of the Post-Office Department are not now paid salaries equal to those received by similar officers of the Treasury and other departments. In the Treasury Department special agents, whose duties are analogous to those of the post-office inspectors, receive salaries varying from \$2,190 to \$2,920 per annum. In addition to this compensation the expenses of special agents of the Treasury are paid by the department. The Indian inspectors of the Interior Department are paid \$3,000 each per annum, and their expenses also are paid by the government. Nor is the compensation of post-office inspectors as large as that of postmasters and assistant postmasters at first and second class post-offices, to instruct whom is frequently an inspector's duty.

I therefore beg to recommend that the appropriation for mail depredations and post-office inspectors for the fiscal year ending June 30, 1884, be increased to \$225,000, and that legislation be suggested as follows:

The Postmaster-General may grade inspectors appointed by him in accordance with section 4017 Revised Statutes in the following manner: Not exceeding fifteen in number shall receive \$2,500 each per annum, not exceeding fifteen others may receive \$2,000 each, and the remainder may receive not exceeding \$1,600 each. In addition to this compensation they may be allowed for their expenses while actually traveling upon official business such an amount as may be determined by the Postmaster-General as necessary in each case, not exceeding \$5 per diem, payable only for time spent away from the inspector's residence while traveling upon the business of the department.

I am, sir, very respectfully,

DAVID B. PARKER,  
*Chief Inspector.*

FRANK H. HOWE, Esq.,  
*Chief Clerk to the Postmaster-General.*

## C.

POST-OFFICE DEPARTMENT,  
OFFICE OF FIRST ASSISTANT POSTMASTER-GENERAL,  
*Washington, D. C., October 23, 1882.*

SIR: Agreeably to your request, I submit herewith estimates of the appropriations necessary for the use of this office for the fiscal year ending June 30, 1884, under the following heads, viz:

For compensation to postmasters.....	\$10,134,091 25
For clerks in post-offices.....	4,850,000 00
For free-delivery service.....	3,600,000 00
For rent, fuel, and light.....	450,000 00
For office furniture.....	30,000 00
For stationery in post-offices.....	65,000 00
For miscellaneous and incidental items.....	90,000 00
For wrapping-paper.....	25,000 00
For wrapping-twine.....	55,000 00
For marking and rating stamps.....	25,000 00
For letter balances and scales.....	25,000 00
Ink for stamping and canceling purposes.....	10,000 00
Pads for stamping and canceling purposes.....	10,000 00

Total estimate ..... 19,369,091 25

or \$2,227,091.25 more than the appropriation for the current year.

COMPENSATION TO POSTMASTERS.

The following were the estimates, appropriations, and expenditures for this item for the past two fiscal years:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$7,550,000 00	\$7,800,000 00	.....
Appropriations.....	7,500,000 00	7,800,000 00	.....
Expenditures.....	8,298,742 79	8,964,676 72	8.02
Deficiency.....	798,742 79	1,164,676 72	45.81

From the above it will be perceived that the expenditures for the fiscal year ended June 30, 1882, exceeded the appropriation for that period in the sum of \$1,164,676.72. In anticipation of a large deficiency, Congress, at its last session, upon the recommendation of the Postmaster-General, appropriated the sum of \$1,192,206.88, or so much thereof as might be necessary, to meet the deficit for this item during the fiscal year. The deficiency reported by the Auditor (\$1,164,676.72) is not so large as the amount appropriated by \$27,530.66; but it is expected that when the delayed returns from postmasters for the year shall have been received, the whole amount appropriated by Congress will be expended. The expenditures for the past fiscal year were also greater than those of the previous year in the sum of \$665,933.93, or 8.02 per cent.

The expenditures for the past year also exceed the appropriation (\$8,800,000) for the current fiscal year by \$164,676.72.

From the foregoing it will appear that a very much larger appropriation for compensation to postmasters should be made for the next fiscal year.

It has been ascertained that the compensation of postmasters bears a direct relation to the gross receipts of the department. The present law

regulating the compensation of postmasters of the fourth class went into operation the 21st July, 1878.

During the first fiscal year of the change, ended June 30, 1879, it required 23.9 per cent. of the gross receipts to pay the compensation of postmasters.

During the fiscal year ended June 30, 1880, 23.1 per cent. was required; for the year ended June 30, 1881, 22.5 per cent. was required; and for the year ended June 30, 1882, 21.4 per cent. was necessary.

It will thus be seen that the decrease in percentage of compensation to postmasters to the gross receipts has been a steady one; and this is only natural, since the great bulk of the receipts is collected at the larger offices, where the salaries are fixed by law. The receipts for the fiscal year ending June 30, 1884, based on an increase of 10 per cent. upon the last fiscal year, have been estimated at \$50,670,456.27. It is believed that not more than 20 per cent. of this amount will be required to pay postmasters for the next fiscal year. Upon this basis it is estimated that \$10,134,091.25 will be necessary for the compensation of postmasters for the year ending June 30, 1884. This amount will be \$1,334,091.25 greater than the amount (\$8,800,000) appropriated for the present fiscal year, or an increase of 15.16 per cent.

An essential element in the above estimate is the increase under the biennial readjustment of July 1st last in the salaries of postmasters at first, second, and third class offices, amounting to \$563,400 more than was paid last year.

#### CLERKS IN POST-OFFICES.

The estimates, appropriations, and expenditures for this purpose for the past two fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.
			Per cent.
Estimates .....	\$3, 650, 000 00	\$3, 850, 000 00	
Appropriations .....	3, 680, 000 00	{ 3, 850, 000 00	{ 7.33
Expenditures .....	3, 676, 756 22	{ 3, 908, 396 60	{ 6.30

The appropriation of \$3,850,000 for the fiscal year ended June 30, 1882, was found, after six months of the year had expired, to be inadequate for the necessities of the service, and upon the recommendation of the Postmaster-General an additional \$100,000 for the year was appropriated by Congress on the 6th of March last for this item, making the whole amount \$3,950,000. This appropriation was \$270,000, or 7.33 per cent. greater than for the previous year. The appropriation for the present fiscal year is \$4,385,000.

The expenditures for the last fiscal year amounted to \$3,908,396.60, or \$41,603.40 less than the appropriation. In no other fiscal year have the requests for additional allowances for clerical service and separating mails in post-offices been so numerous or so urgent as the past. These requests have been made by postmasters in all sections of the country, but they have been especially necessary in the rapidly growing portions of the West and Southwest. Postmasters at many of the principal cities in the older States have also applied for additional allowances for clerk-hire, in consequence of the great increase of the business of their offices from registered matter, merchandise passing through the mails,

and from other causes. After the passage of the act granting \$100,000 additional for this purpose for the past fiscal year, I found myself somewhat embarrassed, owing to many deserving applications, in making a proper disposition of it.

The commission referred to in my report to the Postmaster-General was determined upon as a measure of relief, as well as with a view to the better organization of the service in several of the large cities. The adoption of their recommendations resulted in a considerable saving of funds, and furnished a better basis for making future allowances at the offices visited. This did not afford sufficient relief, however, nor have I yet been able, with the appropriation at my command, to grant all the requests from the South and West, which are equally urgent, though the revenue derived from these offices is not so large as from many in the North and East; nor is it in numerous instances at all in proportion to the great amount of labor required.

I have therefore estimated the amount necessary to be appropriated for clerks in post-offices for the fiscal year ending June 30, 1884, at \$4,850,000, which is \$465,000, or 10.6 per cent., greater than the appropriation for the current year. I consider this amount absolutely requisite to meet the rapidly increasing and important requests of this character which are constantly being received, and are made necessary by the remarkable expansion of postal business in all sections of the country.

#### FREE-DELIVERY SERVICE.

The following were the estimates, appropriations, and expenditures for this service, and the incidental expenses thereof, during the two past fiscal years :

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$2,500,000 00	\$2,700,000 00	.....
Appropriations .....	2,500,000 00	{ 2,000,000 00	{ 5
Expenditures .....	2,490,911 64	{ 25,000 00	{
		2,623,262 74	4.93

This system was in operation on the 30th of June last in 112 of the principal cities of the country, and employed 3,115 carriers. It has been extended to 25 other cities since that date.

The regular appropriation of \$2,600,000 for the past fiscal year was increased in the sum of \$25,000, to meet an anticipated deficiency, making \$2,625,000 for the period, and an increase of \$125,000, or 5 per cent., over that of the previous year. The expenditures were \$2,623,262.74 for the fiscal year, or \$1,737.26 less than the appropriation. The cost of the service was increased \$123,351.20 over that of the preceding year, principally owing to the appointment of additional carriers in cities where the service was already in operation. The service was extended to only three cities during the year.

The postage on local matter for the year was \$3,816,576.09, an increase of \$542,945.70 for the year. The average cost per piece for handling matter was 2.3 mills, a decrease of 0.1 mill as compared with the last year. The average cost per carrier was \$835.75, a decrease of \$37.79.

The appropriation for the present fiscal year is \$3,000,000, of which amount \$200,000 was appropriated by the terms of the act of August

2, 1882, which law requires the promotion of carriers to the next higher grade after one year's service.

For the fiscal year ending June 30, 1884, it is estimated that an appropriation of \$3,600,000 will be required in order that free delivery may be extended to other cities possessing the necessary qualifications, either of population (20,000) or of gross revenue (\$20,000) from the post-office; that provision may be made for the development of the service where it already exists, and that the pay of certain carriers may be increased under the provisions of the law above mentioned.

The increase of estimate is \$400,000, or 12 per cent. more than the amount appropriated for the current year.

A detailed explanation of the expenses of this service, as well as of its popularity and usefulness, will be found in my annual report to the Postmaster General.

#### RENT, LIGHT, AND FUEL.

The estimates, appropriations, and expenditures for this item for the two last fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$450,000 00	\$500,000 00	
Appropriations .....	425,000 00	425,000 00	
Expenditures .....	382,714 86	401,978 04	5.03

The estimate for these items for the fiscal year ending June 30, 1884, is \$450,000, the same as the appropriation for the current year, and it exceeds the expenditures for the past year in the sum of \$48,021.96, or 11.94 per cent. By law allowances of this character are made only at offices of the first and second classes, or where the salaries of the postmasters are \$2,000 and upwards per annum, and they are usually based upon the amounts received at the different offices from box-rents and the commissions upon the sales of stamps. The increase in these allowances during the past fiscal year over that of the preceding one was \$19,263.18, or 5.03 per cent. Of the whole amount expended, about \$305,000 was for rent of buildings for post-offices.

It has been my endeavor during the time I have been in the department to secure for use, when permitted to do so by the postal laws, a better class of buildings in the different cities for post-offices than have heretofore been occupied, and my efforts have been attended with considerable success in many places. Still further improvements can be made and advantages secured in this particular, as the inhabitants of the larger cities (where government buildings do not exist) have become aware of the importance of a well-built and well-finished structure for postal business. With this object in view I consider that an appropriation of \$450,000 would not be excessive for these items.

I am also of the opinion that some provision should be made by Congress by which postmasters of the third class, whose salaries are \$1,000 and less than \$2,000 per annum, should, to a certain extent, be relieved from the payment of the rent of their offices out of their salaries. Considering that the revenues of the department for the past fiscal year exceeded the expenditures, it seems to me that liberality could be observed in this direction.

## OFFICE FURNITURE.

The estimates, appropriations, and expenditures for this purpose for the past two years were as follows:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$20,000 00	\$25,000 00	.....
Appropriations .....	20,000 00	20,000 00	.....
Expenditures .....	10,296 87	20,716 64	7.35

The appropriation for this item for the present fiscal year is \$20,000, or the same as for the previous year, and, in my judgment, is entirely too small for the purpose. The postal affairs of the country cannot be properly and expeditiously conducted unless the offices are furnished with suitable facilities in the way of furniture, such as tables for assorting the mails, desks for writing, racks for hanging the mail-bags, and many other articles which are absolutely necessary for the proper transaction of business. I regret to say that within my own knowledge there are many post-offices so ill-provided in these respects that it is a source of unfavorable comment by their patrons upon the departmental management. Many postmasters have been compelled to provide articles of furniture at their own expense, and assume the risk of disposing of them to their successors. Especially is this the case in the matter of safes, which are indispensable in all of the larger offices. During the past year the applications of postmasters to have offices supplied with them have been more numerous than ever before. Considering that it was, to a certain extent, both economical and proper to provide safes for many of the important offices where much registered matter is sent for distribution to other points, I have made quite a number of allowances for that purpose during the year, and the bills for such items having been presented earlier than was anticipated, a deficiency of \$716.64 has thereby been created. I have estimated the amount requisite for this item for the fiscal year ending June 30, 1884, at \$30,000, an increase of 50 per cent. over the appropriation for the present year, and firmly believe the public interests require it.

## STATIONERY IN POST-OFFICES.

The following were the estimates, appropriations, and expenditures for this item for the past two fiscal years:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$50,000 00	\$50,000 00	.....
Appropriations .....	50,000 00	50,000 00	.....
Expenditures .....	49,238 45	56,517 28	14

The appropriation for stationery for the current fiscal year is \$55,000, which is \$5,000, or 10 per cent., more than was granted for either of the two previous years, while the expenditures for the year 1881-'82 exceeded the appropriation for this item, for the same period, in the sum of \$6,517.28, thereby causing a deficiency for the year of that amount.

The expenditures for the past year were greater than those of the previous year by \$7,278.83, or 14 per cent.

I much regret that a deficiency should have occurred for stationery during the past year. The causes were that no increase was made in the appropriation for this item for the year, although an estimate for \$10,000 additional was made; that the requests for the articles used under this item are becoming more numerous and urgent each year, and in the same degree in which the postal business is augmented; and further, that by the regulations of the department, postmasters at first and second class offices (the only ones who are entitled to allowances for these items) are permitted to purchase the necessary stationery without making application to the department for the same. The stationery used by many post-office inspectors and railway mail service superintendents has also been paid for out of this item.

It is the first time that a deficiency in this appropriation has occurred in several years, and it could have been avoided if the returns of the postmasters to the Auditor were readily accessible at the end of each quarter. The estimate for this item for the next fiscal year has been placed at \$65,000, an increase of \$10,000, or 18 per cent., over that of the current year, and I know of no good reason why that appropriation should not be made.

#### MISCELLANEOUS AND INCIDENTAL ITEMS.

The following were the estimates, appropriations, and expenditures for these items during the two past fiscal years:

	1880-'81.	1881-'82.	Increase.	Decrease.
			<i>Per cent.</i>	<i>Per cent.</i>
Estimates .....	\$90,000 00	\$100,000 00		
Appropriations .....	85,000 00	90,000 00	5.88	
Expenditures .....	80,989 15	68,594 70		15.30

The appropriation for the present fiscal year is \$90,000, or the same as for the last year, and is but \$5,000, or 5.88 per cent., greater than that for the year ended June 30, 1881. It will be perceived that the expenditures for the past fiscal year were \$12,394.39, or 15.30 per cent., less than for the year previous. This was mainly due to the fact that the expenses for the miscellaneous and incidental items of the railway mail service, heretofore charged to this office, were, during the last half of that fiscal year, transferred to the accounts of the Second Assistant Postmaster-General's office, in the absence of any specific appropriation therefor. Nevertheless I do not anticipate that the expenditures for these items will again be as low as they were during the past year.

The same necessity exists as heretofore for the rental of telephones, for telegraphic communications, and the many other expenses incidental to the proper dispatch of business in post-offices, and must necessarily increase in proportion as the country expands and the postal business increases. Post-offices cannot be successfully conducted without the numerous little appliances to facilitate business which are ordinarily seen in other large public and private establishments; and I have therefore estimated the amount necessary for these items for the next fiscal year at \$90,000, or the same as appropriated for the present year.

## BLANK AGENCY.

Some time prior to my report of last year this division of the department was detached from this bureau and assigned by the Postmaster-General to his office; hence no estimates were then prepared by me for its appropriations.

The division having been since restored to the office of the First Assistant Postmaster-General, the estimates for its service are again submitted by that officer.

## WRAPPING-PAPER.

The estimates, appropriations, and expenditures for this article for the two past fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.	Decrease.
			Per cent.	Per cent.
Estimates.....	\$20,000 00	\$20,000 00		
Appropriations.....	20,000 00	20,000 00	25	
Expenditures.....	24,900 00	19,993 50		19.70

The appropriation for this item for the current fiscal year is \$22,000, or 10 per cent. over the expenditures of the last year.

In anticipation of a deficiency for this article during the past year, an additional appropriation of \$5,000 was asked for. It was not given, however, until very late in the session (August 5, 1882), and consequently was not available during the fiscal year. It will be observed that the expenditures for the fiscal year 1880-'81 were \$4,906.51 greater than for the last year, which was owing to the greater demand by postmasters for wrapping-paper, and a higher contract price for the article.

To meet the possible increase in the price of wrapping-paper, and to provide for the additional demand, especially for properly preparing packages of registered matter and merchandise for mailing, I have estimated the appropriation requisite for the fiscal year ending June 30, 1884, at \$25,000, or the same as the total amount granted last year, and an increase of 13.63 per cent. over the present appropriation.

## WRAPPING-TWINE.

The following were the estimates, appropriations, and expenditures for this item during the two past fiscal years:

	1880-'81.	1881-'82.	Decrease.
			Per cent.
Estimates.....	\$50,000 00	\$55,000 00	
Appropriations.....	55,000 00	55,000 00	
Expenditures.....	84,603 88	52,764 64	37.64

The appropriation for the present fiscal year is \$55,000, or the same as for the preceding year. It is also an increase of 4.25 per cent. over the expenditures for this article for the last fiscal year. It will be noticed that the expenditures for the year ended June 30, 1881, were \$31,848.74, or 60.37 per cent. in excess of those for the past year. This was mainly due to the high contract price of the article as compared with previous years. Hence it will be seen that an estimate cannot easily be made for a commodity which is so liable to fluctuate in value, but I submit the same estimate for the year ending June 30, 1884, as for the last year,

\$55,000, in the hope that it will be sufficient to cover all contingencies. This amount is the same as the appropriation for the present year.

#### MARKING AND RATING STAMPS.

The estimates, appropriations, and expenditures for these articles for the past two fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.
Estimates .....	\$15,000 00	\$15,000 00	.....
Appropriations .....	12,500 00	15,000 00	\$1,500 00
Expenditures .....	12,499 50	14,144 30	644 80

The appropriation for these items for the current fiscal year is the same as for the last one, \$15,000, and exceeds the expenditures for the past year in the sum of only \$855.70.

The expenditures for the fiscal year just closed were but \$644.80 greater than those for the year previous. It will therefore be perceived that the recent appropriations for the above articles have not been at all extravagant.

I have estimated the appropriation necessary for these items for the fiscal year ending June 30, 1884, at \$25,000, an increase of \$10,000, or 66 $\frac{2}{3}$  per cent., over that for the present year; and have done so for the following reasons:

By the postal regulations it is necessary that the gross receipts of a post-office should be \$50 per annum to entitle it to receive a letter balance and a marking and rating stamp at the expense of the department. This regulation has been productive of much inconvenience both to the postmaster and the public, and has undoubtedly been the cause of considerable loss of revenue to the department, from the failure of the postmaster to properly weigh, rate up, and cancel the postage-stamps upon the mailable matter deposited in his office. The number of post-offices so deprived of these facilities for postal business is estimated at 10,000, and at these offices such stamps as are used have been paid for by the postmaster.

The Postmaster-General having called the attention of Congress to this matter, an appropriation of \$35,000 was made at the last session for the purpose of partially remedying it, and already under the law about 800 fourth-class offices have been supplied "with the necessary implements for canceling stamps and weighing and postmarking mail matter," the limit being the value of \$5 to each office. Itemized, this expense is about as follows:

Scales .....	\$2 80
Stamp .....	79
Pad .....	60
Ink .....	40
Total .....	4 59

The above appropriation for this purpose will therefore supply about 7,000 post-offices, and it is with a view of furnishing the remaining 3,000 with these implements, and also supplying all new offices with these materials, that the increase of \$10,000 is in part asked for. Postmasters at many of the larger offices also frequently request to be furnished with new marking and rating stamps, in consequence of the old ones having become damaged or inaccurate. Ordinarily these stamps have to be renewed in all offices after from two to four years' use.

The following were the estimates, appropriations, and expenditures for these items for the two past fiscal years:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$10,000 00	\$10,000 00	
Appropriations .....	8,000 00	10,000 00	25.00
Expenditures .....	7,997 80	10,000 00	25.03

The appropriation for these articles for the current fiscal year is \$15,000, or 50 per cent. more than for the previous one, and it is likewise 50 per cent. more than the expenditures for the past year, which exceeded those of the fiscal year 1880-'81 in the sum of \$2,002.20, or 25.03 per cent.

In my remarks above in connection with a largely increased estimate for the articles of marking and rating stamps, I have substantially assigned reasons why a much larger appropriation should also be made for letter-balances, scales, and test-weights. I therefore consider further explanation unnecessary for submitting an estimate of \$25,000 for these items. This is an increase of \$10,000, or 66 $\frac{2}{3}$  per cent., over the present appropriation, and, in my opinion, is fully justified by the benefit expected to be conferred upon the department if it shall be given.

#### INK FOR STAMPING AND CANCELING PURPOSES.

This item has not been before included in the regular estimates.

In pursuance of the policy adopted at the last session of Congress with reference to fourth-class offices, alluded to above in my estimate for marking and rating stamps, I am of the opinion that it should hereafter be annually mentioned as necessary. In order, therefore, that post-offices now denied this article at departmental expense may be supplied therewith, I have to suggest that \$10,000 be asked for this item for the next fiscal year.

In this connection I desire to say, that of the many articles used by postmasters in the transaction of their business, none is of comparatively more value in its relations to the revenue of the department than ink for stamping and canceling purposes. Unless it is of superior quality, and uniformly used, many irregularities must occur in postal matters, and the proceeds of the sales of many stamps must be neutralized by their imperfect cancellation. I am aware that the matter of procuring an ink suitable in color, and at the same time indelible, and furnishing it without expense to all postmasters for use in their postal business, has been many times under consideration by the department. Postmasters at first and second class offices have found it absolutely necessary to use the best quality of ink they could procure, and their returns for the expense of the same have been made and allowed in their quarterly accounts. Postmasters at many other offices have been in the habit of furnishing, at their own expense, stamping ink of various colors and grades, which in many instances have not proved at all suitable for the purpose. Under these circumstances I consider that if Congress would give its attention to this matter, and authorize the Postmaster-General to expend a suitable amount of money for the purchase of a proper ink for canceling purposes, to be used in all post-offices, such

action would be of inestimable benefit to the department. I hope that you will take occasion to recommend that this be done.

#### PADS FOR STAMPING AND CANCELING PURPOSES.

This item has not before been estimated for in the usual manner. The provision made for their purchase at fourth-class offices, referred to under the head of marking and rating stamps, necessitates an estimate for them for the next fiscal year. I suggest that \$10,000 be appropriated for these articles, as they are a necessary accompaniment wherever stamping ink is used for canceling purposes.

#### DEPARTMENTAL PRINTING, BINDING, ETC.

The estimate for this item for the next fiscal year has been prepared in this office, and forwarded by the Postmaster-General to the Secretary of the Treasury, in accordance with the previous practice.

#### DEPARTMENTAL STATIONERY.

The estimate for this item has been prepared, and will be addressed, according to custom, to the Postmaster-General, who will include it in the statement to be submitted by him relative to estimates for other departmental expenses for the next fiscal year.

The aggregate of the above estimate is, as before stated, \$19,369,091.25, which is \$2,227,091.25, or 12.99 per cent., more than the appropriations for the current fiscal year.

A tabular statement, marked E, will be found appended to these estimates, giving further information in regard to them.

#### SUMMARY.

Estimate for 1881-'82, \$15,135,000.

Estimate for 1882-'83, \$16,777,000; increase, \$1,642,000, or 10.80 per cent.

Estimate for 1883-'84, \$19,369,091.25; increase, \$2,592,091.25, or 15.45 per cent.

Appropriation for 1881-'82, \$16,257,206.88.

Appropriations for 1882-'83, \$17,142,000; increase, \$884,793.12, or 5.44 per cent.

Expenditures for 1880-'81, \$15,138,650.66.

Expenditures for 1881-'82, \$16,141,035.31; increase, \$1,002,384.65, or 6.62 per cent.

In closing the above statement, it is proper to say that unless the original appropriations for the past fiscal year had been, in some instances, considerably increased by subsequent legislation during the last session of Congress, the postal business, so far as the allowances of this bureau for the service are concerned, could not have been conducted so satisfactorily as it has been. I hope that an equally liberal spirit will be manifested by Congress in the consideration of the present estimates, and that there will be no hesitation among the members of that body in doing all that seems reasonable and proper to aid in promoting the efficiency of the postal service by granting the enlarged appropriation asked for.

Very respectfully,

FRANK HATTON,  
*First Assistant Postmaster-General.*

Hon. T. O. HOWE,  
*Postmaster-General.*

Recapitulation of estimates for the fiscal year ending June 30, 1894, for the office of the First Assistant Postmaster-General.

Items.	Expenditures for 1889-'91.	Appropriations for 1891-'92.	Expenditures for 1891-'92.	Increase of expenditures in 1891-'92 over 1890-'91.	Estimates for 1892-'93.	Appropriations for 1892-'93.	Estimates for 1892-'94.	Increase of estimates for 1893-'94 over appropriations for 1892-'93.

‡ Decrease.

D.

POST-OFFICE DEPARTMENT,  
OFFICE OF THE SECOND ASSISTANT POSTMASTER-GENERAL,  
*Washington, D. C., October 18, 1882.*

SIR: I beg leave to submit estimates of amounts required for the transportation of mails and items incident thereto for the fiscal year ending June 30, 1884, in answer to your note of the 2d instant.

## STAR SERVICE.

The cost of star service for the year ending 30th June, 1882, was \$5,553,849, which is \$1,403,506 less than the cost on the 30th June, 1881, being a reduction of more than 20 per cent.

The reletting of the service in the Pacific section for the contract term commencing July 1, 1882, has resulted in a very large reduction in the cost of this service compared with the cost on June 30, 1882, sufficient, in the opinion of this office, to cover the cost of a liberal service on star routes for the present year and also for the ensuing year. The estimate for this item for 1884 is set down at \$5,500,000.

## STEAMBOAT SERVICE.

The cost of the steamboat service on the 30th June, 1882, was \$574,019, a decrease compared with the cost for the previous year of \$179,148. The requirements of the public may involve additional steamboat service, and it is deemed expedient to estimate the cost for 1884 at \$700,000.

## MAIL-MESSENGER SERVICE.

The cost of mail-messenger service for the year ending June 30, 1882, was \$724,207, or equivalent to \$7.20 for every mile of railroad service. Upon the same basis the cost for 1884 will be \$850,000, and the estimate is placed at this sum.

## RAILROAD SERVICE.

The cost of railroad transportation on the 30th of June, 1882, (audited statement), was \$10,248,515, and new service remaining unpaid at the same date amounted to 3,464 miles, which will probably involve an additional expenditure of \$125,000, making the total cost about \$10,373,515, which is \$830,360 more than the cost to June 30, 1881. The increase in the mileage and rates of pay for the current fiscal year is not estimated for at as great a rate of increase as is shown between 1882 and 1881, for reasons that were explained in the last annual report, hence the appropriation for the present year is fixed at \$11,130,000. The reasons which formed the basis of that appropriation will not apply for the ensuing year, consequently the estimated rate of increase is somewhat greater. The appropriation for 1883, \$11,130,000, is accepted as the sum nearest to that which will be needed for 1884, and \$870,000 added for increase of rates on old routes, and for new service, making a total of \$12,000,000, which is 7.81 per cent. over the appropriation for 1883, and a little more than 14 per cent. over the cost and estimate for new service for 1882.

## RAILWAY POST-OFFICE CARS.

The increased cost of the railway post-office service for 1882 over 1881 was \$100,000. The appropriation for the present year is \$1,526,000. It is estimated that \$100,000 in addition to that service, or \$1,626,000, will be sufficient for this item for 1884.

## SPECIAL FACILITIES.

The appropriation for "special facilities" on the great lines for the current year is \$600,000. It is not clear that the discontinuance of the service secured by this expenditure would not result in injury to the public, and for this reason I suggest that a like sum, \$600,000, be appropriated for this item for 1884.

## MAIL EQUIPMENT.

The expenditures for mail-bags, mail-catchers, and mail locks and keys, and the necessary repair of the same, absorbed the entire appropriation for these items, \$200,000 and \$25,000, for the year ending June 30, 1882. The rapid extension of the railroad system, the increased frequency of mails on railroad routes, and the large number of post-offices established on such lines render an increase in appropriation necessary for 1884. The estimate is therefore placed for mail-bags and mail-catchers at \$220,000; mail locks and keys, \$20,000.

## RAILWAY POSTAL CLERKS.

The amount provided for railway postal clerks for the current year, by act July 31, 1882, is \$371,000. The rate of increase for the past six years has been 7.20 per cent. Estimating the cost upon the same basis, the amount required for 1884 will be \$3,977,120.

## RECAPITULATION.

For star service.....	\$5,500,000
For steamboat service.....	700,000
For railroad service.....	12,000,000
For railway post-offices.....	1,626,000
For special facilities.....	600,000
For mail-messenger service.....	850,000
For mail-bags and mail-catchers.....	220,000
For mail locks and keys.....	20,000
For railway postal clerks.....	3,977,120
For miscellaneous items.....	1,000

Very respectfully,

RICH'D A. ELMER,  
Second Assistant Postmaster-General.

Hon. A. D. HAZEN,  
Third Assistant Postmaster-General.

## E.

## EXPLANATION OF ESTIMATES OF APPROPRIATIONS FOR THE OFFICE OF THE THIRD ASSISTANT POSTMASTER-GENERAL FOR THE FISCAL YEAR ENDING JUNE 30, 1884.

## I.—ADHESIVE POSTAGE STAMPS.

For manufacture of ordinary postage stamps, of official stamps, of newspaper and periodical stamps, and of postage-due stamps.....	\$130,000 00
The number of these stamps issued during the fiscal year ended June 30, 1882, was .....	1,130,470,088
Add 12 per cent. for increase.....	135,656,410
Gives estimated issue for fiscal year ending June 30, 1883.....	1,266,126,498
Add 12 per cent. for increase, as before.....	151,935,179
Gives estimated number required for fiscal year ending June 30, 1884..	1,418,061,677
Cost of manufacturing that number at present contract price, 9.19 cents per thousand.....	\$130,319 86

The increase in the number of adhesive stamps of all kinds issued during the fiscal year ended on the 30th June last was a little over 17 per cent., but this rate of increase was an abnormal one, due in part to an unusual prosperity in the business interests of the country, and in part to a special cause which was explained in the report of last year (pp. 354 and 361, Report of Postmaster-General for 1881). Under ordinary conditions it would hardly be reasonable to expect an annual increase of more than 12 per cent., and accordingly the issues of the last year have been augmented at that rate to arrive at the probable number required for the ensuing fiscal year. The present contract does not expire until the 30th June, 1885, and this estimate has consequently been governed by existing prices. The estimate has, however, been placed in even figures at \$130,000. The appropriation for the current year is \$109,000; but from present indications this amount will hardly be sufficient to meet the demands of the year.

## II.—POSTAGE-STAMP AGENCY.

For pay of agent and assistants to distribute stamps, and for expenses of the agency.....	\$8,100 00
---	------------

This estimate agrees in amount with the appropriation for the present year.

## III.—STAMPED ENVELOPES, NEWSPAPER WRAPPERS, AND LETTER SHEETS.

For manufacture of stamped envelopes, newspaper wrappers, and letter sheets .....	\$632,000 00
The cost of the stamped envelopes and wrappers issued during the fiscal year ended June 30, 1882, at the prices in the contract which took effect October 1, 1882, would amount to .....	477,960 08
Add 15 per cent. for increase.....	71,694 01
Gives estimated cost at same prices for fiscal year ending June 30, 1883..	549,654 09
Add 15 per cent. for increase, as before.....	82,448 11
Gives estimated cost for fiscal year ending June 30, 1884 .....	632,102 20
The appropriation for the current year is.....	547,000 00

The actual cost of stamped envelopes and wrappers issued during the last fiscal year was \$510,399.45; but a new contract was entered into for

four years from the 1st of October, 1882, at an average reduction of nearly 7 per cent. in previous prices, and the calculations in this estimate have accordingly been made upon the basis of the new prices. The increase in the number of envelopes and wrappers issued during the last fiscal year over that of the previous year was nearly 13 per cent.; but as the reduced prices are likely to largely augment the demand, allowance has been made for an annual increase of 15 per cent. in the issues. By law the cost of procuring stamped envelopes is added to the postage value in fixing the schedule of prices to the public, and the expenditure under this head is consequently refunded to the government when the envelopes are sold. Authority was granted by the sundry civil appropriation act passed at the late session of Congress to use the appropriation for stamped envelopes for the current year for the purchase of stamped letter sheets (combined letter sheet and envelope) not previously furnished. No arrangements have as yet been made for procuring these articles, but they may be introduced before the close of the year, and in view of that event it is deemed advisable to include them in the estimate for stamped envelopes for the coming year.

## IV.—STAMPED-ENVELOPE AGENCY.

For pay of agent and assistants to distribute stamped envelopes and newspaper wrappers, and for expenses of agency ..... \$16,000 00

This estimate agrees in amount with the appropriation for the present fiscal year.

## V.—POSTAL CARDS.

For manufacture of postal cards ..... \$253,000 00

The total number of postal cards issued during the fiscal year ended June 30, 1882, was ..... 351,498,000  
Add 15 per cent. for increase..... 52,724,700

Gives estimated number for year ending June 30, 1883 ..... 404,222,700  
Add 15 per cent. for increase..... 60,633,405

Gives estimated number for year ending June 30, 1884 ..... 464,856,105

The cost of manufacturing these articles at the present contract price of 54.43 cents per thousand, is ..... \$253,021 17  
The appropriation for the present fiscal year is ..... 242,000 00

The issue of postal cards has fluctuated widely during the past few years. For 1879 the ratio of increase was 10.55 per cent.; for 1880, 22.80 per cent.; for 1881, 13.20 per cent.; and for 1882, 13.90 per cent. It will probably be sufficient to allow for an annual increase of 15 per cent., as has been done in the foregoing estimate. The present contract is for four years, ending on the 30th June, 1885.

## VI.—POSTAL-CARD AGENCY.

For pay of agent and assistants to distribute postal cards, and for expenses of the agency ..... \$7,300 00

This estimate agrees with the present appropriation.

## VII.—REGISTERED-PACKAGE, POST-OFFICE, AND DEAD-LETTER ENVELOPES.

For registered-package, post-office, and dead-letter envelopes ..... \$140,000 00

The registered-package envelopes are large manila envelopes used for inclosing registered letters and other registered matter for safer transmission; the post-office envelopes are for the use of postmasters in

their official correspondence, and the dead-letter envelopes are used for returning letters from the dead-letter office to the writers. The contract for these envelopes is awarded for one year only, beginning on the 1st of July of each year, and present prices therefore afford no absolute criterion in making estimates for future appropriations. The prices for the year ended on the 30th of June last were unusually low, so that the issues cost only \$72,474.53. At the prices in the contract for the present year the same issues would have cost \$98,173.83. The total number of these various kinds of envelopes issued during the fiscal year ended on the 30th of June last was 35,581,550, an increase of 6,783,100, or 23.5 per cent., over the issues of the previous year.

At the same rate of increase for the present and next fiscal years the issues for the year ending June 30, 1884, would number 54,269,869, and would cost, on the basis of existing contract prices, \$149,737.17. Allowing for an increase of 20 per cent. in the issues, the cost at present prices would amount to \$141,370.31. The major portion of the appropriation is expended for envelopes for registry business, and for several years past this service has been increasing very nearly at the rate of 20 per cent. per annum. It is proper to say that the contract for these envelopes, like that for stamped envelopes, has been awarded to the lowest bidder, after public advertisement, and upon samples furnished by the department. The estimate is placed in even figures at \$140,000. The appropriation for the current year is \$110,000.

#### VIII.—SHIP, STEAMBOAT, AND WAY LETTERS.

For ship, steamboat, and way letters ..... \$1,500 00

By law (sections 3913, 3976, 3977, 3978, Revised Statutes) this appropriation is necessary for the payment to masters or owners of vessels not regularly engaged in transporting the mails, for letters brought and delivered to post-offices on arrival in port for transmission to destination. The parties receiving the letters are required to pay, in addition to the regular postage, the amounts paid to said masters or owners, which amounts are consequently refunded to the department. The expenditure for the last fiscal year was \$1,444.38, for 1881 it was \$990.95, and for 1880 it was \$1,355.51. The appropriation for the current year is \$1,500, and the estimate for the next fiscal year is placed at the same figures.

#### IX.—ENGRAVING, PRINTING, AND BINDING DRAFTS AND WARRANTS.

For engraving, printing, and binding drafts and warrants ..... \$2,000 00

This appropriation is for the purchase of warrants and drafts used for payments to creditors, transfers of funds to and from postmasters, and collections of balances due the department. The warrants and drafts are prepared and furnished by the Bureau of Engraving and Printing of the Treasury Department. The expenditure on this account during the last fiscal year was \$1,644.35; and in view of the manifestly increasing needs the estimate for the ensuing year is placed at \$2,000.

#### X.—MISCELLANEOUS.

For miscellaneous items ..... \$1,000 00

This estimate is for the same amount as the appropriation for the current fiscal year.

*Comparison of appropriations for the office of the Third Assistant Postmaster-General for the year ending June 30, 1883, with estimates for the year ending June 30, 1884.*

Items.	Amount appropriated year ending June 30, 1883.	Estimate for year ending June 30, 1884.	Increase of estimates.	
			Amount.	Per cent.
Adhesive postage-stamps .....	\$102,000	\$130,000	\$28,000	27.5+
Postage-stamp agency .....	8,100	8,100		
Stamped-envelopes and wrappers .....	547,000	632,000	85,000	15.5+
Stamped envelope agency .....	16,000	16,000		
Postal cards .....	242,000	258,000	16,000	6.6+
Postal-card agency .....	7,300	7,300		
Registered-package, post-office, and dead-letter envelopes .....	110,000	140,000	30,000	27.2+
Ship, steamboat, and way letters .....	1,500	1,500		
Engraving, printing, and binding drafts and warrants .....	1,500	2,000	500	33.3+

<b>Total .....</b>	<b>1,048,400</b>	<b>1,190,900</b>	<b>142,500</b>	<b>13.6+</b>

Respectfully submitted to the Postmaster-General.

A. D. HAZEN,  
*Third Assistant Postmaster-General.*

OFFICE OF THIRD ASSISTANT POSTMASTER-GENERAL,  
October 23, 1882.

F.

POST-OFFICE DEPARTMENT,  
OFFICE OF FOREIGN MAILS,  
Washington, D. C., October 13, 1882.

SIR: Referring to your letter of the 2d instant, I have the honor to inform you that the amounts estimated as required to be appropriated for the foreign mail service for the fiscal year ending June 30, 1884, are as follows:

For transportation of mails .....	\$350,000 00
For balance due foreign countries, including the United States' portion of the expenses of the International Bureau of the Universal Postal Union, and the subscription of the department for the monthly journal ( <i>L'Union Postale</i> ) of that bureau .....	60,000 00
<b>Total .....</b>	<b>410,000 00</b>

I am, very respectfully, your obedient servant,  
JOSEPH H. BLACKFAN,  
*Superintendent of Foreign Mails.*

Hon. A. D. HAZEN,  
*Third Assistant Postmaster-General.*

**FIRST ASSISTANT POSTMASTER-GENERAL**

**FOR THE**

**FISCAL YEAR ENDED JUNE 30, 1882.**

---

# REPORT

## OF THE

### FIRST ASSISTANT POSTMASTER-GENERAL.

---

POST-OFFICE DEPARTMENT,  
OFFICE OF FIRST ASSISTANT POSTMASTER-GENERAL,  
*Washington, D. C., October 30, 1882.*

SIR: The past fiscal year was notable for the transaction of a larger amount of business in every division of this bureau than in any preceding year. The number of offices established, the number of cases acted upon, and the number of letters and petitions received, indorsed, answered, and filed were considerably in excess of those of any previous year, and give indication not only of the remarkable development of the country, but of the eagerness with which postal facilities are sought for as the population increases and expands. The disposition of this office to aid the public in granting their requests for new offices, or for enlarged and better opportunities for postal business, has been such that probably less dissatisfaction has been experienced by applicants during the past year than for any other similar period.

The following statements constitute a summary of the work performed in each division of the bureau; but it is well known that no such presentations can convey an accurate idea of the amount of work disposed of, on account of the very large part which would hardly admit of classification:

#### POST-OFFICES ESTABLISHED AND POSTMASTERS APPOINTED.

Number of offices established during the year .....	3, 166
Number discontinued .....	1, 447
Increase .....	1, 719
Number in operation June 30, 1881 .....	44, 512
Number in operation June 30, 1882 .....	46, 231
Number filled by appointment of the President .....	1, 951
Number filled by appointment of the Postmaster-General .....	44, 280

#### Appointments were made during the year—

On resignations and commissions expired .....	7, 346
On removals .....	1, 021
On change of name and sites .....	349
On deaths of postmasters .....	461
On establishment of new post-offices .....	3, 166
<b>Total appointments .....</b>	<b>12, 343</b>
<b>Number of cases acted upon during the year .....</b>	<b>14, 340</b>

## APPOINTMENT DIVISION.

Number of cases of all kinds made up .....	14, 760
Number of cases acted upon affirmatively .....	14, 340
Number of cases declined .....	525
Number of queries sent out affecting the establishment, discontinuance, &c., of post-offices .....	6, 443
Number of circulars of inquiry, &c., mailed .....	33, 785
Number of letters written .....	3, 251
Number of cases referred to other bureaus of the department or to corre- spondents for information .....	18, 001
Number of Presidential cases acted upon .....	826
Number of officers placed in charge of sureties on account of death of post- master or for other causes .....	226
Number of letters, petitions, and other papers received, indorsed, and filed.	116, 732
Number of clerks in the division .....	13

It became necessary during the past year, in consequence of the increase of the business of this division, to enlarge its force by the addition of two clerks, so that its employes now number thirteen. Their salaries have also been so far equalized that, with the exception of the principal clerk and one other, they are all of the third class.

## BOND DIVISION.

The increase of work in this division during the past year was uniformly steady, and at the same time indicative in many respects of the prevalence of more intelligence and aptitude for business among those appointed as postmasters. While more bonds were sent out to post-office inspectors for investigation, fewer were returned than last year as insufficient. A smaller number of bonds were also returned to postmasters for correction than for some years; and, though the number of money-order offices established during the year was considerably larger than for any other similar period, greater promptitude in the execution of the necessary papers by the postmasters has never been shown.

The following summary exhibits the principal features of the work performed:

Number of entries made upon the books of the division .....	49, 737
Number of cases received for which appointment and other papers were mailed.	14, 330
Number of circulars sent calling for the execution of new bonds .....	1, 304
Number of surety circulars sent to chief post-office inspector for report .....	1, 750
Number of blank assistant and clerks' oaths sent by request of postmasters...	9, 720
Number of new bonds sent by request of postmasters .....	413
Number of new bonds sent by request of the Third Assistant Postmaster-Gen- eral for increase of penalty .....	286
Number of new bonds sent for establishment of new money-order offices .....	509
Number of circulars sent to sureties who requested to be released from bonds.	452
Number of letters received from sureties requesting to be released as bonds- men .....	452
Number of cases in which post-office inspectors recommend new bonds .....	80
Number of circulars sent to sureties notifying them of postmasters' failure to deposit or pay contractors .....	1, 379
Number of new bonds received .....	1, 447
Number of reports received from post-office inspectors on validity of bonds ...	1, 675
Number of postmasters', assistant postmasters', and clerks' oaths received, in- dorsed, and filed .....	27, 540
Number of bonds and oaths returned for correction .....	2, 961
Number of bonds examined and passed for commissions .....	11, 978
Number of bonds filed .....	12, 465
Number of corrections in postmasters' names reported to corresponding clerks.	1, 025
Number of commissions mailed to postmasters .....	11, 978
Number of letters written .....	350

Number of cases reported to report clerk.....	14,340
Number of established cases reported to Blank Agency.....	3,166
Number of Presidential cases for which appointment papers were forwarded..	826
Number of circulars sent to postmasters accompanying new bonds ..	2,249
Number of circulars sent calling for the execution and return of new money-order bonds .....	450
Number of circulars sent for appointments, establishments, change of names, and sites, and discontinuances .....	22,408
Number of copies of postal laws and regulations forwarded.....	3,957
Number of new bonds sent to postmasters on report of post-office inspectors ..	80
Number of clerks in the division .....	13

The increased amount of work in this division necessitated a partial rearrangement of the clerical force during the year. The duties of each clerk were made somewhat more specific, and the changes have proved to be very beneficial. The labor of the division is now performed more acceptably than at any previous time, and with more convenience to the clerks of other portions of the department who have occasion to refer to the records of the division.

Accompanying this report will be found tables marked A and B, giving additional information concerning the operations of the appointment and bond divisions.

#### THE FREE DELIVERY SYSTEM.

This system employed during the year 3,115 letter-carriers in 112 of the principal cities, being an increase of 254 carriers and of 3 free delivery offices, viz: Augusta, Me., Burlington, Vt., and Concord, N. H.

The total amount appropriated (including a special appropriation of \$25,000) was \$2,625,000 against \$2,500,000 for the preceding year. The total cost of the service was \$2,623,262.74, leaving \$1,736.26.

The increased cost of the service as compared with the preceding year was \$123,351.20.

#### POSTAGE ON LOCAL MATTER.

The aggregate postage on local matter at all the free delivery offices was \$3,816,576.09, being \$542,945.70 more than for the previous year, and \$1,193,316.45 more than the cost of the service; a per centum increase in postage on local matter of 16.50, and 4.93 increase in the cost of the service.

The average cost per piece of handling matter was 2.3 mills, a decrease of one-tenth of a mill as compared with the preceding year. The average cost per carrier (computed on pay of carriers and incidental expenses) was \$835.75, a decrease of \$37.79.

It should be observed in this connection that the expenses are compared with the postage on local matter alone, which constitutes only about 33 per cent. of the matter handled by carriers, and that while frequent deliveries and collections, affording means of speedy receipts and reply to letters, largely increase local correspondence in populous centers, they no doubt increase the number of mail letters as well, for which this service receives no credit. These facilities preclude competition from private enterprises and lead the bulk of correspondence into the post-office. Large private express companies, through which local correspondence was principally carried on in New York and Philadelphia, when this service was established, and for several years afterwards, have been discontinued by reason of the greater and cheaper facilities afforded by this mode of delivery.

While this service meets the general demands of business and social life, it falls short of meeting the urgency required in cases of emergency, and hence has grown up the American Messenger Service in our principal cities, which dispatches letters on the instant by boys employed for the purpose at small compensation. This competition can only be met by using the same means and methods. As these companies are becoming more formidable year by year, and hence it must be assumed that their business is remunerative, it is recommended that steps be taken to procure the necessary legislation, and that the experiment be tried in in one of the large cities. Should it prove successful it may then be extended to other cities.

Additional information concerning the operations of the free delivery division will be found in the table marked C, appended to this report.

### SALARY AND ALLOWANCE DIVISION.

#### BIENNIAL ADJUSTMENT OF THE SALARIES OF PRESIDENTIAL POSTMASTERS.

In accordance with the law the biennial adjustment of the salaries of Presidential postmasters, or postmasters at offices of the first, second, and third classes, was made upon the basis of the business at their respective offices for the four quarters ended March 31, 1882, the salaries being fixed to take effect from July 1, 1882.

Two thousand and twelve adjustments were made, an increase of two hundred and forty-eight, or 14 per cent., as compared with the previous adjustment.

These returns, coming from postmasters from all parts of the Union, showed a very gratifying and general increase of business, especially in the West and South; and the additional sum necessary to pay the increased salaries of postmasters, including three hundred and thirty-five special adjustments made during the year, amounts to \$563,400, or 18.14 per cent. more than last year.

*Work done and amounts allowed in the salary and allowance division during the year.*

Items fiscal year 1881-1882.	Number.	Amounts.
Number of letters received .....	8,808	.....
Number of letters written .....	7,398	.....
Number of circular letters sent out .....	13,503	.....
Number of allowances for clerk hire made .....	2,280	\$3,908 39¢ 00
Number of allowances for clerk hire declined .....	1,694	.....
Number of allowances for rent, fuel, and light made .....	499	401,978 04
Number of allowances for rent, fuel, and light declined .....	171	.....
Number of allowances for miscellaneous items made .....	3,177	68,594 76
Number of allowances for miscellaneous items declined .....	855	.....
Number of allowances for furniture made .....	258	20,716 64
Number of allowances for furniture declined .....	244	.....
Number of allowances for stationery made .....	2,628	56,517 28
Number of allowances for stationery declined .....	918	.....
Number of allowances for advertising, third and fourth quarters of 1882 .....	21	5,990 50

Number of leases in operation .....	313	.....

\* Increase as compared with past fiscal year.

*Work done and amounts allowed in the salary and allowance division—Continued.*

Items fiscal year 1881-1882.	Number.	Amounts.
Miscellaneous.....	29	2,486 13
Rent, light, and fuel.....	26	0,091 00
Furniture.....	8	313 25
Stationery.....	15	131 47
Average number of employes.....	4	

In addition to the above a large amount of routine and special work was performed during the year.

This is one of the most important divisions of this office, and among the duties assigned to it are the supervision and the adjustment of the salaries of Presidential postmasters, or postmasters at offices of the first, second, and third classes; the examination of the quarterly returns or accounts of the said postmasters before they are finally passed by the Auditor of the Treasury for the Post-Office Department; the consideration of applications for allowances for clerk hire, rent, fuel, light, stationery, furniture, and miscellaneous expenditures, and also the adjustment and regulation of the salaries and duties of the clerical forces necessary for the proper transaction of the postal business in the larger offices.

I have endeavored during the past year to increase the efficiency of this division, and extend its operations to some details in post-office matters properly within its sphere, but to which attention had not heretofore been systematically directed. This has been particularly the case in the matter of revenues derived from box-rents. I found the method of collecting and accounting for such moneys very imperfect, owing largely to the indifference and carelessness of a large number of postmasters in making returns for the same; and in order to correct this evil a new system has been adopted, which was put into operation July 1 last. Under the new system each postmaster at offices of the first, second, and third classes is furnished with a small book, with necessary blank receipts with stubs to correspond, and when a box or drawer is rented the renter receives a receipt for the amount paid for the same, and the stub, when filled out and returned with the sworn statement of the postmaster at the end of the quarter, serves to show to the Auditor the name of the person renting the box or drawer, the number, and the amount of rent paid for it, and the time for which it was rented. This plan is in my opinion a great improvement upon the old one, and it has already been found to work advantageously both to the patrons of the offices and the department, and therefore an increase in the revenue from this source may reasonably be expected in the near future.

A more difficult matter in this connection I have found to be the perfecting of an arrangement or scheme by which the box-rents at the larger offices shall be adjusted or equalized so as not to do injustice to the patrons nor deprive the department of a proper equivalent for the benefits extended; and I hope, in a short time, to find a solution of the matter which will give satisfaction in each city, and, at the same time, materially contribute to an increase of the receipts from this source. Heretofore this matter has been left to the discretion of the postmasters, with only a partial supervision of the department.

As you well know, a great difficulty has always been experienced in regulating the different allowances, especially for clerical services, in many of the larger offices, so that no injustice would be done to any of

them; and the business of receiving and dispatching the mails would, at the same time, be properly performed.

During the past year, in order to overcome this difficulty, which is greatly increased in consequence of the unexampled growth of postal business at many of these offices, and the consequent necessity for additional allowances for clerk hire in them, you directed the formation of a commission, to be composed of individuals experienced in postal matters, which should visit the post-offices of the principal cities in the North, East, and West, for the purpose of examining, among other things, into their arrangements for the dispatch of business, and also the necessity for present and future allowances for clerical service.

The duties of the commission were performed under my direction, and, it affords me pleasure to state, with the most satisfactory results. The commission found an inequality in the salaries paid in the different offices for the same class of work. It was also found that salaries were fixed with a view to the parties holding positions, and not with a view to the duties and services attaching to the places. In many of these cases the salaries were considered too high; and, in order to do justice to the overworked and underpaid employés, reasonable reduction was recommended, and, in a few cases where places were found to be mere sinecures, they were abolished altogether, the total amount of such reductions in the eight post-offices visited being \$54,530. In many instances, also, the salaries of industrious and valuable employés were increased to correspond with the importance of the work performed by them.

#### LEASE DESK.

The specific work of the clerk assigned to this desk for the past year may be summarized as follows:

Number of leases prepared .....	33
Number of letters written .....	606
Number of cases referred to the chief post-office inspector for investigation and report .....	88
Number of queries relative to the leasing of buildings for post-offices and stations sent out .....	38
Number of post-office leases, including leases for stations, in operation in the large cities .....	313

Much other clerical service was also performed by this clerk, namely, for the salary and allowance division.

#### LEASES.

In accordance with law no allowance is made for rent except at offices of the first and second classes. Since I took charge of the bureau I have given the matter of leasing buildings for post-offices my most careful attention, and endeavored in every case to procure the most suitable and central buildings, with the best equipments, upon the most favorable terms. I considered this due to the citizens of the communities in which the offices are situated, and also incumbent upon the department as a matter of policy if nothing more; for where the department controls the building, the patrons of the office, of course, expect superior mail facilities, and, as a rule, generally manifest their appreciation of such favors by more liberally patronizing the lock boxes and drawers.

The allowances made for this purpose during the past year were probably greater than for any previous year, as, during that period, at least a dozen buildings have been handsomely and thoroughly fitted up

and leased by the department for post-offices, thus affording, in many instances, accommodations equal to those found in buildings erected and furnished by the government in cities of the same size.

In my opinion the department should encourage the people, where practicable, to offer first-class buildings for post-offices.

#### DIVISION OF POSTAL LAWS AND REGULATIONS.

The following is a summary of work performed in this division :

Number of letters written to postmasters and to private individuals involving decisions under postal regulations and laws during the past fiscal year .....	8,541
Number of telegrams ordering the forwarding of letters to office of First Assistant Postmaster-General, where they are to be held pending investigation as to whether the facts would justify their delivery to the writer. ....	326
Number of newspapers and magazines claiming the right to admission as second-class matter that have been examined and admitted or rejected ..	3,140
Number of rulings made under postal regulations and statutes which were of such general interest to postmasters and the public as to require their publication in the Postal Guide .....	353
Amount of money collected from publishers of second-class matter for violation of law in inclosing third-class matter in second-class publications. \$1,733 55	

This collection was made through the office of the Third Assistant Postmaster-General, upon investigations made in this office.

The increase during the first quarter of the present fiscal year over the corresponding quarter of the preceding year in the correspondence of this office was something over 40 per cent. During the months of January, February, and March last, the correspondence indicated an average of 12,000 letters during the present year. When it is considered that every letter written in this division involves an examination to ascertain exact questions submitted, and the careful preparation of an answer that is in entire conformity with all other rulings which may have been sent to any other postmaster or private individual upon the same subject, some idea may be formed of the labor involved.

The classification of printed matter is one of the most difficult and delicate duties assigned to this division. It is recognized that the law favors the circulation of legitimate newspapers as a means of education, paying for their transportation and distribution largely from the public treasury, but that it is not the policy of the statute to authorize the transportation at the public expense of publications which are intended to promote the general business in which the owners of such publications may be engaged, outside of their legitimate business as publishers. It is also recognized that newspapers cannot exist if deprived of their legitimate local advertising, and that every business which seeks to reach the public through publications whose main purpose is to attract attention to the business interests of the publishers, takes away from the legitimate newspaper this patronage, without which it cannot sustain itself, even aided by the liberality of the government in the matter of transportation. The efforts, therefore, in this office have been persistent in endeavoring to exclude from second-class rates all publications which under the guise of a newspaper are primarily designed for private advertising purposes.

The responsibility which must be assumed in acceding to telegraphic requests from the writers of letters for their return before delivery is no slight matter. Such letters, where the telegraphic request is indorsed by the postmaster at the office of mailing, upon evidence submitted in full, are ordered from the post-office of destination to be forwarded to

this office, where they are held pending the evidence which has been already considered by the local postmaster, and which again passes under careful consideration here before the destination of the letter is determined.

It is believed that the sums of money collected for violation of the law forbidding the inclosure of matter of higher rate in second-class matter has done much to secure compliance with the statute. The sending out of handbills in newspapers is not only a direct violation of the statute, but is believed to deprive the publications in which they are inclosed of much of their legitimate advertising.

A matter of exceeding difficulty is the large number of cases presented, where the same correspondence is claimed by different persons. Such claims are presented where disputes arise as to the legal occupants of an office where an officer of one corporation, having been removed from office or having resigned, has accepted a like position in another corporation; where firms have made assignments with or without special stipulations as to delivery (conditional or unconditional) of their correspondence to their assignees; where receivers have been appointed by courts; where persons of similar names reside in the same locality; where business firms have dissolved, or their assets have been sold under execution. In these and many other cases that might be mentioned, especially where correspondence addressed to banks is thus in dispute, not only the utmost care must be taken to preserve the rights of the parties asserting their claims, but promptness on the part of this office in expressing its opinion becomes essential, the value of the inclosures within the correspondence depending thereon.

The increase of the work of this office is in such a ratio as will render the present corps of clerks entirely unable to successfully and promptly dispose of it.

This large increase in correspondence is due, in my judgment, chiefly to the distribution of the Official Postal Guide monthly to postmasters, and the rulings and instructions thus placed before them have excited an interest in the postal service and secured not only the exercise of enlightened intelligence in the discharge of the duties of their office, but a care to report all failures on the part of other officials. The revenues have been very largely increased by the earnestness of postmasters in collecting the postage fixed by law, and their desire for the proper administration of their offices is exhibited in the constant presentation of new questions as they arise.

There are at present but four clerks in the division, over which the Law Clerk of the department is placed in general charge by direction of the Postmaster-General. I respectfully recommend that there be added to this division a chief, with a salary at least of \$2,250 per annum. There is a class of correspondence which one holding such a position could satisfactorily discharge without special previous training as a lawyer, and it may be possible with such additional force to discharge the duties of this division during the coming year.

It is a satisfaction that, with all the decisions which have been made affecting personal rights and the classification of publications, no postmaster in obeying the instructions issued from this office has involved himself in any legal proceedings.

#### BLANK AGENCY DIVISION.

No reference was made in my report of last year to the work disposed of in this division, it having been transferred a few months before to

the office of the Postmaster-General. Subsequently the division was restored to this office, and a summary of the labor performed during the fiscal year recently ended is therefore presented.

The work of this division for the past fiscal year was of more than usual magnitude.

The greater part of what is termed "department supplies," *i. e.*, the necessary blanks, paper, twine, letter-balances, and stamps to enable postmasters to make up and forward mails, to record and report the same, as well as to account for the business of the offices to the department and to the Sixth Auditor of the Treasury, are sent from this division.

Of these supplies there were forwarded during the last fiscal year as follows:

Blanks for statements and accounts of postmasters.....	48, 176, 950
Books for records of post-office business.....	82, 793
Facing slips for rating up packages.....	32, 736, 600
Marking and rating stamps of all kinds.....	6, 589
Jute twine (pounds).....	443, 102
Hemp twine (pounds).....	116, 439
Cotton twine (pounds).....	5, 733
Letter balances and scales.....	2, 621
Wrapping-paper (reams).....	13, 821

The total appropriations and expenditures for the above articles for the fiscal year were as follows:

Appropriations.....	\$105, 000 00
Expenditures.....	96, 892 53
Leaving a balance of.....	8, 107 47

Additional information concerning the above expenditures will be found in the tabular statement marked D, and appended to this report.

By the act of Congress dated the 4th of May last, provision was made for supplying all post-offices, the gross receipts of which were less than \$50 per annum, with letter-balances, marking-stamps, ink and pads. This legislation was, at most, a necessity, as this class of offices could not, under the terms of the postal laws and regulations, be furnished with these facilities for business at public expense.

It is expected that more than 7,000 offices will, before the end of the present fiscal year, be thus supplied, and their postmasters will be thereby enabled to make up and dispatch the mails with more accuracy and the government be saved a very considerable sum of money from having the mailable matter emanating from these offices carefully rated up and the stamps upon it properly canceled.

It is recommended in the estimates for this bureau that a sufficient sum of money shall be appropriated for the next fiscal year, not only to furnish all other offices of this grade, estimated to be about 3,000 in number, with these appliances, but that the amount shall also be so large as to admit of extending these benefits to all other offices not now in possession, at department expense, of these facilities.

The accounts of this department for the printing, binding, &c., executed at the Government Printing Office are kept in this division. The appropriation for this work for the last fiscal year was \$150,000, of which amount \$130,582.66 was expended.

It should be stated, however, that the amount above mentioned does not include the cost of the work and material for the printing, binding, &c., of the money-order division of this department, which work is also

done at that establishment, as these items are paid for, as they have been for the past two or three years, out of the surplus funds of the money-order office.

The blank-agency division is also charged with the purchase and distribution of stationery for the department, and with the keeping of the accounts of the same with the disbursing officer.

The amount appropriated for this purpose in the executive, legislative, and judicial act for the last fiscal year was \$9,000, of which amount \$8,956.96 was expended.

The estimate for this item is prepared in this office and addressed to the Postmaster-General, who submits it in connection with estimates for other matters pertaining to the department.

Including the superintendent and assistant superintendent the number of employés of the division is 13.

While it does not seem imperatively necessary, I think it would materially contribute toward harmony of arrangement in this bureau if the title of this division should be changed, and the salary appropriations therefor should be made in the usual way, viz, by classes.

The title is now "the blank agency of the Post-Office Department," and the employés are—

	Per annum.
One superintendent, at .....	\$1,800
One assistant superintendent, at .....	1,600
Four assistant superintendents, at, each .....	1,200
Two assistant superintendents, at, each .....	900
One clerk, at .....	1,000
One assistant messenger, at .....	720
Three laborers at, each .....	660

In all thirteen.

I have to suggest, and I hope it will meet your approval, that the title of this division be changed to that of the division of postal supplies, and the salary appropriations for it be hereafter made as follows: For superintendent, \$2,250 per annum; one clerk class 4; one clerk class 3; four clerks class 1; one clerk at \$1,000 per annum; two clerks at \$900 per annum; two assistant messengers; three laborers. In all, fifteen employés.

This will be an addition of two employés, one as superintendent, at \$2,250 per annum, and one assistant messenger, and in amount of salaries \$2,970 more than is now appropriated.

This change would, in my opinion, place the division upon a better footing than it is at present, render the bureau more compact, classify all its employés to better advantage, and promote the interest of the service.

#### LETTER-BOOK CLERKS.

The number of letters recorded during the past year by the two clerks assigned to these desks was 24,444. During the same period the number of papers, references, and circulars directed and mailed by these employés amounted to about 75,000.

#### PRINCIPAL MESSENGER.

All the mail and express matter for the bureau is received and distributed by this employé. The number of letters, papers, requisitions, and packages opened by him during the last fiscal year amounted to 581,932.

Since I have held my present position I have used every opportunity to inform myself as thoroughly as possible regarding the necessary facilities which should be provided by law for the transaction of business to the greatest advantage to the public. I have sought to find how far the present methods of conducting the business were deficient, and what aid could be afforded by additional legislation.

This office now comprises in its practical operations six divisions. They are the appointment, the bond, the salary and allowance, the free delivery, the blank agency, and postal laws and regulations.

Of these divisions there are three through which disbursements are authorized. The salary and allowance division is charged with the disbursement approximately of \$5,000,000. The free delivery division superintends the disbursement of \$3,500,000. The blank agency has charge of the expenditures for printing, binding, stationery, &c., amounting for the past year to \$325,000.

Of all the six divisions only two of them have chiefs recognized by law. Their designation and salaries are as follows: Superintendent free delivery, \$2,100; superintendent blank agency, \$1,800. The other four divisions (appointment, postal laws and regulations, bond, and salary and allowance) have no head or chief recognized by such a term in the law making appropriation for this office, but the business of these divisions is supervised within this office through a clerk of the fourth class (\$1,800 per annum), who is assigned to such duty by me.

Now, while my experience has satisfied me that the work is performed as accurately and satisfactorily as it can be done under existing law, I am very decidedly of the opinion that it would secure still greater efficiency and intelligence in the administration of the different divisions if Congress were to place the responsibility of the proper performance of the different kinds of clerical labor upon officers designated by law, with salaries advanced above that of the ordinary clerical force of the department, and with duties that could be clearly defined by the head of this office. This personal responsibility, with the feeling that there is a recognition of the special efforts made by such chiefs of divisions, will secure greater earnestness in the discharge of duty, and the proper increase of salary in simple justice to those who are so placed in charge of the various divisions.

These considerations have induced me to urge that you should especially call the attention of Congress to the propriety of reorganizing the office of the First Assistant Postmaster-General, so as to create by law divisions to be known as Appointment, Bond, Postal Laws, and Regulations, and the Salary and Allowance, with salaries to the chiefs of such divisions of \$2,250 per annum, and the salaries of the superintendents of Free Delivery and of what has heretofore been known as the blank agency should be increased to that sum. The latter division, in my judgment, would be more properly designated as the division of post-office supplies. If this latter division were recognized by law as belonging to the office of the First Assistant Postmaster-General, its administration would be regulated by the orders of the head of this office, and the clerical force supplied, promoted, or diminished, as the exigencies of the service required; whereas it now needs the specific authority of Congress for any increase of the clerical or laboring force of the blank agency.

I feel assured that if these recommendations should be adopted by Congress it would result in very great benefit to the public service, by promoting discipline and increasing efficiency in the clerical service, which cannot be fully secured without thorough organization in a department covering so vast an extent of territory, and so intimately

related to the daily life of every citizen, where uniformity of administration is of vital importance. It is essential that the lines marking the duties assigned and fixing the jurisdiction of every division of this office should be so clearly drawn that all correspondence can at once be referred to the division to which the subject-matter is assigned.

There is nothing that produces such irritation in the public mind as a feeling that through the postal service absolute equality of rights and privileges is not accorded to every citizen, and unless the chiefs of each division can be assured that the duties which they are called upon to discharge are clearly and distinctly within their jurisdiction, and that they alone are responsible to the head of the office for their discharge, it is impossible to avoid inharmonious rulings and irregular administration over such a territory as is covered by the postal service.

#### STATIONERY FOR POST-OFFICES.

Under the present regulations, stationery for use in post-offices of first and second classes is now purchased by postmasters at their offices in such quantities as are supposed to be necessary, without application being made to the department.

The bills for stationery thus purchased by postmasters, if not considered unreasonable, are allowed in this office and approved and passed by the Auditor. As a consequence of this rule, the prices returned for stationery by the different postmasters vary considerably, frequently for similar articles, and the quantities used often seem excessive. The expenditures for this item during the last fiscal year were \$56,517.28, many of the articles being for the use of post-office inspectors and for superintendents of the railway mail service.

The estimate for the same for the next fiscal year, which has been submitted in the regular way, is \$65,000.

The estimate for the department stationery for the next fiscal year will probably be \$15,000.

I think it would be decidedly in the interest of economy to unite the two items; to advertise for bids for the supply of such stationery as is needed for the department and for post-offices, and when procured distribute it only in moderate quantities and not unless applied for. This, in the main, is the present practice, so far as the departmental stationery is concerned.

If this change should be ordered by you, authority would have to be given by Congress for employing three or four more clerks in this office to attend to the increased business; but as the stationery could then be contracted for in large amounts, I have no doubt it would be procured cheaper than by the present method of paying the current retail rates where each postmaster purchases separately.

As it is my desire that the expenses of this bureau should be reduced wherever practicable, I hope the suggestions in regard to this matter will meet your approbation.

In concluding, permit me to say that it is my conviction that the changes which have taken place among the employés in this office during the past year have resulted in material benefit to the service, and that the labor which the clerical force has been called upon to perform, always large, various in character, and requiring promptness and fidelity, has been, on the whole, satisfactorily attended to. Further, I sincerely hope that the foregoing different statements relative to the disposition of the appropriations intrusted to this bureau, the establishment and discontinuance of post-offices, the extension of the free delivery service,

the benefit derived from the postal commission, and the various other matters referred to, will convince you that the duties devolving upon me have been performed with a desire on my part to deal fairly and justly with all sections of the country.

Very respectfully,

FRANK HATTON,  
*First Assistant Postmaster-General.*

Hon. T. O. HOWE,  
*Postmaster-General.*

## Ea.—EXPLANATION OF ESTIMATES.

POST-OFFICE DEPARTMENT,  
OFFICE OF FIRST ASSISTANT POSTMASTER-GENERAL,  
Washington, D. C., October 23, 1882.

SIR: Agreeably to your request, I submit herewith estimates of the appropriations necessary for the use of this office for the fiscal year ending June 30, 1884, under the following heads, viz:

For compensation to postmasters.....	\$10,134,091 25
For clerks in post-offices.....	4,850,000 00
For free-delivery service.....	3,600,000 00
For rent, fuel, and light.....	450,000 00
For office furniture.....	30,000 00
For stationery in post-offices.....	65,000 00
For miscellaneous and incidental items.....	90,000 00
For wrapping-paper.....	25,000 00
For wrapping-twine.....	55,000 00
For marking and rating stamps.....	25,000 00
For letter balances and scales.....	25,000 00
Ink for stamping and canceling purposes.....	10,000 00
Pads for stamping and canceling purposes.....	10,000 00

Total estimate ..... 19,369,091 25

or \$2,227,091.25 more than the appropriation for the current year.

## COMPENSATION TO POSTMASTERS.

The following were the estimates, appropriations, and expenditures for this item for the past two fiscal years:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates.....	\$7,550,000 00	\$7,800,000 00	.....
Appropriations.....	7,500,000 00	7,800,000 00	.....
Expenditures.....	8,298,742 79	8,064,676 72	8.02
Deficiency.....	798,742 70	1,164,676 72	45.81

From the above it will be perceived that the expenditures for the fiscal year ended June 30, 1882, exceeded the appropriation for that period in the sum of \$1,164,676.72. In anticipation of a large deficiency, Congress, at its last session, upon the recommendation of the Postmaster-General, appropriated the sum of \$1,192,206.88, or so much thereof as might be necessary, to meet the deficit for this item during the fiscal year. The deficiency reported by the Auditor (\$1,164,676.72) is not so large as the amount appropriated by \$27,530.66; but it is expected that when the delayed returns from postmasters for the year shall have been received, the whole amount appropriated by Congress will be expended. The expenditures for the past fiscal year were also greater than those of the previous year in the sum of \$665,933.93, or 8.02 per cent.

The expenditures for the past year also exceed the appropriation (\$8,800,000) for the current fiscal year by \$164,676.72.

From the foregoing it will appear that a very much larger appropriation for compensation to postmasters should be made for the next fiscal year.

It has been ascertained that the compensation of postmasters bears a direct relation to the gross receipts of the department. The present law

regulating the compensation of postmasters of the fourth class went into operation the 21st July, 1878.

During the first fiscal year of the change, ended June 30, 1878, it required 23.9 per cent. of the gross receipts to pay the compensation of postmasters.

During the fiscal year ended June 30, 1880, 23.1 per cent. was required; for the year ended June 30, 1881, 22.5 per cent. was required; and for the year ended June 30, 1882, 21.4 per cent. was necessary.

It will thus be seen that the decrease in percentage of compensation to postmasters to the gross receipts has been a steady one; and this is only natural, since the great bulk of the receipts is collected at the larger offices, where the salaries are fixed by law. The receipts for the fiscal year ending June 30, 1884, based on an increase of 10 per cent. upon the last fiscal year, have been estimated at \$50,670,456.27. It is believed that not more than 20 per cent. of this amount will be required to pay postmasters for the next fiscal year. Upon this basis it is estimated that \$10,134,091.25 will be necessary for the compensation of postmasters for the year ending June 30, 1884. This amount will be \$1,334,091.25 greater than the amount (\$8,800,000) appropriated for the present fiscal year, or an increase of 15.16 per cent.

An essential element in the above estimate is the increase under the biennial readjustment of July 1st last in the salaries of postmasters at first, second, and third class offices, amounting to \$563,400 more than was paid last year.

#### CLERKS IN POST-OFFICES.

The estimates, appropriations, and expenditures for this purpose for the past two fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$3,650,000 00	\$3,850,000 00	
Appropriations .....	3,680,000 00	{ 3,850,000 00	{ 7.33
Expenditures .....	3,676,756 22	{ 3,908,396 60	{ 6.30

The appropriation of \$3,850,000 for the fiscal year ended June 30, 1882, was found, after six months of the year had expired, to be inadequate for the necessities of the service, and upon the recommendation of the Postmaster-General an additional \$100,000 for the year was appropriated by Congress on the 6th of March last for this item, making the whole amount \$3,950,000. This appropriation was \$270,000, or 7.33 per cent. greater than for the previous year. The appropriation for the present fiscal year is \$4,385,000.

The expenditures for the last fiscal year amounted to \$3,908,396.60, or \$41,603.40 less than the appropriation. In no other fiscal year have the requests for additional allowances for clerical service and separating mails in post-offices been so numerous or so urgent as the past. These requests have been made by postmasters in all sections of the country, but they have been especially necessary in the rapidly-growing portions of the West and Southwest. Postmasters at many of the principal cities in the older States have also applied for additional allowances for clerk-hire, in consequence of the great increase of the business of their offices from registered matter, merchandise passing through the mails.

and from other causes. After the passage of the act granting \$100,000 additional for this purpose for the past fiscal year, I found myself somewhat embarrassed, owing to many deserving applications, in making a proper disposition of it.

The commission referred to in my report to the Postmaster-General was determined upon as a measure of relief, as well as with a view to the better organization of the service in several of the large cities. The adoption of their recommendations resulted in a considerable saving of funds, and furnished a better basis for making future allowances at the offices visited. This did not afford sufficient relief, however, nor have I yet been able, with the appropriation at my command, to grant all the requests from the South and West, which are equally urgent, though the revenue derived from these offices is not so large as from many in the North and East, nor is it in numerous instances at all in proportion to the great amount of labor required.

I have therefore estimated the amount necessary to be appropriated for clerks in post offices for the fiscal year ending June 30, 1884, at \$4,850,000, which is \$465,000, or 10.6 per cent., greater than the appropriation for the current year. I consider this amount absolutely requisite to meet the rapidly increasing and important requests of this character which are constantly being received, and are made necessary by the remarkable expansion of postal business in all sections of the country.

#### FREE-DELIVERY SERVICE.

The following were the estimates, appropriations, and expenditures for this services and the incidental expenses thereof, during the two past fiscal years :

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$2,500,000 00	\$2,700,000 00	
Appropriations .....	2,500,000 00	2,600,000 00	5
Expenditures .....	2,499,911 54	2,623,262 74	4.93

This system was in operation on the 30th of June last in 112 of the principal cities of the country, and employed 3,115 carriers. It has been extended to 25 other cities since that date.

The regular appropriation of \$2,600,000 for the past fiscal year was increased in the sum of \$25,000, to meet an anticipated deficiency, making \$2,625,000 for the period, and an increase of \$125,000, or 5 per cent., over that of the previous year. The expenditures were \$2,623,262.74 for the fiscal year, or \$1,737.25 less than the appropriation. The cost of the service was increased \$123,351.20 over that of the preceding year, principally owing to the appointment of additional carriers in cities where the service was already in operation. The service was extended to only three cities during the year.

The postage on local matter for the year was \$3,816,576.09, an increase of \$542,945.70 for the year. The average cost per piece for handling matter was 2.3 mills, a decrease of 0.1 mill as compared with the last year. The average cost per carrier was \$835.75, a decrease of \$37.79.

The appropriation for the present fiscal year is \$3,200,000, of which amount \$200,000 was appropriated by the terms of the act of August

2, 1882, which law requires the promotion of carriers to the next higher grade after one year's service.

For the fiscal year ending June 30, 1884, it is estimated that an appropriation of \$3,600,000 will be required in order that free delivery may be extended to other cities possessing the necessary qualifications, either of population (20,000) or of gross revenue (\$20,000) from the post-office; that provision may be made for the development of the service where it already exists, and that the pay of certain carriers may be increased under the provisions of the law above mentioned.

The increase of estimate is \$400,000, or 12 per cent. more than the amount appropriated for the current year.

A detailed explanation of the expenses of this service, as well as of its popularity and usefulness, will be found in my annual report to the Postmaster-General.

#### RENT, LIGHT, AND FUEL.

The estimates, appropriations, and expenditures for this item for the two last fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$450,000 00	\$500,000 00	.....
Appropriations .....	425,000 00	425,000 00	.....
Expenditures .....	382,714 86	401,978 04	5.03

The estimate for these items for the fiscal year ending June 30, 1884, is \$450,000, the same as the appropriation for the current year, and it exceeds the expenditures for the past year in the sum of \$48,021.96, or 11.94 per cent. By law allowances of this character are made only at offices of the first and second classes, or where the salaries of the postmasters are \$2,000 and upwards per annum, and they are usually based upon the amounts received at the different offices from box-rents and the commissions upon the sales of stamps. The increase in these allowances during the past fiscal year over that of the preceding one was \$19,263.18, or 5.03 per cent. Of the whole amount expended, about \$305,000 was for rent of buildings for post-offices.

It has been my endeavor during the time I have been in the department to secure for use, when permitted to do so by the postal laws, a better class of buildings in the different cities for post-offices than have heretofore been occupied, and my efforts have been attended with considerable success in many places. Still further improvements can be made and advantages secured in this particular, as the inhabitants of the larger cities (where government buildings do not exist) have become aware of the importance of a well-built and well-finished structure for postal business. With this object in view I consider that an appropriation of \$450,000 would not be excessive for these items.

I am also of the opinion that some provision should be made by Congress by which postmasters of the third class, whose salaries are \$1,000 and less than \$2,000 per annum, should, to a certain extent, be relieved from the payment of the rent of their offices out of their salaries. Considering that the revenues of the department for the past fiscal year exceeded the expenditures, it seems to me that liberality could be observed in this direction.

## OFFICE FURNITURE.

The estimates, appropriations, and expenditures for this purpose for the past two years were as follows:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$20,000 00	\$25,000 00	.....
Appropriations .....	20,000 00	20,000 00	.....
Expenditures .....	19,298 87	20,716 64	7.35

The appropriation for this item for the present fiscal year is \$20,000, or the same as for the previous year, and, in my judgment, is entirely too small for the purpose. The postal affairs of the country cannot be properly and expeditiously conducted unless the offices are furnished with suitable facilities in the way of furniture, such as tables for as sorting the mails, desks for writing, racks for hanging the mail-bags, and many other articles which are absolutely necessary for the proper transaction of business. I regret to say that within my own knowledge there are many post-offices so ill-provided in these respects that it is a source of unfavorable comment by their patrons upon the departmental management. Many postmasters have been compelled to provide articles of furniture at their own expense, and assume the risk of disposing of them to their successors. Especially is this the case in the matter of safes, which are indispensable in all of the larger offices. During the past year the applications of postmasters to have offices supplied with them have been more numerous than ever before. Considering that it was, to a certain extent, both economical and proper to provide safes for many of the important offices where much registered matter is sent for distribution to other points, I have made quite a number of allowances for that purpose during the year, and the bills for such items having been presented earlier than was anticipated, a deficiency of \$716.64 has thereby been created. I have estimated the amount requisite for this item for the fiscal year ending June 30, 1884, at \$30,000, an increase of 50 per cent. over the appropriation for the present year, and firmly believe the public interests require it.

## STATIONERY IN POST-OFFICES.

The following were the estimates, appropriations, and expenditures for this item for the past two fiscal years:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$50,000 00	\$60,000 00	.....
Appropriations .....	50,000 00	50,000 00	.....
Expenditures .....	49,238 45	56,517 28	14

The appropriation for stationery for the enurrent fiscal year is \$55,000, which is \$5,000, or 10 per cent., more than was granted for either of the two previous years, while the expenditures for the year 1881-'82 exceeded the appropriation for this item, for the same period, in the sum of \$6,517.28, thereby causing a deficiency for the year of that amount.

The expenditures for the past year were greater than those of the previous year by \$7,278.83, or 14 per cent.

I much regret that a deficiency should have occurred for stationery during the past year. The causes were that no increase was made in the appropriation for this item for the year, although an estimate for \$10,000 additional was made; that the requests for the articles used under this item are becoming more numerous and urgent each year, and in the same degree in which the postal business is augmented; and further, that by the regulations of the department, postmasters at first and second class offices (the only ones who are entitled to allowances for these items) are permitted to purchase the necessary stationery without making application to the department for the same. The stationery used by many post-office inspectors and railway mail service superintendents has also been paid for out of this item.

It is the first time that a deficiency in this appropriation has occurred in several years, and it could have been avoided if the returns of the postmasters to the Auditor were readily accessible at the end of each quarter. The estimate for this item for the next fiscal year has been placed at \$65,000, an increase of \$10,000, or 18 per cent. over that of the current year, and I know of no good reason why that appropriation should not be made.

#### MISCELLANEOUS AND INCIDENTAL ITEMS.

The following were the estimates, appropriations, and expenditures for these items during the two past fiscal years:

	1880-'81.	1881-'82.	Increase.	Decrease.
			<i>Per cent.</i>	<i>Per cent.</i>
Estimates.....	\$90,000 00	\$100,000 00		
Appropriations.....	85,000 00	90,000 00	5.88	
Expenditures.....	80,989 15	88,504 76		15.30

The appropriation for the present fiscal year is \$90,000, or the same as for the last year, and is but \$5,000, or 5.88 per cent., greater than that for the year ended June 30, 1880-'81. It will be perceived that the expenditures for the past fiscal year were \$12,394.39, or 15.30 per cent. less than for the year previous. This was mainly due to the fact that the expenses for the miscellaneous and incidental items of the railway mail service, heretofore charged to this office, were, during the last half of that fiscal year, transferred to the accounts of the Second Assistant Postmaster-General's office, in the absence of any specific appropriation therefor. Nevertheless I do not anticipate that the expenditures for these items will again be as low as they were during the past year.

The same necessity exists as heretofore for the rental of telephones, for telegraphic communications, and the many other expenses incidental to the proper dispatch of business in post-offices, and must necessarily increase in proportion as the country expands and the postal business increases. Post-offices cannot be successfully conducted without the numerous little appliances to facilitate business which are ordinarily seen in other large public and private establishments; and I have therefore estimated the amount necessary for these items for the next fiscal year at \$90,000, or the same as appropriated for the present year.

## BLANK AGENCY.

Some time prior to my report of last year this division of the department was detached from this bureau and assigned by the Postmaster-General to his office; hence no estimates were then prepared by me for its appropriations.

The division having been since restored to the office of the First Assistant Postmaster-General, the estimates for its service are again submitted by that officer.

## WRAPPING-PAPER.

The estimates, appropriations, and expenditures for this article for the two past fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.	Decrease.
			Per cent.	Per cent.
Estimates.....	\$20,000 00	\$20,000 00		
Appropriations.....	20,000 00	20,000 00	25	
Expenditures.....	24,900 00	19,993 59		19.70

The appropriation for this item for the current fiscal year is \$22,000, or 10 per cent. over the expenditures of the last year.

In anticipation of a deficiency for this article during the past year, an additional appropriation of \$5,000 was asked for. It was not given, however, until very late in the session (August 5, 1882), and consequently was not available during the fiscal year. It will be observed that the expenditures for the fiscal year 1880-'81 were \$4,906.51 greater than for the last year, which was owing to the greater demand by postmasters for wrapping-paper, and a higher contract price for the article.

To meet the possible increase in the price of wrapping-paper, and to provide for the additional demand, especially for properly preparing packages of registered matter and merchandise for mailing, I have estimated the appropriation requisite for the fiscal year ending June 30, 1884, at \$25,000, or the same as the total amount granted last year, and an increase of 13.63 per cent. over the present appropriation.

## WRAPPING-TWINE.

The following were the estimates, appropriations, and expenditures for this item during the two past fiscal years:

	1880-'81.	1881-'82.	Decrease.
			Per cent.
Estimates.....	\$50,000 00	\$55,000 00	
Appropriations.....	55,000 00	55,000 00	
Expenditures.....	84,603 38	52,754 64	37.04

The appropriation for the present fiscal year is \$55,000, or the same as for the preceding year. It is also an increase of 4.25 per cent. over the expenditures for this article for the last fiscal year. It will be noticed that the expenditures for the year ended June 30, 1881, were \$31,848.74, or 60.37 per cent. in excess of those for the past year. This was mainly due to the high contract price of the article as compared with previous years. Hence it will be seen that an estimate cannot easily be made for a commodity which is so liable to fluctuate in value, but I submit the same estimate for the year ending June 30, 1884, as for the last year,

\$55,000, in the hope that it will be sufficient to cover all contingencies. This amount is the same as the appropriation for the present year.

#### MARKING AND RATING STAMPS.

The estimates, appropriations, and expenditures for these articles for the past two fiscal years were as follows:

	1880-'81.	1881-'82.	Increase.
Estimates .....	\$15,000 00	\$15,000 00	.....
Appropriations .....	13,500 00	15,000 00	\$1,500 00
Expenditures .....	13,499 50	14,144 30	644 80

The appropriation for these items for the current fiscal year is the same as for the last one, \$15,000, and exceeds the expenditures for the past year in the sum of only \$855.70.

The expenditures for the fiscal year just closed were but \$644.80 greater than those for the year previous. It will therefore be perceived that the recent appropriations for the above articles have not been at all extravagant.

I have estimated the appropriation necessary for these items for the fiscal year ending June 30, 1884, at \$25,000, an increase of \$10,000, or 66 $\frac{2}{3}$  per cent. over that for the present year; and have done so for the following reasons:

By the postal regulations it is necessary that the gross receipts of a post-office should be \$50 per annum to entitle it to receive a letter balance and a marking and rating stamp at the expense of the department. This regulation has been productive of much inconvenience both to the postmaster and the public, and has undoubtedly been the cause of considerable loss of revenue to the department, from the failure of the postmaster to properly weigh, rate up, and cancel the postage-stamps upon the mailable matter deposited in his office. The number of post-offices so deprived of these facilities for postal business is estimated at 10,000, and at these offices such stamps as are used have been paid for by the postmaster.

The Postmaster-General having called the attention of Congress to this matter, an appropriation of \$35,000 was made at the last session for the purpose of partially remedying it, and already under the law about 800 fourth-class offices have been supplied "with the necessary implements for canceling stamps and weighing and post-marking mail matter," the limit being the value of \$5 to each office. Itemized this expense is about as follows:

Scales .....	\$2 80
Stamp .....	79
Pad .....	60
Ink .....	40
Total .....	4 59

The above appropriation for this purpose will therefore supply about 7,000 post-offices, and it is with a view of furnishing the remaining 3,000 with these implements, and also supplying all new offices with these materials, that the increase of \$10,000 is in part asked for. Postmasters at many of the larger offices also frequently request to be furnished with new marking and rating stamps, in consequence of the old ones having become damaged or inaccurate. Ordinarily these stamps have to be renewed in all offices after from two to four years' use.

The following were the estimates, appropriations, and expenditures for these items for the two past fiscal years:

	1880-'81.	1881-'82.	Increase.
			<i>Per cent.</i>
Estimates .....	\$10,000 00	\$10,000 00	.....
Appropriations.....	8,000 00	10,000 00	25.00
Expenditures.....	7,997 80	10,000 00	25.03

The appropriation for these articles for the current fiscal year is \$15,000, or 50 per cent. more than for the previous one, and it is likewise 50 per cent. more than the expenditures for the past year, which exceeded those of the fiscal year 1880-'81 in the sum of \$2,002.20, or 25.03 per cent.

In my remarks above in connection with a largely increased estimate for the articles of marking and rating stamps, I have substantially assigned reasons why a much larger appropriation should also be made for letter-balances, scales, and test-weights. I therefore consider further explanation unnecessary for submitting an estimate of \$25,000 for these items. This is an increase of \$10,000, or 66⅔ per cent. over the present appropriation, and, in my opinion, is fully justified by the benefit expected to be conferred upon the department if it shall be given.

#### INK FOR STAMPING AND CANCELING PURPOSES.

This item has not been before included in the regular estimates.

In pursuance of the policy adopted at the last session of Congress with reference to fourth-class offices, alluded to above in my estimate for marking and rating stamps, I am of the opinion that it should hereafter be annually mentioned as necessary. In order, therefore, that post-offices now denied this article at departmental expense may be supplied therewith, I have to suggest that \$10,000 be asked for this item for the next fiscal year.

In this connection I desire to say, that of the many articles used by postmasters in the transaction of their business, none is of comparatively more value in its relations to the revenue of the department than ink for stamping and canceling purposes. Unless it is of superior quality, and uniformly used, many irregularities must occur in postal matters, and the proceeds of the sales of many stamps must be neutralized by their imperfect cancellation. I am aware that the matter of procuring an ink suitable in color, and at the same time indelible, and furnishing it without expense to all postmasters for use in their postal business, has been many times under consideration by the department. Postmasters at first and second class offices have found it absolutely necessary to use the best quality of ink they could procure, and their returns for the expense of the same have been made and allowed in their quarterly accounts. Postmasters at many other offices have been in the habit of furnishing, at their own expense, stamping ink of various colors and grades, which in many instances have not proved at all suitable for the purpose. Under these circumstances I consider that if Congress would give its attention to this matter and authorize the Postmaster-General to expend a suitable amount of money for the purchase of a proper ink for canceling purposes, to be used in all post-offices, such

action would be of inestimable benefit to the department. I hope that you will take occasion to recommend that this be done.

#### PADS FOR STAMPING AND CANCELING PURPOSES.

This item has not before been estimated for in the usual manner. The provision made for their purchase at fourth-class offices, referred to under the head of marking and rating stamps, necessitates an estimate for them for the next fiscal year. I suggest that \$10,000 be appropriated for these articles, as they are a necessary accompaniment wherever stamping-ink is used for canceling purposes.

#### DEPARTMENTAL PRINTING, BINDING, ETC.

The estimate for this item for the next fiscal year has been prepared in this office, and forwarded by the Postmaster-General to the Secretary of the Treasury, in accordance with the previous practice.

#### DEPARTMENTAL STATIONERY.

The estimate for this item has been prepared, and will be addressed, according to custom, to the Postmaster-General, who will include it in the statement to be submitted by him relative to estimates for other departmental expenses for the next fiscal year.

The aggregate of the above estimate is, as before stated, \$19,369,091.25, which is \$2,227,091.25, or 12.99 per cent., more than the appropriations for the current fiscal year.

A tabular statement, marked E, will be found appended to these estimates, giving further information in regard to them.

#### SUMMARY.

Estimate for 1881-'82, \$15,135,000.

Estimate for 1882-'83, \$16,777,000; increase, \$1,642,000, or 10.80 per cent.

Estimate for 1883-'84, \$19,369,091.25; increase, \$2,592,091.25, or 15.45 per cent.

Appropriation for 1881-'82, \$16,257,206.88.

Appropriations for 1882-'83, \$17,142,000; increase, \$884,793.12, or 5.44 per cent.

Expenditures for 1880-'81, \$15,138,650.66.

Expenditures for 1881-'82, \$16,141,035.31; increase, \$1,002,384.65, or 662 per cent.

In closing the above statement, it is proper to say that unless the original appropriations for the past fiscal year had been, in some instances, considerably increased by subsequent legislation during the last session of Congress, the postal business, so far as the allowances of this bureau for the service are concerned, could not have been conducted so satisfactorily as it has been. I hope that an equally liberal spirit will be manifested by Congress in the consideration of the present estimates, and that there will be no hesitation among the members of that body in doing all that seems reasonable and proper to aid in promoting the efficiency of the postal service by granting the enlarged appropriation asked for.

Very respectfully,

FRANK HATTON,

*First Assistant Postmaster-General.*

Hon. T. O. HOWE,  
*Postmaster-General.*

**R E P O R T**  
**OF THE**  
**SECOND ASSISTANT POSTMASTER-GENERAL**  
**FOR THE**  
**YEAR ENDED JUNE 30, 1882.**

---

# REPORT

## OF THE

### SECOND ASSISTANT POSTMASTER-GENERAL.

POST-OFFICE DEPARTMENT,  
OFFICE OF THE SECOND ASSISTANT POSTMASTER-GENERAL,  
*Washington, D. C., October 20, 1882.*

SIR: The cost of inland transportation June 30, 1882, was:

Of 1,389 railroad routes, aggregating 100,563 miles .....	\$12, 753, 184
Of 109 steamboat routes, aggregating 15,434 miles .....	574, 019
Of 10,797 star routes, aggregating 227,621 miles .....	5, 553, 849
<b>Total cost .....</b>	<b>18, 881, 052</b>

Comparison with the last annual statement shows, for the railroad service an increase of 195 routes, of 8,994 miles, and of \$1,139,816 in annual cost; for the steamboat service, a decrease of 17 routes, of 5,704 miles, and of \$179,148 in annual cost; for the star service, an increase of 525 routes, a decrease of 3,678 miles upon contract prices and annual salaries, irrespective of fines and deductions; hence the apparent discrepancy between those tables and the Auditor's statement.

#### STAR SERVICE.

In my preceding report the orders reducing the star service were stated to June 30, 1881, and since that date the following reductions have been made: July, 1881, \$384,397; August, \$122,647; September, \$111,056; October, \$83,451; November, \$145,327; December, \$210,831; January, 1882, \$67,539; February, \$45,012; March, \$41,629; April, \$16,988; May, \$7,963; and June, \$39,059. Total, \$1,275,899.

During the same period the increase of service was as follows: July, 1881, \$57,593; August, \$38,943; September, \$33,269; October, \$34,792; November, \$34,172; December, \$38,881; January, 1882, \$61,538; February, \$14,684; March, \$30,336; April, \$29,504; May, \$13,224; June, \$24,157. Total, \$411,093.

Aggregate decrease .....	\$1, 275, 899
Aggregate increase .....	411, 093
<b>Net decrease .....</b>	<b>864, 806</b>

In all cases, to determine the proper measure of increase or decrease of service,

## THE PRODUCTIVENESS OF THE ROUTES.

is one of the standards by which the postal necessities of the people are considered, and in the endeavor to supply all communities with adequate facilities the gauge of revenue to assist in determining the frequency and cost of service is relaxed in respect to the extreme western section of the country. In that section, in many cases, to supply offices of the same grade as those in the Eastern States, the cost of an equal number of trips per week is greater on account of the increase of distance and the comparative difficulty of traversing the routes, and the same principle is observed with regard to portions of the southern section of the country, the tests applied to northern routes not being closely adhered to, because of the greater area over which the population to be supplied is distributed.

The element of revenue, derived from the post-offices to be supplied, controlled in the preparation of the advertisements of October 15, 1881, and March 1, 1882, for

## SERVICE GOING INTO OPERATION JULY 1, 1882,

in the States of Arkansas, Louisiana, Texas, Kansas, Nebraska, Colorado, Nevada, California, and Oregon, and the Territories of Dakota, Indian, Montana, Wyoming, Washington, Idaho, Utah, Arizona, and New Mexico. In these States and Territories the routes were uniformly advertised on schedules which, it is believed, will meet all requirements without resorting to orders of expedition. In the process of readjustment, certain large routes were divided into smaller ones, and thus opened to a less restricted competition, while by changing the termini, a saving of distance and cost has been obtained.

The following table illustrates the change in this Pacific section by the readjustment:

		TRANSPORTATION.	
			Miles.
Louisiana .....			
Texas .....			
Indian Territory .....	June 30, 1881 .....		28, 078, 319
Kansas .....	July 1, 1882 .....		25, 797, 746
Nebraska .....			
Dakota .....	Decrease 8.12 per cent., or .....		2, 290, 573
Montana .....			
Wyoming .....			
Colorado .....	June 30, 1881 .....		\$4, 019, 524
New Mexico .....	July 1, 1882 .....		2, 018, 635
Arizona .....			
Utah .....	Decrease 49.78 per cent., or .....		2, 001, 189
Idaho .....			
Washington .....			
Oregon .....			
Nevada .....	June 30, 1881 .....		\$0 14.32
California .....	July 1, 1882 .....		7.82

A fair

## COMPARISON OF COST OF STAR SERVICE,

under old and new contracts, can be made by the table which follows; and while it will be observed that in some cases the routes are not changed under new contracts, there are in others slight increases or decreases, either in distance, speed, or the number of trips; but in every instance a decrease in the amount of compensation:

Number of route.	Termini of route.	Under old contracts, as increased.				Under new contracts, from July 1, 1882.			
		Miles.	Trips.	Hours.	Annual pay.	Miles.	Trips.	Hours.	Annual pay.
30183	Monroe to Shreveport.....	122	7	36	\$22,367 00	110	7	27	\$11,800 00
31146	Rio Grande City to Laredo.....	121	6	22	8,439 00	105	6	21	4,891 00
31168	Austin to Fort Concho.....	249	7	48	28,600 00	340	6	48	11,700 00
31454	Abilene to Fort Concho.....	94	7	20	19,709 00	94	6	24	4,237 00
32018	Caldwell to Fort Sill.....	189	6	36	34,200 00	189	6	36	8,900 00
32020	Camp Supply to Dodge City.....	94	6	20	5,707 00	94	6	20	2,283 00
32021	Camp Supply to Mobeetie.....	94	6	20	12,300 00	94	6	20	4,435 00
32273	Hutchinson to Medicine Lodge.....	39	6	8	5,824 00	39	6	8	1,790 00
36107	Bozeman to Miles City.....	328	7	84	76,999 95	328	7	94	21,000 00
36115	Helena to Missoula.....	151	7	37	18,739 58	50	6	12	1,900 00
36124	Silver Bow to Deer Lodge.....	36	7	7	4,305 56	127	7	30	4,900 00
38146	Del Norte to Ouray.....	230	7-3	52	36,296 53	216	7	74	19,210 00
38155	Antelope Springs to Silverton.....	63	7	21	13,253 33	63	3	24	3,510 00
39104	Socorro to Fort Stanton.....	120	7	29	16,770 16	120	7	29	5,620 00

					729,060 32				

It will be observed that

#### THE DECREASE OF COST

of the several routes under the letting, from the rates paid for the same or nearly similar service after the orders of reduction, completely refutes the allegation that was frequently made by contractors, when opposing curtailments, that the orders would compel them to transport the mails at an actual loss.

The exact reduction of expense under the readjustment of the routes in the Pacific section is properly the subject of the succeeding report, although it is made apparent now in a foregoing table and in the diminished estimate for the star service for the next fiscal year.

The rate of expenditure on star routes on June 30, 1882, was \$5,553,849, a decrease of \$1,403,506 compared with the cost rate at the close of the previous year. A portion of this reduction is due to extension of railroad service, and, as stated in my previous report, a portion of the orders that augmented this saving were made in the prior fiscal year, and, taking effect in the subsequent year, are of necessity embraced in the amount given above.

#### NEEDED LEGISLATION.

In my former report it was suggested that statutes should be enacted repealing section 3953 of the Revised Statutes requiring deposits of certified checks with proposals for carrying the mails; authorizing extension of service on star routes; and prescribing penalties to be imposed upon postmasters or employés for making false reports of arrivals and departures of the mails. I also made special recommendation during the last session of Congress for the repeal of section 3961 of the Revised Statutes and the proviso of the second section of the act of April 7, 1880, relative to the rate of compensation to be allowed for expedition in carrying the mails, and a further recommendation was made respecting the rate to be fixed for employing temporary mail service. A draught of a subcontract law was also submitted. But a portion of the recommendations were reached during the session, and only the suggestions relating to extension of routes and the rate for temporary service were adopted. In regard to the subcontract law a substitute for the draught referred to was enacted.

In another part of this report I have given, for the purpose of reference and record, a table (F) of

#### ORDERS OF EXPEDITION

from January 1, 1872, to April 30, 1881, since which last date no orders expediting star service have been made.

Upon the basis of expenditure for star service, June 30, 1882, already stated at \$5,553,849, the estimate for all new service and necessary increases under present contracts to June 30, 1884, can, with the service now in operation, be provided for with an appropriation of \$5,500,000, and this amount is accordingly recommended. It is estimated also that at the close of the present fiscal year there will be covered into the Treasury an unexpended balance of \$2,250,000 on account of reduction of star service.

#### STEAMBOAT SERVICE.

Since my former report, changes were made in the steamboat service as follows: By orders of reduction in July, 1881, \$4,962; August, \$15,333;

September, \$19,377; October, \$12,200; November, \$159; December, \$8,460; January, 1882, \$0; February, \$0; March, \$2,121; April, \$27,186; May, \$0; and June, \$900; total, \$90,698.

During the same period orders were made increasing the cost as follows: July, \$17,102; August, \$700; September, \$33,686; October, \$5,081; November, \$0; December, \$0; January, \$21,506; February, \$600; March, \$25,994; April, \$3,640; May, \$2,425, and June, \$2,000; total, \$112,734, being a net increase in cost during the year of \$22,036.

Of the increase in July the sum of \$10,000 made possible a saving of \$37,000, which was included in the gross reduction of steamboat service for the preceding year. Of the increase in September the sum of \$22,036 represents, not an actual increase, but routes on which contract service expired June 30, 1881, and which were not renewed under contract until September 1, the service in the mean time having been continued under orders of recognition at the rate named. Of the increase in January and March service at the rate of \$30,000 per annum was ordered and continued only during the overflow of the Mississippi River and its lower tributaries, which afforded all necessary facilities that were applied for by the people in the submerged districts.

The rate of expenditure for steamboat service at the close of the fiscal year ending June 30, 1882, was \$574,019, a decrease compared with the cost for the previous year of \$179,148. A portion of this decrease is applicable to orders made prior to the beginning of the last fiscal year.

The estimate for steamboat service for the year ending June 30, 1884, is submitted at \$700,000, being a decrease of \$100,000 from the present appropriation. About \$150,000 will be covered into the Treasury as an unexpended balance of the steamboat service appropriation for the current fiscal year.

#### MAIL MESSENGERS.

The rate of expenditure for mail-messenger service for the fiscal year ended June 30, 1882, was \$724,207, or \$7.20 per mile on 100,563 miles of railroad service.

Upon the above basis of cost per mile of railroad service the estimate for mail messengers for the fiscal year ending June 30, 1884, is given at \$850,000.

#### MAIL TRANSFERS IN LARGE CITIES. ?

I desire to call your special attention to the appended report and estimate of Mr. D. B. Parker, chief inspector, in which he suggests that the work of transferring the mails between the post-offices, depots, and wharves in the cities of Boston, New York, Philadelphia, Washington, and Chicago, be performed with an equipment to be owned and operated by the government. The transfer service in the great cities is, as it were, a vital point in the matter of mail transportation. The competition in bidding has brought the compensation for performing this important service so low that total failures have resulted in some cases, while in others the equipment is managed so economically that the efficiency of the service is impaired. It is believed that the plan proposed would not increase the cost; that it would give additional security to the mails, and afford the most efficient and acceptable transfer service that could be performed. Mr. Parker's long experience, as chief inspector, with this class of service, gives to his views the weight and importance which the able conduct of the affairs of his office warrants, and after careful consideration I earnestly commend his suggestions to your notice.

## MAIL EQUIPMENTS.

The cost of new mail bags and mail catchers and repair of old ones for the year ending June 30, 1882, was \$198,380.88; and for new mail locks and repair of old ones, \$24,999.50. The appropriations for that year were, for the first two items, \$200,000, and for the last item \$25,000. It will therefore be seen that the necessities of the service required the expenditure of the entire amounts appropriated. The amounts which it is necessary to appropriate for these objects for the year ending June 30, 1884, are as follows:

For mail bags and mail catchers.....	\$220,000
Mail locks and keys.....	20,000

The reason for the increased estimate for mail bags and catchers is found in the very rapid extension of the railroad system, and the more frequent forwarding of pouches on railroad routes, and the large number of post-offices established on such lines.

For these reasons, which apply with more force to the transactions of the current year than was anticipated when the estimates were made, it is probable that the appropriations for this fiscal year may be found to be inadequate.

Table N shows expenditures for mail bags and mail catchers.

Table O shows expenditures for mail locks.

Table P shows all contracts for above items, with price, &c., in operation June 30, 1882.

## SPECIAL FACILITIES.

The appropriation for special facilities on the great lines for the current year is \$600,000. I would suggest that a like sum be provided for 1884, as it is not clear that serious injury would not result to the public if the service secured by this expenditure were discontinued.

## RAILWAY POSTAL CLERKS.

The appropriation for railway postal clerks for the current year is \$3,710,000. The average increase for this item for the past six years has been at the rate of 7.20 per cent. per annum, and estimating the cost for 1884 at the same rate of increase, will make the sum required \$3,977,120. The particulars with regard to this item will be found in the report of the General Superintendent of Railway Mail Service.

## FINES AND DEDUCTIONS.

The amount withheld from all branches of the service on account of fines and deductions for the year ending June 30, 1882, was \$192,230.25.

This sum is not so great as was shown for the two years last preceding. The shrinkage is attributable mainly to two causes, one of which is that the most expensive of the star service, which was performed in a section of the country particularly liable to interruption from various causes, and from which a large portion of the fines were derived, nearly all ceased in 1881; the other cause of the reduction, the rigorous winter of 1880-'81, was followed by an unusually mild winter, in which there were few failures on account of the weather. The amount deducted is, however, more than the average, and more than was ever deducted in any one year prior to 1880.

## RAILROAD SERVICE—GENERAL STATEMENT.

<i>First.</i> Cost of all transportation, on which rates have been adjusted, to June 30, 1882, by books of the Post-Office Department .....	\$11,297,333
Cost of same June 30, 1881 .....	10,249,261
Increase for 1882 over 1881 .....	1,048,072
Rate of increase 10.23 per cent.	
Unadjusted service June 30, 1882, 8,449 miles.	
<i>Second.</i> Cost to June 30, 1882, Auditor's statement .....	\$10,248,515
Appropriation for 1882 .....	9,458,200
Excess of cost over appropriation .....	790,315
Rate of increase of cost over appropriation, 8.35 per cent.	
Unadjusted service for year ending June 30, 1882, 3,464 miles; estimated cost .....	125,000
Total .....	915,315
Rate of increase of audited cost and estimate over appropriation for 1882, 9.67 per cent.	
<i>Third.</i> Cost by Auditor's statement on Pacific roads to June 30, 1882 .....	\$1,376,929
Cost of same to June 30, 1881 .....	961,977
Increase for 1882 over 1881 .....	414,952
Rate of increase 43 per cent.	
<i>Fourth.</i> Appropriation for 1883 .....	\$11,130,000
Audited cost and estimate for 1882 .....	10,373,515
Excess of appropriation .....	756,485
Rate of increase 7.29 per cent.	

## ESTIMATE FOR 1884.

For reasons stated in the last annual report the estimate of the cost of railroad transportation for the current fiscal year was placed at a lower rate of increase than is shown between the cost for the two preceding years. The service in the Pacific States, in which nearly all the routes are located on which the pay is withheld on account of indebtedness to the government, having been adjusted for the new contract term commencing July 1, 1882, the estimate for the ensuing fiscal year will, as usual, be based upon the cost for the year ending June 30, 1882, and the probability of increase in the weight of mails and miles of road to June 30, 1884. The increase in mileage for the last year was 8,994 miles, or 8.9 per cent. increase over the mileage for the previous year. This is the greatest increase in the length of railroad routes ever made in any one year, and is greater than the entire railroad service in operation in 1851. The indications are that there will be not less than 10,000 miles added during the current year, and as much more for 1884.

The regular adjustment of pay from July 1, 1883, will fall in the contract section composed of the States of Illinois, Michigan, Wisconsin, Minnesota, Iowa, and Missouri. In these States the weighing will doubtless show a large increase in the weight of mails, and this will require a corresponding increase in the rates of pay. In arriving at the amount that will be required for railroad transportation for the year ending June 30, 1884, the appropriation for 1883, \$11,130,000, is accepted as the sum nearest to that which will be needed, and adding thereto \$870,000 for new service and for increase of pay on old routes through readjustment, and a total of \$12,000,000 is reached, which is about 8 per cent. (7.81) over the appropriation for 1883, and a little more than 14 per cent. over

the audited cost, and the estimate for new service for the year ending June 30, 1882. The estimated rate of increase is less than is shown for 1882 over 1881, but it is believed that it will be sufficient, as it is probable that the percentage of increase in cost will be somewhat reduced as the aggregate mileage is enlarged.

#### PACIFIC RAILROADS.

The relations existing between the Pacific Railroad Companies indebted to the United States and the government, in the matter of the withholding of all amounts earned in the transportation of mails over their own and leased and operated lines, and placing the same to their credit, has occasioned much controversy and resulted in numerous suits in the Court of Claims and the Supreme Court. This state of affairs has placed the Post Office Department at some disadvantage in its efforts to secure from these companies the most efficient postal service possible.

The mails are supplied to the people of a very large section of country west of the Missouri River by these lines, and hence the desirability of maintaining amicable relations with the companies controlling this system of roads.

#### ESTIMATE FOR RAILWAY POST-OFFICE CARS.

The increase in the work of distribution on railroad routes is in keeping with the increase in the weight of mails, and in the number of places reached by railroad, but the use of railway post-office cars being restricted to the lines on which the heavier mails are carried, the increased expenditure for the same is restricted to a lower rate than is required in other branches of the service.

The appropriation for the current year is \$1,526,000. The increased cost for 1882 was \$100,000. It is believed that the service can be conducted for 1884 for \$1,626,000, which is the same total increase as is shown for 1882 over 1881.

#### EXTENSION OF THE RAILROAD SYSTEM.

Table M shows the mileage, annual transportation, and cost of railroad service for each year, from its commencement in 1836 to June 30, 1882. It is interesting to note that the degree of public prosperity is reflected in the construction of railroads. There was a steady increase in mileage from 1866 to 1872, reaching in the year last given 8,000 miles; then, with the depression in business that followed, it declined from year to year until, in 1877, it touched the minimum—2,200 miles. With the settlement of the financial question and the advance of business, it again steadily increased to 9,000 miles for the fiscal year just closed, which is the greatest number of miles of service ever established in one year.

Table L gives the new service for 1882 in detail. The most important connections established during the year, of a national character, are the Texas Pacific Line through Texas, New Mexico, and Arizona, to California, and the junction with the railroad system of Mexico at Laredo, Texas. The last is a most important event, as a matter of interest to the business people, as it opens a convenient channel of quick intercourse with Mexico, thus presenting a new and promising field for the exercise of the intelligent enterprise of the people of the United States.

## RATES OF PAY TO RAILROADS.

The experience of the past year has confirmed this office in the views expressed in the last annual report concerning the rates of compensation prescribed by present laws for carrying the mails on railroads.

Allusions were frequently made during the past winter to a public sentiment which, it was alleged, demanded an increase of pay on some lines, but, at the same time, a reduction in the total cost of carrying the mails on railroad routes.

Public opinion, upon questions which may properly be determined by opinion, ought to prevail. This, however, is an instance in which opinion can be intelligently exercised only after a knowledge of the service rendered in carrying the mails and the compensation paid for the same is obtained through an analysis of the facts, and these contrasted with other transportation service and charges.

Because all will admit that the postal service rendered by the railroad companies is of the highest value to the people, and the amount and character of the service in every case may be accurately ascertained and stated, so that a basis would thus be established, resting upon material and indisputable facts, from which a comparison could be made between the postal and other business of the railroad companies; hence the subject should be approached, not with the settled intention of increasing the rate of pay on one class of roads and depressing it on others, nor of increasing or reducing the total cost of service, but it should be considered in a spirit of impartiality and with a determination to fix the compensation at such rates as the facts may warrant.

The annual increase in the cost of railroad transportation has no bearing whatever on the question as to proper rates of compensation, for, upon reflection, it will appear that the rates of pay and total cost must increase under the present or any other method or scale of payment that may be devised, in keeping with the extension of the system, the growth of the mails, and the increase in the facilities employed for the use and necessary care of the mail in transit.

The value of the postal service between the great railroad centers has grown to such magnitude and importance that the problem of shortening the time of transit between such points will have to be solved at no distant day, and this will doubtless furnish an interesting feature when the question of pay is determined.

There is now more than 100,000 miles of railroad service in operation, reaching into every State and Territory of the Union, furnishing, as it were, the arteries through which a population of fifty millions, dispersed over this vast territory, is supplied with mails. The conditions under which the postal service in the United States is performed, are essentially unlike those under which such service is rendered in the densely populated countries of Europe. Therefore, for the United States, precedents must be established, not followed.

In executing the present law it has become clear to me that under its insufficient provisions an unnecessary expenditure of public money might be made for carrying the mails on railroad routes. Therefore, having in view the large annual expenditure for this branch of the service, I cannot too strongly urge the great importance of at once perfecting the present crude and incomplete laws, so that an uncalled for expenditure would be rendered impossible.

Very respectfully,

Hon. T. O. HOWE,  
Postmaster-General.

RICH'D A. ELMER,  
Second Assistant Postmaster-General.

## ADDENDUM.

Table A exhibits cost, appropriation, and estimates.

Table B shows length of routes, annual transportation, and cost in the several classes of inland mail service.

Table C is a statement of the railway mail service.

Table D is a statement of the steamboat service.

Table E shows the increase and decrease in transportation and cost.

Table F is a statement of star service expedited from January 1, 1872, to April 30, 1881.

Table G shows weight of mails, speed, and accommodations for mails and agents on railroad routes, with an index.

Table H shows the readjustment of pay on railroad routes, with an index.

Table I shows the rate of pay for railway post-office cars, with increase and decrease since last annual report.

Table K states expenditures for necessary and special facilities on trunk lines.

Table L is a statement of railroad service established since last annual report.

Table M shows the growth of railway mail service from 1836 to 1882.

Table N is a statement of all contracts for mail equipments and use of patents.

Table O is a statement of expenditures for certain mail equipments.

Table P is a statement of expenditures for mail-locks.

# TRANSFER OF MAILS

BETWEEN

RAILROAD DEPÔTS AND POST-OFFICES IN THE  
LARGER CITIES.

•  
LETTER FROM THE CHIEF POST-OFFICE INSPECTOR.

## TRANSFER OF MAILS BETWEEN RAILROAD DEPOTS AND POST-OFFICES IN THE LARGER CITIES.

POST-OFFICE DEPARTMENT,  
OFFICE OF CHIEF POST-OFFICE INSPECTOR,  
*Washington, D. C., October 19, 1882.*

SIR: I have the honor to recommend for your consideration a plan which involves a radical change in the transportation of mails in large cities, affecting the "transfer" and "local station" service.

As you are well aware, the present system of letting to the lowest bidder for four years a contract to perform the service of delivery of mails at the railroads and post-offices has caused and is causing the greatest embarrassment and confusion.

I hazard the assertion that the conclusion is a tenable one, that it is impossible to secure reliable and satisfactory service under the present plan, and that this is a service which vitally affects our entire postal system. Complete failures have recently occurred at important points, creating great confusion. The service at other important points is in the hands of contractors who are not adequately responsible, and who are running the service possibly at a loss, their bondsmen being sufficiently responsible to justify them in giving to the government such service only as will suffice to prevent the contractor from being declared "a failing contractor," which action would result in greater loss to them than to continue the service.

Under such circumstances it is obvious that the government is but poorly served.

The contractor's outfit is such as will barely answer the purpose. The cheapest men obtainable are employed, and are not always paid their wages. They are constantly being shifted and changed, and not paid enough to secure suitable men at the start.

They are indifferent and careless in the performance of their duties.

The mails in large cities are in charge of such contractors and drivers, and are unaccompanied by postal officials in many instances. The risk is very great, both as to loss and robbery, and also as to failures in the service, which result in detentions of whole wagon-loads of mail at a time, depriving whatever section of country is thus affected of that prompt communication which a more efficient service would afford.

Experience proves that under the present system irresponsible bidders are quite certain to obtain the contracts for such service. Expensive wagons of special pattern are required, and all bidders understand that at the end of the contract term their wagons will have no value for other purposes.

It is fair to assume, therefore, that a careful bidder would add in bidding an estimate of the entire cost of an outfit, so that the government has really to purchase the plant.

If the government were to provide the horses, wagons, and necessary materials to perform this service at, say, five leading cities where

it is most important, reliable and efficient service would be secured at its prime cost, and I believe this is the only method by which reliable service can be secured and its proper performance guaranteed, or by which we can promise satisfactory results to any part of the postal service of the country, which all depends to a great extent upon this branch.

I therefore respectfully recommend that the necessary legislation be asked for of Congress and that estimates of the cost be furnished. I would outline the following plan:

That the law authorize the appointment of an officer as superintendent of this service for all of the points included in the plan; that he be selected for his special fitness for such duties as may devolve upon him, and be required to give ample bonds as a disbursing officer.

That stables be rented and horses and wagons purchased under the same plan now pursued by the War Department in purchasing supplies after public advertisement; that the highest grade of animals and material be secured, so that the best of service may be guaranteed, and the outfits present an appearance creditable to the department and the government.

At each of the cities selected an assistant superintendent should be appointed who will have charge of this service in that city. Competent and thoroughly reliable drivers and employes should be hired and paid a fair compensation, taking perhaps as a guide in this respect the organization of the best express-company service.

The regulations and rules governing the purchase of feed and supplies can easily be established, so that the interests of the government shall be protected and the best results secured.

I will present to you at the proper time statistics showing the number of animals, wagons, employes, &c., in use by contractors at each of the points where you may decide to recommend the adoption of such new service, together with an estimate of what would be required to put it in operation, and its probable cost, so that reliable estimates may be presented to Congress, with recommendation, in case it should be decided to lay the matter before that body.

Very respectfully,

DAVID B. PARKER,  
*Chief Inspector.*

Hon. R. A. ELMER,  
*Second Assistant Postmaster-General.*

REPORT  
OF THE  
GENERAL SUPERINTENDENT  
OF  
RAILWAY MAIL SERVICE  
FOR  
THE YEAR ENDED JUNE 30, 1882.

---

**REPORT**  
**OF THE**  
**GENERAL SUPERINTENDENT OF RAILWAY MAIL SERVICE.**

**POST-OFFICE DEPARTMENT,**  
**OFFICE GENERAL SUPERINTENDENT RAILWAY MAIL SERVICE,**  
*Washington, D. C., October 23, 1882.*

**SIR:** At the last session of Congress (Forty-seventh Congress, first session) an act was passed reorganizing the railway mail service in accordance with the recommendations of the Postmaster-General, and the suggestions of this office made in each annual report from and including that for 1879 to that for 1881. Under this act, which was approved July 31, 1882, an order of the Postmaster-General was issued to carry the same into effect, as follows:

**ORDER OF THE POSTMASTER-GENERAL REORGANIZING THE RAILWAY MAIL SERVICE.**

**ORDER No. 354.]** **POST-OFFICE DEPARTMENT,**  
*Washington, D. C., August 1, 1882.*

In carrying into effect the act of Congress reorganizing the railway mail service, approved July 31, 1882, viz:

**AN ACT to designate, classify, and fix the salaries of persons in the railway mail service.**

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That persons in the railway mail service, known as railway post-office clerks, route agents, local agents, and mail route messengers, shall, on and after the passage of this act, be designated as railway postal clerks, and divided into five classes, whose salaries shall not exceed the following rates per annum:

First class, not exceeding eight hundred dollars; second class, not exceeding nine hundred dollars; third class, not exceeding one thousand dollars; fourth class, not exceeding one thousand two hundred dollars; and fifth class, not exceeding one thousand four hundred dollars: *Provided,* That the Postmaster-General, in fixing the salaries of clerks in the different classes, may fix different salaries for clerks of the same class, according to the amount of work done and the responsibility incurred by each, but shall not, in any case, allow a higher salary to any clerk of any class than the maximum fixed by this act for the class to which such clerk belongs.

**SEC. 2.** That the sums appropriated in the act entitled "An act making appropriation for the service of the Post-Office Department for the fiscal year ending June thirtieth, eighteen hundred and eighty-three, and for other purposes," approved May fourth, eighteen hundred and eighty-two, for the compensation of the railway post-office clerks, route agents, mail route messengers, and local agents, be consolidated into one fund, and applied for the compensation of the clerks embraced in the five classes under the title of railway postal clerks, provided in this act.

(Signed)

**J. WARRAN KEIFER,**  
*Speaker of the House of Representatives.*

(Signed)

**DAVID DAVIS,**  
*President of the Senate pro tempore.*

Approved July 31, 1882.

the following regulations will be observed:

**SEC. 1. Designation of clerks.**—In accordance with this act all former designations of employes of the railway mail service are obsolete, and they will be hereafter known as railway postal clerks.

**SEC. 2. Nomenclature of railway mail service.**—For the sake of uniformity all lines will be called railway post-offices.

**SEC. 3. Organization of working crews.**—On lines where but one clerk to a car is appointed to perform the duties, and who runs an average of one hundred miles or more per day, he will be of class three, at \$1,000 per annum. If the average daily distance run is less than one hundred and not less than ninety miles the clerk will be of class two, at \$900 per annum; if the average daily distance run is less than ninety and more than eighty miles the clerk will be of class two, and the salary will be at the rate of \$10 per annum for each mile of the daily average of miles run. If the average distance run daily is eighty miles or less the clerk will be of class one, and the salary will be \$10 per annum for each mile of the daily average of miles run.

On lines that have been known as full railway post-office lines or that may hereafter be established in like manner, where two clerks are needed there may be one of class five, at \$1,300 per annum, and one of class four, at \$1,150 per annum.

On lines where three clerks are needed there shall be one of class five, at \$1,300 per annum; one of class four, at \$1,150 per annum; and one of class three, at \$1,000 per annum.

On lines where four clerks are needed there shall be one of class five, at \$1,300 per annum; one of class four, at \$1,150 per annum; one of class three, at \$1,000 per annum; and one of class two, at \$900 per annum.

On lines where more than four clerks are needed such additional clerks shall be of class two or one; except two distributing cars are run on the same train (one car being for the distribution of letter mail and the other car for the distribution of newspaper mail), when there may be one clerk of class five, at \$1,300 per annum; three of class four, at \$1,150 per annum; one of class three, at \$1,000 per annum; and all additional clerks of class two or one.

The clerk of the highest class in any crew will be designated the "clerk in charge."

**SEC. 4. "Helpers."**—When it becomes necessary to furnish assistance on any line, the clerk assigned to such duty will be designated a "helper," whether he runs over the entire line or only a portion of it; but such helper shall not be of a higher class nor receive a higher salary than the clerk to whom he is assigned as a helper; and in no case shall the salary of such helper exceed that of a clerk of class two.

**SEC. 5. Clerks on steamboat lines.**—Clerks on steamboat lines will be of class one, at a salary not exceeding \$720 per annum; the salary to be determined by the amount of work to be performed and the importance of the line.

**SEC. 6. Transfer service.**—Local agencies having been abolished by the act of Congress before quoted, superintendents may, if approved by the general superintendent, detail clerks not above class four at \$1,150 per annum at certain important junctions to look after the handling of mails at railroad depots, and to perform such other duties pertaining to the railway mail service as may be required. If more than one clerk is needed for such duty at the same depot, such additional clerks shall be of classes below class four, but in no case shall more than one clerk of the same class, above class one, be so detailed at the same depot. Clerks so detailed will be designated railway postal clerks, and all vacancies occurring in such details shall be filled from clerks serving on lines.

**SEC. 7. Providing for emergencies.**—To meet emergencies, superintendents may make any assignment of clerks in their respective divisions which may be necessary for the benefit of the service, but not for a longer period than ten consecutive days; and such assignments must be at once reported to the general superintendent.

**SEC. 8. Chief clerks and assistants.**—Clerks who may be detailed to duty at certain important points in charge of one or more lines will be designated "chief clerks," and such details may be made from clerks of class five, at a salary of \$1,400 per annum. No clerk will be detailed to assist a chief clerk except in special necessary cases, and the clerk so detailed shall not be above class three.

**SEC. 9. Detail of clerks.**—Superintendents may detail clerks from one route to another, but clerks so detailed must be assigned to duty in accordance with this order. Clerks may be detailed for clerical duty pertaining to the railway mail service. All details (except in cases of emergency) must be reported to the general superintendent for his approval before going into effect.

**SEC. 10. Reassignments.**—Superintendents are hereby instructed to reassign clerks in accordance with this order.

**SEC. 11. Salaries to be regulated by duties assigned.**—In no event will a clerk be allowed the salary of a higher class than is by this order assigned to the duties actually performed by him, except when ordered to perform duties of a lower grade in case of emergency.

**SEC. 12. Inability of clerks to fill positions to which assigned.**—Whenever a clerk is unable to perform the duties of the position to which he is assigned, the superintendent will at once report the facts to the general superintendent, with a recommendation for reduction or retirement.

**SEC. 13. New appointments.**—All original appointments to the position of railway

postal clerk shall be made as clerks of class one, and for a probationary period of six months from the date of the same. No reappointment at or before the expiration of the probationary period shall be made unless the appointee shall have shown himself proficient in his duties, fully competent to perform the same, and shall pass a satisfactory examination upon the duties of his position.

SEC. 14. *Superintendents to report necessary changes.*—Superintendents will report at once to the general superintendent any changes which may be necessary under this order to carry it into effect.

SEC. 15. *Date this order takes effect.*—This order will take effect on and after August 1, 1882. All regulations or parts of regulations of this department inconsistent with this order are hereby rescinded.

T. O. HOWE,  
Postmaster-General.

As the service was immediately reorganized under this order, which took effect within one month after the expiration of the fiscal year with which this report is concerned, it has been considered best to show the service at the close of the fiscal year, both as it was under the old organization and as it would have been reported under the reorganization, in order to afford a basis for a comparison with its condition on the 30th of June, 1883.

At the close of the fiscal year ended June 30, 1882, there were employed in this service 3,570

#### RAILWAY POSTAL CLERKS,

with salaries aggregating \$3,486,779, or an average annual salary to each of \$976.68. This was an increase in number over those in the service at the close of the previous fiscal year of 393, or 12.37 per cent., and a decrease of \$1.85 per annum in the average salary paid to each.

Under the old organization the clerks were graded and paid as follows:

Number.	Grade.	Annual cost.
1,517	Railway postal clerks .....	\$1,706,390
1,557	Route agents .....	1,416,960
334	Mail route messengers .....	222,739
162	Local agents .....	140,670
Total. 3,570		3,486,779

These figures represent the condition of the service on the 30th of June; but the actual expense during the year was as follows:

Railway postal clerks .....	\$1,574,404 36
Route agents .....	1,322,336 20
Mail route messengers .....	189,823 92
Local agents .....	149,228 74
Total .....	3,235,853 12

#### RAILWAY POST-OFFICE LINES.

It affords me pleasure to be able in this report, for the first time since the mails have been carried by rail, to present a table (A') showing all the railway post-office lines in the United States, arranged in alphabetical order, giving the terminal post-offices, the distance run, the railroads over which they run, the annual miles of service, the number of cars and parts of cars in use and in reserve, and the number of railway postal clerks employed in each car. From this it will be seen that on June 30, 1882, there were in operation 769 railway post-offices (new

designation). Those upon which "railway post-office cars" are run and paid for are designated in the table by being printed in *italics*. These railway post-offices were conducted in 342 whole cars and 1,462 apartments in cars, a total of 1,804 cars and apartments, and were run over 87,865 miles of railroad, making 75,741,438 miles of annual service.

There were employed upon these lines 3,122 railway postal clerks; 162 clerks, as before stated, were detailed as transfer clerks (formerly known as "local agents"); 286 were detailed as chief clerks and for other clerical duty in connection with the service at this office, division headquarters, and other prominent points where needed, and were running upon steamboats; making a total of 3,570. The average number of miles traveled annually by each clerk in railway post-offices was 38,564. A comparison of these figures with those given by the Second Assistant Postmaster-General shows that there were 12,698 miles of railroad upon which there were no railway post-office lines, and that 38,253,880 miles of annual service were performed with express mails and closed pouches over these routes and portions of routes, and also upon other than mail trains, over routes where railway post-office lines were running.

#### GROWTH OF THE SERVICE.

Table B<sup>1</sup>, hereto appended, shows the growth of the service as far as it can be compiled from the reports of the Postmaster-General from 1834 to the present time. In his report for the fiscal year ended November 1, 1834, Postmaster-General W. T. Barry says:

The celerity of the mail should always be equal to the most rapid transition of the traveler; and that which shortens the time of communication, and facilitates the intercourse between distant places, is like bringing them nearer together; while it affords convenience to men of business, it tends to counteract local prejudices by enlarging the sphere of acquaintance. These considerations have always had their full weight upon my mind in making improvements in mail operations. The multiplication of railroads in different parts of the country promises, within a few years, to give great rapidity to the movements of travelers, and it is a subject worthy of inquiry, whether measures may not now be taken to secure the transportation of the mail upon them. Already have the railroads between Frenchtown, in Maryland, and New Castle, in Delaware, and between Camden and South Amboy, in New Jersey, afforded great and important facilities to the transmission of the great Eastern mail.

The railroad between this city and Baltimore will soon be completed, and the distance from the post-office in this place to that of Baltimore, will not be materially varied from the present road, 38 miles. From Baltimore, by Port Deposit, in Maryland, to Coatesville, in Pennsylvania, the line for a railroad is located, and the stock subscribed for its completion, and from Coatesville to Philadelphia, a railroad is made and in operation. The distance between Baltimore and Philadelphia on this road will be one hundred and seventeen miles, about eighteen miles greater than the present land route. From Philadelphia to Trenton bridge, about twenty-eight miles, the railroad is nearly completed, and from New Brunswick, in Jersey, to Jersey City, on the west side of the Hudson River, opposite the city of New York, thirty miles, the railroad is in a state of progress. When these works shall be completed, the only interval will be between Trenton and New Brunswick, about twenty-six miles, to complete an entire railroad between this place and the city of New York, and it cannot be supposed that the enterprising State of New Jersey will long delay to perfect a communication of such great importance, passing through most of her largest and most flourishing towns.

When this shall be done, the whole distance between this city and New York on a continuous railroad, will not exceed two hundred and forty miles, and the journey may be performed at all times with certainty, allowing ample time for stopping at important places on the road, in sixteen hours, and ordinarily in a shorter period.

If provision can be made to secure the regular transportation of the mail upon this and upon other railroads which are constructing, and in some instances, already finished, it will be of great utility to the public, otherwise these corporations may become exorbitant in their demands, and prove eventually to be dangerous monopolies.

From the figures following in this table, the modest 78 miles representing the distance between South Amboy and Camden, and New Castle and Frenchtown (Elkton), over which the mail was carried by the stage-coach contractors in 1834, it does not appear that Postmaster-General Barry was at all extravagant in his anticipations.

During the past year the increase in miles of railroad route over the preceding year was 8,994, or 9.82 per cent.

## ESTIMATE FOR 1884.

I append a table showing the expenditures for railway postal clerks (new designation), from 1877 to the present time:

*Expenditures on account of employes of railway mail service (railway postal clerks) 1877 to 1882, and estimate for the same for 1884.*

Fiscal year ending June 30—	Number of railway postal clerks in service June 30.	Increase.	Expenditures.	Increase over preceding year.	Per cent. of increase over preceding year.	Increase of miles of railroad route.
1877.....	2,500		\$2,436,547 58			
1878.....	2,608	108	2,496,863 82	\$60,116 24	2.46	2,574
1879.....	2,608	1	2,666,315 65	169,651 83	6.79	2,871
1880.....	2,946	337	2,778,645 47	112,329 82	4.21	5,329
1881.....	3,177	231	3,039,113 97	260,468 50	9.37	6,249
1882.....	3,570	393	3,235,853 12	196,739 15	6.47	8,994
1883*.....			*3,710,000 00	474,146 88	14.65	
1884†.....			†3,977,120 00	267,120 00	7.20	

\* Appropriation.

† Estimate.

The average annual per cent. of increase of each year over the preceding year from \$2,436,547.58 in 1877 to \$3,710,000 appropriated for 1883 is 7.20 per cent.; on which basis the estimate for 1884 should be \$3,977,120. It is believed, in view of the large increase made for the present fiscal year, and the facility with which expenditures can be regulated under the new organization, that this increase will be sufficient to enable postal clerks to be appointed upon new railroads as fast as completed, where the amount of mail to be handled is large enough to justify their appointment.

## MAIL DISTRIBUTED, ERRORS CHECKED, &amp;C.

During the past year the railway postal clerks handled and distributed 2,155,213,880 letters and postal cards, and 1,278,176,600 pieces of other mail matter, or a total of all classes of ordinary mail matter of 3,433,390,480, besides 14,234,310 registered packages and 570,483 through registered pouches. This was an increase over 1881 of 351,230, 160 letters, or 19.48 per cent., and of other mail matter of 228,880,250, or 21.82 per cent., and a total increase of all classes of mail matter of 580,110,410, or 20.33 per cent. The increase of registered packages and pouches handled over the number reported last year is 2,776,028, or 23.9 per cent.

In the distribution of this matter 902,489 errors were made, or one for every 3,805 pieces handled, against one in every 3,624 pieces handled in 1881, one in every 3,482 pieces handled during 1880, and one in

every 3,469 pieces handled in 1879. These figures show that the clerks continue to improve in accuracy in distribution with the increase of the mails. During the past year 405,706 errors were checked against postmasters as against 454,349 errors in 1881, which shows that the distribution at post-offices has improved during the year. Tables C<sup>1</sup>, D<sup>1</sup>, and E<sup>1</sup>, hereto appended, give the details of which the foregoing is a synopsis.

#### FACING SLIPS.

The regulations require postal clerks to place upon each letter package and in each sack of other mail matter made up by them to be redistributed in another railway post-office, or post-office, a slip of paper called a "facing slip," about four inches long by two and one-half inches wide, and bearing on its face, either printed or written, the descriptive title and destination of the mail forwarded under it, the postmark of the railway post-office and direction moving, and the name of the clerk making up the mail. These slips are also placed inside of packages and sacks made up direct for a post-office.

The clerk who opens one of these packages or sacks, if the package or sack has been missent or misdirected, notes the fact upon the slip, which he retains, and sends the package or sack in the proper direction accompanied by one of his own slips.

If the package or sack is properly addressed, the clerk notes upon the slip whether any letters, &c., have been placed therein which should have been sent in another direction or included in some other package or sack, giving a description of the same, and placing his name and postmark upon the incorrect slip. At the end of each trip a report is made to the division superintendent of the mail received, distributed, and delivered upon the trip, giving the number of packages of letters and sacks of other mail distributed. With this report are inclosed all incorrect slips.

Tables C<sup>1</sup>, D<sup>1</sup>, and E<sup>1</sup> are consolidated from these trip reports. Repeated actual counts have enabled this office to fix upon the average number of letters in a package as 40, and of pieces of other mail matter in a sack as 150, and by multiplying the number of packages and sacks by these figures respectively an approximate estimate of the work performed is obtained. It must be remembered, however, that the totals thus obtained are largely in excess of the entire number of letters, &c., mailed in the United States during the year, as every time a letter or paper is distributed it is counted, and while one distribution takes a large number of pieces of mail to their destination, a still larger number require two or more distributions before each piece is placed in a direct package or sack for the post-office to which it is addressed.

It appears from Table C<sup>1</sup> that during the year 62,408,191 letter packages and sacks of other mail were distributed, each of which required a facing slip to accompany it. One half may safely be added to this number for facing slips placed in direct packages and sacks, making a total of 93,612,286 facing slips used by this service during the year. The number of blank slips furnished by the blank agency is reported by the superintendent as 32,736,600. The remainder, about sixty millions, were procured by the clerks at their own expense with the information printed thereon, which is required by the regulations to be either printed or written. The average price paid by the clerks for printing, the paper (manila wrapping) being furnished by the blank agency, is 25 cents per thousand. It thus appears that the postal clerks contributed out of

their own scanty pay about \$15,000 for the improvement of the postal service during the past year. It is greatly to be desired that the use of printed slips be made general, as it contributes very largely to accuracy in distribution and dispatch of the mails, but I do not think it right to require clerks to have them printed at their own expense. The printing of these slips ought to be done at division headquarters, under the supervision of the superintendent, upon paper furnished as now by the blank agency. I have for some time been reluctant to approve requisitions for paper belonging to the postal service to be delivered to outside parties for printing and cutting into slips for the use of postal clerks, and have only done so in rare instances, because the interest of the service seemed to demand it. By an expenditure of not over \$1,000 at each division headquarters a press, paper-cutter, type, &c., could be purchased, and postal clerks could be detailed to print and issue the slips as needed. I would therefore request that Congress be asked to authorize the Postmaster-General to expend out of the appropriation for transportation of the mails by railroads, not to exceed nine thousand dollars for the purchase of presses, paper-cutters, and printing material, to be used at the several division headquarters in printing facing slips for this service.

#### CASE EXAMINATIONS—CHIEF CLERKS.

Tables F<sup>1</sup> and G<sup>1</sup>, hereto appended, show the results of the examinations of the railway postal clerks during the year in the distribution of cards bearing the names of post-offices into cases labeled with the States and counties in which the post-offices are located. These examinations are conducted by postal clerks of class five, at a salary of \$1,400 per annum, who are detailed, on account of their superior knowledge of the service and their executive ability, as chief clerks to superintend these examinations, and also to assist division superintendents at important railroad junctions in the general management of the service.

In the discharge of these duties they are necessarily compelled to travel a great deal, involving considerable additional expense, for which they ought to be repaid. I therefore recommend that Congress be asked to give the Postmaster-General authority to allow railway postal clerks detailed as chief clerks not to exceed \$3 per day for expenses while traveling on the business of the railway mail service, to be paid out of the appropriation for the transportation of the mail by railroad.

#### PROBATIONARY APPOINTMENTS.

Attention is invited to the Table G<sup>1</sup>, being a statement of the case examinations of railway postal clerks during probation. It will be seen that out of 1,027 appointed upon probation, 208 (or over twenty per cent.) failed to pass final examination, and either resigned or were dropped at the expiration of their probationary terms.

#### CASUALTIES—RELIEF FOR THE VICTIMS.

Table H<sup>1</sup>, hereto appended, shows that during the past fiscal year there were 83 casualties, in which 3 railway postal clerks lost their lives, 16 were seriously and 20 were slightly wounded.

During the past eight years, as appears from Table I<sup>1</sup>, compiled from the annual reports, 269 casualties have been reported, in which 19 employés of this service have been killed, 84 have been seriously and

77 slightly wounded. Under the regulations, as amended by an order of the Postmaster-General of June 16, 1882, leave of absence with pay is granted to postal clerks disabled by injuries received, without contributory negligence on their part, while in the discharge of their duties, for a period of not to exceed six months; but any extension of leave beyond that period must be without pay, which is a hardship for which relief should be given, and the Postmaster-General should be authorized to continue such disabled postal clerks upon leave with the full pay of their grade until recovery, or at least one year.

No provision is or can be made for the families of those killed in the service until action is taken by Congress. I renew the recommendation made in each annual report for the last seven years, that the Postmaster-General may be authorized to pay to the widow, or guardian of minor children, of railway postal clerks killed in the service, a sum equal to two years' salary of the grade held at the time of death. This would involve no additional appropriation, as the deductions from pay for failure to perform service, absence without leave, leaves of absence without pay, and violations of the regulations would be sufficient to meet all such payments. During the last fiscal year these deductions, as reported by the Auditor, amounted to nearly \$15,000, which now reverts into the Treasury. The three clerks killed in the accident between Charleston, S. C., and Savannah, Ga., January 22, 1882, received salaries at the following rates: H. A. Fox, \$1,300; W. H. Burbridge, \$1,150; and George E. Osborne, \$900, each per annum. Two years' pay to the widows or children of these men amounts to \$6,700, or less than one-half the amount deducted for the reasons above mentioned. It is impossible to preserve the discipline necessary among a force of nearly 4,000 men in order to keep up the efficiency of the service, without making deductions from the pay of individuals for failure to perform service, or for neglect to discharge their duties in accordance with the postal laws and regulations, and it would greatly add to the welfare of the service and go far to remove the discontent sometimes manifested by those who have had deductions made from their pay, were Congress to authorize the Postmaster-General to apply these deductions, as above suggested, to the relief of the families of those killed, and to meet the necessities of those disabled for a longer term than leave of absence with pay is now granted for.

#### RAILWAY POSTAL CARS—ESTIMATE.

The appropriation for railway post-office cars for the past year was \$1,526,000. The railway post-office lines upon which railway post-office cars were run and paid for are designated by their names being printed in *italics* in Table A<sup>1</sup>, to which reference is made. They are the main trunk lines upon which the great through mails are transported and distributed. A detailed account of the division of the appropriation among the railroads comprising these lines is given in Table I, appended to the report of the Second Assistant Postmaster-General. It is believed that the increase of business over existing trunk lines and the completion of missing links in nearly completed new trunk lines will necessitate an additional appropriation for 1884 of \$100,000, and I therefore recommend that an appropriation of \$1,626,000 be asked for railway postal cars for 1884.

#### LOCAL RAILWAY POST-OFFICE SERVICE.

Much inconvenience is experienced by the inhabitants of the towns and villages along some of the lines of railroad traveled by the rail-

way post-offices carrying the great through mails, on account of the inconvenience to business men of the hours at which the railway post-offices arrive and depart. Upon most of these roads accommodation trains are run to and from the principal terminals for distances of 100 miles, more or less. It will be a great benefit to the people living along these lines if postal clerks can be placed upon these accommodation trains, and the revenues of the department would be increased by the additional number of letters which would be written when business men could write in the morning to their correspondents in the city or in the neighboring towns and receive a reply in the evening of the same day. It is believed that with the additional appropriation asked for railway postal clerks the service can be placed upon such trains where it is most needed. Wherever the correspondence already existing is sufficient to warrant the establishment of a railway post-office (new designation), the correspondence will double soon after such facilities are furnished for its more speedy exchange.

## FAST MAILS AND SPECIAL FACILITIES.

The appropriation for special facilities for 1882 was \$425,000. A detailed statement of the manner in which the appropriation was expended will be found in Table K, appended to the report of the Second Assistant Postmaster-General.

The results obtained by the expenditure were as follows:

*New York to Springfield, Mass.* (New York, New Haven and Hartford Railroad).—This train was established at the instance of the Post-Office Department. Leaving New York at 5 a. m., it received mail leaving Washington, D. C., the previous day at 5.40 p. m.; Baltimore, 7.25 p. m.; Philadelphia, 12 midnight; and New York at 5 a. m. Delivered and received mail between New York and New Haven, Conn., where it arrived at 8.03 a. m. Without this train the mail would have been delivered at New Haven at 10.20 a. m. It connected at New Haven with train leaving at 8.08 a. m., with a postal clerk, for New London and Providence. Mail was received and delivered at all intermediate offices, and delivered at New London at 10.10 a. m. instead of 12.40 p. m.; Providence, at 12.45 instead of 3.45 p. m.; and there was a train connection from Providence to Boston. The New Haven and Willimantic R. P. O. left New Haven in connection with this train at 8.05 a. m., and at Willimantic connected with the Boston and Waterbury R. P. O. Mails were delivered and received at all places between New Haven and Boston. Mails were delivered at Middletown at 8.58 p. m., arriving in Boston at 1.25 p. m. instead of 3.55 p. m.; arriving at Hartford at 9.44 a. m. instead of 11.45 a. m.; Springfield, at 10.40 a. m. instead of 12.28 p. m. Mail for Lowell and Lawrence was delivered at 3.30 p. m., formerly delivered at 6.30 p. m. Early deliveries were also made to Worcester, Salem, Lynn, Newburyport, Haverhill, and many other important offices in Massachusetts; to Nashua, Manchester, Concord, Portsmouth, Dover, Great Falls, and to other offices in New Hampshire, and to points in Maine as far east as Portland. This train was not in the Railway Guide as one of the company's passenger trains. It carried a very large mail.

*New York to Chicago, Ill.* (New York Central and Hudson River Railroad, and Lake Shore and Michigan Southern Railroad).—This was for the fast mail that left New York at 4.35 a. m. and arrived at Chicago the following morning at 9.40 a. m.; also for another fast mail that left

New York at 8.50 p. m., arriving at Cleveland, Ohio, the following day at 1.50 p. m., Toledo 5.40 p. m., and Chicago the second day at 6 a. m.

Train leaving New York at 4.35 a. m. Three postal cars on this train, New York to Syracuse; two from Syracuse to Buffalo, and one from Buffalo to Chicago. This train was established at the instance of the Post-Office Department as special to Albany, where the postal cars were transferred to the regular train "made up" there for Buffalo, and from Buffalo to Chicago on the limited express, where it arrived at 9.40 a. m. At Fishkill it connected with the Millersville and Dutchess Junction R. P. O. It delivered mail at Newburgh at 6.10 a. m. instead of 10.01 a. m.; Poughkeepsie, at 6.30 a. m. instead of 10.36 a. m. At Rhinecliff it connected with the Boston Corners and Rhinecliff R. P. O. Delivered the mail at Rhinecliff, Rondout, and Kingston at 6.54 a. m. instead of 11.08 a. m.; Hudson, 7.32 a. m. instead of 12.01 p. m.; Albany, 8.20 a. m. instead of 1 p. m.; Troy, 8.50 a. m. instead of 1.15 p. m.; Schenectady at 9 a. m. instead of 1.55 p. m.; Little Falls at 10.45 a. m. instead of 3.50 p. m.; Utica, 11.22 a. m. instead of 4.30 p. m.; Rome, 11.53 a. m. instead of 5.09 p. m.; Syracuse at 1 p. m. instead of 6.25 p. m.; Rochester, 4.05 p. m. instead of 11.05 p. m.; Buffalo, 6.30 p. m. instead of midnight. Formerly these postal cars left New York at 8 a. m. and arrived at Chicago the following day at 7.40 p. m. The arrival at 9.40 a. m. instead of 7.40 p. m. is equivalent to the saving of one business day to Chicago, and for all points west and northwest of Chicago, as all the principal connections are made at Chicago; and this is particularly the case for all points west of Omaha, as the Union Pacific Railroad only runs one train per day, and this train made the connection.

The southwestern mails from New York were sent via the Pennsylvania Railroad, yet there was a large accumulation of mail on this train for that section, and the connection was made at Toledo, Ohio, which saved as much time as for points west of Chicago.

Train leaving New York at 8.50 p. m. There were three postal cars on this train that ran special with express cars (no passengers) to Cleveland, Ohio (a distance of six hundred and twenty-six miles). Formerly this mail left New York at 6 p. m., which necessitated a close in the New York office at 4 p. m., too early to get all the mail, as there is a large amount of mail posted between the closing for the 6 p. m. train and that for the 8.30 p. m. train, and all of the mail that accumulated between the hours above named and was forwarded at 8.50 p. m. gained twelve hours. This train received at Albany the mail that left Boston at 6 p. m., whereas if the postal cars left New York at 6 p. m. it would require a departure from Boston at 3 p. m. This train received and delivered mail at all important points between New York and Buffalo, where it arrived at 9.15 a. m.; Erie, Pa., 11.31 a. m.; Cleveland, Ohio, 1.55 p. m. At this point connections were made for the South and Southwest, viz: Cincinnati, arriving at 11.15 p. m.; Louisville, 8.20 a. m.; and Saint Louis, at 8.20 a. m. This train delivered and received mail at all offices between Buffalo and Cleveland and all of the larger offices between Cleveland and Chicago; arrived at Toledo 5.30 p. m.; Chicago, the second morning at 6 a. m., in time for the first delivery and to make all outward connections. Mail that left New York at 8.50 p. m. arrived at Cleveland, also Toledo, in time for delivery the following day; also at all intermediate points.

*New York to Pittsburgh, Cincinnati, Saint Louis, and Chicago* (Pennsylvania Railroad; Pittsburgh, Chicago and Saint Louis Railroad; and Fort Wayne and Chicago Railroad).—This arrangement was for a fast mail leaving New York at 8 p. m., arriving at Pittsburgh the following

morning, Cincinnati the following night, and Saint Louis the second morning; and for another fast mail that left New York at 8 a. m., which now leaves at 4.35 a. m.

The 4.35 a. m. train from New York hauled the Washington postal car to Philadelphia, and had two cars for Pittsburgh and the West and Southwest. At Columbus, Ohio, one car went to Cincinnati and the other to Saint Louis. Mail was delivered and received at all offices between New York and Pittsburgh, arriving at Harrisburgh at 11 a. m. instead of 7.40 p. m.; Altoona at 3.45 p. m. instead of 12 midnight. Mail was delivered and received at all the larger offices between Pittsburgh and Columbus, reaching Columbus at 3.45 a. m. instead of 9.20 a. m., and arrived at Cincinnati at 8 a. m., instead of 3.05 p. m., making the southern connections for Louisville and the South, via Louisville, at 12.45 p. m. instead of 8.05 p. m. Formerly this connection was broken at Cincinnati, consequently there was a delay of twelve hours for all points southwest from Cincinnati. This train, via Louisville and Nashville Railroad, had a direct connection to New Orleans, also to Memphis, Tenn.

The 8 p. m. train from New York carried three postal cars. On the 1st day of July, 1881, there was a fast mail established on the Pennsylvania Railroad between New York and Columbus, Ohio, leaving New York at 8.35 p. m., after the close of business, receiving all the important business mail of the day, and, by fast running, overtaking at Columbus, Ohio, the regular fast express that left New York two hours and thirty minutes earlier. At Columbus the postal cars attached to this train were separated, one going to Cincinnati, Ohio, on the regular fast express, and the other two going to Saint Louis, Mo., via Indianapolis, Ind., on the regular express and passenger train, arriving at Saint Louis, Mo., in time to make a connection with all morning outward trains.

The late departure at New York largely increases the amount of mail forwarded on this train, which is advanced twelve hours.

January 21, 1882, the schedule of this first-mentioned train was changed to arrive at Pittsburgh at 1.50 p. m., thereby losing the morning connection at Pittsburgh.

*New York to Savannah, Ga., Jacksonville, Fla., &c.* (Pennsylvania Railroad; Richmond, Fredericksburgh and Potomac Railroad; Richmond and Petersburg Railroad; Wilmington and Weldon Railroad; Petersburg Railroad; Wilmington, Columbus and Augusta Railroad; North-Eastern Railroad; Savannah and Charleston Railroad). This was for a fast mail that left New York at 4.35 a. m. (with connection leaving Boston the previous evening at 6.15) for Philadelphia, Baltimore, Washington, Richmond, Wilmington, Charleston, and Savannah, with connection to Jacksonville, Fla., and delivered mail at Baltimore at 9.50 a. m. instead of 3.36 p. m.; Washington, 11.20 a. m. instead of 4.40 p. m.; Richmond, 3 p. m. instead of 9.50 p. m.; Petersburg at 4 p. m. instead of 10.55 p. m.; Weldon, 6 p. m. instead of 1.20 a. m.; Wilmington, 11.05 p. m. instead of 7.05 p. m.; Florence, 2.47 a. m. instead of 11.40 a. m.; Columbia, 6.10 a. m. instead of 4.25 p. m.; Augusta, 9.52 a. m. instead of 8.40 p. m.; Charleston, 6.50 a. m. instead of 4.25 p. m.; Savannah, 10.45 a. m. instead of 9.40 p. m., and connected with train that arrived at Jacksonville at 5.30 p. m.

This line received and delivered mail at all intermediate points.

*Richmond to Atlanta, Ga.* (Richmond and Danville Railroad). This was for fast mail to Atlanta, Ga., November 20, 1881. It was transferred to start from Washington instead of Richmond, which did not materially increase the expense, and February 12, 1882, was discontinued.

tinued by the railroad company. While in operation it left Richmond on the arrival of the fast mail from the North, and arrived at Atlanta at 11 a. m. By the regular train the mail would have arrived at 12 midnight. It connected with the noon train out of Atlanta, and arrived at New Orleans at 10.22 a. m. instead of 10.02 p. m. There was a postal car on this train, and mails were delivered at all intermediate offices. All mail for points west of Atlanta was advanced twelve hours, and New Orleans received the benefits of one business day.

*Alexandria to Lynchburgh, Va.* (Virginia Midland Railroad).—This was for a night train on this road with through connections to the South. Prior to February 12, 1882, it left at 10.15 p. m. and made the same connections to Atlanta as the line via Richmond that left Washington at 5 p. m. Since that date it has left at 7 p. m.

*Tocoi to Saint Augustine, Fla.* (Saint John's Railway).—This was for twenty-six additional round trips in connection with the night boat on the Saint John's River.

#### ESTIMATES FOR SPECIAL FACILITIES FOR 1884.

Thus far during the present year only a small portion of the appropriation for special facilities has been expended, on account of the inability in most instances of the Postmaster-General to agree with the railroad companies upon any terms that he believed to be advantageous to the department. On the lines from Washington, D. C., to Atlanta, Ga., the companies withdrew the fast service before the end of the last fiscal year, and abandoned all claim to any allowance out of the appropriation. The Pennsylvania Railroad Company also withdrew the fast mail between New York and Pittsburgh, Pa. The service over that route is now slow and unsatisfactory.

The Atlantic Coast Line from New York to Charleston, S. C., has been continued under the same arrangement as last year.

It is believed, however, that in the near future the Postmaster-General will be able to make arrangements for the establishment of fast mail service where it is needed, upon terms which will be just to the railroads, and advantageous to the department and to the public. It is necessary that this appropriation be continued as long as the present method of adjusting the compensation of railroads for carrying the mail is kept up, in order that the Postmaster-General may have the power and authority to meet emergencies.

I would therefore respectfully recommend that the appropriation for the next fiscal year be the same as it is for the present, viz, \$600,000.

#### CONCLUSION.

In concluding my last annual report, after expressing my personal obligations to the assistant superintendents and railway postal clerks for the intelligence, zeal, fidelity, and energy with which they had discharged the difficult, responsible, and often dangerous duties intrusted to their care, I ventured the statement that no civil service in the world could show their superiors. Even having in mind the improvement in the efficiency of the service during the past year, I can say no more than what I then said. Their services deserve to be recognized in some thing better than mere words. The act of Congress reorganizing the service was but the first step in this direction. It remains for Congress to enact that their tenure of office shall be made permanent during good behavior, and that deductions of pay for absences without leave, &c., or for minor violations of the regulations, shall not be turned

into the Treasury as now, but shall be used to provide for the necessities of those disabled in the service, and for the families of those killed in the line of duty.

Whatever objections may with propriety be urged against such legislation in regard to persons holding other civil offices under the United States, they only serve as additional arguments in favor of these acts of justice to postal clerks. While other civil employes receive higher salaries for mere clerical work requiring no special preparatory study, the highest pay a postal clerk is allowed by law is \$1,400 per annum, and this can only be obtained after years of study and manifestation of clerical and executive abilities, such as in other branches of the civil service would be rewarded by a far higher compensation, to say nothing of the constant danger of railroad accidents to which all postal clerks are exposed. It must not be forgotten, that but for the fact that during the past twenty-two years the tenure of office of all postal clerks has been, by the general practice of the department, permanent during good behavior, the service never could have attained its present state of efficiency. So long, however, as this general practice remains unsanctioned by positive law compelling it, there is still sufficient uncertainty about the tenure of office to interfere with that entire and perfect confidence that merit and efficiency are certain of reward, if not by immediate promotion, at least by retention in the service, which is necessary to inspire men to devote themselves enthusiastically to the work in which they are engaged. Were the tenure of office absolutely secure, young men entering the service would devote themselves to it as a life profession, having before their eyes the hope of eventually rising to the position of superintendent; just as the present superintendents have risen step by step from the lowest grade in the service.

That there is a special reason why the railway postal service should be protected by the legislation herein recommended has been recognized for many years by the practice of the department, but there never was a time before when the public interests would so greatly suffer by the inauguration of a policy which should lead the railway postal clerks to believe that in any instance, or under any circumstances, a good record for the faithful and efficient discharge of their duties would not be sufficient to secure their retention in office during continued good behavior; because never before has the railway postal service been conducted by men who have made it the sole business of their lives for nearly twenty years to add to its efficiency, and who have learned to meet the wants of the people in postal facilities as fast as such wants arise; and never before have the postal clerks been trained by so many years of experience and study to secure the greatest possible certainty, celerity, and security in forwarding to its destination every letter and other article of mail matter intrusted to their care.

I have the honor to be, sir, very respectfully, your obedient servant,

W. B. THOMPSON,  
*General Superintendent.*

Hon. R. A. ELMER,  
*Second Assistant Postmaster-General.*

TABLE A¹.—Statement of railway post-offices

Designation of railway post-office. (Lines upon which postal cars are paid for in italics.)	Distance run in miles.	Number of route.	Division.	Number of train on monthly schedule of through mails.	Contract designation, termini of route.	Corporate title of company.

TABLE H<sup>1</sup>.

*Statement of casualties in the railway mail service during the fiscal year ended June 30, 1882.*

*July 1, 1881.*—The freight train and construction train collided this morning at 8.20 near Corinth, Miss., wrecking the mail car. The mail was transferred to a baggage car and distributed along the line as far as practicable, as most of it was made up. The mails were delayed but none lost, and no one was injured.

*July 1, 1881.*—Train collided with a freight train at Templeton, Ind., smashing the postal car. The mail was transferred to a baggage car and taken to Chicago. No local work could be done north of Templeton, and all the connections were missed.

*July 1, 1881.*—At 3.48 this afternoon a postal clerk on the fast train from Saint Louis to Indianapolis on the Vandalia Railroad, threw a leather pouch from the mail car at Harmony, Ind., in such a manner that the pouch was drawn under the train and badly mutilated. The mail in the pouch was cut up and most of it destroyed. There were no registered packages in the pouch.

*July 13, 1881.*—Train leaving Nashville, Tenn., at 8.40 a. m. for Evansville, Ind., was wrecked and the mail car overturned. Nobody was hurt and nothing lost and the mail transferred in good order.

*July 13, 1881.*—A fire, originating it is supposed from cinders from the engine, broke out in the Decatur and Montgomery R. P. O. this day, badly burning registered pouches Nos. 3023 and 2886 and four canvas sacks of mail. The contents of all the pouches were saved, though the mail was more or less damaged.

*July 22, 1881.*—The steamer Marlin Speed sank this morning 65 miles above Pine Bluff at 2 o'clock, but all the mail was saved.

*July 23, 1881.*—The steamer Cornie Brandon sank to-day about 90 miles below Shreveport, La. The mail was somewhat damaged by the mud and water, but was saved and forwarded to destination.

*July 24, 1881.*—Train No. 2 left Cheyenne for Denver to-day 6 hours late, and when about 3 miles south of Berthoud, Colo., while running over a culvert, which was washed out by the heavy rains, broke through demolishing the engine, tender, and mail car. The engineer was killed outright and the foreman of the car was badly wounded. J. D. La Course, the route agent on the mail car, was cut about the face and otherwise bruised, but succeeded in saving all the registered matter and most of the other mail, the rest being totally destroyed and carried off by the water.

*July 31, 1881.*—The United States mail packet Osceola Belle was totally destroyed by fire between 6 and 7 o'clock in the evening. The personal effects of the mail messenger, together with some of the government property were burned, but the mail was saved.

*August 4, 1881.*—About 1 mile north of Plaquemine the engine of train No. 3 left the track and ran into the ditch, badly damaging the postal car. All of the mail was saved and was forwarded to destination after some detention.

*August 6, 1881.*—Train wrecked 6 miles east of Kokomo, Ind. Engine smashed and mail car thrown on its side. Mail all safe but delayed 13 hours.

*August 6, 1881.*—Steamer Plow Boy was sunk in the Arkansas River this morning, about 25 miles above Pine Bluff. The mail was saved and delivered by stage mail.

*August 8, 1881.*—Mail steamer *Laura Lee* went aground this morning. The mail was saved, but delayed 24 hours, when it was transferred to agent on the *Fanchon* on its north run.

*August 17, 1881.*—A freight train ran into the mail car at Emporia Junction, on the Atchison, Topeka and Santa Fé Railroad, knocking the mail car on its side. The letter mail and part of the paper mail were damaged by the water from the buckets and cooler, and oil from three lamps that were broken. All of the mail was gathered and turned over to the postmaster at Parsons, Kans.

*August 24, 1881.*—Train was ditched at Converse, Mo. Route Agent J. N. Thomas, in charge of the mail car, was considerably bruised, but not enough to disable him from duty. The mail was saved and properly forwarded.

*September 5, 1891.*—Train No. 91, west bound, was wrecked near Shenandoah, Iowa, the mail car and two passenger cars falling down an embankment 10 feet high. The route agent, Jacob Heiman, was slightly bruised. A small quantity of mail was so badly damaged that it could not be forwarded. The rest was saved and cared for.

*September 13, 1881.*—While the Washington and Richmond railway post-office car was standing in the depot at Washington, D. C., it was run into by the shifting engine, throwing two sections of the letter cases into the middle of the floor, breaking three lamps and soaking several hundred letters with oil. The letters were forwarded to their destination.

*September 24, 1881.*—Tornado caught us at West Quincy, blowing the doors open and the ventilator from off the top of the car, wetting all of the letters. Water stood 6 inches high on the floor of the car.

*September 26, 1881.*—By a collision between trains Nos. 40 and 47, Richmond, Va., and Wilmington, N. C., railway post-office, at Chester, Va., W. S. Hawkins, who was on duty on No. 40, and G. P. Rourke, on No. 47, were severely injured. N. B. Jones, of the same line, is now unable to perform duty on account of injuries received a few days ago. The mail was secured and transferred to another car without its having sustained any damage.

*September 29, 1881.*—The mail train on the Fort Dodge and Des Moines line encountered a very severe wind-storm near Ripley, Iowa, and the entire train was blown off the track and overturned. Route Agent Luther L. Cassidy received a severe cut on one wrist and was very much shook up.

*October 1, 1881.*—Pouch was thrown under train at Mount Vernon, Iowa, cutting it up and badly damaging the paper mail. The letter mail was not injured. Pouch and contents were recovered by the postmaster.

*October 3, 1881.*—Postal car Montgomery, M. W. King in charge, was completely wrecked south of Bay Minette, Ala. Mr. King was badly bruised and internally injured. A part of the mail was damaged by the oil from broken lamps and by dirt and water. Most of it was recovered and forwarded.

*October 27, 1881.*—The steamer *Jennie Gilchrist* was sunk in the Mississippi River at the railroad-bridge between Rock Island, Ill. and Davenport, Iowa, and two pouches containing two registered packages were lost.

*October 21, 1881.*—Within 2 miles of Augusta, Ga., the engine of the train ran over a cow, throwing it under the mail car causing a complete smash-up. The flooring of the mail car was ripped up forcing the wheels through. The mail was transferred to another car without delay and forwarded.

*November 7, 1881.*—An accident occurred to the train of the Gaylord and Bay City agent, bound south, by which the mail car was badly damaged and the passenger coaches partially destroyed. The agent was not seriously injured, and none of the mail was lost. He has not been able to find his postmarking stamp since the accident.

*November 13, 1881.*—Mail car out of Cleveland, Tenn., ran off the track. No one injured, and no mail lost. Mail was delayed 3 hours.

*November 17, 1881.*—Train No. 15, Lehigh Valley Railroad, was wrecked at Wyalusing, and the mail badly scorched. With the exception of one pouch, that was burned, the mail was forwarded.

*November 19, 1881.*—The Havana and Springfield train bound south fell through a bridge 5 miles north of Springfield. Route Agent W. S. Allen was considerably hurt. The mail was all saved.

*November 28, 1881.*—Pouch and sack thrown off at Broken Straw, N. Y., struck edge of platform and bounded back against the car, badly damaging the canvas sack containing the paper mail, which was partially destroyed. The pouch was uninjured.

*December 4, 1881.*—Passenger train on the Western North Carolina Railroad ran off the track, and was precipitated down an embankment. There was a mail car attached to the train, which was completely wrecked.

*December 5, 1881.*—An accident occurred to the Louisville and Nashville railway post-office, bound north, train No. 4, day line, at Madison, Tenn., caused by the locomotive breaking loose from the train. The automatic brake on the remainder of the train failed to act, letting the cars overtake the engine, which was standing still. The shock was so great as to break in the front end of the postal car, knocking down the letter case and breaking the pouch rack. J. M. Bailhache, head clerk, and J. B. Brawner, assistant clerk, were on duty, and were both thrown down and somewhat injured. Mr. Bailhache was unable to perform duty for one week, and Mr. Brawner has not been on duty since the accident (December 19). A portion of the letter mail was damaged by water, but all was recovered from the wreck, and forwarded to destination.

*December 20, 1881.*—Mail steamer J. S. Hopkins, running between Evansville, Ind., and Cairo, Ill., was totally burned. The government property on the boat was destroyed, but the mail was saved.

*December 23, 1881.*—Mail train between Peoria, Ill., and Evansville, Ind., was ditched and wrecked near Lincoln, Ill. No mail lost. Route Agent O. F. Ashmore was badly bruised.

*December 23, 1881.*—A fire broke out in the Boston and Troy railway post-office, destroying some sacks of paper mail. It was extinguished before any material damage was done.

*December 24, 1881.*—Mail sack was thrown against the station-house at Pataskala, Ohio, rebounding and falling under the cars. The sack was badly damaged, but the contents were saved.

*December 27, 1881.*—Mail car No. 1 on the Texas and Saint Louis Railroad was burned near Wheatville, Tex. All the mail, with the exception of one registered package, was saved and delivered.

*December 28, 1881.*—Train No. 2, with postal car, collided with helper engine. No damage was done to the mail, but Route Agent S. N. Jackson was severely bruised in jumping from the car.

*January 1, 1882.*—The baggage car on train No. 5, Canada Southern Railroad, was totally destroyed by fire this morning. It contained all the letter and paper mail for Michigan. The letter mail was very badly

damaged by the water, while the paper mail was almost totally ruined. What was saved was sent to the Detroit post-office and there delivered.

*January 1, 1882.*—Baggage car on train No. 5, Pacific Express, caught on fire between Highgate and Ridgetown, and a number of bags containing mail matter were destroyed.

*January 2, 1882.*—The train of the Boston and Albany railway post-office, while passing a point  $1\frac{1}{2}$  miles east of Wells, Me., broke through an iron bridge, causing the rear passenger cars to crush in the end of the postal car, which almost immediately took fire. The postal car and mail, with exception of one pouch, four registered packages, and books for record of registered mail, and a few letters picked up from the floor, were burned to ashes. N. G. Giddings, head clerk in charge of the postal, was bruised about the face, and, in endeavoring to save the mail, had his hair and whiskers singed by the fire.

*January 5, 1882.*—Mail bag was thrown from train at Cartersburgh, Ind., in such a manner that it was drawn under the cars and cut to pieces. Most of the mail was ruined.

*January 6, 1882.*—Mail car on Quincy and Trenton route was ditched near Milan. Route Agent John W. Potter was slightly injured. All the mail was saved and forwarded.

*January 6, 1882.*—Pouch thrown off at Stockwell, Ind., was drawn under the train and cut to pieces, badly damaging the contents.

*January 15, 1882.*—An accident occurred to train No. 50, Virginia Midland Railroad, near Rockfish, Va., in which the engineer was killed outright and the fireman very severely injured. Route Agent James W. Gleeson was thrown on his face, sustaining painful bruises. The mail was all saved and transferred to another train.

*January 17, 1882.*—Mail car of West Lebanon, Ind., and Le Roy, Ill., line was thrown off the track at Hedrick, Ind., and overturned. The letter mail was soaked with oil from an overturned can, but was all collected and forwarded to destination.

*January 20, 1882.*—Mail car of route from Fargo to Bismarck was thrown from the track near Spiritwood, Dak., and partially destroyed by fire. About half a dozen letters were entirely consumed and nineteen so badly defaced that they were unreadable. The balance of the mail was unharmed and properly forwarded.

*January 21, 1882.*—The railway post-office trains on the Charleston and Savannah Railroad collided near Adams Run, S. C., some 27 miles from Charleston, S. C. The south-bound postal car, No. 40, was in charge of Head Clerk H. A. Fox, Clerk B. H. Craft, and Acting Route Agent George E. Osborne. The north-bound postal, No. 43, was in charge of Clerk W. H. Burbridge, accompanied by Chief Head Clerk Mansfield. The two postal cars were completely demolished. Head Clerk Fox was instantly killed, Clerk W. H. Burbridge fatally wounded (since died), Acting Route Agent George A. Osborne fatally wounded (since died), Chief Head Clerk R. E. Mansfield seriously injured in the back and scalded, and Clerk B. H. Craft (colored) seriously wounded. His left arm was broken, left knee-cap dislocated, both feet crushed, left leg broken, contusion of right side. This man has recovered and is now on duty, October 10, 1882. The colored fireman, Bradley Scott, was killed. It is believed that all the mail was saved and properly forwarded.

*January 26, 1882.*—Sack of paper mail was thrown from train No. 1, Pittsburgh, Cincinnati and Saint Louis Railroad, at Dresden, Ohio, and drawn under the cars and badly damaged. About thirty papers were destroyed.

*January 28, 1882.*—The catcher pouch was thrown from the Saint Albans and Boston railway post-office at Danbury, N. H., bounding back under the train. The pouch was completely destroyed, together with its contents. Besides the ordinary mail, it contained a registered package from Chicago, Ill., said to contain \$24.

*January 31, 1882.*—Tie-sack containing paper mail for Marseilles, Ind., was thrown from the Chicago and Iowa City railway post-office at the depot at that place, bounding back and falling under the cars, where it was badly cut. The contents were partially destroyed.

*February 1, 1882.*—The catcher pouch for Grafton, Mass., thrown from the Boston and Albany railway post-office, was carried on to Westborough, having fallen under the train at Grafton. The pouch and contents were very badly damaged.

*February 2, 1882.*—Pouch thrown from Boston and Troy railway post-office at North Leominster, Mass., bounded under the train and was carried to Fitchburgh, Mass. The paper mail was destroyed, but the letter mail was saved.

*February 3, 1882.*—Postal car No. 75, Chicago and Cincinnati railway post-office, was badly wrecked at Montmorency, Ind., on account of engine going off the track. Mail was all saved, but in a very demoralized condition, a large number of letters being saturated with oil from broken lamps. The mail was gathered up and turned into the Chicago post-office.

*February 5, 1882.*—The night express on the Chicago and Iowa City route ran over a tie-sack at the depot at Marseilles, Ind., ruining the sack and its contents.

*February 7, 1882.*—The mail train upon the Texarkana, Ark., and Whitesborough, Tex., route (Transcontinental Division Texas and Pacific Railway), was wrecked near Honey Grove, Tex. The locomotive and mail car went through a bridge falling some thirty feet, killing the engineer and fireman. Substitute Route Agent J. H. Smith was buried in the wreck and had to be cut out to be released. His injuries were not serious. The mails were saved without material damage.

*February 7, 1882.*—Mail sack thrown from train No. 1, Albany and New York railway post office, at Yonkers, struck a snow-bank and bounded back under the train. The sack and its contents were entirely destroyed.

*February 7, 1882.*—The catcher pouch was knocked from the crane at East Orange, N. J., and was run over by the cars, partially destroying the pouch and its contents.

*February 10, 1882.*—Pouch for Thompsonville, Conn., thrown from the Boston and New York railway post-office, struck the gate at the street-crossing at Thompsonville, rebounding under the cars. The pouch was very badly damaged and a number of papers destroyed. The letter mail was uninjured.

*February 15, 1882.*—Washington and Charlotte railway post-office ran into a land slide near Orlando, Va., on the Virginia Midland Railroad, resulting in the death of the engineer and injuring the fireman and head clerk, James M. T. Gleeson. No mails were lost or damaged. Mr. Gleeson was incapacitated from duty for 29 days.

*February 16, 1882.*—Mail thrown from train No. 1, Albany and New York railway post-office, at Rhinecliff, N. Y., was run over by the cars and badly damaged.

*February 19, 1882.*—Mail train leaving Charlotte for Wilmington, N. C., was thrown from the track by a broken rail. The mail car was overturned and considerably broken up. The mail was slightly damaged and Route Agent H. T. Rollins somewhat injured.

*February 22, 1882.*—Pouch from Chicago and Burlington railway post-office thrown off at Burlington, Iowa, was run over by switch-engine at that point and a small portion of the contents damaged.

*February 27, 1882.*—The Chicago and Cincinnati railway post-office leaving Chicago at 8 p. m. collided with a freight train at Homewood, Ill., the postal car being badly wrecked. No mail was lost or damaged.

*March 1, 1882.*—Train No. 110 was wrecked near Toll Gate, Va., and the baggage car in which there were some sacks of paper mail was burned, together with the mail it contained.

*March 4, 1882.*—Pouch thrown from the Chicago and Saint Louis railway post-office, night line, for the day line at Chicago, Ill., was caught by the engine of an incoming train and cut, and a portion of the contents totally destroyed.

*March 6, 1882.*—The Chicago and Cedar Rapids railway post-office, night line, leaving Chicago at 9.30 p. m., when near the limits of the city, collided with a freight train. The engine of the latter had become unmanageable and was coming down the track at a rapid rate, the engineer and fireman having jumped off to save their lives. As a result of the collision the engine was driven some 6 feet into postal car No. 13. Head clerks, S. O. Prickett, night line, and Frank Sutton, day line, were at work at the letter case in this end of the car. They were driven back under a section of the paper rack. Sutton had both thighs somewhat sprained, right foot bruised, back of head cut, and was generally bruised. Prickett was injured very slightly. Clerk C. L. Shaffer and Assistant Clerk L. S. Manville were not injured in any way. The car at once took fire and its interior was pretty effectually destroyed. The registered matter was saved, together with twenty packages of letters. The balance of the mail was destroyed, as was also the personal property the clerks.

*March 7, 1882.*—The Knoxville and Caryville agent ran off the track and fell through a trestle, wrecking the train. All the mail was saved. Route Agent J. W. Ault was considerably bruised.

*March 17, 1882.*—Pouch thrown from the Chicago and Cincinnati railway post-office at Weisburgh, Ind., was drawn under the train and dragged 4 miles. The pouch and contents were entirely destroyed.

*March 20, 1882.*—A fire was discovered in the postal car at Keokuk, Iowa (Keokuk and Saint Louis line), and before it was extinguished one sack of paper mail was entirely burned and two others somewhat injured. The rest of the mail was saved.

*April 17, 1882.*—The mail car on the route between Leavenworth and Clay Centre, Kans., was ditched 5 miles west of Garrison. Route Agent T. L. Johnson was slightly bruised. No mail was damaged.

*April 18, 1882.*—As the east-bound train on the Indianapolis and Peoria route was pulling into Ogden, Ill., the brakes would not work, and the train ran by the station into a freight train that was standing partly on the main track. J. Baker and L. Green, clerks on the mail car, were severely cut and bruised. The mail was saved.

*May 4, 1882.*—The Jacksonville and Chattahoochee railway post-office collided with a log train near White House, Fla. The engineer and fireman were instantly killed, and Route Agent A. C. Lightbourne was bruised about the body. The mail was saved and taken back to Jacksonville.

*May 5, 1882.*—Mail car on the Logansport and Warsaw line, bound west, went through a bridge near Burnside, Ill. Route Agent E. V. Cox, who was on duty at the time, went down with the car, which landed in about 10 feet of water, and was carried through one of the

windows by the force of the current. He returned as soon as possible, and saved all of the mail that could be recovered. About one-fourth of the mail was swept away, and the paper mail was so thoroughly soaked that it was of no account whatever.

*May 11, 1882.*—Mail train, south bound, on the Kansas and Texas Division of the Missouri Pacific Railway, was wrecked in a collision near Oswego, Kans., by a runaway engine. The tender to engine of mail train was partially telescoped into the postal car, entirely demolishing the letter cases and damaging a portion of the mail. Head Clerk J. S. Weaver, Hannibal and Denison railway post-office, was bruised considerably. Assistant Railway Postal Clerk H. Kendall escaped without injury.

*May 11, 1882.*—Mail train on the Memphis and Little Rock Railway was wrecked near Carlisle, Ark., the mail car being ditched and turned completely over. Some empty canvas sacks caught fire and were consumed, and a small quantity of letter and paper mail was damaged by the oil from broken lamps. The engineer, fireman, and two express messengers connected with the train were more or less injured, but Route Agent H. C. Chase escaped with very little injury.

*May 19, 1882.*—The Charleston and Jacksonville railway post-office, when near Jacksonborough, S. C., struck a cow and was badly wrecked. The engineer, conductor, and fireman were injured, but the clerk in charge of the postal car escaped uninjured. The mail was saved, and transferred to another car and forwarded to destination.

*May 19, 1882.*—The mail train on the Gunnison Division of the Denver and Rio Grande Railway was wrecked by being derailed, the engine, mail and baggage car, and all the passenger coaches being overturned. The letter mail was considerably soiled, but not so badly as to render it unreadable. All the mail was forwarded to destination.

*May 20, 1882.*—Train No. 42, Richmond, Fredericksburgh, and Potomac Railroad, when near Richmond, Va., collided with a freight train on side track, damaging the postal car, and crippling Clerk B. M. Laws, and slightly injuring Head Clerk J. Q. West, and E. Thompson, a clerk in Superintendent Vickery's office. The mail sustained no damage.

*May 31, 1882.*—West-bound train on Texas and Pacific Railway (Texarkana, Ark., and El Paso, Tex., route) was wrecked near Colorado, Tex., by the breaking of wheel of forward truck of locomotive when approaching a bridge, and the engine, mail and express cars were thrown from the track, breaking through the bridge, falling some 25 feet. Route Agent S. A. Stuart, who was on duty at the time, was very seriously bruised and scalded. The mail was saved and forwarded, though a part of it was in bad condition.

*June 9, 1882.*—Mail car No. 51, Calmar and Mitchell railway post-office, bound west, was wrecked at Canton, Dak. The route agent, Butler Lowmy, was obliged to cut himself out of the car. The registered mail was all saved, together with most of the ordinary mail, some of it being damaged by oil and water.

*June 16, 1882.*—The Clarksburgh and Weston railway post-office ran off the track at Loveberry Bend, W. Va., about 2 miles south of Clarksburgh, and fell over a trestle, taking with it the mail car and the entire train. Route Agent Benjamin W. Jackson saved himself by jumping from the car. There were two persons killed outright in the accident and sixteen persons more or less injured. The mails were saved and properly forwarded.

*June 19, 1882.*—Train No. 52, leaving Washington, D. C., yesterday, was wrecked at 7 o'clock this morning at Fall Creek, Va., about 6½

miles north of Danville, in a collision with a freight train. The mail was secured and forwarded to Danville. Messrs. Cook, Larrabee, and Carr, the clerks on duty in the postal car, were knocked about and cut and bruised, but not seriously.

June 29, 1882.—The Chicago, Foreston and Dubuque railway post-office was wrecked a short distance east of Maryland, Ill., the track having been washed out by a terrible rain-storm and water-spout. Head Clerk Best and O. M. Welch were on duty at the time. Mr. Best was thrown out of the car into 5 feet of water, and a package of letters which he had in his hand was lost. He was not injured, nor was Mr. Welch. All of the mail was badly damaged by the water, but it was secured and forwarded to the Chicago post-office.

#### RECAPITULATION.

Number of casualties.....	83
Employés killed .....	3
Seriously injured .....	16
Slightly injured .....	20
Total killed and wounded .....	39

**REPORT**  
**OF THE**  
**THIRD ASSISTANT POSTMASTER-GENERAL.**  
**FOR THE**  
**FISCAL YEAR ENDED JUNE 30, 1882.**

# REPORT

## OF THE

### THIRD ASSISTANT POSTMASTER-GENERAL.

POST-OFFICE DEPARTMENT,  
OFFICE OF THE THIRD ASSISTANT POSTMASTER-GENERAL,  
*Washington, D. C., November 1, 1882.*

SIR: I have the honor to submit the following report and accompanying tables, numbered from 1 to 19, inclusive, pertaining to the business of this office for the fiscal year ended June 30, 1882, viz:

No. 1. Explanation of estimates of appropriations for the office of the Third Assistant Postmaster-General for the fiscal year ending June 30, 1884.

No. 2. Statement exhibiting the receipts and expenditures, under appropriate heads, by quarters, for the fiscal year ended June 30, 1882, compared with the fiscal years ended June 30, 1881, and June 30, 1880.

No. 3. Statement showing itemized appropriations for the service of the Post-Office Department for the fiscal year ended June 30, 1882, and the expenditures made out of the same.

No. 4. Statement showing receipts and disbursements at Treasury depositories during the fiscal year ended June 30, 1882.

No. 5. Statement showing receipts and disbursements at depository post-offices for the fiscal year ended June 30, 1882.

No. 6. Statement showing the issue in detail of all of the several kinds of adhesive postage-stamps, stamped envelopes, and postal cards for the fiscal year ended June 30, 1882.

No. 7. Statement showing separately the issues of official postage-stamps for the fiscal year ended June 30, 1882.

No. 8. Statement showing the issues of postage-stamps, stamped envelopes, newspaper wrappers, and postal cards by denominations for the fiscal year ended June 30, 1882.

No. 9. Statement showing the increase in the number and value of postage-stamps, stamped envelopes, and postal cards issued for the year ended June 30, 1882, over those of the preceding year.

No. 10. Statement showing dead mail matter treated in the division of dead letters during the year ended June 30, 1882.

No. 11. Statement showing the disposition of mail matter opened in the division of dead letters during the year ended June 30, 1882.

No. 12. Statement showing number of pieces, classification, and disposition of unmailable matter received at the dead-letter office during the year ended June 30, 1882.

No. 13. Statement showing the number of foreign dead letters, &c., received and disposed of during the year ended June 30, 1882.

No. 14. Statement showing the number of pieces of dead mail matter returned to and received from each of the foreign countries during the fiscal year ended June 30, 1882.

No. 15. Statement showing the number, classification, and disposition of dead registered letters, &c., during the year ended June 30, 1882.

No. 16. Statement showing the number of registered letters and parcels from each State and Territory in the United States transmitted through the mails during the year ended June 30, 1882.

No. 17. Statement showing the number and value of registered letters and packages forwarded for the Post-Office Department and Treasury Department during the fiscal year ended June 30, 1882.

No. 18. Statement showing the increase of registered letters and parcels upon which fees were collected at twenty-five of the leading cities during the fiscal year ended June 30, 1882, over the preceding year.

No. 19. Statement showing the operations of the registry system at the cities of New York, Philadelphia, Chicago, Saint Louis, and Washington, during the fiscal year ended June 30, 1882.

#### FINANCIAL STATEMENT.

The receipts and expenditures of the department during the fiscal year ended June 30, 1882, were as follows:

Receipts:	
Letter postage, paid in money .....	\$97, 585 32
Box rents .....	1, 652, 132 21
Fines and penalties .....	20, 426 99
Sales of postage-stamps, stamped envelopes, newspaper wrappers, and postal cards .....	39, 703, 357 00
Dead letters for which no claimants could be found .....	7, 657 63
Net revenue from money-order business .....	360, 767 35
Miscellaneous .....	34, 483 65
Total .....	41, 876, 410 15
The expenditures for the service of the year were .....	40, 039, 634 75
Excess of receipts .....	1, 836, 775 40

In addition to the expenditures for the service of the year, the sum of \$442,386.48 was paid on account of indebtedness of previous years, making the total amount expended during the year \$40,482,021.23. Of the \$442,386.48 above, \$399,314.58 was for the service of the fiscal year ended June 30, 1881, which, added to the amount previously paid (\$39,251,736.46), as shown in the annual report of the Postmaster-General for 1881, makes the total expenditures thus far made on account of that year \$39,651,051.04. The outstanding liabilities for service of the year ended June 30, 1882, have been placed, at a close estimate, at \$328,550.46, which, added to the amount already paid (\$40,039,634.75), would make the total expenditures and liabilities for the year \$40,368,185.21, an excess of \$717,134.17, or 1.8 per cent., over the amount thus far paid for the service of the year ended June 30, 1881.

In the single item of compensation to postmasters, which is regulated by law, the increased expenditure was \$665,933.93, leaving only \$51,200.24 as the aggregate increase in all the remaining items.

In Table No. 2, which accompanies this report, will be found a detailed statement by quarters of the receipts and expenditures for the fiscal year ended June 30, 1882, and a comparison of the same with the two years immediately preceding.

The gross receipts for the year were \$5,091,012.18, or 13.8 per cent., more than those of the preceding year. The increase from the sale of postage-stamps, stamped envelopes, and postal cards was \$4,867,611.90,

or 13.9 per cent.; from box rents and branch offices, \$152,682.34, or 10.1 per cent.; from proceeds of money-order business, \$65,185.96, or 22 per cent.; from fines and penalties, \$4,675.55, or 29.6 per cent.; from dead letters, \$1,073.23, or 16.2 per cent.; and from "miscellaneous" sources, \$3,007.11, or 9.5 per cent. There was a decrease of \$3,223.91, or 3.1 per cent., in the amount of letter postages paid in money.

In Table No. 3 will be found a statement showing the appropriations by items for the service of the last fiscal year, and the amounts expended out of the same. The total amount appropriated was \$43,542,697.83, covering forty-four specific items. In three of these items the full amounts appropriated were expended; in thirty-seven items there were unexpended balances aggregating \$3,512,513.11; and in the remaining four items the expenditures exceeded the appropriations in the total sum of \$9,450.03, leaving a net excess of appropriations over expenditures of \$3,503,063.08. The largest single unexpended balance was in "star service," the appropriation for which was \$7,900,000, the expenditure \$5,704,466.33, and the amount left unexpended \$2,195,533.67.

The appropriation for mail transportation by railroads was \$10,608,282, of which \$10,286,085 was expended, leaving an unexpended balance at the close of the year of \$322,197. The expenditure for railroad transportation does not, however, cover the entire cost of that service, the law, as construed by the officers of the Treasury (see v. 20, Stat., p. 420), providing that the earnings of certain of the Pacific railroads for mail transportation shall not be treated among the expenditures of the Post-Office Department. The circumstances of the case are, briefly, that to aid in the construction of certain railroad lines to the Pacific Ocean the United States, by various acts of Congress, issued to the companies constructing these lines large amounts of bonds, the principal of which, with the interest, was to be reimbursed at maturity. To assist in securing the payment of this indebtedness the government was authorized to withhold a portion or all of the earnings of the several roads for transporting the mails, &c., and to credit the companies with the amounts thus withheld in the accounts between them and the Treasury. Prior to 1879 the moneys so earned by these companies for transporting the mails were paid out of the usual appropriations for the service of the Post-Office Department by warrants in favor of the Secretary of the Treasury, and were, therefore, included in the expenditures of the department. Since that year, however, under the requirements of the act of Congress of March 3, 1879, before referred to, the amounts have been merely certified to the Register of the Treasury by the Auditor for the Post-Office Department, and credited on the books of the Treasury Department to the companies in their accounts with the government for principal and interest of the bonds. The amounts thus certified, as will appear from the Auditor's reports, have been as follows:

For fiscal year ended June 30, 1879.....	\$712,209 31
For fiscal year ended June 30, 1880.....	995,604 93
For fiscal year ended June 30, 1881.....	1,100,689 65
For fiscal year ended June 30, 1882.....	1,214,185 37

Of the \$1,214,185.37 certified during the last fiscal year \$36,011.32 was for previous years, leaving the net amount for the service of the year \$1,178,174.05.

Under the law referred to none of the above amounts were included in the postal expenditures for the years to which they severally belong. The amounts cover the entire earnings of the several companies for carrying the mails, together with those of their branch and leased lines.

## AMOUNT DRAWN FROM THE TREASURY.

The only sum drawn from the general Treasury during the year was the following, in accordance with special appropriation made by Congress:

To pay schedule claims authorized by act approved August 5, 1882 (Statutes, Public No. 205, pp. 27 and 30), for the service of the year 1879 and prior years, as appears more fully by the report of the Auditor, \$6,595.12.

## CONDITION OF DEFICIENCY APPROPRIATIONS.

The following statement shows the condition of appropriations from the general Treasury to supply deficiencies in the postal revenues, viz:

1. For the fiscal year ended June 30, 1882, the amount appropriated from the Treasury to supply deficiencies in the postal revenue was \$2,152,258, which sum is still in the general Treasury, subject to requisition. As the postal revenues will undoubtedly prove sufficient to meet all the obligations, paid and unpaid, incurred during the year, the whole amount of the appropriation will remain in the Treasury, and by operation of law will cease to be available after the 30th of June, 1884.

2. For the fiscal year ended June 30, 1881, the amount appropriated out of the general Treasury to supply estimated deficiencies in the postal revenue was \$3,883,420, of which \$1,402,290.65 was left unexpended at the close of that year, \$883,420 being still in the Treasury undrawn, and \$518,870.65 in the hands of the Treasurer, subject to draft. Of this latter sum \$399,314.58 has since been expended on account of the service for the year ended June 30, 1881, leaving a total balance of \$1,002,976.07 still available for that year.

## BAD DEBTS.

As will appear by the report of the Auditor, the postal revenue was charged during the last year with the following:

1. Amount of bad debts .....	\$136,548 90
2. Amount of balances compromised .....	6,733 98
	<hr/> 143,282 88
Less amount of credits on suspended accounts .....	2,817 53
	<hr/> Balance .....

140,465 35

Of this amount \$133,672.84 accrued between 1789 and 1856, the suspended accounts for that period having been reviewed and finally closed by the Auditor during the past year. The whole amount, however, constitutes a charge against the postal revenue for the year ended June 30, 1882.

## TRANSACTIONS AT DEPOSITORIES.

The receipts and disbursements at Treasury and post-office depositories during the last fiscal year may be briefly stated as follows:

At Treasury depositories:	
Balance subject to draft June 30, 1881 .....	\$3,651,905 38
Outstanding warrants June 30, 1881 .....	61,337 60
Aggregate deposits during the year ended June 30, 1882 .....	21,156,070 52
	<hr/> Total .....
Amount of warrants paid during the year .....	24,869,313 50
	<hr/> 19,053,307 65
	<hr/> Balance at depositories June 30, 1882 .....
Outstanding warrants June 30, 1882 .....	5,816,005 85
	<hr/> 80,160 46
	<hr/> Balance subject to draft June 30, 1882 .....
	<hr/> 5,735,845 39

Transactions at these depositories in detail, with amount of increase or decrease as compared with the previous years are shown in Table No. 4, accompanying this report.

At post-office depositories:	
Balance subject to draft June 30, 1881.....	\$685, 178 69
Less credit balance June 30, 1881 .....	122 26
	<hr/>
	685, 056 43
Aggregate receipts during the quarter ended September 30, 1881.....	2, 723, 551 15
	<hr/>
Total .....	3, 413, 607 58
Disbursements during the quarter .....	\$1, 830, 711 98
Transferred to other depositories.....	1, 582, 895 60
	<hr/>
	3, 413, 607 58

On the 30th September, 1881, the post-office draft system was abolished, and the eighty-six draft offices then existing were discontinued as such. On October 1, 1881, the warrant system was extended to include all payments made to creditors of the department, except postmasters having balances due them, and excepting also the disbursements made under the authority of law by postmasters.

Table No. 5, submitted with this report, exhibits the receipts and disbursements at the different post-office depositories in detail.

#### CONTRACTS ENTERED AND ACCOUNTS KEPT.

During the year there were 3,865 contracts for mail service received from the Second Assistant Postmaster-General, and 19,210 orders of the Postmaster-General (of which 9,605 were double) recognizing mail service not under contract, curtailing or extending service, or modifying previous orders, being a decrease of 1,442 contracts and an increase of 3,936 orders as compared with the previous year. The contracts and orders were entered upon the books of the division of finance for reference when acting upon reports from the Auditor for the payment of mail contractors and other creditors of the department. The number of such reports received and acted upon during the year was 45,537, an increase of 3,490 over the previous year.

Accounts were kept with the Treasury, nine sub-treasuries, and thirty-nine designated depositories, involving the sum of \$20,998,144.72, against which 38,851 warrants were issued. Accounts were also kept with eighty-six post-office depositories, involving the sum of \$3,413,607.58, of which \$978,430.24 arose from the proceeds of the depository offices themselves and \$1,750,120.91 from deposits by other offices. Against the accumulations in the depository offices 6,786 drafts were issued, amounting to \$1,433,973.85. In addition to the amount paid out by draft, the sum of \$396,738.13 was paid to route agents, railway post-office clerks, mail messengers, and letter-carriers, by the postmasters authorized to make such payments, the accounts for which were rendered monthly to this office.

#### ESTIMATES FOR 1884.

The postal revenue for the year ending June 30, 1884, is estimated at..	\$50, 670, 456 27
The expenditures for the year, as shown in the estimates that have been approved by the Postmaster-General, are placed at. ....	46, 741, 111 25
	<hr/>
Leaving an estimated surplus of revenue of .....	3, 929, 345 02

In estimating the revenue allowance is made for an annual increase of 10 per cent. on the revenue of the last fiscal year, making the estimated revenue for the present year \$46,064,051.16, and for the next year

\$50,670,456.27, as stated above. There was an increase of revenue for 1880 over 1879 at the rate of 10.8 per cent., for 1881 over 1880 of 10.4 per cent., and for 1882 over 1881 of 13.8 per cent. The returns from a large number of the principal offices for the quarter ended September 30 of the present year indicate an increase of nearly 12 per cent. over the corresponding quarter of last year. The full amounts of the estimates are likely to be realized, unless there should be unexpected reverses in the business prosperity of the country, or changes in the existing classification of mail matter and the rates of postage, injuriously affecting the postal revenue.

#### APPROPRIATIONS, EXPENDITURES, AND ESTIMATES FOR THE SERVICE OF THIS OFFICE.

The aggregate appropriations for the service of this office for the year ended June 30, 1882, were \$1,074,544.35, of which \$909,982.03 was expended, leaving an unexpended balance of \$164,562.32, or 15.3 per cent. of the total amount appropriated. The expenditures for the year were only \$22,428.94, or a little more than 2.5 per cent., over those of the preceding year. This slight excess, in face of the large increase in the supplies for which the expenditures were principally incurred, was owing to new contracts entered into at the beginning of the last fiscal year at reduced rates for adhesive postage-stamps and postal cards. The old contracts superseded others at still higher rates existing up to the 30th of June, 1877, so that the expenditures of this office for the year ended on that date were only \$64,675.20, or 7 per cent., less than those for the fiscal year ended June 30, 1882, while the total number of postage-stamps, stamped envelopes, postal cards, and official envelopes issued during the latter year was 701,982,969, or 65.2 per cent., in excess of the total number issued for the year 1877. The estimates for the next fiscal year, with the explanations thereof, will be found in paper marked No. 1, attached to this report.

#### DIVISION OF POSTAGE-STAMPS, STAMPED ENVELOPES, AND POSTAL CARDS.

The operations of this division during the year may be summarized as follows: The number of ordinary postage-stamps issued to postmasters for sale to the public during the year was 1,114,560,330, valued at \$28,679,528; of newspaper and periodical stamps, 2,214,893, valued at \$1,602,069.70; of postage-due stamps, 11,375,310, valued at \$352,170; of official postage-stamps, 2,319,555, valued at \$139,991.75; of ordinary stamped envelopes, plain, 114,774,700, valued at \$2,994,868.82; of stamped envelopes bearing a printed return request, 100,704,250, valued at \$3,163,894.85; of newspaper wrappers, 41,086,500, valued at \$500,208.80; of postal cards, 351,498,000, valued at \$3,516,015; and of official stamped envelopes and wrappers issued to the War Department for official use, 2,037,500, valued at \$29,306.50; making a total number of 1,740,571,038, and a total value of \$40,978,053.42.

These issues show an increase in value over those of the preceding year as follows: Of ordinary postage-stamps, \$4,638,901, or 19.2 per cent.; of newspaper and periodical stamps, \$203,395.70, or 14.5 per cent.; of postage-due stamps, \$97,777, or 38.4 per cent.; of official postage stamps, \$32,214.43, or 29.8 per cent.; of ordinary stamped envelopes, plain, \$347,301.08, or 13.1 per cent.; of ordinary stamped envelopes, return request, \$539,413.10, or 20.5 per cent.; of newspaper wrappers, \$69,054.20, or 16 per cent.; and of postal cards, \$429,410, or 13.9 per cent. There was a decrease in the issue of official stamped envelopes

and wrappers for the use of the War Department amounting to \$4,849, or 14.1 per cent.

The total increase in the value of all the issues was \$6,352,617.51, or 18.3 per cent.

In addition to the foregoing articles, there were issued for official use 9,711,500 registered package envelopes, 835,750 tag envelopes for registered parcels, 23,724,300 post office envelopes, 1,025,000 envelopes for returning dead letters, 285,000 international money-order envelopes, and 1,395,000 departmental envelopes for the use of the several bureaus of this department.

The requisitions upon which the foregoing supplies were issued numbered as follows:

For ordinary postage-stamps.....	135,530
For newspaper and periodical stamps.....	10,840
For postage-due stamps.....	13,689
For stamped envelopes, plain.....	64,400
For stamped envelopes bearing a return request.....	79,322
For postal cards.....	78,431
For official postage-stamps and stamped envelopes.....	29
For registered-package envelopes.....	54,754
For tag envelopes for registered packages.....	1,370
For post-office envelopes.....	24,802
For newspaper and periodical receipt-books.....	1,543
<b>Total.....</b>	<b>464,710</b>

These supplies were made up and forwarded in the following number of parcels:

Of ordinary postage-stamps.....	139,413
Of postage-due stamps.....	13,685
Of newspaper and periodical stamps.....	9,825
Of stamped envelopes, plain.....	94,862
Of stamped envelopes, printed.....	72,362
Of postal cards.....	85,065
Of official postage-stamps.....	26
Of official stamped envelopes.....	86
Of registered-package envelopes.....	56,850
Of tag envelopes for registered packages.....	1,370
Of post-office envelopes.....	31,802
Of newspaper and periodical receipt-books.....	1,543
<b>Total.....</b>	<b>506,889</b>

The following is a comparative statement of requisitions filed during the past and preceding fiscal years:

Articles.	Requisitions filed during fiscal year ended June 30, 1892.	Requisitions filed during fiscal year ended June 30, 1891.	Increase.
For ordinary postage-stamps.....	135,530	128,502	7,028
For postage-due stamps.....	13,689	8,846	4,843
For newspaper and periodical stamps.....	10,840	10,021	819
For stamped envelopes, plain.....	64,400	60,462	3,938
For stamped envelopes, printed.....	79,322	69,153	10,169
For postal cards.....	78,431	71,440	7,011
For official postage-stamps and stamped envelopes.....	29	33	*4
For registered-package envelopes.....	54,754	52,103	2,651
For tag envelopes.....	1,370	56	1,314
For post-office envelopes.....	24,802	23,259	1,543
For newspaper and periodical receipt-books.....	1,543	7,013	*5,470
<b>Total.....</b>	<b>464,710</b>	<b>430,868</b>	<b>†33,842</b>

\* Decrease.

† Or 7.8 per cent. net increase.

## POSTAGE ON SECOND-CLASS MATTER.

The weight of newspaper and periodical (second-class) matter mailed during the year from regular offices of publication and from news agencies, not including free circulation within the county of publication, was 78,255,164 pounds, or 39,127<sup>1104</sup>/<sub>1000</sub> tons, the postage on which was \$1,565,103.28, an increase of \$166,054.64, or 11.15 per cent., over the amount of postage collected on such matter during the preceding year.

The number of post-offices at which this class of matter was mailed during the year is 5,080, an increase of 259, or 5.37 per cent., over the number for the previous year.

The following table shows the number of pounds of newspapers and periodicals mailed during the year and the amount of postage collected thereon at sixteen of the principal post-offices in the United States:

Post-office at—	Year ended June 30, 1881.		Year ended June 30, 1882.		Increase for 1882.			Percentage of total amount collected in the United States.
	No. of pounds of matter.	Amount of postage col- lected.	No. of pounds of matter.	Amount of postage col- lected.	In number of pounds.	In amount of postage.	Percentage of increase.	
New York, N. Y.	19,340,898	\$386,817 96	21,279,330	\$425,586 60	1,938,432	\$38,768 64	10.0	27.19

\* Decrease.

Since January 1, 1875, the postage on newspapers and periodicals mailed by publishers and news agents to regular subscribers or news agents has been prepaid at pound rates. The matter is weighed in bulk, and the postage paid with special adhesive stamps, officially designated as newspaper and periodical stamps. A receipt is given the publisher or news agent for each consignment of matter, and the proper amount of stamps is affixed to the stub in the receipt-book, on which is also entered a memorandum showing the name of the publication the date of mailing, the weight of matter, and the amount of postage collected. The postmaster is required to render a quarterly statement to this office showing the total weight of matter mailed and amount of postage collected from each publisher and news agent during the quarter. The stamps are charged to the postmaster's account when issued, and if affixed to the stubs and canceled, the revenue is secured to the government. To insure this postmasters are required at the close of each quarter to send the stubs used during the quarter to this office, where they are carefully examined and compared with the memorandum entries and with the quarterly statements. Discrep-

ancies are not infrequently discovered, and postmasters are required to make good all deficiencies. But undoubtedly the most important benefit of requiring the return of the stubs is in admonishing postmasters to properly apply and cancel the stamps, when, through neglect or design, this duty would often be omitted if the stubs were permitted to remain in the post-office. The examination of the stubs of course imposes much labor, but the expenditure is well repaid. During the last year examinations were made of the stubs in 22,432 receipt-books, and 19,032 quarterly statements were examined and recorded. The sum of \$1,733.55 was collected at proper rates from publishers and news agents on matter mailed but not entitled to go as second-class matter.

#### NEW CONTRACT FOR STAMPED ENVELOPES AT REDUCED PRICES.

During the year the preliminary steps were taken for obtaining a new contract for stamped envelopes and newspaper wrappers, the old contract expiring on the 30th September. Substantially the same course was pursued as when the late contract was entered into, four years ago. Under date of May 1, 1882, advertisements were published in various newspapers in the principal cities, inviting sealed proposals from envelope manufacturers, until 12 m. of the 8th day of June, for all the stamped envelopes and wrappers that the department might order during the contract term of four years, commencing on the 1st October. Full and explicit specifications as to the requirements accompanied the blank form of proposals furnished to bidders, to which were attached samples of the various sizes and grades called for. The standards of the several grades of paper were prescribed, the character of the materials entering into their composition, the weight per ream of specified sizes, and other particulars connected with the manufacture of the paper being fully set forth. Other specified requirements related to the manufacture of the envelopes and wrappers, the preparation and control of the dies for embossing the stamps, the security of the building used for manufacture, the sufficiency of stock to be kept on hand, the place and manner of delivery, the mode of packing for shipments, the destruction of spoiled work, the manner of inspection by the agents of the department, and, in short, to all the particulars needful to secure the interests of the government in connection with the contract. Bids were to be made for each item separately, and it was provided that the award should be made as a whole to the lowest responsible bidder in the aggregate on the basis of the actual number of each of the several kinds issued during the year ended March 31, 1882, the total issues of that year having aggregated 249,308,750 envelopes and wrappers. The forfeiture for failure of the successful bidder to enter into contract was placed under guarantee at \$50,000, and the penalty of the bond for non-performance of contract at \$200,000. On the day fixed for the receipt of bids (June 8) five sealed proposals were submitted, and on being opened and examined by the Postmaster-General and myself, in the presence of the bidders and others, the names of the bidders and the amounts of their respective bids, on the basis referred to, were found to be as follows:

1. The Plimpton Envelope Company, of Hartford, Conn., and the Morgan Envelope Company, of Springfield, Mass .....	\$456, 197 58
2. White, Corbin & Co., of Rockville, Conn .....	461, 842 90
3. The Holyoke Envelope Company, of Holyoke, Mass .....	464, 421 21
4. Geo. F. Nesbitt & Co., of New York City .....	470, 927 62
5. Wade H. Hill, of Worcester, Mass .....	476, 585 40

The closeness in amount between these several bids bears evidence to the exactness with which the requirements of the contract were estab-

lished by the specifications. The lowest bidders were the Plimpton and Morgan companies, who had held the contract for the two previous terms of four years each, and the new contract was accordingly awarded to them. The contract was duly executed, and its performance, entered into on the 1st October, is now satisfactorily progressing. The prices in the new contract average a reduction of nearly 7 per cent. from those in the old one. The law requires that stamped envelopes shall be sold at the cost of procurement, as near as may be, and accordingly a new schedule of prices has been adopted for the sale of the envelopes to the public at reduced rates. The present reduction follows one of about 20 per cent. four years ago under the contract then made. Under the new schedule the best quality note size envelopes will be sold, exclusive of the postage value, at \$1.60 per 1,000; of full letter size, at \$2 per 1,000; of commercial size, at \$2.20 per 1,000; of extra letter size, at \$2.40 per 1,000; of official size, at \$3.60 per 1,000; and of extra official size, at \$4 per 1,000. The second quality envelopes are sold at 20 cents per thousand less than these prices, and the third quality envelopes at 20 cents per thousand less than the second quality, for corresponding sizes.

The full letter and extra letter sized ungummed envelopes for circulars are sold at \$1.20 and \$1.40 respectively, and the newspaper wrappers at \$1 per 1,000, in addition to postage.

To illustrate the great reduction in the price of stamped envelopes during the past few years, a letter size envelope, which in 1869 was sold at \$4.80 per 1,000, is now furnished in an equally good if not better grade at \$1.80 per 1,000. An extra letter size envelope, which then sold at \$6 per 1,000, can now be furnished in as good quality at \$2.40. The official size, then sold at \$8.60 per 1,000, is now offered in an equally good quality at \$3.40 per 1,000. The public has received the pecuniary benefits of these reductions, the envelopes being sold by the department, as before stated, at the cost of procuring them. Equally great reductions have been attained in the cost of other supplies. Adhesive postage-stamps, which in 1869 cost 27½ cents per 1,000, are now obtained at 9.19 cents per 1,000, and postal cards, first introduced in 1873, and then costing \$1.39½ per 1,000, are now procured at 54.43 cents per 1,000.

#### POPULARITY OF RETURN REQUEST SYSTEM.

The increasing popularity of the return request system is shown in the issues of stamped envelopes. The total number of stamped envelopes (excluding envelopes for circulars and newspaper wrappers) issued during the year ended June 30, 1877, was 129,199,450, of which 64,824,950, or 50.1 per cent., were plain and 64,374,500, or 49.9 per cent., were printed with special requests for return to writers. The issues for the year ended June 30, 1882 (excluding circular envelopes and wrappers), numbered 188,457,200, of which 87,752,950, or 46.5 per cent., were plain and 100,704,250, or 53.4 per cent., were printed with special requests to return. In other words, the increase in plain stamped envelopes from 1877 to 1882 was 35.3 per cent., while the increase in special request stamped envelopes was 56.4 per cent. No extra charge is made to the public for printing special return requests on stamped envelopes, but they are not furnished in lots of less than 500 each. The contract for stamped envelopes provides that the printing shall be done by the contractor without additional cost to the department.

## NEW FIVE-CENT STAMP.

During the year a change was made in the design of the five-cent postage stamp, which is used mostly for correspondence with foreign countries. The following is a description of the new adhesive stamp: On a tablet is suspended an incised shield decorated with an oval of pearls forming a framework to the portrait of the late President of the United States, James A. Garfield, looking toward the left, engraved in line. At the base of the oval is a dark six-pointed star relieved by a white outline, and in the center the figure "5." Disposed on the right and left of the star flows a ribbon containing the legend "Five cents" in white Roman capitals. Below the star and ribbon, on the lower portion of the tablet, appear the words "U. S. Postage," engraved in dark letters. The color of the stamp is chocolate brown. The first issue of the new stamps was under date of April 10, 1882. The embossed stamp on the five-cent stamped envelopes has also been changed to pattern, as nearly as possible, after the design of the adhesive stamp. The new stamp is very much superior to the old one in style and workmanship, and it has been received with flattering expressions of popular approval.

## DIVISION OF DEAD LETTERS.

The total number of pieces of mail matter received at the dead letter office during the year was 4,160,554, an increase of 486,349, or 13.2 per cent., over the number received during the previous fiscal year. The number remaining undisposed of at the close of the previous year was 124,731, making the total number in hand for treatment during the year 4,285,285, of which 4,225,685 were finally disposed of, and 59,600 were left on hand at the close of the year for further treatment. The following is the classification and number of pieces of matter in hand during the year:

Domestic mailed letters, including 3,049,952 ordinary unclaimed letters; 83,187 letters returned from hotels; 14,407 letters bearing fictitious addresses; 136,919 letters returned from foreign countries, and 4,124 registered letters.....	3,288,589
Domestic unmailable letters, comprising 275,240 held-for-postage letters; 954 letters containing unmailable articles; 274,715 misdirected letters, and 11,711 letters without address .....	562,620
Domestic parcels of third and fourth class matter .....	60,476
Letters mailed in foreign countries .....	356,287
Printed matter, samples, &c., mailed in foreign countries and returnable..	17,313
Total, as before .....	4,285,285

The following was the disposition primarily of the letters handled during the year:

Domestic mailed letters:	
Card and request letters delivered unopened .....	40,676
Letters opened .....	3,196,813
Letters left on hand .....	51,100
	3,288,589
Domestic unmailable letters:	
Held-for-postage letters forwarded to address unopened on receipt of postage .....	38,173
Held-for-postage letters opened .....	233,017
Held-for-postage letters left on hand to await return of notices.	4,050
Letters containing unmailable articles opened .....	954
Misdirected letters forwarded unopened after correction of address .....	99,267
Misdirected letters opened .....	175,448
Letters without address opened .....	11,711
	562,620

Domestic third and fourth class matter:		
Parcels opened and returned .....	41,041	
Parcels opened and left on hand .....	15,633	
		56,674
Foreign matter:		
Letters delivered .....	351,837	
Letters still on hand .....	4,450	
Parcels of printed matter, samples, &c., returned unopened ....	17,313	
		373,600

## MATTER OPENED IN DEAD LETTER OFFICE.

The following was the disposition of mail matter opened in the dead letter office:

Delivered:		
Letters containing money .....	16,213	
Letters containing drafts, checks, and other evidences of monetary value .....	23,828	
Letters containing receipts, paid notes, &c. ....	41,588	
Letters containing postage-stamps .....	49,577	
Letters containing nothing of value .....	526,179	
Photographs .....	33,796	
Parcels of merchandise, books, &c. ....	41,041	
		732,222
Returned and awaiting evidence of delivery:		
Letters containing money .....	1,325	
Letters containing drafts, checks, &c. ....	969	
Parcels of merchandise, books, &c. ....	7	
		2,301
Under treatment looking to delivery:		
Letters containing money .....	1,454	
Parcels of merchandise, books, &c. ....	15,633	
		17,087
Filed, upon failure to deliver:		
Letters containing money .....	3,550	
Letters containing drafts, checks, &c. ....	800	
Letters containing receipts, paid notes, &c. ....	3,143	
Letters containing postage-stamps .....	2,886	
Photographs .....	5,446	
Parcels of merchandise, books, &c. ....	19,624	
		35,449
Destroyed:		
Letters containing nothing of value, including 89,900 letters forwarded to writers and returned upon failure to deliver .....	2,880,398	
Parcels containing magazines, pamphlets, fruit, cakes, seed, &c. .	14,537	
		2,894,935

## FOREIGN DEAD MAIL MATTER.

The following statement shows the disposition during the year of dead mail matter originating in foreign countries:

Returned to country of origin:		
Registered letters .....	8,137	
Ordinary letters .....	336,623	
Parcels of printed matter, &c. ....	17,197	
		361,957
Delivered to addressees:		
Registered letters .....	480	
Ordinary letters .....	203	
		683
Misdirected matter forwarded to corrected addresses:		
Ordinary letters .....	6,394	
Parcels of printed matter, &c. ....	116	
		6,510
On hand under treatment:		
Registered letters .....	203	
Ordinary letters .....	4,247	
		4,450
Grand total .....		373,600

## MATTER RETURNED FROM FOREIGN COUNTRIES.

The following number of pieces of matter originating in the United States was returned to the dead letter office from foreign countries during the year, as undeliverable:

Registered letters .....	982
Ordinary letters .....	136,919
Parcels of printed matter, &c. ....	24,581
	<hr/>
	162,482

## DEAD REGISTERED MATTER.

Included in the matter under treatment during the year were the following registered letters and parcels:

Number delivered to addressees or restored to senders .....	11,291
Returned to postmasters for delivery and awaiting receipts .....	35
Filed upon failure to discover ownership, subject to future reclamation .....	485
	<hr/>
Total .....	11,811

## VALUABLE INCLOSURES.

Evidence of the great value of the inclosures found in many of the letters and parcels received and opened at the dead letter office will be disclosed by an examination of Table No. 13 herewith. Among them were 19,989 containing money to the amount of \$44,326.65; 24,575 containing checks, drafts, money-orders, &c., representing a value of \$1,962,413.73; 90,842 containing merchandise, books, &c.; 52,463 containing postage-stamps; 44,731 containing receipts, paid notes, &c.; and 39,242 containing photographs. The articles of merchandise are of every conceivable kind, and often of rare interest and great value.

## REVENUE FROM DEAD MATTER.

The sum of \$3,739.02 was received for postage on insufficiently prepaid letters forwarded to destination, and upon articles of third and fourth class matter returned to the senders, and \$7,457.63, taken from dead letters which could not be restored to the owners, was deposited in the Treasury to the credit of the Post-Office Department. Statistics more in detail concerning the operations of the dead letter office will be found in tables numbered from 10 to 15 hereto attached.

## CHANGE IN TREATMENT OF HELD-FOR-POSTAGE LETTERS.

An important change in the mode of treating "held-for-postage" letters, and insufficiently prepaid articles of third and fourth class matter, was made by a formal order of the Postmaster-General, bearing date of May 11, 1882, to take effect on the 1st of July next ensuing. The law requires that, to be entitled to admission into the mails, domestic letters (of whatever weight) shall be prepaid to the extent of at least one full rate of postage, and that third and fourth class matter shall be prepaid in full. The statute (section 3937, Revised Statutes) with respect to letters is in the following words:

All domestic letters deposited in any post-office for mailing, on which the postage is wholly unpaid or paid less than one full rate as required by law, except letters lawfully free, and duly certified letters of soldiers, sailors, and marines in the service of the United States, shall be sent by the postmaster to the dead letter office in Washington. But in large cities and adjacent districts of dense population, having two or

more post-offices within a distance of 3 miles of each other, any letter mailed at one of such offices, and addressed to a locality within the delivery of another of such offices, which shall have been inadvertently prepaid at the drop or local letter of postage only, may be forwarded to its destination through the proper office, charged with the amount of the deficient postage, to be collected on delivery.

The mode of treating letters held under this law was described on page 255 of the Postmaster-General's Report for 1879, as follows:

Those that bear a name and address, or a business card, post-office box, or other designation by which the writer can be identified, are immediately restored to the owner, or his attention invited to the deficiency of postage by the postmaster at the mailing office. Of the balance, all "local" or "drop" letters are delivered by the postmasters to the persons addressed, upon payment by them of the necessary postage, after due notice of the fact and cause of detention. The remainder are sent to the dead letter office, and are at once examined by an expert, who, taking into consideration the places of origin and destination of each letter, determines whether it can be returned to the writer in less time than would be required to collect the postage from the addressee and forward the letter to destination. And each letter is then treated in the way decided to be the quicker. Wherever a doubt exists, or where the difference is very small, the postage is collected and the letter forwarded, thus preserving the seal intact.

The first-class offices made daily and all other offices weekly returns of held-for-postage matter. Of the 129,507 letters received at the dead letter office during the six months ended December 31, 1881, 32,479, or 25 per cent., were forwarded to addressees; 80,593, or 62 per cent., were returned to the writers; and 13 per cent., containing no clew to identify the writers, were destroyed. The deliveries, therefore, represented 87 per cent. of the total number received.

The Postmaster-General's order of May 11, referred to, and the regulations made in pursuance thereof, provide that before sending held-for-postage letters to the dead letter office the addressees shall be given the opportunity of securing such letters direct from the mailing office upon furnishing the amount of stamps required to supply the deficient postage, in compliance with notice given by the postmaster. Upon failure of the addressees to respond within proper time the letters are to be sent to the dead letter office, as required by law. The order includes insufficiently prepaid third and fourth class matter within its provisions, but it does not, of course, apply to letters or other matter which bear the card or address of the sender, such matter being returned immediately to the party mailing it. The order was restricted in its operations to a number of the larger offices—those at which the free delivery system is employed—as it could not reasonably be expected that at the great mass of the smaller offices the work would be done with that degree of intelligence and promptness necessary to secure efficient results. It was thought best to draw the line, for the present at least, at the free delivery offices, it having been ascertained that fully 45 per cent. of all the held-for-postage letters received at the dead letter office from that class of offices bore two-cent stamps, thus exhibiting a great popular misapprehension of the difference between the rates of postage on local letters and those addressed to other post-offices.

The merits of the new plan are obvious. It would seem only just that the addressee, with the ultimate liability of being called upon for the deficient postage, should in the first instance be given the opportunity of paying it, and of thus securing possession at the earliest possible moment of the matter detained. And it admits of no question that, in the great majority of cases, matter can be delivered more speedily when sent direct from the mailing offices than when forwarded from a common center (say the dead letter office) to which it must first be gathered for distribution.

The change was received with great favor, which has been fully justified by its results. Returns have been received from 97 of the free-delivery offices for the quarter ended September 30, showing that out of a total of 77,954 pieces of held-for-postage matter (letters and parcels) accruing at these offices, 59,711 pieces were forwarded to addressees upon receipt of the deficient postage; 11,767 were sent to the dead-letter office upon failure of the addressees to respond; and 6,476 received near the close of the quarter were still on hand awaiting the return of notices. Excluding these latter leaves the number of pieces finally treated by the mailing offices during the quarter at 71,478, of which those forwarded to the addressees represented about 84 per cent., and those sent to the dead-letter office about 16 per cent.

The large proportion of direct deliveries from the mailing offices has exceeded the most sanguine expectations, and it fully sustains the theory upon which the new treatment was founded, that the addressees would willingly pay the deficient postage rather than have the matter go to the dead-letter office, the notices sent to them presenting that alternative. No serious obstacles have been encountered in carrying the new order into practical effect, and in view of its present success it might be advantageously extended to a still larger number of the principal offices.

#### DIVISION OF REGISTRATION.

The total number of letters and parcels forwarded by registered mail during the fiscal year ended June 30, 1882, was 9,627,922, as follows:

Domestic letters .....	7, 200, 118
Domestic parcels of third and fourth class matter .....	799, 479
Letters to foreign countries.....	393, 107
Parcels of third and fourth class matter to foreign countries.....	22, 275
Official letters and packages forwarded by the government, and by law exempt from the payment of registry fees.....	1, 212, 943
<b>Total .....</b>	<b>9, 267, 922</b>

The amount of registry fees collected was \$841,497.90, an increase over the previous year of \$128,615.70, or 18.04 per cent. The increase in the total number of letters and parcels registered was 1,289,004, or 15.46 per cent. Subdividing this total, the increase in the number of letters, domestic and foreign, for the public was 1,121,375, or 17.33 per cent.; of parcels of third and fourth class matter, domestic and foreign, for the public 164,782, or 25.08 per cent.; and of letters and parcels for the government, only 2,847, or about one-fifth of one per cent. The increase of registry business for the public was thus a little over 18 per cent. Statistics more in detail will be found in tables numbered from 16 to 19 accompanying this report.

#### LOSSES.

During the year 7,082 registered letters and parcels were reported to the chief inspector as having been lost or tampered with. Of these 4,076 were found to have been delivered, or satisfactorily accounted for, and 2,513 are still undergoing investigation, leaving the actual losses as far as ascertained at 493 cases. The losses were due to a variety of causes, such as fire, burglary, highway robbery, theft, &c. If the cases still under investigation should result in the same proportion of loss as those that have been closed, the total losses for the year will number 726, or one out of every 13,262 pieces mailed. This is an unusually small proportion of loss, and it is to be taken in evidence of the increased efficiency of the registry service. Fuller details respecting the subject

of losses will be found in the report of the chief post-office inspector. Great credit is due to the inspectors for the energy, fidelity, judgment, and care with which they have treated the cases reported to them for investigation.

#### THROUGH-POUCH SYSTEM.

The system of exchanging registered matter in bulk between the larger offices by means of locked pouches was extended to 19 offices and discontinued at 25, leaving it in operation at 119 offices at the close of the year. The new tell-tale or rotary lock, referred to in my report of last year, was put into use early in the present calendar year, and it is proving a valuable instrument to the through-pouch system, effecting a great saving of clerical labor in dispensing with the necessity of examining and recording the contents of through pouches when lying over in transit at intermediate through-pouch offices. The system continues to operate satisfactorily wherever it is employed; indeed, in view of the great volume which the business has now attained it has become almost indispensable to the machinery of the registry system.

#### BRASS LOCK REGISTRY EXCHANGE SYSTEM.

The brass lock registry exchange system, established some three years since for exchanges on the important lines of star service, is still in successful operation. It was employed at 146 offices at the close of the year. It has proven a most valuable auxiliary to the through-pouch system on the railroads, to which it in general corresponds. Its essential features were explained in my reports of the last two years.

#### INTERNATIONAL REGISTERED THROUGH-POUCH EXCHANGE.

For a long period the department experienced much embarrassment from the defective system of exchanges of the registered mails with the eastern portion of the Dominion of Canada. Over a portion of the route of transmission, such mails were not in the special custody of a postal employé of either country, as is contemplated by the fundamental idea of our registry system. From Montreal, Canada, to Saint Albans, Vt., the registered pouches, fastened with a lead seal, were sent in a United States Treasury bonded car. From Saint Albans to Saint Armands, Canada, in the other direction, they were placed in the compartment of a car and locked with an iron lock. Great delays were also suffered in making connections, and, with the insecurity attending the system, formed the subject of frequent complaints. An entire registered mail was lost on the Canada side of the border, in the month of October, 1880, and not a trace of it could subsequently be discovered. Correspondence failed to secure better arrangements, and the evil became so urgent as to call imperatively for a remedy. With this end in view a conference was held at Montreal in September, 1881, between representatives of the Canadian Postal Department and Assistant Railway Mail Superintendent Moses, detailed to this office for duty in connection with the registry system, and myself, at which the details of a plan of international registry exchanges were arranged, and subsequently formally ratified by the postmasters-general of the two countries, to take effect January 1, 1882. In agreeing to the new international exchange system, the Canadian authorities so far varied from their domestic system as to make it conform in general to the methods employed in the registry service of this country. Among the principal features of the new

plan is the personal custody of pouches by sworn employes of the two countries; a complete chain of receipts and records from employe to employe between terminal points; the use of the tell-tale or rotary lock, and of the manifold through-pouch bill with coupon attachment; and the gathering and distribution of registered mail to and from through-pouch centers, according to our domestic through-pouch system. Each country furnishes its own pouches, locks, and other equipments. The lock used by the Canadian authorities is on the same principle as that adopted in this country and already referred to in another portion of this report. Locks of both countries are embossed with the name of the country of ownership.

In addition to the security, a great saving of time has been effected by the new arrangement. For instance, the former time for registered exchanges from New York to Montreal was 58 hours and 25 minutes, and now it is 24 hours and 50 minutes, a reduction in time of 33 hours and 35 minutes. From Montreal to New York the former time of 36 hours has been reduced to 25 hours and 22 minutes, a saving of 10 hours and 38 minutes.

The eastern portion of the United States has been districted by published schemes defining the respective limits of territory within which registered mails should be sent to and received from Canada through the international registry exchange offices of New York, Boston, Saint Albans, and Buffalo, with exceptions for Ogdensburgh, N. Y., and Island Pond, Vt. Similar schemes have also been arranged by the Canadian authorities for collecting and distributing the through registry mails in their country.

On the basis of a count for one quarter, the estimated number of registered pieces exchanged during the year 1881 between Boston and Montreal was 12,000; between New York and Montreal, 16,000; between Island Pond, Vt., and points in Canada, 15,000. A large increase on these figures has already resulted from the better system of exchanges, and from the addition of new territory to each of the through-pouch centers. Correspondence is now in progress looking to the extension of the eastern system of exchanges to the western portion of the country. This accomplished, the system of registry exchanges between the two countries will be complete.

#### GENERAL.

Attention was directed in my report of last year to the almost complete remodeling of the registry system during the previous four years. A summary was given of the principal changes that had been made, through which the machinery was simplified, the work greatly lessened, and the security enhanced. An extraordinary increase of business was pointed out to show the popular appreciation of the efforts made to improve the service. Special mention was made by the Postmaster-General in his report of the great growth and satisfactory condition of the service, and they were favorably commented upon by the President in his regular annual message to Congress.

The registry system was established by act of Congress of March 3, 1855. After being four years in operation, the receipts from this source dwindled from \$31,466.50 the first year, ended June 30, 1856, to \$25,038.70 for the year ended June 30, 1860. In his report for the last-mentioned year the Postmaster-General, in a most elaborate article, recommended that the system be discontinued, a recommendation that, in view of the present great utility and prosperity of the system, was happily not carried out. For the year ended June 30, 1877, the amount

of registry fees collected was \$367,438.80. The amount collected from this source during the last fiscal year was \$841,497.90, an increase over the amount for the year 1877 of \$474,059.10, or a little more than 129 per cent. The receipts from registration have thus much more than doubled within the past five years, while the general receipts of the postal service have been more than thirteen years in attaining a similar rate of increase. The recent extraordinary growth of the registry service is especially gratifying, both because of the long period that the system has been in operation, and because the work is done at a handsome profit. Not only do the registry fees more than compensate for the labor imposed by registration, but an additional profit is in the postage on valuable letters that would never be entrusted to the mails except for the security afforded by the registry system. For example, a single registered parcel mailed in Philadelphia in September bore, besides a ten-cent stamp for the registry fee, \$127.90 in stamps to prepay postage at letter rates.

Evidence of the great values entrusted to the registered mails will be found in Table No. 17 attached to this report, from which it will appear that during the last year the Treasury alone forwarded 81,335 registered parcels containing United States bonds, currency, coupons, coin, internal revenue stamps, &c., representing a value of \$514,778,237.57. Of this immense sum not a penny was lost, so far as is now known.

#### DIVISION OF FILES, RECORDS, AND MAILS.

The number of letters and other inclosures received, opened, and examined during the year was 1,162,500. Among these were 1,062 that contained money, and 4,340 that contained stamps, envelopes, and postal cards returned for redemption. Of the letters received 36,483 were briefed and recorded, and filed after final action had been taken on them. The number of letters written in the office, copied, enveloped, and mailed was 12,403.

Very respectfully, your obedient servant,

A. D. HAZEN,

*Third Assistant Postmaster-General.*

Hon. T. O. HOWE,  
*Postmaster-General.*

#### No. 1.—*Explanation of estimates of appropriations for the office of the Third Assistant Postmaster-General for the fiscal year ending June 30, 1884.*

##### I.—ADHESIVE POSTAGE STAMPS.

For manufacture of ordinary postage stamps, of official stamps, of newspaper and periodical stamps, and of postage-due stamps.....	\$130,000 00
The number of these stamps issued during the fiscal year ended June 30, 1882, was.....	1,130,470,088
Add 12 per cent. for increase .....	135,656,410
Gives estimated issue for fiscal year ending June 30, 1883 .....	1,266,126,498
Add 12 per cent. for increase, as before .....	151,935,179
Gives estimated number required for fiscal year ending June 30, 1884..	1,418,061,677
Cost of manufacturing that number at present contract price, 9.19 cents per thousand.....	\$130,319 86

The increase in the number of adhesive stamps of all kinds issued during the fiscal year ended on the 30th of June last was a little over 17 per cent.; but this rate of increase was an abnormal one, due in part to an unusual prosperity in the business in-

terests of the country, and in part to a special cause which was explained in the report of last year (pp. 354 and 361 Report of Postmaster General for 1881). Under ordinary conditions it would hardly be reasonable to expect an annual increase of more than 12 per cent., and accordingly the issues of the last year have been augmented at that rate to arrive at the probable number required for the ensuing fiscal year. The present contract does not expire until the 30th of June, 1885, and this estimate has consequently been governed by existing prices. The estimate has, however, been placed in even figures at \$130,000. The appropriation for the current year is \$109,000; but from present indications this amount will hardly be sufficient to meet the demands of the year.

#### II.—POSTAGE STAMP AGENCY.

For pay of agent and assistants to distribute stamps, and for expenses of the agency..... \$8,100 00

This estimate agrees in amount with the appropriation for the present year.

#### III.—STAMPED ENVELOPES, NEWSPAPER WRAPPERS, AND LETTER SHEETS.

For manufacture of stamped envelopes, newspaper wrappers, and letter sheets..... \$632,000 00

The cost of the stamped envelopes and wrappers issued during the fiscal year ended June 30, 1882, at the prices in the contract which took effect October 1, 1882, would amount to..... 477,960 08

Add 15 per cent. for increase..... 71,694 01

Gives estimated cost at same prices for fiscal year ending June 30, 1883.. 549,654 09

Add 15 per cent. for increase, as before..... 82,448 11

Gives estimated cost for fiscal year ending June 30, 1884..... 632,102 20

The appropriation for the current year is..... 547,000 00

The actual cost of stamped envelopes and wrappers issued during the last fiscal year was \$510,399.45; but a new contract was entered into for four years from the 1st of October, 1882, at an average reduction of nearly seven per cent. in previous prices, and the calculations in this estimate have accordingly been made upon the basis of the new prices. The increase in the number of envelopes and wrappers issued during the last fiscal year over that of the previous year was nearly 13 per cent., but as the reduced prices are likely to largely augment the demand, allowance has been made for an annual increase of 15 per cent. in the issues. By law the cost of procuring stamped envelopes is added to the postage value in fixing the schedule of prices to the public, and the expenditure under this head is consequently refunded to the government when the envelopes are sold. Authority was granted by the sundry civil appropriation act passed at the late session of Congress, to use the appropriation for stamped envelopes for the current year for the purchase of stamped letter sheets (combined letter sheet and envelope) not previously furnished. No arrangements have as yet been made for procuring these articles, but they may be introduced before the close of the year, and in view of that event it is deemed advisable to include them in the estimate for stamped envelopes for the coming year.

#### IV.—STAMPED ENVELOPE AGENCY.

For pay of agent and assistants to distribute stamped envelopes and newspaper wrappers, and for expenses of agency..... \$16,000 00

This estimate agrees in amount with the appropriation for the present fiscal year.

#### V.—POSTAL CARDS.

For manufacture of postal cards..... \$253,000 00

The total number of postal cards issued during the fiscal year ended June 30, 1882, was..... 351,498,000

Add 15 per cent. for increase..... 52,724,700

Gives estimated number for year ending June 30, 1883..... 404,222,700

Add 15 per cent. for increase..... 60,633,405

Gives estimated number for year ending June 30, 1884..... 464,856,105

The cost of manufacturing these articles, at the present contract price of 54.43 cents per thousand, is..... \$253,021 17

The appropriation for the present fiscal year is ..... 242,000 00

The issue of postal cards has fluctuated widely during the past few years. For 1879 the ratio of increase was 10.55 per cent.; for 1880, 22.80 per cent.; for 1881, 13.20 per cent., and for 1882, 13.90 per cent. It will probably be sufficient to allow for an annual increase of 15 per cent., as has been done in the foregoing estimate. The present contract is for four years ending on the 30th June, 1885.

#### VI.—POSTAL CARD AGENCY.

For pay of agent and assistants to distribute postal cards, and for expenses of the agency ..... \$7,300 00

This estimate agrees with the present appropriation.

#### VII.—REGISTERED PACKAGE, POST-OFFICE, AND DEAD LETTER ENVELOPES.

For registered package, post-office, and dead letter envelopes ..... \$140,000

The registered package envelopes are large manila envelopes used for inclosing registered letters and other registered matter, for safer transmission; the post-office envelopes are for the use of postmasters in their official correspondence; and the dead-letter envelopes are used for returning letters from the Dead-Letter Office to the writers. The contract for these envelopes is awarded for one year only, beginning on the 1st of July of each year, and present prices, therefore, afford no absolute criterion in making estimates for future appropriations. The prices for the year ended on the 30th of June last were unusually low, so that the issues for the year cost only \$72,474.53. At the prices in the contract for the present year the same issues would have cost \$98,173.83. The total number of these various kinds of envelopes issued during the fiscal year ended on the 30th of June last was 35,581,550, an increase of 6,783,100, or 23.5 per cent., over the issues of the previous year. At the same rate of increase for the present and next fiscal years the issues for the year ending June 30, 1884, would number 54,269,869, and would cost, on the basis of existing contract prices, \$149,737.17. Allowing for an increase of 20 per cent. in the issues, the cost at present prices would amount to \$141,370.31. The major portion of the appropriation is expended for envelopes for registry business, and for several years past this service has been increasing very nearly at the rate of 20 per cent. per annum. It is proper to say that the contract for these envelopes, like that for stamped envelopes, has been awarded to the lowest bidder, after public advertisement, and upon samples furnished by the department. The estimate is placed in even figures at \$140,000. The appropriation for the current year is \$110,000.

#### VIII.—SHIP, STEAMBOAT, AND WAY LETTERS.

For ship, steamboat, and way letters..... \$1,500

By law (sections 3913, 3976, 3977, 3978, Revised Statutes) this appropriation is necessary for the payment to masters or owners of vessels not regularly engaged in transporting the mails for letters brought and delivered to post-offices on arrival in port for transmission to destination. The parties receiving the letters are required to pay, in addition to the regular postage, the amounts paid to said masters or owners, which amounts are consequently refunded to the department. The expenditure for the last fiscal year was \$1,444.38, for 1881 it was \$990.95, and for 1880 it was \$1,355.51. The appropriation for the current year is \$1,500, and the estimate for the next fiscal year is placed at the same figures.

#### IX.—ENGRAVING, PRINTING, AND BINDING DRAFTS AND WARRANTS.

For engraving, printing, and binding drafts and warrants..... \$2,000

This appropriation is for the purchase of warrants and drafts used for payments to creditors, transfers of funds to and from postmasters, and collections of balances due the department. The warrants and drafts are prepared and furnished by the Bureau of Engraving and Printing of the Treasury Department. The expenditure on this account during the last fiscal year was \$1,644.35, and in view of the manifestly increasing needs the estimate for the ensuing year is placed at \$2,000.

#### X.—MISCELLANEOUS.

For miscellaneous items ..... \$1,00

This estimate is for the same amount as the appropriation for the current fiscal year.

*Comparison of appropriations for the office of the Third Assistant Postmaster-General for the year ending June 30, 1883, with estimates for the year ending June 30, 1884.*

Items.	Amount appropriated year ending June 30, 1883.	Estimate for year ending June 30, 1884.	Increase of estimates.	
			Amount.	Per cent.
Adhesive postage stamps .....	\$109,000 00	\$130,000 00	\$21,000 00	19.2

# REPORT

## OF THE

# SUPERINTENDENT OF THE POSTAL MONEY-ORDER SYSTEM

POST-OFFICE DEPARTMENT,  
OFFICE OF SUPERINTENDENT OF MONEY-ORDER SYSTEM,  
*Washington, D. C., October 25, 1882.*

SIR: I have the honor to submit herewith a report of the operations of the postal money-order system of the United States for the fiscal year ended June 30, 1882. During that year the public employed the money-order system, which affords absolute security for remittances by mail, to a greater extent than in any like period since its inception. This increase, which is more than half again as large as the increase shown by the operations of the year 1880-1881, appears the more worthy of comment in view of the fact that for some months one of the express companies has maintained a money-order system of its own, which is made available to the public, by arrangement, through the offices and agencies of several other companies.

### NUMBER OF DOMESTIC MONEY-ORDER OFFICES.

There were established during the fiscal year 340 domestic money-order offices, and 12 offices were discontinued. Since June 30, 1882, 449 additional post-offices have been authorized to commence money-order business, and one office has been discontinued; so that there are in operation at the date of this report 5,939 domestic money-order offices.

### ISSUES AND PAYMENTS OF DOMESTIC MONEY ORDERS.

The number of domestic money orders issued during the year was	
8,419,869, of the aggregate value of .....	\$113,400,118 21
And the number of such orders paid during same	
period was 8,401,668, amounting to .....	\$112,605,295 84
In addition to which, orders of the value of .....	783,006 06
Were repaid to the remitters thereof, making the total amount of pay- ments and repayments .....	113,388,301 90
And the excess of issues over payments only .....	\$11,816 31
The gross amount of the fees received by postmasters from the public for the issue of domestic money orders was .....	\$1,053,710 55

This statement exhibits an increase over the transactions of the previous year of \$8,324,348.86, or 7.92 per cent. in the amount of orders issued; an increase of \$8,463,448.29, or 8.07 per cent. in the amount of

orders paid and repaid; and a gain of \$86,977.80, or nearly 9 per cent., in the amount of fees received from the public.

The average amount of the orders issued was \$13.47, or 24 cents smaller than during the fiscal year 1880-1881, and the average fee was 12.51 cents, being  $\frac{11}{100}$  of a cent less than the average fee of the preceding year.

It is proper to remark upon the very small excess of the orders issued over the orders paid during the year, and to state, in that connection, that the department has recently issued instructions to postmasters concerning a system which it has devised for effecting payment of the amounts of unclaimed money orders. At the close of every month postmasters are now required to notify the payee of every money order, which, as shown by the corresponding advice on file, was unpaid at the end of the previous month, to present his order for payment, or, if it has been lost, to cause his correspondent, the remitter, to apply for a duplicate.

In order to assure proper payment the office of the Paymaster-General of the Army has for a number of years availed itself of the money-order system in paying claims against the United States for the services of colored soldiers of the late war. The amount of orders issued for this purpose during the last year, and transmitted, as a precautionary measure, through the office of the superintendent of the money-order system to the paying postmasters, was \$46,496.72, as against \$14,512.45 for the previous fiscal year.

#### DUPLICATE MONEY ORDERS.

Annexed to this report will be found a classified statement, Table B, of the duplicate orders issued during the year by the office of the superintendent of the money-order system, the number of such duplicates being 21,934, or 3,543 more than during the preceding year. Duplicate orders are issued without charge to the public, under authority of law, whenever the original order has from any cause been lost or destroyed, or has been invalidated by the operation of law, either by not being presented for payment within one year from the date of issue or by receiving more than one indorsement. They are also granted to remitters when, in pursuance of section 4041, Revised Statutes of the United States, the Postmaster-General has prohibited payment of the original orders drawn in favor of fraudulent lottery companies, or of persons engaged in conducting schemes or devices for obtaining money through the mails by means of false or fraudulent pretenses, representations, or promises.

#### DRAFTS AND TRANSFERS.

By regulation it is made the special duty of a postmaster to provide as far as possible against delay in the payment of money orders. But the current of business at many offices is such that the amount of money-orders presented for payment is continuously or occasionally in excess of the gross amount of funds received from the issued orders; so that postmasters at such offices are authorized and instructed to transfer, when occasion requires, a sufficient amount to pay orders from the postage to the money-order fund. The total amount of such transfers during the last fiscal year was \$905,707.81, while for the same period the sum of \$287,699.81 was retransferred to the postage from the money order account. The balance in favor of the postage account, \$618,007.80, has been refunded by a deposit in the Treasury for the postal service, made September 26, 1882.

When the postage funds are not available or are insufficient for money-order purposes, if east of the Rocky Mountains, postmasters are given a credit with the postmaster at New York, upon which they may draw; if upon the Pacific slope, funds are supplied by the postmaster at San Francisco, Cal., or by the postmaster at Portland, Oreg. In the last fiscal year the total amount of drafts drawn against credits at New York was \$10,823,200.96, while the San Francisco office furnished the sum of \$241,956 to neighboring post-offices, and the Portland office the sum of \$14,129.

#### REMITTANCES OF SURPLUS MONEY-ORDER FUNDS.

The total amount of the remittances of surplus funds—that is, funds which were not at once needed at the remitting offices for the payment of orders—was, for the fiscal year, \$105,684,110.64.

#### LOST REMITTANCES.

From Table C, annexed to this report, it appears that 119 cases of alleged loss of remittances of surplus money-order funds were the subject of investigation during the year. Fifty-two of these cases, aggregating \$6,649, occurred in the previous year, in which number are included the 43 cases, amounting to \$5,949, which remained unsettled at the end of that year, and the remaining 9 cases, involving \$701, were not brought to the notice of the department until after June 30, 1881. Nine cases, in value \$1,105, allowed during the year to the credit of the postmasters by whom the remittances were made, form the item of expense, "lost remittances," in the table hereinafter given showing the revenues and expenses of the domestic money-order system. The sum of \$2,829, the gross amount involved in 19.65 cases, was recovered by post-office inspectors during the year; the department declined to allow credit in 5 cases, aggregating \$134; and in 6 cases it was subsequently ascertained that no loss had been incurred. There remained 79.35 cases, amounting to \$9,646.45, unsettled at the close of the year.

#### ERRONEOUS PAYMENTS OF MONEY ORDERS.

The claims presented during the year for reimbursement because of the alleged erroneous payment of money orders numbered 48, their ratio to the total number of orders paid being as 1 to 175034.

The whole number of cases under investigation during the year was 95, aggregating \$2,579.27, in which are included 35 cases, amounting to \$962.19, which were unsettled at the close of the last year, while 12 other payments occurred during that year, but were not brought to the attention of the Post-Office Department until after June 30, 1881; \$573.74, the total amount of 27 cases, were recovered by inspectors of the department and paid over to the true payees of the respective orders. In 12 cases, the orders amounting together to \$316.70, the postmasters who made payment were adjudged at fault and held responsible for their lack of precaution; the owners of the orders, who were alone to blame in 2 cases, of the value of \$35, were required to stand the loss; in 2 cases the loss of \$60 was assumed by the Post-Office Department, the postmaster at the office of payment having been found blameless; and in 8 cases the sums involved were found to have been correctly paid in the first instance; 44 claims, of the total amount of \$1,315.48, were unsettled on June 30, 1882.

Exchange did not go into operation until January 1, 1882.

#### REVENUE FROM INTERNATIONAL MONEY-ORDER BUSINESS.

The Auditor is not able to furnish at this date a statement of the revenues which accrued from international money-order business during the last fiscal year, because much time must yet be occupied in adjusting the accounts for the last quarter of that year. In his report will be found, however, detailed statements of the revenues from international money-order exchanges for the fiscal year 1880-'81, being from the Swiss business, \$2,442.33; from the British, \$41,666.79; from the German, \$18,908.10; from the Canadian, \$7,776.31; from the Italian, \$8,469.25; and from the French, \$1,163.40; a total of \$80,426.18.

#### GENERAL FINANCIAL RESULTS.

The total issues of domestic and international money-orders were, in number, 8,797,312, of the value of \$119,936,632.69, and the payments were, in number, 8,519,551, amounting, with the repayments, to

\$115,864,282.86. The fees received from the public aggregated \$1,199,354.80.

In compliance with the terms of section 4050 Revised Statutes, the sum of \$360,767.35, the gross revenue, as reported by the Auditor, from both domestic and international money-order business, was deposited in the Treasury for the service of the Post-Office Department on October 16, 1882. But to arrive at the net profit of the money-order business (the domestic for 1881-'82 and the international for 1880-'81) there should be deducted from this sum the amount of such expenses for the money-order service as were paid out of appropriations made by Congress, to wit:

Salaries to 38 employes in the superintendent's office .....	\$51,200 00
Salaries to 115 employes in the money-order division of the Auditor's office.....	138,867 86
Stationery furnished for use in the superintendent's office.....	453 57
Books, blanks, printing, and stationery furnished for use in the money-order division of the Auditor's office.....	5,215 67
<b>Total.....</b>	<b>195,737 10</b>

leaving the sum of \$165,030.25 in excess of all ascertainable expenditures for that service from any fund.

I have the honor, in conclusion, to renew the recommendations made in my letter of November 7, 1881, to the Postmaster-General with reference to certain

#### MODIFICATIONS OF THE POSTAL MONEY-ORDER SYSTEM.

to wit, a change in the scale of fees charged for the issue of domestic money-orders, including a reduction of the fee for orders under \$10 from 10 cents to 8 cents, and the increase of the maximum limit of a single order from \$50 to \$100, with an increase of 5 cents in the fee for each \$10 over \$50 up to \$80, from which amount to \$100 a fee of 45 cents is proposed, and to the issue concurrently with money-orders, under authority of law to be enacted by Congress, of money-orders of a new form, to be called postal notes, for a fee of 3 cents, to be payable at a designated money-order office to the bearer, and to be drawn only for sums less than \$5.

The increase, with correspondingly augmented fees, of the limit of an order from \$50 to \$100, by which a single order will be made to take the place now occupied by two, with a reduction by that means of one-half the labor of issue for all sums from \$50 to \$100, is designed to offset any loss which would result to the system from the reduction of the fees for orders of small amounts. As stated in the letter of November 7, above referred to, which is published upon pages 403-410 of the last Annual Report, the average cost of each money-order issued during the five years ended June 30, 1880, was 12.6 cents, and the average revenue from each order 12.7 cents, leaving a margin of one mill as a profit upon each order. But inasmuch as nearly one-half of all the orders issued are for sums under \$5, any reduction of the fee on such orders without a corresponding reduction of labor and increase of fees for the large amounts would necessarily result in a loss.

#### THE "POSTAL NOTE,"

a model of which was printed upon page 405 of the Annual Report of last year, is intended to take the place of fractional currency in so

far as that currency was used by the public for remittances of small sums by mail. The process of issue would be such that the amount, the figures representing which are to be punched from three rows of figures for dollars, dimes, and cents, respectively, cannot be altered, and it is proposed to have the notes, which are to be of a convenient size for inclosure in the ordinary letter-size envelopes, engraved upon thin bank-note paper, and provided with effective checks against counterfeiting.

This scheme, I may add, met with the full approbation of the Committee on the Post-Office and Post-Roads, and was unanimously recommended by them at the last session of Congress. A bill (H. R. 5661) embodying its several provisions passed the House of Representatives at that session, but failed to pass the Senate, which it reached near the time for adjournment, the attention of that body having been occupied with other pressing business in the last days of the session. I deem it of great importance that legislation authorizing the issue of the postal note to supply an urgent public want and the suggested changes in the scale of fees for domestic money orders be again requested at an early day.

I am, sir, very respectfully, your obedient servant,

C. F. MACDONALD,

*Superintendent of Money-Order System.*

Hon. T. O. HOWE,  
*Postmaster-General.*

# TABLES EXHIBITING THE OPERATIONS OF THE MONEY-ORDER SYSTEM.

A.—*Tabular statement showing operations of the domestic money-order system during each year since its establishment, November 1, 1864, up to June 30, 1882.*

Fiscal year ended—	Number of money-order offices in operation.	Amount of orders issued.	Amount of orders paid and repaid.	Amount of fees received.	Amount of expenses.	Amount of deficit.	Amount of surplus.
June 30, 1865	419	\$1,360,122 52	\$1,313,577 08	\$11,536 40	\$18,564 37	\$7,047 97	.....

B.—*Statement of duplicate money orders issued by the department during the fiscal year ended June 30, 1882.*

		Remarks.
I. In lieu of money orders lost in transit.....	19,694	Being 4,876 more than during the preceding year.
II. In lieu of money orders payment of which had been prohibited in pursuance of section 3929 of the Revised Statutes of the United States.	125	Being 1,516 less than during the preceding year.
III. In lieu of money orders lost by the payees, remitters, or indorsees.	1,123	Being 34 more than during the preceding year.
IV. In lieu of money orders mutilated or destroyed while in the hands of the payees, remitters, or indorsees.	327	Being 130 less than during the preceding year.
V. In lieu of money orders invalidated by reason of having received more than one indorsement, in violation of section 4037 of the Revised Statutes of the United States.	146	Being 89 more than during the preceding year.
VI. In lieu of money orders invalidated by reason of not being presented for payment within one year after the date of their issue.	519	Being 190 more than during the preceding year.
Total .....	21,934	

## C.—Statement of money-order funds lost in transmission through the mails or otherwise during the fiscal year ended June 30, 1882.

Summary.	Number of cases.	Amount.	Total amount.
Whole number of cases of lost remittances reported.....	119.00		\$14,748 45
a) Cases which occurred prior to June 30, 1881.....	52.00	\$6,649 00	
b) Cases which occurred subsequent to June 30, 1881.....	67.00	8,099 45	
I. Allowed during the year.....	9.00		1,105 00
a) Cases which occurred prior to June 30, 1881.....	7.00	880 00	
b) Cases which occurred subsequent to June 30, 1881.....	2.00	225 00	
II. Recovered during the year.....	19.65		2,829 00
a) Cases which occurred prior to June 30, 1881.....	13.00	2,107 00	
b) Cases which occurred subsequent to June 30, 1881.....	6.65	722 00	
III. Charged to remitting postmaster.....	5.00		134 00
a) Cases which occurred prior to June 30, 1881.....	5.00	134 00

NEW MONEY-ORDER CONVENTION WITH  
SWITZERLAND.

OCTOBER 18-NOVEMBER 30, 1881.

---

399

# CONVENTION

FOR THE

## EXCHANGE OF POSTAL MONEY ORDERS BETWEEN THE UNITED STATES OF AMERICA AND SWITZERLAND.

---

Convention concluded between the Post-Office Department of the United States of America and the Postal Administration of Switzerland, of the 18th October and 30th November, 1881.

The undersigned have concluded the following convention for the exchange of postal orders between the United States of America and Switzerland, subject to the ratification of proper authority, and in lieu of the convention of the 12th October, 1867, and of the Article additional thereto of the 23rd February, 1872.

### ARTICLE 1.

There is established between the United States of America and Switzerland a regular exchange of postal orders. This exchange is to be effected by the Exchange Offices which each of the two Administrations shall have designated for this purpose, and which Exchange Offices shall notify each other by means of lists of orders for payment.

### ARTICLE 2.

The amount of the orders shall always be expressed in the money of the country where payment is to be made.

26 P M G

Convention conclue entre le Département des postes des États-Unis d'Amérique et l'Administration des postes suisses, le 18 Octobre et 30 Novembre 1881.

Les soussignés ont conclu la convention suivante pour l'échange des mandats-poste entre les États-Unis d'Amérique et la Suisse, convention qui sera soumise à la ratification de l'autorité supérieure compétente, et qui remplacera celle du 12 Octobre 1867, et l'article additionnel à cette dernière convention du 23 Février 1872.

### ARTICLE 1.

Il est créé, entre les États-Unis d'Amérique et la Suisse, un échange régulier de mandats-poste. Cet échange s'effectue par l'entremise des bureaux d'échange que chacune des deux Administrations désigne à cet effet, et ces bureaux s'avisent réciproquement au moyen de listes, des mandats à payer.

### ARTICLE 2.

Le montant des mandats est toujours exprimé dans la monnaie du pays où doit s'effectuer le paiement.

401

## ARTICLE 3.

1. No order payable in the United States shall exceed the amount of fifty dollars, and no order payable in Switzerland shall exceed an amount in francs equivalent to that sum.

2. Fractions of a cent or of a centime, are not to be introduced into the amount of an order.

## ARTICLE 4.

Payment of the amount of orders is to be effected in money of metallic value of the country of destination.

This payment can also be effected in either country in paper money which is a legal tender therein. In that event, account is always to be taken of the difference of value, if there be any.

## ARTICLE 5.

1. Each of the two Administrations is at liberty to fix at any time the rate of conversion of the amounts, payment of which is to be made in the other country.

2. The two Administrations will communicate to each other the rate of exchange or of conversion fixed by them, as well as the changes which they may make therein.

## ARTICLE 6.

1. Each of the two Administrations shall fix the fees charged upon orders issued in its own country and payable in the other.

2. They will communicate to each other the fees which they shall have established and the changes which they may subsequently make therein.

## ARTICLE 7.

The Postal Administration by which the money orders are issued shall credit the Administration of

## ARTICLE 3.

1. Aucun mandat payable aux Etats-Unis ne peut excéder le montant de cinquante dollars, et aucun mandat payable en Suisse ne peut dépasser le montant équivalent en francs à cette somme.

2. Les fractions de cent, ou de centime ne sont pas admises dans l'expression du montant d'un mandat.

## ARTICLE 4.

Le paiement du montant des mandats s'effectue dans la monnaie métallique du pays de destination. Ce paiement peut aussi avoir lieu, dans chacun des deux pays, en papier monnaie ayant cours légal dans le pays respectif. Dans ce cas, on doit toujours tenir compte de la différence des cours, s'il y a lieu.

## ARTICLE 5.

1. Chacune des deux Administrations a la faculté de fixer en tout temps le taux de versement des montants dont le paiement doit s'effectuer dans l'autre pays.

2. Les deux Administrations se communiquent réciproquement le taux de versement qu'elles ont fixé, aussi bien que les changements, qu'elles pourront y apporter.

## ARTICLE 6.

1. Chacune des deux Administrations fixe les droits à prélever sur les mandats de poste émis dans son propre pays et payables dans l'autre pays.

2. Elles se communiquent réciproquement les droits qu'elles ont fixés et les changements qu'elles pourraient y introduire ultérieurement.

## ARTICLE 7.

L'Administration des postes par laquelle les mandats ont été émis, crédite l'Administration du pays

the country of payment with the total amount of the orders which it has certified to the latter, in addition to three fourths of one per cent on the difference between the total amount of the orders certified and the amount of void and repaid orders.

#### ARTICLE 8.

1. The sums converted into postal orders are guaranteed to the remitters until they shall have been regularly paid to the payees or to the representatives of the latter, or shall have been refunded to the said remitters.

2. The sums received by each administration in exchange for postal orders, the amounts of which shall not have been claimed by the persons entitled to payment before the expiration of the periods fixed by the laws or the regulations of the country of origin, become the absolute property of the Administration which has issued the orders.

#### ARTICLE 9.

At the end of each quarter the Swiss Postal Administration shall prepare an account comprising all sums paid by the Offices of the two countries, and the credits to be given under each head in conformity with article 7 above mentioned, as well as a statement of the orders refunded by each Administration.

#### ARTICLE 10.

1. The Postal Administration of the United States shall examine this account, correct it, if necessary, and if it is found to be the debtor, shall transmit the balance due within fifteen days, at the latest, after its receipt to the Administration of the Swiss Posts.

If the account shows a balance to the credit of the Administration of the United States of America the

de paiement du montant total des mandats qu'elle a facturés à l'autre, plus le trois-quart pour cent sur la différence entre le montant total des mandats facturés et le montant des mandats nuls ou restitués.

#### ARTICLE 8.

1. Les montants convertis en mandats-poste sont garantis aux déposants jusqu'au moment où ils auront été régulièrement payés aux bénéficiaires, aux mandataires de ceux-ci, ou bien remboursés aux dits déposants.

2. Les sommes encaissées par chacune des deux administrations en échange des mandats-poste dont le montant n'a pas été réclamé par les ayants-droit, dans les délais fixés par les lois et règlements du pays d'origine, deviennent la propriété absolue de l'Administration qui en a émis les mandats.

#### ARTICLE 9.

A la fin de chaque trimestre, l'Administration des postes suisses dresse un compte comprenant toutes les sommes payées par les bureaux des deux pays, et les bonifications à effectuer de leur chef, conformément à l'article 7 sus-mentionné, de même que l'état des mandats remboursés par chaque Administration.

#### ARTICLE 10.

1. L'Administration des postes des États-Unis examine ce compte, le rectifie s'il y a lieu, et si elle se trouve être débitrice, transmet le solde dû, dans le délai de quinze jours au plus tard, après la réception du compte, à l'Administration des postes suisses.

Si le compte présente un solde en faveur de l'Administration des États-Unis de l'Amérique l'Admi-

Postal Administration of Switzerland shall transmit the amount thereof to the former within fifteen days at the latest after receipt of notice of acceptance or of correction of the account.

2. The balance must always be paid in the money of metallic value of the country to which it is found due, by means of a bill of exchange on Basle, or on New York as the case may be.

3. The expenses which may result from the payment of balances, must always be borne by the Administration by which payment is made.

#### ARTICLE 11.

1. To ascertain the amount to be paid, the smaller credit is to be converted into the money of the country which has the larger credit, and is to be deducted from the latter credit. This conversion is to be effected according to the average rate of exchange at New York, during the quarter to which the account pertains, if the balance is to the credit of Switzerland, and according to the average rate of exchange at Berne, during such quarter if the balance is to the credit of the Postal Administration of the United States.

2. The Administration which is to make payment shall transmit to the other Administration within five days at the latest, after the expiration of the quarter a certified statement of the rate of exchange for every business day of the quarter.

#### ARTICLE 12.

Whenever, during the course of a quarter, it is found that the amount of orders drawn upon either of the two Administrations exceeds by five thousand dollars, or twenty-five thousand francs the amount of orders drawn upon the other Administration, the latter shall send to the former, the proximate amount of the ascertained difference, in a round sum, as a payment on ac-

nistration des postes suisses en transmet le montant à la première dans le délai de quinze jours au plus tard, après réception de l'avis d'acceptation, soit de rectification du compte.

2. Le solde doit toujours être payé dans la monnaie métallique du pays au profit duquel il ressort, au moyen d'une lettre de change sur Bâle ou sur New York, suivant le cas.

3. Les frais qui peuvent résulter du paiement des soldes sont toujours supportés par l'Administration qui effectue le paiement.

#### ARTICLE 11.

1. Pour déterminer le montant à payer, le crédit le moins élevé est converti dans la monnaie du pays qui présente l'avoir le plus élevé, et est déduit de ce dernier. Cette conversion s'effectue d'après la moyenne du cours du change à New York, pendant le trimestre auquel appartient le compte, si le solde est au crédit de la Suisse, et d'après la moyenne du cours du change à Berne pendant le dit trimestre, s'il est au crédit de l'Administration des postes des Etats Unis.

2. L'Administration qui doit effectuer le paiement transmet à l'autre Administration, dans le délai de cinq jours au plus après l'expiration du trimestre, un état certifié du cours du change de chaque jour ouvrable du trimestre.

#### ARTICLE 12.

Lorsque, dans le courant d'un trimestre, il est constaté que le montant des mandats tirés sur l'une des deux Administrations excède de cinq mille dollars ou vingt-cinq mille francs le montant des mandats tirés sur l'autre Administration, cette dernière envoie à la première le montant approximatif de la différence constatée, en somme ronde, à titre de paiement à compte,

count, by means of bills of exchange under the conditions prescribed in Article 10.

#### ARTICLE 13.

1. The form and the conditions of issue of postal orders in each country are subject to the regulations in force in the country of origin.

2. The form as well as the conditions for payment of postal orders, including those relating to the suspension of payment, the renewing of orders, the issue of duplicates, and other matters concerning payment are subject to the regulations in force in the country of destination.

#### ARTICLE 14.

1. Each Administration is authorized to suspend temporarily the interchange of postal orders, whenever the course of exchange, or any other circumstance, may give rise to abuses, or cause detriment to the revenues.

2. Notice of action of this nature must be communicated immediately to the other Administration, and, if deemed necessary by means of the telegraph.

#### ARTICLE 15.

The Postal Administrations of the two countries shall have power, by mutual agreement, to arrange detailed regulations for the execution of the present Convention, and to modify them, at any time, according to the requirements of the service.

#### ARTICLE 16.

1. The present Convention shall take effect on the first day of January, 1882. It shall remain in force until the expiration of a period of one year after the date upon which one of the two contracting Admin-

au moyen d'une lettre de change et aux conditions prévues par l'article 10.

#### ARTICLE 13.

1. Le mode et les conditions de l'émission des mandats-poste dans chacun des deux pays, sont soumis aux dispositions en vigueur dans le pays expéditeur.

2. Le mode, aussi bien que les conditions de paiement des mandats-poste, y compris celles se rapportant à la suspension du paiement, le renouvellement des mandats, l'émission de duplicata, et les autres formalités ayant trait au paiement, sont soumis aux dispositions en vigueur dans le pays de destination.

#### ARTICLE 14.

1. Chacune des deux Administrations est autorisée à suspendre temporairement le service d'échange des mandats-poste, toutes les fois que le cours de change ou d'autres circonstances pourraient donner lieu à des abus ou porter préjudice aux recettes.

2. Avis de toute mesure de cette nature sera immédiatement donné à l'autre Administration, au besoin par voie télégraphique.

#### ARTICLE 15.

Les Administrations des postes des deux pays sont compétentes pour arrêter d'un commun accord les dispositions de détail nécessaires à l'exécution de la présente Convention, et de les modifier en tout temps, selon les exigences du service, moyennant entente réciproque.

#### ARTICLE 16.

1. La présente convention sera mise à exécution le premier Janvier 1882. Elle restera en vigueur jusqu'à l'expiration d'une année à compter du jour auquel l'une des deux Administrations aura notifié

istrations shall have notified the other of its intention to terminate it.

2. When the present Convention takes effect that of the 12th of October 1867, above mentioned, as well as the Article of the 23d of February 1872, supplementary thereto shall be abrogated.

Executed in duplicate and signed at Berne on the eighteenth day of October in the year of our Lord one thousand eight hundred and eighty-one, and at Washington, on the thirtieth day of November in the year of our Lord one thousand eight hundred and eighty one.

(Sig) FRANK HATTON.  
*Acting Postmaster General of the United States.*

[Seal of the Post Office Department  
of the United States.]

Ratifié la présente convention, conformément à l'autorisation du Conseil fédéral, du 1. Novembre 1881.

Berne, le 4 Novembre 1881.

Le Conseiller fédéral, Chef du Département des Postes et Chemins de fer.

(Sig)

BAVIER.

I hereby approve the foregoing Convention, and in testimony thereof I have caused the seal of the United States to be hereto affixed.

(Sig)

CHESTER A. ARTHUR.

[Seal of the United States.]

By the President.

(Sig.) JAMES G. BLAINE

*Secretary of State.*

WASHINGTON, December 2nd, 1881.

*Regulations of Detail, Forms, and Order for the execution of the Convention for the exchange of Postal Money Orders between the United States and Switzerland, concluded October 18, and November 30, 1881.*

Detailed regulations, for the execution of the Convention concluded between the Postal Administration of the United States of America, and that of Switzerland, concerning the exchange of postal orders of the 18th of October and 30th of November 1881.

In pursuance of the terms of Article 15 of the Convention of the

à l'autre son intention de faire cesser ses effets.

2. Seront abrogés dès le jour de la mise à exécution de la présente Convention, celle du 12 Octobre 1867 de même que l'article additionnel du 23 Février 1872.

Fait en double expédition et signé à Berne le-dix-huit Octobre mil huit cent quatre-vingt-un, et à Washington le trente Novembre mil huit cent quatre-vingt-un.

Le Directeur général des postes Suisses

(Sig)

ED. HÖHN.

Règlement de détail et d'ordre pour l'exécution de la convention conclue entre l'Administration des postes des États Unis d'Amérique et celle de la Suisse, concernant l'échange de mandats-poste, du 18 Octobre et 30 Novembre 1881.

En exécution des dispositions de l'article 15 de la convention du 18

18th of October and 30th of November, 1881, concerning the exchange of postal orders, and in lieu of the Regulation of the 2nd and 26th July 1869 and of the provisions supplementary thereto of the 23rd of February 1872, the undersigned have agreed upon the following rules of action:

#### ARTICLE 1.

In conformity with Article 1 of the Convention, the money-order office at Basle is designated as the Exchange Office on the part of Switzerland, and the international money-order office at New York, as the Exchange Office on the part of the United States.

#### ARTICLE 2.

For the lists of means of which the Exchange Offices are, in accordance with Article 1 of the Convention, to notify each other of the orders to be paid, the money-order office at Basle shall make use of form "A" hereto annexed, and the international money-order office at New York, of the form "B" hereto annexed.

#### ARTICLE 3.

1. The lists are to be filled out in accordance with their printed headings with copying ink, which is also to be used in completing the letter of transmittal upon the first page thereof, and they are to be transmitted in duplicate by each outgoing mail, that is to say, by all mails fixed by schedule which are conveyed between the offices of Basle and of New York. Should it happen, at the time of dispatching any mail that there are no money-orders to be certified for payment, a list must nevertheless be sent in that mail. But in such event the dispatching Exchange Office will write across the list, the words: "No money-orders."

Octobre et 30 Novembre 1881, sur l'échange des mandats-poste, et le remplacement du règlement des et 26 Juillet 1869, et des dispositions supplémentaires du 23 Février 1872, les soussignés sont convenus des mesures d'exécution suivantes:

#### ARTICLE 1<sup>er</sup>.

Conformément à l'article 1<sup>er</sup> de la Convention, le bureau des mandats de Bâle est désigné comme bureau d'échange de la part de la Suisse, et le bureau international des mandats de New York, comme bureau d'échange pour les États-Unis.

#### ARTICLE 2.

Pour les listes au moyen desquelles les bureaux d'échange ont, à teneur de l'article 1<sup>er</sup> de la Convention, à se communiquer réciproquement les mandats à payer, le bureau des mandats de Bâle se sert du formulaire "A," ci-annexé, et le bureau international des mandats de New York, du formulaire "B" également ci-annexé.

#### ARTICLE 3.

1. Les listes sont remplies conformément aux indications imprimées, au moyen d'encre à copier, dont on se servira également pour compléter la lettre de transmission qui se trouve à la première page, et elles sont transmises en duplicata par chaque dépêche partante, c'est-à-dire, par toutes les dépêches qui sont échangées entre les bureaux de Bâle et de New York, conformément au tableau y relatif. S'il arrive qu'au moment d'expédier une dépêche il n'y a pas de mandat poste à aviser pour paiement, la liste n'en est pas moins envoyée par cette dépêche. Dans ce cas, toutefois, l'office d'échange expéditeur écrit en travers de la liste, ces mots: "No money-orders." (Point de mandats-poste.)

2. The lists shall bear consecutive numbers, commencing with the calendar year and ending with it.

3. The orders inscribed in the lists shall also be consecutively numbered, the series of numbers to commence with each month on the part of Switzerland, and with each calendar year on the part of the United States.

4. The orders issued in the United States during the Quarter ending June 30th of each year, which may arrive at the Office of Exchange at New York in the following quarter, shall be entered on lists supplementary to the last list of the month of June, and, in like manner, the orders issued in Switzerland during the quarter ending June 30th of each year which may arrive at the Exchange Office of Basle in the following quarter shall be entered on lists supplementary to the last list of the month of June.

#### ARTICLE 4.

Each list is to be carefully examined by the receiving office, and, if the latter finds that it contains manifest errors it will correct them with red ink. That office will then fill up the columns intended for its use and return one of the copies of the list to the sending office. In the letter of transmittal of the next list which it has to send, the receiving office above mentioned will acknowledge the receipt of the list in question to the office which sent it. The corrections made are always to be mentioned with explanations at the end of the letter of transmittal.

#### ARTICLE 5.

When the list contains errors or irregularities which cannot be corrected without consultation with the Exchange Office of the country of origin, the Exchange office of the country of destination shall request

2. Les listes portent des numéros d'ordre consécutifs, commençant avec l'année ordinaire et finissant avec elle.

3. Les mandats inscrits sur les listes sont numérotés consécutivement, les séries de numéros commençant chaque mois de la part de la Suisse, et chaque année ordinaire de la part des États Unis.

4. Les mandats émis dans les États Unis pendant le trimestre expirant au 30 Juin de chaque année, et qui parviennent au bureau d'échange de New-York dans le courant du trimestre suivant, sont compris dans des listes supplémentaires de la dernière liste du mois de Juin, de même, les mandats consignés en Suisse pendant le trimestre expirant le 30 Juin de chaque année, qui parviennent au bureau d'échange de Bâle dans le courant du trimestre suivant, sont compris dans des listes supplémentaires à la dernière liste du mois de Juin.

#### ARTICLE 4.

Chaque liste est vérifiée soigneusement par l'office réceptonnaire, et si ce dernier y constate des erreurs manifestes, il les corrige à l'encre rouge. Cet office remplit en suite les colonnes à lui réservées, et renvoie l'un des exemplaires de la liste au bureau expéditeur. Dans la lettre de transmission de la prochaine liste qu'il a à expédier le bureau réceptonnaire sus-mentionné accuse réception de la liste en question au bureau qui l'a expédiée. Les corrections faites doivent toujours être mentionnées avec explications à la fin de la lettre de transmission.

#### ARTICLE 5.

Lorsqu'une liste contient des erreurs ou irrégularités qui ne peuvent être corrigées sans que le bureau d'échange du pays de destination ait consulté le bureau d'échange du pays d'origine, ce premier

explanations from the sending Exchange Office at the same time that it acknowledges the receipt of the list. The explanations requested are to be furnished as promptly as possible. Meantime the payment of orders in regard to which errors have been discovered is to be suspended.

#### ARTICLE 6.

If it appears from the number of the list received that the preceding list has failed to arrive, the receiving office shall apply for such list by the first mail. The sending office, as soon as it is informed of the matter shall send forthwith a duplicate of the missing list.

#### ARTICLE 7.

For the orders entered in the lists, the two Exchange Offices shall issue inland postal orders in accordance with the regulations in force in the premises in the country of destination, and with the provisions of Article 13 of the Convention.

#### ARTICLE 8.

1. For the quarterly account provided for by Article 9 of the Convention the Swiss Postal Administration shall make use of the form "C" hereto annexed.

2. This account is to be made out upon the basis of the lists accepted or corrected by the receiving Offices of Exchange. It is always to be prepared promptly, and transmitted to the Postal Administration of the United States as soon as all the lists from the international money-order office of New York bearing the date of the quarter to which it pertains shall have reached the money-order office of Basle, and all the duplicates of the lists of the same quarter dispatched by the latter office, shall have been returned to it from New York. If it be possible, this account is to be transmitted by the Swiss Postal Admin-

réclame les renseignements nécessaires du bureau d'échange expéditeur, en même temps qu'il accuse réception de la liste respective. Les renseignements demandés doivent être fournis aussi promptement que possible. En attendant, le paiement des mandats, au sujet desquels des erreurs ont été relevées est suspendu.

#### ARTICLE 6.

S'il résulte du numéro d'une liste reçue que la liste précédente n'est pas parvenue, le bureau réceptonnaire réclame cette liste par premier courrier. Le bureau expéditeur, dès qu'il a reçu avis du cas, envoie de suite un duplicata de la liste manquante.

#### ARTICLE 7.

Pour les mandats portés sur les listes, les deux bureaux d'échange établissent des mandats-poste internes, qui sont régis par les dispositions en vigueur dans le pays de destination, et par celles de l'article 13 de la convention.

#### ARTICLE 8.

1. Pour le compte trimestriel prévu par l'article 9 de la convention, l'Administration des postes suisses se sert du formulaire "C" ci-annexé.

2. Ce compte est établi, sur la base des listes acceptées soit rectifiées par les bureaux d'échange réceptionnaires, le plus promptement possible, et transmis à l'Administration des États-Unis aussitôt que toutes les listes du bureau international des mandats à New-York, portant la date du trimestre en cause, sont parvenues au bureau des mandats de Bâle, et que tous les duplicata des listes du même trimestre expédiés par ce dernier bureau lui ont été renvoyées de New York. Autant que possible, ce compte est expédié par l'Administration des postes suisses à celle des États-Unis, au plus tard dans

istration, to that of the United States at the latest within six weeks after the close of the quarter.

les six semaines qui suivent l'expiration du trimestre.

#### ARTICLE 9.

1. The Postal Administration of the country of origin shall be duly notified of all orders which shall not have been paid to the respective payees in the country of destination, within one year after the date of the receipt of the list, and, after an agreement shall have been reached in regard to these orders they shall be entered in the quarterly accounts, in order that the amounts thereof may be restored to the remitters in conformity with Article 9 of the Convention.

2. In like manner, there shall be embraced in this account, postal orders, application for repayment of which has been made to, and permission therefor received from the country of destination in conformity with Article 9 of the Convention.

#### ARTICLE 10.

1. The quarterly account is always to be transmitted in triplicate to the Postal Administration of the United States. If this account shows a balance in favor of the Swiss Postal Administration two copies shall be returned to the latter, bearing an acknowledgment of the acceptance of the balance. In case the balance is in favor of the Postal Administration of the United States, the latter will retain two copies, and send back but one.

2. When the balance, found to be due the Swiss Postal Administration shall have been paid, the latter will affix its acknowledgment of receipt to one of the two copies, which have been returned to it, and will send it back as a voucher to the Postal Administration of the United States of America.

3. In case the balance is in favor of the latter, it will on receipt of the amount of such balance, affix its acknowledgment of receipt to

#### ARTICLE 9.

1. L'Administration des postes du pays d'origine est dûment avisée de tous les mandats qui n'ont pas été payés à leur bénéficiaire, dans le pays de destination, dans le délai d'un an à partir du jour de la réception de la liste. Après que les deux Administrations se sont mises d'accord à leur égard, ces mandats sont compris dans les comptes trimestriels, afin que leur montant soit restitué à leur expéditeur, conformément à ce que prescrit l'article 9 de la convention.

2. De même, on comprend dans ce compte les mandats dont la restitution a été réclamée et autorisée par le pays de destination, conformément à ce que prescrit l'article 9 de la convention.

#### ARTICLE 10.

1. Le compte trimestriel doit toujours être transmis en triple expédition à l'Administration des postes des Etats Unis. Si ce compte présente un solde en faveur de l'Administration des postes suisses, il en est renvoyé à celle-ci deux expéditions munies de l'acceptation du résultat. Dans le cas où le solde est en faveur de l'Administration des postes des Etats Unis, celle-ci retient deux expéditions et n'en renvoie qu'une seule.

2. Lorsque le solde dû à l'Administration des postes suisses a été payé, celle-ci appose son accusé de réception sur l'une des deux expéditions qui lui a été renvoyée et la renvoie à titre de quittance à l'Administration des postes des Etats Unis d'Amérique.

3. Dans le cas où le solde est en faveur de cette dernière, elle joint, dès qu'elle a reçu le montant que comporte ce solde, son accusé de réception à l'une des deux expédi-

one of the two copies of the account, which it has retained, and will transmit the same, as a voucher, to the Swiss Office.

#### ARTICLE 11.

Payments of balances and payments on account made in pursuance of Articles 10 and 12 of the Convention, are to be effected by means of bills of exchange, which, when the balance is in favor of the Swiss Postal Administration, are to be drawn on Basle, payable to the Director General of Posts at Berne. When the balance is to the credit of the Postal Administration of the United States, the bills of exchange are to be drawn upon New York, payable to the Postmaster General at Washington.

#### ARTICLE 12.

1. For the purpose of balancing the quarterly account the conversion of one money into the other shall be made in compliance with the terms of Article 11 of the Convention. To that end the debtor Administration shall forward to the creditor Administration a certified tabular statement of the rates of exchange at Berne or at New York, as the case may be, quoted each business day during the preceding quarter.

2. For the said "Tabular Statement" the Swiss Office will use form "D" hereunto annexed, entering thereon the quotations of Bid and Asked made at Berne for "sight" exchange on New York as published by the "Union of Bernese Banks." The Office of the United States of America will use form "E" hereunto annexed, stating thereon the lowest and highest quotations made at New York for "sight" exchange on Switzerland and published by the "New York Journal of Commerce."

3. The average rate for the quarter shall then be established and serve as basis for the conversion

tions du compte qu'elle a retenues, et la transmet, comme quittance, à l'Administration Suisse.

#### ARTICLE 11.

Les paiements de soldes et d'acomptes prévus par les articles 10 et 12 de la Convention, sont effectués au moyen de lettres de change qui, lorsque le solde est en faveur de l'Administration des postes suisses, sont tirés sur Bâle payables au Directeur Général des postes à Berne. Lorsque le solde est au crédit de l'Administration des postes des Etats Unis, les lettres de changes sont tirées sur New York, payable au Maître Général des postes à Washington.

#### ARTICLE 12.

1. Pour obtenir le solde du compte trimestriel, la conversion d'une monnaie dans l'autre se fait conformément aux dispositions de l'article 11 de la Convention. A cet effet l'administration débitrice transmet à l'administration créditrice un état tabulaire certifié des cours du change à Berne ou à New York, suivant le cas, cotés pendant tous les jours ouvrables du trimestre précédent.

2. Pour le dit "état tabulaire" l'office de Suisse se servira de la formule "D," ci jointe. en y inscrivant les cotes à vue, offre et demande, faites à Berne pour New York et publiées par "l'Union des banques bernoises." L'office des Etats Unis d'Amérique utilisera la formule "E" ci annexée, en y exposant les cotes à vue, offre et demande, faites à New York pour la Suisse, et publiées par "The New York Journal of Commerce."

On établira le cours moyen du trimestre qui servira de base pour la conversion de la somme moins

of the smaller sum into money of the other Administration by dividing the totals of the columns headed "Bid" and "Asked" and the totals of the columns headed "Lowest" and "Highest" by the number of quotations; the two averages thus obtained are then to be added and the half of this sum shall represent the average rate for the quarter.

## ARTICLE 13.

The Swiss Postal Administration undertakes to serve as intermediary for the exchange of postal orders from the United States to be paid in any European Country with which that Administration maintains an exchange of Postal orders, and with which the postal Administration of the United States does not have such exchange, as well as for the exchange of orders from any such European country destined for payment in the United States.

## ARTICLE 14.

Orders from the United States of America for the countries in question are to be entered by the international money-order office of New York upon the lists of Basle with an exact statement of names and localities, in the same manner as if they were destined for Switzerland, and the Exchange Office at Basle will issue for them international orders, in the same manner as if they had originated at Basle, but under the condition of a deduction from the amounts entered in the lists of the ordinary fee for such orders. A list of the fees charged in such cases shall be furnished to the Postal Administration of the United States.

## ARTICLE 15.

As regards the orders in transit through Switzerland from other countries for the United States of America, these orders are to be entered upon the lists for New

élevée dans la monnaie de l'autre Administration, en divisant le total, tant des offres que des demandes par le nombre des annotations; en suite on additionnera les deux moyennes obtenues et on prendra la moitié du total, qui représentera ainsi le cours moyen du trimestre.

## ARTICLE 13.

L'administration des postes suisses se charge de servir d'intermédiaire pour la transmission de fonds des États Unis dans les pays de l'Europe avec lesquels cette administration échange des mandats-poste, mais avec lesquels l'Administration des postes des États Unis n'entretient pas un échange de cette nature, de même que pour l'envoi de fonds de l'un de ces pays de l'Europe aux États Unis.

## ARTICLE 14.

Les mandats des Etats Unis d'Amérique pour les pays en question sont portés par le bureau international des mandats à New York sur les listes pour Bâle, avec l'indication exacte des noms et localités, de la même manière que si ces mandats étaient à destination de la Suisse, et le bureau d'échange de Bâle émet pour ces envois des mandats internationaux, de la même manière que s'ils étaient originaires de Bâle, mais à la condition de déduire du montant inscrit sur les listes, le droit ordinaire fixé pour ces mandats. Une liste indiquant les droits prélevés dans ce cas sera fournie à l'Administration des postes des Etats Unis.

## ARTICLE 15.

En ce qui concerne les mandats en transit par la Suisse provenant d'autres pays et à destination des Etats Unis d'Amérique, ils sont portés sur les listes pour New-York

York in the same manner as if they had been issued in Switzerland, and the Exchange Office of New York will treat them in the same manner as Swiss orders.

de la même manière que s'ils avaient été consignés en Suisse, et le bureau d'échange de New York les traite de la même manière que les mandats suisses.

## ARTICLE 16.

In addition to the claims mentioned in article 9 concerning the repayment of orders, the two Administrations agree to take charge of other claims in relation to orders exchanged between Switzerland and the United States; for example, in regard to changes of name, places of payment, requests for information concerning payments which have been made, etc., and to dispose of them in accordance with the regulations in force in each country respectively.

## ARTICLE 16.

Abstraction faite des réclamations mentionnées à l'article 9 concernant le remboursement de mandats-poste, les deux Administrations conviennent de se charger des autres réclamations relatives aux mandats échangés entre la Suisse et les Etats Unis; par exemple, en ce qui regarde les changements de noms, les lieux de paiements, les demandes d'information sur des paiements effectués, etc., et de les traiter conformément aux règlements en vigueur dans chacun des deux pays.

## ARTICLE 17.

1. The present Detailed Regulations shall take effect at the same time as the Convention of the 18th of October and 30th of November 1881, and shall continue in force as long as the latter.

2. When these Regulations shall take effect, those of the 2nd and 25th July 1869, as well as the Articles supplementary thereto of the 23d February 1872, shall be abrogated.

Done in duplicate and signed at Berne the eighteenth day of October 1881, and at Washington the thirtieth day of November 1881.

(Sig) FRANK HATTON

*Acting Postmaster General  
of the United States.*

[Seal of the Post Office Department of the United States]

## ARTICLE 17.

1. Le présent règlement de détail entrera en vigueur en même temps que la convention du 18 Octobre et 30 Novembre 1881. Il aura la même durée que cette convention.

2. A partir du jour de l'entrée en vigueur du présent règlement, celui des 2 et 26 Juillet 1869, de même que les Articles supplémentaires du 23 Février 1872, seront abrogés.

Fait en double expédition et signé à Berne le 18 Octobre 1881, et à Washington le 30 Novembre 1881.

Le Directeur général des Postes suisses.

**NEW MONEY-ORDER CONVENTION WITH  
JAMAICA.**

---

**OCTOBER 11-26, 1881.**

---

# CONVENTION

BETWEEN

THE POST-OFFICE DEPARTMENT OF THE UNITED STATES OF AMERICA AND THE GENERAL POST-OFFICE OF THE ISLAND OF JAMAICA, CONCERNING AN EXCHANGE OF MONEY-ORDERS.

The Post-Office Department of the United States of America and the General Post-Office of the Island of Jamaica being desirous of establishing a system of exchange of money-orders between the two countries, the undersigned, duly authorized for that purpose, have agreed upon the following articles :

## ARTICLE 1.

There shall be a regular exchange of money-orders between the two countries.

The maximum of each order is fixed at Ten pounds (£10) sterling when issued in Jamaica; and when issued in the United States at Fifty dollars (\$50) in the money of the latter country.

No money-order shall include a fractional part of a penny, or of a cent.

The amount of each order must be expressed in letters in the money of the country in which payment is to be made, and the equivalent in the money of the issuing country must also be shown in figures, at the rate of conversion fixed by Article 13 of the present convention.

## ARTICLE 2.

The Jamaica Post-Office shall have power to fix the rates of commission on all money-orders issued in Jamaica, and the Post-Office Department of the United States shall have the same power in regard to all money-orders issued in the United States.

Each office shall communicate from time to time to the other its tariff of charges, or rates of commission, which shall be established under this convention, and these rates shall, in all cases, be payable in advance by the remitters and shall not be repayable.

It is understood, moreover, that each office is authorized to suspend, temporarily, the exchange of money-orders, in case the course of exchange, or any other circumstance should give rise to abuses or cause detriment to the postal revenue.

## ARTICLE 3.

Each country shall keep the commission charged on all money-orders within its jurisdiction, but shall pay to the other country three-fourths of one per cent. on the amount of such orders.

## ARTICLE 4.

The service of the Postal money-order system between the two countries, shall be performed exclusively by the agency of Offices of Ex-

change. On the part of the United States the Office of Exchange shall be New York, and on the part of Jamaica, Kingston.

Orders shall be drawn only on the authorized money-order offices of the respective countries, and each Postal Administration shall furnish to the other a List of such offices, and shall, from time to time, notify any addition to or change in such list.

Every order and advice must contain the name of the Office and of the country of destination, and, if relating to an order payable in the United States, the name of the State in which such office is situated.

#### ARTICLE 5.

No money-order shall be issued, unless the applicant furnish the name and address of the person to whom the amount is to be paid, and his own name and address, or the name of the firm, or company, who are the remitters or payees, together with the addresses of each.

The money-orders issued in either country shall be forwarded by the remitters to the payees at their own expense.

#### ARTICLE 6.

The advices of all money-orders issued upon Jamaica by the Post Offices in the United States shall be sent to the Office of Exchange at New York, where they shall be examined, and, if found correct, impressed with the dated stamp of that office, and transmitted, by the next mail, to the exchange office at Kingston, accompanied by a List, in duplicate, drawn upon the model of Form "A."

The advices, on their arrival at Kingston, shall be compared with the entries in the list, and afterwards, despatched to the paying offices.

In like manner the advices of money orders, drawn on the United States by Postmasters in Jamaica, shall be sent to the Exchange Office at Kingston, shall there be examined, and, if found correct, impressed with the dated stamp of that Office, and be despatched accompanied by a list, in duplicate, (Form "B") to the Office of Exchange at New York by the next mail.

The advices, on their receipt at New York, shall be compared with the entries in the list, and afterwards despatched to the paying offices.

The advices of orders issued in the United States in the month of September, which may arrive at the Office of Exchange at New York in the earlier days of the following month, shall be entered on lists supplementary to that of the last day of the month of September, and, in like manner, the advices of orders issued in Jamaica in the month of June, which may arrive at the Exchange Office at Kingston in the earlier days of the following month, shall be entered on lists supplementary to that of the last day of the month of June.

Each Exchange Office shall certify its orders to the other, on the lists in amounts designated in the denominations of the money both of the despatching and receiving country, at the rate of conversion established by Article 13 of this Convention. The amounts so converted shall be checked at the receiving office of Exchange.

#### ARTICLE 7.

The lists despatched from each office of Exchange shall be numbered consecutively, commencing with No. 1 at the beginning of the month of July in each year; and the entries in these lists shall also have consecutive numbers.

Of each list despatched a duplicate shall be sent, which duplicate, after being verified by the receiving Office of Exchange shall be returned to the despatching Office of Exchange.

Each Office of Exchange shall promptly communicate to the other, the correction of any simple error, which it may discover in the verification of the lists.

When the lists shall show irregularities, which the receiving Exchange Office shall not be able to rectify, that office shall apply for an explanation to the despatching Exchange Office, and such explanation shall be afforded without delay.

Should any list fail to be received in due course the despatching Exchange Office, on receiving information to that effect, shall transmit, without delay, a duplicate of the list, duly certified as such.

#### ARTICLE 8.

Duplicate orders shall only be issued by the Postal Administration of the Country on which the original orders were drawn, and in conformity with the regulations established, or to be established in that Country.

#### ARTICLE 9.

The orders issued by each Country on the other, shall be subject, as regards payment, to the regulations which govern the payment of Money-Orders in the country on which they were drawn.

The paid orders shall remain in the possession of the Country of payment.

#### ARTICLE 10.

Repayment of orders to remitters shall not be made until an authorization for such repayment shall first have been obtained by the Country of issue from the Country where such orders are payable, and the amounts of the repaid orders shall be duly credited to the former country in the quarterly account. (Article 12.)

It is the province of each Postal Administration to determine the manner in which repayment to remitters is to be made.

#### ARTICLE 11.

Orders which shall not have been paid within twelve calendar months from the month of issue shall become void and the sums received shall accrue to, and be at the disposal of the country of origin.

The Jamaica Office shall, therefore, enter to the credit of the United States, in the quarterly account all money-orders entered in the lists received from the United States, which remain unpaid at the end of the period specified. (Article 12.)

On the other hand, the Post Office Department of the United States shall, at the close of each month transmit to the Jamaica Office, for entry in the quarterly account, a detailed statement of all orders, included in the lists despatched from the latter office, which, under this Article become void.

#### ARTICLE 12.

At the close of each quarter an account shall be prepared at the General Post Office of Jamaica, showing in detail the totals of the lists containing the particulars of orders issued in either Country during the quarter, and the balance resulting from such transactions.

Three copies of this account shall be transmitted to the Post Office

Department of the United States at Washington, and the balance, after proper verification shall, if due by the Post Office Department of the United States, be paid at Kingston, but, if due by the Jamaica Post Office, it shall be paid at New York, and in the money of the country to which the payment is made.

Payments may also be made in Money, or by Drafts or by Bills of Exchange on points other than Kingston and New York, by mutual agreement between the two Departments.

If, pending the settlement of an account one of the two Postal Administrations shall ascertain that it owes the other a balance exceeding Five thousand dollars (\$5,000) the indebted administration shall promptly remit the approximate amount of such balance to the credit of the other; but nothing herein contained shall prevent such administration from remitting a lesser amount than Five thousand dollars (\$5,000) at discretion.

This account, and the letters which accompany such intermediate remittances, shall be in accordance with the forms "C," "D," "E," "F" and "G" annexed to this Convention.

#### ARTICLE 13.

Until the two Postal Administrations shall consent to an alteration it is agreed that in all matters of account, relative to money-orders, which shall result from the execution of the present convention, the pound sterling of Great Britain shall be considered as equivalent to four dollars, eighty-seven cents of the money of the United States.

#### ARTICLE 14.

The Postal Administration in each Country shall be authorized to adopt any additional rules (if not repugnant to the foregoing) for greater security against fraud, or for the better working of the system generally.

All such additional rules, however, must be promptly communicated to the Post Office Department of the other country.

#### ARTICLE 15.

This present convention shall take effect on the first day of January, one thousand eight hundred and eighty-two, and shall continue in force until twelve months after either of the contracting parties shall have notified to the other its intention to terminate it.

Done in duplicate and signed in Washington on the twenty-sixth day of October in the year of our Lord 1881, and in Kingston on the eleventh day of October in the year of our Lord 1881.

---

**MONEY-ORDER CONVENTION WITH NEW SOUTH  
WALES, AUSTRALIA.**

**OCTOBER 29, DECEMBER 6, 1881.**

---

# CONVENTION

BETWEEN

THE POST OFFICE DEPARTMENT OF THE UNITED STATES  
OF AMERICA AND THE GENERAL POST OFFICE OF THE  
COLONY OF NEW SOUTH WALES, AUSTRALIA, CONCERN-  
ING THE EXCHANGE OF MONEY ORDERS.

---

The Post Office Department of the United States of America and the General Post Office of the Colony of New South Wales, Australia, being desirous of establishing a system of exchange of money-orders between the two countries, the undersigned, duly authorized for that purpose, have agreed upon the following Articles:

## ARTICLE 1.

There shall be a regular exchange of money orders between the two countries.

The maximum of each order is fixed at £10 sterling, when issued in New South Wales, and when issued in the United States, at the equivalent, in sterling money, of \$50 in the money of the latter country, converted at the rate fixed by Article 13 of the present Convention.

No money order shall include a fractional part of a penny, or, of a cent.

The amount of each order, whether issued in the United States or in New South Wales, must be expressed in letters in British money, and the equivalent in the money of the United States must also be shown in figures.

## ARTICLE 2.

The New South Wales Post Office shall have power to fix the rates of commission on all money orders issued in New South Wales, and the Post Office Department of the United States shall have the same power in regard to all money orders issued in the United States.

Each Office shall communicate to the other its tariff of charges, or rates of commission, which shall be established under this Convention, and these rates shall, in all cases, be payable in advance by the remitters, and shall not be repayable.

It is understood, moreover, that each Office is authorized to suspend, temporarily, the exchange of money orders, in case the course of exchange, or any other circumstance should give rise to abuses, or, cause detriment to the postal revenue.

## ARTICLE 3.

Each country shall keep the commission charged on all money orders within its jurisdiction, but shall pay to the other country three fourths of one per cent. on the amount of such orders.

## ARTICLE 4.

The service of the Postal money order system between the two countries, shall be performed exclusively by the agency of Offices of Exchange. On the part of the United States the Office of Exchange shall be San Francisco, California, and on the part of New South Wales, Sydney.

Orders shall be drawn only on the authorized money order offices of the respective countries; and each Postal Administration shall furnish to the other a List of such offices, and shall, from time to time, notify any addition to, or change in such list. Every order and advice must contain the name of the office and of the country of destination, and if relating to an order payable in the United States, the name of the State in which such office is situated.

## ARTICLE 5.

No money-order shall be issued unless the applicant furnish the name and address of the person to whom the amount is to be paid and his own name and address; or the name of the firm, or company who are the remitters or payees, together with the addresses of each.

The money-orders issued in either country, shall be forwarded by the remitters to the payees at their own expense.

## ARTICLE 6.

The advices of all money-orders issued upon New South Wales by the post offices in the United States shall be sent to the Office of Exchange at San Francisco, where they shall be impressed with a dated stamp (Form "A") showing the amount to be paid in Sterling money, and transmitted, by the next direct mail, to the Exchange Office at Sydney, accompanied by a List, in duplicate, drawn upon the model of Form "B."

The advices, on their arrival in Sydney, shall be compared with the entries in the List, and, afterwards dispatched to the paying offices.

In like manner the advices of money-orders, drawn on the United States by postmasters in New South Wales, shall be sent to the Exchange Office at Sydney, shall there be impressed with a dated stamp (Form "A") showing the amount to be paid in United States money, and be dispatched accompanied by a List, in duplicate, (Form "C") to the Office of Exchange at San Francisco by the next direct mail.

The advices, on their receipt at San Francisco, shall be compared with the entries in the List, and afterwards dispatched to the paying offices.

The advices of orders issued in the United States in the month of June, which may arrive at the Office of Exchange at San Francisco in the earlier days of the following month, shall be entered on Lists supplementary to that of the last day of the month of June, and in like manner, the advices of orders issued in New South Wales in the month of June, which may arrive at the Exchange Office at Sydney in the earlier days of the following month, shall be entered on Lists supplementary to that of the last day of the month of June.

Each Exchange Office shall certify its orders to the other in amounts designated in the denominations of the money both of the dispatching and receiving country, at the rate of conversion established by Article 13 of this Convention. The amounts, so converted, shall be checked at the receiving office of Exchange.

Each Administration hereby undertakes and agrees to suspend the issue of money-orders a sufficient length of time before the sailing of each steamer which carries the Exchange Lists and advices, at those post offices in its own territory where such suspension may be necessary, in order to prevent the issue of orders which could be dispatched by the outgoing mail while the corresponding advices could not be certified by the Exchange Office in time to be conveyed by that mail.

The Exchange Lists and the accompanying advices shall invariably be sent by such steamers as carry the mails directly from San Francisco to Sydney, or from Sydney to San Francisco, as the case may be, and not via London in any event.

#### ARTICLE 7.

The Lists, dispatched from each Office of Exchange, shall be numbered consecutively, commencing with No. 1 at the beginning of the month of July in each year; and the entries in these Lists shall also have consecutive numbers.

Of each List dispatched a duplicate shall be sent, which duplicate, after being verified by the receiving Office of Exchange, shall be returned to the dispatching Office of Exchange.

Each Office of Exchange shall promptly communicate to the other the correction of any simple error, which it may discover in the verification of the Lists.

When the Lists shall show irregularities, which the receiving Exchange Office shall not be able to rectify, that Office shall apply for an explanation to the dispatching Exchange Office, and such explanation shall be afforded without delay.

Should any List fail to be received in due course, the dispatching Exchange Office, on receiving information to that effect, shall transmit, without delay, a duplicate of the List, duly certified as such.

#### ARTICLE 8.

Duplicate orders shall only be issued by the Postal Administration of the country, on which the original orders were drawn, and in conformity with the regulations established, or, to be established, in that country.

#### ARTICLE 9.

The orders, issued by each country on the other, shall be subject, as regards payment, to the regulations which govern the payment of inland orders of the country, on which they were drawn.

The paid orders shall remain in the possession of the country of payment.

#### ARTICLE 10.

Repayment of orders to remitters shall not be made until an authorization for such repayment shall first have been obtained by the country of issue from the country where such orders are payable and the amounts of the repaid orders shall be duly credited to the former country in the quarterly account. (Article 12.)

It is the province of each Postal Administration to determine the manner in which repayment to the remitters is to be made.

## ARTICLE 11.

Orders which shall not have been paid within twelve calendar months from the month of issue, shall become void, and the sums received shall accrue to, and be at the disposal of the country of origin.

The New South Wales Office shall, therefore, enter to the credit of the United States, in the quarterly account, all money-orders entered in the Lists received from the United States, which remain unpaid at the end of the period specified. (Article 12.)

On the other hand the Post Office Department of the United States shall, at the close of each month, transmit to the New South Wales Office, for entry in the quarterly account, a detailed statement of all orders, included in the Lists dispatched from the latter Office, which under this Article become void.

## ARTICLE 12.

At the close of each quarter an account shall be prepared at the General Post Office of New South Wales, showing in detail the totals of the Lists, containing the particulars of orders issued in either country during the quarter, and the balance resulting from such transactions.

Three copies of this account shall be transmitted to the Post Office Department of the United States at Washington, and the balance, after proper verification, shall, if due by the General Post Office of New South Wales, be paid to the General Post Office, at London, to the credit of the Post Office Department of the United States on account of the exchange of money orders between the United States and the United Kingdom of Great Britain and Ireland; if due by the Post Office Department of the United States, the balance shall likewise be paid to the General Post Office at London, to the credit of the General Post Office of New South Wales.

If pending the settlement of an account, one of the two Postal Administrations shall ascertain that it owes the other a balance exceeding five hundred pounds (£500) sterling, the indebted Administration shall promptly remit the approximate amount of such balance to the credit of the other.

This account shall be in accordance with the forms "D," "E," "F," and "G," annexed to this Convention.

## ARTICLE 13.

Until the two Postal Administrations shall consent to an alteration, it is agreed that in all matters of account, relative to money-orders, which shall result from the execution of the present Convention, the pound sterling of Great Britain shall be considered as equivalent to four dollars, eighty-seven cents, of the money of the United States.

## ARTICLE 14.

The Postal Administration in each country shall be authorized to adopt any additional rules, (if not repugnant to the foregoing,) for the greater security against fraud, or, for the better working of the system generally.

All such additional rules, however, must be promptly communicated to the Post Office of the other country.

ARTICLE 15.

This present Convention shall take effect on the first day of January, 1882, and shall continue in force until twelve months after either of the contracting parties shall have notified to the other its intention to terminate it.

Done in duplicate and signed in Washington on the sixth day of December, in the year of our Lord, 1881, and in Sydney on the twenty-ninth day of October, in the year of our Lord, 1881.

**OCTOBER 5, DECEMBER 9, 1881.**

# CONVENTION

BETWEEN

**THE POST OFFICE DEPARTMENT OF THE UNITED STATES OF AMERICA AND THE GENERAL POST OFFICE OF THE COLONY OF VICTORIA, AUSTRALIA, CONCERNING THE EXCHANGE OF MONEY-ORDERS.**

---

The Post Office Department of the United States of America and the General Post Office of the Colony of Victoria, Australia, being desirous of establishing a system of exchange of money-orders between the two countries, the undersigned, duly authorized for that purpose, have agreed upon the following Articles:

## ARTICLE 1.

There shall be a regular exchange of money-orders between the two countries.

The maximum of each order is fixed at £10 sterling, when issued in Victoria, and, when issued in the United States, at the equivalent, in sterling money, of \$50 in the money of the latter country, converted at the rate fixed by Article 13 of the present Convention.

No money-order shall include a fractional part of a penny, or, of a cent.

The amount of each order, whether issued in the United States or in Victoria, must be expressed in letters in British money, and the equivalent in the money of the United States must also be shown in figures.

## ARTICLE 2.

The Victoria Post Office shall have power to fix the rates of commission on all money-orders issued in Victoria, and the Post Office Department of the United States shall have the same power in regard to all money-orders issued in the United States.

Each Office shall communicate to the other its tariff of charges, or rates of commission, which shall be established under this Convention, and these rates shall, in all cases, be payable in advance by the remitters, and shall not be repayable.

It is understood, moreover, that each Office is authorized to suspend, temporarily, the exchange of money-orders in case the course of exchange, or any other circumstance should give rise to abuses, or, cause detriment to the postal revenue.

## ARTICLE 3.

Each country shall keep the commission charged on all money-orders within its jurisdiction, but shall pay to the other country three-fourths of one per cent. on the amount of such orders.

## ARTICLE 4.

The service of the Postal money-order system between the two countries, shall be performed exclusively by the agency of Offices of Exchange. On the part of the United States the Office of Exchange shall be San Francisco, California, and on the part of Victoria, Melbourne.

Orders shall be drawn only on the authorized money-order offices of the respective countries; and each Postal Administration shall furnish to the other a List of such offices, and shall, from time to time, notify any addition to, or change in such list. Every order and advice must contain the name of the office and of the country of destination, and if relating to an order payable in the United States, the name of the State in which such office is situated.

## ARTICLE 5.

No money-order shall be issued unless the applicant furnish the name and address of the person to whom the amount is to be paid, and his own name and address; or, the name of the firm, or company who are the remitters or payees, together with the addresses of each.

The money-orders, issued in either country, shall be forwarded by the remitters to the payees, at their own expense.

## ARTICLE 6.

The advices of all money-orders issued upon Victoria by the post offices in the United States shall be sent to the Office of Exchange at San Francisco, where they shall be impressed with a dated stamp (Form "A") showing the amount to be paid in Sterling money, and transmitted, by the next direct mail, to the Exchange Office at Melbourne, accompanied by a List, in duplicate, drawn upon the model of Form "B."

The advices, on their arrival in Melbourne, shall be compared with the entries in the List, and, afterwards dispatched to the paying offices.

In like manner the advices of money-orders, drawn on the United States by postmasters in Victoria, shall be sent to the Exchange Office at Melbourne, shall there be impressed with a dated stamp (Form "A") showing the amount to be paid in United States money, and be dispatched accompanied by a List, in duplicate (Form "C") to the Office of Exchange at San Francisco by the next direct mail.

The advices, on their receipt at San Francisco, shall be compared with the entries in the List, and afterwards dispatched to the paying offices.

The advices of orders issued in the United States in the month of June; which may arrive at the Office of Exchange at San Francisco in the earlier days of the following month, shall be entered on Lists supplementary to that of the last day of the month of June, and in like manner, the advices of orders issued in Victoria in the month of June, which may arrive at the Exchange Office at Melbourne in the earlier days of the following month, shall be entered on Lists supplementary to that of the last day of the month of June.

The Exchange Office shall certify its orders to the other in amounts designated in the denominations of the money both of the dispatching and receiving country, at the rate of conversion established by Article 13 of this Convention. The amounts, so converted, shall be checked at the receiving Office of Exchange.

Each Administration hereby undertakes and agrees to suspend the issue of money-orders a sufficient length of time before the sailing of each steamer which carries the Exchange Lists and advices, at those

post offices in its own territory where such suspension may be necessary, in order to prevent the issue of orders which could be dispatched by the outgoing mail while the corresponding advices could not be certified by the Exchange Office in time to be conveyed by that mail.

The Exchange Lists and the accompanying advices shall invariably be sent by such steamers as carry the mails directly from San Francisco to Sydney, or from Sydney to San Francisco, as the case may be, and not via London in any event.

#### ARTICLE 7.

The Lists, dispatched from each Office of Exchange, shall be numbered consecutively, commencing with No. 1 at the beginning of the month of July in each year; and the entries in these Lists shall also have consecutive numbers.

Of each List dispatched a duplicate shall be sent, which duplicate, after being verified by the receiving Office of Exchange, shall be returned to the dispatching Office of Exchange.

Each Office of Exchange shall promptly communicate to the other the correction of any simple error, which it may discover in the verification of the Lists.

When the Lists shall show irregularities, which the receiving Exchange Office shall not be able to rectify, that Office shall apply for an explanation to the dispatching Exchange Office, and such explanation shall be afforded without delay.

Should any List fail to be received in due course, the dispatching Exchange Office, on receiving information to that effect, shall transmit, without delay, a duplicate of the List, duly certified as such.

#### ARTICLE 8.

Duplicate orders shall only be issued by the Postal Administration of the country, on which the original orders were drawn, and in conformity with the regulations established, or, to be established in that country.

#### ARTICLE 9.

The orders, issued by each country on the other, shall be subject, as regards payment, to the regulations which govern the payment of inland orders of the country, on which they were drawn.

The paid orders shall remain in the possession of the country of payment.

#### ARTICLE 10.

Repayment of orders to remitters shall not be made until an authorization for such repayment shall first have been obtained by the country of issue from the country where such orders are payable, and the amounts of the repaid orders shall be duly credited to the former country in the quarterly account. (Article 12.)

It is the province of each Postal Administration to determine the manner in which repayment to the remitters is to be made.

#### ARTICLE 11.

Orders which shall not have been paid within twelve calendar months from the month of issue, shall become void, and the sums received shall accrue to, and be at the disposal of the country of origin.

The Victoria Office shall, therefore, enter to the credit of the United States, in the quarterly account, all money-orders entered in the Lists received from the United States, which remain unpaid at the end of the period specified. (Article 12.)

On the other hand the Post Office Department of the United States shall, at the close of each month, transmit to the Victoria Office, for entry in the quarterly account, a detailed statement of all orders, included in the Lists dispatched from the latter Office, which under this Article become void.

#### ARTICLE 12.

At the close of each quarter an account shall be prepared at the General Post Office of Victoria, showing in detail the totals of the Lists, containing the particulars of orders issued in either country during the quarter, and the balance resulting from such transactions.

Three copies of this account shall be transmitted to the Post Office Department of the United States, at Washington, and the balance, after proper verification, shall, if due by the General Post Office of Victoria, be paid to the General Post Office at London, to the credit of the Post Office Department of the United States on account of the exchange of money orders between the United States and the United Kingdom of Great Britain and Ireland; if due by the Post Office Department of the United States the balance shall likewise be paid to the General Post Office at London, to the credit of the General Post Office of Victoria.

If pending the settlement of an account, one of the two postal Administrations shall ascertain that it owes the other a balance exceeding five hundred pounds (£500) sterling, the indebted Administration shall promptly remit the approximate amount of such balance to the credit of the other.

This account shall be in accordance with the forms "D," "E," "F," and "G," annexed to this Convention.

#### ARTICLE 13.

Until the two Postal Administrations shall consent to an alteration, it is agreed that in all matters of account, relative to money-orders, which shall result from the execution of the present Convention, the pound sterling of Great Britain shall be considered as equivalent to four dollars eighty-seven cents of the money of the United States.

#### ARTICLE 14.

The Postal Administration in each country shall be authorized to adopt any additional rules, (if not repugnant to the foregoing,) for the greater security against fraud, or, for the better working of the system generally.

All such additional rules, however, must be promptly communicated to the Post Office of the other country.

#### ARTICLE 15.

This present Convention shall take effect on the first day of January, 1882, and shall continue in force until twelve months after either of the contracting parties shall have notified to the other its intention to terminate it.

Done in duplicate and signed in Washington on the ninth day of December, in the year of our Lord 1881, and in Melbourne on the fifth day of October, in the year of our Lord 1881.

**MONEY-ORDER CONVENTION WITH  
NEW ZEALAND.**

---

**OCTOBER 8, DECEMBER 6, 1881.**

---

---

# CONVENTION

BETWEEN

THE POST-OFFICE DEPARTMENT OF THE UNITED STATES  
OF AMERICA AND THE POST-OFFICE DEPARTMENT OF  
THE COLONY OF NEW ZEALAND, CONCERNING THE EX-  
CHANGE OF MONEY-ORDERS.

---

The Post-Office Department of the United States of America and the Post-Office Department of the Colony of New Zealand, being desirous of establishing a system of exchange of money-orders between the two countries, the undersigned, duly authorized for that purpose, have agreed upon the following articles :

## ARTICLE 1.

There shall be a regular exchange of money-orders between the two countries.

The maximum of each order is fixed at £10 sterling, when issued in New Zealand, and, when issued in the United States, at the equivalent, in sterling money, of \$50 in the money of the latter country, converted at the rate fixed by article 13 of the present Convention.

No money-order shall include a fractional part of a penny, or, of a cent.

The amount of each order, whether issued in the United States or in New Zealand, must be expressed in letters in British money, and the equivalent in the money of the United States must also be shown in figures.

## ARTICLE 2.

The New Zealand Post-Office Department shall have power to fix the rates of commission on all money-orders issued in New Zealand, and the Post-Office Department of the United States shall have the same power in regard to all money-orders issued in the United States.

Each office shall communicate to the other its tariff of charges, or rates of commission, which shall be established under this Convention, and these rates shall, in all cases, be payable in advance by the remitters, and shall not be repayable.

It is understood, moreover, that each office is authorized to suspend, temporarily, the exchange of money-orders, in case the course of exchange, or any other circumstance should give rise to abuses, or, cause detriment to the postal revenue.

## ARTICLE 3.

Each country shall keep the commission charged on all money-orders within its jurisdiction, but shall pay to the other country three-fourths of one per cent. on the amount of such orders.

## ARTICLE 4.

The service of the postal money-order system between the two countries, shall be performed exclusively by the agency of Offices of Exchange. On the part of the United States the Office of Exchange shall be San Francisco, California, and on the part of New Zealand, Auckland.

Orders shall be drawn only on the authorized money-order offices of the respective countries; and each Postal Administration shall furnish to the other a List of such offices, and shall, from time to time, notify any addition to, or change in such List. Every order and advice must contain the name of the office and of the country of destination, and if relating to an order payable in the United States, the name of the State in which such office is situated.

## ARTICLE 5.

No money-order shall be issued unless the applicant furnish the name and address of the person to whom the amount is to be paid, and his own name and address; or the name of the firm or company who are the remitters or payees, together with the addresses of each.

The money-orders, issued in either country, shall be forwarded by the remitters to the payees, at their own expense.

## ARTICLE 6.

The advices of all money-orders issued upon New Zealand by the post-offices in the United States shall be sent to the Office of Exchange at San Francisco, where they shall be impressed with a dated stamp (Form "A") showing the amount to be paid in sterling money, and transmitted, by the next direct mail, to the Exchange Office at Auckland, accompanied by a List, in duplicate, drawn upon the model of Form "B."

The advices, on their arrival in Auckland, shall be compared with the entries in the List, and, afterwards dispatched to the paying offices.

In like manner the advices of money-orders, drawn on the United States by postmasters in New Zealand, shall be sent to the Exchange Office at Auckland, shall there be impressed with a dated stamp (Form "A") showing the amount to be paid in United States money, and be dispatched accompanied by a List, in duplicate, (Form "C") to the Office of Exchange at San Francisco by the next direct mail.

The advices, on their receipt at San Francisco, shall be compared with the entries in the List, and afterwards dispatched to the paying offices.

The advices of orders issued in the United States in the month of June, which may arrive at the Office of Exchange at San Francisco in the earlier days of the following month, shall be entered on Lists supplementary to that of the last day of the month of June, and in like manner, the advices of orders issued in New Zealand in the month of June, which may arrive at the Exchange Office at Auckland in the earlier days of the following month shall be entered on Lists supplementary to that of the last day of the month of June.

Each Exchange Office shall certify its orders to the other in amounts designated in the denominations of the money, both of the dispatching and receiving country, at the rate of conversion established by Article 13 of this Convention. The amounts, so converted, shall be checked at the receiving Office of Exchange.

Each Administration hereby undertakes and agrees to suspend the

issue of money-orders a sufficient length of time before the sailing of each steamer which carries the Exchange Lists and advices, at those post-offices in its own territory where such suspension may be necessary, in order to prevent the issue of orders which could be dispatched by the outgoing mail while the corresponding advices could not be certified by the Exchange Office in time to be conveyed by that mail.

The Exchange Lists and the accompanying advices shall invariably be sent by such steamers as carry the mails directly from San Francisco to Auckland, or from Auckland to San Francisco, as the case may be, and not via London in any event.

#### ARTICLE 7.

The Lists dispatched from each Office of Exchange, shall be numbered consecutively, commencing with No. 1 at the beginning of the month of July in each year; and the entries in these Lists shall also have consecutive numbers.

Of each List dispatched a duplicate shall be sent, which duplicate, after being verified by the receiving Office of Exchange, shall be returned to the dispatching Office of Exchange.

Each Office of Exchange shall promptly communicate to the other the correction of any simple error, which it may discover in the verification of the Lists.

When the Lists shall show irregularities, which the receiving Exchange Office shall not be able to rectify, that Office shall apply for an explanation to the dispatching Exchange Office, and such explanation shall be afforded without delay.

Should any List fail to be received in due course, the dispatching Exchange Office, on receiving information to that effect shall transmit, without delay, a duplicate of the List, duly certified as such.

#### ARTICLE 8.

Duplicate orders shall only be issued by the Postal Administration of the country, on which the original orders were drawn, and in conformity with the regulations established, or, to be established in that country.

#### ARTICLE 9.

The orders, issued by each country on the other, shall be subject, as regards payment, to the regulations which govern the payment of inland orders of the country on which they were drawn.

The paid orders shall remain in the possession of the country of payment.

#### ARTICLE 10.

Repayment of orders to remitters shall not be made until an authorization for such repayment shall first have been obtained by the country of issue from the country where such orders are payable, and the amounts of the repaid orders shall be duly credited to the former country in the quarterly account (Article 12).

It is the province of each Postal Administration to determine the manner in which repayment to the remitters is to be made.

#### ARTICLE 11.

Orders which shall not have been paid within twelve calendar months from the month of issue shall become void, and the sums received shall accrue to, and be at the disposal of the country of origin.

The New Zealand Office shall, therefore, enter to the credit of the United States, in the quarterly account, all money-orders entered in the Lists received from the United States, which remain unpaid at the end of the period specified. (Article 12.)

On the other hand the Post-Office Department of the United States shall, at the close of each month, transmit to the New Zealand Office, for entry in the quarterly account, a detailed statement of all orders, included in the Lists dispatched from the latter Office, which under this Article become void.

#### ARTICLE 12.

At the close of each quarter an account shall be prepared at the Postmaster-General's Office, Wellington, showing in detail the totals of the Lists, containing the particulars of orders issued in either country during the quarter, and the balance resulting from such transactions.

Three copies of this account shall be transmitted to the Post-Office Department of the United States, at Washington, and the balance, after proper verification, shall, if due by the Post-Office Department of New Zealand, be paid to the General Post-Office at London, to the credit of the Post-Office Department of the United States on account of the exchange of money-orders between the United States and the United Kingdom of Great Britain and Ireland; if due by the Post-Office Department of the United States, the balance shall likewise be paid to the General Post-Office at London, to the credit of the Post-Office Department of New Zealand.

If pending the settlement of an account, one of the two Postal Administrations shall ascertain that it owes the other a balance exceeding five hundred pounds (£500) sterling, the indebted Administration shall promptly remit the approximate amount of such balance to the credit of the other.

This account shall be in accordance with the forms "D," "E," "F," and "G," annexed to this Convention.

#### ARTICLE 13.

Until the two Postal Administrations shall consent to an alteration, it is agreed that in all matters of account relative to money-orders which shall result from the execution of the present Convention the pound sterling of Great Britain shall be considered as equivalent to four dollars, eighty-seven cents, of the money of the United States.

#### ARTICLE 14.

The Postal Administration in each country shall be authorized to adopt any additional rules, (if not repugnant to the foregoing), for the greater security against fraud, or, for the better working of the system, generally.

All such additional rules, however, must be promptly communicated to the Post Office of the other country.

#### ARTICLE 15.

This present Convention shall take effect on the first day of January, 1882, and shall continue in force until twelve months after either of the contracting parties shall have notified to the other its intention to terminate it.

MONEY-ORDER CONVENTION WITH PORTUGAL.

JULY 15, 1882.

# CONVENTION

FOR

## THE EXCHANGE OF SUMS OF MONEY BY MEANS OF POSTAL ORDERS BETWEEN THE UNITED STATES AND PORTUGAL.

The Government of the Republic of the United States of America and the Government of his Majesty the King of Portugal and of the Algarves, being desirous of facilitating the exchange of sums of money between the two countries by making use of postal orders and availing themselves of the authority granted by Articles 13 and 15 of the Convention of the Universal Postal Union concluded at Paris on the 1st of June, 1878, the undersigned, Timothy O. Howe, Postmaster General of the United States of America, in virtue of the powers vested in him by law, and Viscount das Nogueiras, Envoy Extraordinary and Minister Plenipotentiary of his Majesty the King of Portugal, in the name of his Government, and by virtue of the powers which he has formally presented to this effect, have agreed upon the following convention.

### ARTICLE 1.

SEC. 1. There shall be a regular exchange of sums of money by means of postal orders between Portugal and the United States of America.

SEC. 2. All the stipulations which are contained in this Convention with regard to Portugal are to be understood as applicable also to the Azores and to the Madeira Islands.

SEC. 3. The Postal Administration of each of the two countries shall determine in regard to its own territory—

a.—The localities where the orders in question can be issued.

b.—The localities where such orders can be paid.

### ARTICLE 2.

SEC. 1. The amount of the orders shall be collected from the remitters and paid to the beneficiaries in gold coin or in other lawful money of equal value. Each one of the Postal Administrations may however receive for the issue and employ for the payment of money-orders any money of less value which is a legal tender in its own country, provided account be taken of the difference of value, when occasion arises.

SEC. 2. The amount of each order shall not exceed—

a.—Fifty milreis when issued in the United States for payment in Portugal.

b.—Fifty dollars when issued in Portugal for payment in the United States.

The Postal Administrations of the two countries may however, by

mutual agreement, increase this maximum to ninety milreis and to one hundred dollars.

SEC. 3. The amount of each order shall be expressed in the metallic money of the country in which payment is to be made. For this purpose, the Postal Administration of the country of origin shall fix the rate of conversion of its own money into metallic money of the country of payment.

SEC. 4. The right is reserved to each of the two contracting countries to declare transferable, within its territory, by means of endorsement, the ownership of postal orders originating in the other.

#### ARTICLE 3.

SEC. 1. Each of the two contracting countries shall fix the rate of fees to be collected from the remitters of money-orders issued therein for payment in the other country. This rate of fees shall not exceed one and one-half per cent. upon the amounts constituting the divisions in the schedule of fees.

SEC. 2. In addition to the fee mentioned in this Article no other charge, tax, commission, or impost shall be collected for the issue, transmission, distribution, or payment of money-orders, provided for in this Convention.

SEC. 3. The country which issues the orders shall pay to the country on which they are drawn three-quarters of one per cent. computed upon the total value of those orders.

#### ARTICLE 4.

Orders issued in Portugal for payment in the United States shall not contain a fraction of a cent, and those which are issued in the United States for payment in Portugal shall not contain a fraction of ten reis.

#### ARTICLE 5.

The service of the postal money-order system between the two countries shall be performed exclusively by the agency of offices of exchange. These offices shall be—

a.—Lisbon, on the part of Portugal.

b.—New York, on the part of the United States.

#### ARTICLE 6.

SEC. 1. Each Office of Exchange shall send, by every mail, to the other a certified List, in duplicate, of the money-orders issued in its own country, since the last previous transmission, for payment in the other.

SEC. 2. At the close of each Quarter, or, at the latest, within two months after the expiration thereof, an account, in duplicate, shall be prepared and transmitted by the Administration of Mails, Telegraphs, and Light-houses of Portugal to the Postal Administration of the United States. This account, having been accepted, shall be paid in the metallic money of the creditor country by the indebted Postal Administration, within a limited time to be determined by mutual agreement.

SEC. 3. For this purpose the smaller credit shall be converted into the money of the larger credit.

SEC. 4. In case of the non-payment of the balance of an account within the time specified, the amount of such balance shall be chargeable with interest from the date of the expiration of the stipulated period until the day of the transmission of the amount due. Such interest shall be computed at the rate of five per cent. per annum; and is to be entered in the accounts as a debit against the dilatory Administration.

#### ARTICLE 7.

SEC. 1. The sums received for the issue of money-orders remain the property of the remitters until they shall have been duly paid to the beneficiaries or to the representatives of the latter.

SEC. 2. Postal orders accrue to the country of origin when the amounts thereof have not been claimed by the payees within a period of time fixed by mutual agreement.

SEC. 3. Repayment of orders to remitters shall not be made until an authorization for such repayment shall first have been obtained by the country of issue from the country where such orders are payable, and the amounts of the repaid orders shall be duly credited to the former country in the quarterly account. It is the province of each Postal Administration to determine the manner in which repayment to the remitters is to be made. Under no circumstances can the fees paid for money-orders be refunded to the remitters thereof.

SEC. 4. Duplicate orders shall only be issued by the Postal Administration of the country on which the original orders were drawn, and in conformity with the regulations established, or, to be established, in that country.

#### ARTICLE 8.

Each Administration is authorized, in extraordinary circumstances that would justify the measure, to suspend temporarily the money-order service, in whole or in part, upon condition of giving notice of such suspension immediately to the other country, and, if deemed necessary, by means of the telegraph.

#### ARTICLE 9.

The General Administration of Mails, Telegraphs, and Light-Houses, of Portugal, and the General Postal Administration of the United States are authorized to adopt by mutual agreement all measures, and to arrange all matters of detail, necessary to secure the execution of all the stipulations of the present Convention.

#### ARTICLE 10.

The present Convention shall take effect on the first day of January, 1883, and shall continue in force until twelve months after either of the contracting parties shall have notified to the other its intention to terminate it.

#### ARTICLE 11.

The ratifications of the present Convention shall be exchanged prior to the first day of December, 1882.

In witness whereof the respective Plenipotentiaries have signed the present Convention and have affixed thereto their seals.

Executed in duplicate and signed at Washington the fifteenth day of July, 1882.

States.]

FRED'K T. FRELINGHUYSEN,  
*Secretary of State.*

WASHINGTON, July 15th, 1882.

*Regulations of detail, forms and order for the execution of the Convention for the exchange of Postal Money Orders between the United States and Portugal, concluded at Washington, July 15, 1882.*

#### DETAILED REGULATIONS.

The undersigned, in pursuance of Article 9 of the Convention concluded between the United States and Portugal, on the fifteenth day of July, 1882, for the exchange of sums of money by means of postal orders have by mutual agreement, decided to adopt the following Regulations:

#### ARTICLE 1.

The Postal Administrations of the two countries shall communicate to each other the tables of conversion which they shall have adopted for the conversion of money in pursuance of the provisions of the third section of Article 2 of the Convention, and also all alterations which may be made therein.

#### ARTICLE 2.

Any person in the United States desiring to remit to any part of Portugal a sum of money within the limits prescribed by the second section of Article 2 of the Convention, may pay it into any post-office of the former country authorized to receive sums payable in Portugal, and to pay orders for sums remitted from that country.

The remitter shall give to the postmaster at such post-office the name and exact address of the person to whom the amount is to be paid in the country of destination, and also his own name and address.

Any person in Portugal desiring to remit to the United States a sum of money within the limits prescribed by the second section of Article 2 of the Convention, may pay it into any post-office of the former country authorized to receive sums payable in the United States, giving at the same time his own name and address, and the name and exact address of the person to whom the amount is to be paid in the United States.

The receiving post-office in either country shall transmit, in accordance with the rules established by its postal administration, due notice of such payment, by an internal money-order, or otherwise, to the dispatching exchange office.

## ARTICLE 3.

SEC. 1. The lists by means of which the Exchange Office of New York shall communicate to the Exchange Office of Lisbon the amounts deposited in the United States to be paid in Portugal, shall be in conformity with the model "A" annexed to the present Regulations. The lists by means of which the Exchange Office of Lisbon shall communicate to that of New York the amounts deposited in Portugal to be paid in the United States, shall follow the pattern "B" hereto annexed.

SEC. 2. The lists described in this Article shall be regularly transmitted by every mail, even when there are no deposits to be communicated for payment. In such cases, the words "No Money Orders," are to be written transversely across the lists.

SEC. 3. The lists transmitted by each of the two countries shall be consecutively numbered each year, commencing with Number 1, at the first of January, and terminating at the close of December. The entries in the lists shall also be consecutively numbered, commencing with Number 1 on the first of July in each year.

SEC. 4. The orders issued in the United States during the quarter ending June 30th of each year, which may arrive at the Office of Exchange at New York in the following quarter, shall be entered on lists supplementary to the last list of the month of June, and in like manner the orders issued in Portugal during the quarter ending June 30th of each year, which may arrive at the Exchange Office of Lisbon in the following quarter, shall be entered on lists supplementary to the last list of the month of June.

## ARTICLE 4.

SEC. 1. The Exchange Office, upon receipt of the lists shall proceed to verify them. Should errors be found the necessary corrections are to be made in red ink.

SEC. 2. For the orders entered in the lists, the two Exchange Offices shall issue inland postal orders in accordance with the regulations in force, in the premises, in the country of destination.

SEC. 3. By the first mail forwarded after the receipt of the lists, one of them shall be transmitted to the dispatching office of exchange with a duly executed acknowledgment of receipt.

SEC. 4. When the lists shall show irregularities which the receiving exchange office shall not be able to rectify, that office shall demand an explanation from the dispatching exchange office, which shall give such explanation with as little delay as possible. Pending the receipt of the explanation, the issue of inland money orders of payment relating to the entries found to be erroneous in the list should be suspended.

## ARTICLE 5.

Orders shall be valid during a period of twelve months after the date of the issue thereof.

## ARTICLE 6.

SEC. 1. Orders which shall not have been paid within a period of twelve months from the date of the issue thereof shall be considered void, and the amount thereof shall be placed to the credit of the country of origin in the Quarterly Account. (Model "C.")

SEC. 2. For the execution of this stipulation, each of the two contracting countries shall make out a monthly statement (Model "D") of

orders originating in the other country, to which the provisions of this Article are applicable.

This statement shall include orders of which repayment shall have been reclaimed by the remitters.

#### ARTICLE 7.

SEC. 1. For the Quarterly Account required by Article 6 of the Convention a form shall be used in exact conformity with the pattern "C," hereto annexed.

SEC. 2. For the purpose of balancing this account, when the larger credit is in favor of Portugal, the conversion mentioned in Section 3 of Article 6 of the Convention shall be made in accordance with the average rate of exchange in New York during the quarter to which the account pertains. When the larger credit is in favor of the United States, the conversion shall be made in accordance with the average rate of exchange at Lisbon, during the same period.

SEC. 3. For this purpose the debtor Postal Administration shall send to the creditor Administration within ten days after the expiration of each quarter, a statement of the changes in the rates of exchange during that quarter.

SEC. 4. The Postal Administration of the United States shall return to Portugal a copy of the account in question, duly verified, within fifteen days, at the latest, after the receipt of the said account.

SEC. 5. If the ascertained balance of the account is in favor of Portugal, the Postal Administration of the United States, when it returns the duplicate of that account, shall remit the amount of such balance by a bill of exchange upon Lisbon, to the order of the Director General of Mails, Telegraphs, and Light-houses.

If the balance is in favor of the United States, the administration of Mails, Telegraphs, and Light-houses, of Portugal shall remit the amount thereof by letter of exchange on New York to the order of the Postmaster General of the United States, fifteen days, at the latest, after the receipt of the account, with a verification of the account, made by the United States.

SEC. 6. Whenever, in the interval between the quarterly statements, it is found that one of the two countries owes the other a balance exceeding four thousand five hundred milreis, or five thousand dollars, the Postal Administration of the debtor country shall transmit, without delay, in a letter of exchange, the approximate amount of such balance.

SEC. 7. All expenses attending the remittance of bills of exchange shall be at the charge of the debtor country.

#### ARTICLE 8.

The present Detailed Regulations shall take effect at the same time as the Convention of the fifteenth of July, 1882, and shall continue in force as long as the latter.

Done in duplicate, and signed at Washington, the fifteenth day of July, 1882.

REPORT  
OF THE  
SUPERINTENDENT OF FOREIGN MAILS,  
TO THE  
POSTMASTER-GENERAL,  
FOR  
1882.

---

# REPORT

## OF

### THE SUPERINTENDENT OF FOREIGN MAILS.

POST-OFFICE DEPARTMENT,  
OFFICE OF FOREIGN MAILS,  
*Washington, D. C., October 25, 1882.*

SIR: I have the honor to submit herewith a report of the principal operations of the foreign mail service for the fiscal year ended June 30, 1882.

#### WEIGHT OF MAILS.

The total weight of mails dispatched during the year to countries and colonies of the Universal Postal Union (the Dominion of Canada excepted) was 999,554,729 grams, or 2,203,876 pounds; an increased weight over the preceding fiscal year of 452,353 pounds. The weight of the letter mails was 187,928,578 grams, or 414,355 pounds, and of printed matter and samples of merchandise 811,626,151 grams, or 1,789,521 pounds; an increased weight as compared with the preceding fiscal year of 73,367 pounds of letters and 378,986 pounds of printed matter and samples.

Of the letter mails dispatched, 176,644 pounds (42.63 per cent.) were sent to Great Britain and Ireland; 101,591 pounds (24.52 per cent.) to Germany; 99,894 pounds (24.11 per cent.) to other countries of Europe, and 36,226 pounds (8.74 per cent.) to Postal Union countries and colonies other than European.

Of the printed matter and samples dispatched, 800,914 pounds (44.76 per cent.) were sent to Great Britain and Ireland; 332,358 pounds (18.57 per cent.) to Germany; 345,291 pounds (19.30 per cent.) to other countries of Europe, and 310,958 pounds (17.37 per cent.) to other Postal Union countries and colonies.

Compared with the weights of mails dispatched during the preceding year, the increase of letter mails was 21.52 per cent., and of printed matter and sample mails 26.87 per cent.

A comparison of the weights of the mails dispatched to foreign countries during the fiscal year 1882 with those of the fiscal year 1880 shows the increase of correspondence to have been as follows:

	Pounds.
Weight of letter mails:	
In 1882 .....	414, 355
In 1880 .....	272, 181
An increase in two years of.....	142, 174
or 52½ per cent.	
Weight of printed matter and sample mails:	
In 1882 .....	1, 789, 521
In 1880 .....	1, 181, 420
An increase in two years of.....	608, 101
or 51½ per cent.	

A statement of the weights of the mails dispatched to each Postal Union country and colony is reported by the Auditor of the Treasury for the Post-Office Department.

#### THE NUMBER OF LETTERS EXCHANGED

with countries and colonies not embraced in the Universal Postal Union, exclusive of Canada, was 168,832, of which number 95,169 were sent to, and 73,663 received from such countries; a decrease, compared with the previous fiscal year, of 338,996 letters sent, and 147,388 letters received from non-Union countries.

#### COST OF THE FOREIGN MAIL SERVICE.

The sums reported for payment on account of sea-transportation of the mails dispatched to and received from foreign countries during the fiscal year 1882, including 13,677 francs and 34 centimes (\$2,649.73), credited to France in the quarterly accounts with the French postal administration for the conveyance of United States mails by French contract packets from New York to Havre, amounted to \$280,163.98; an increase over the cost of the same services for 1881 of \$41,014.77. Of this amount \$233,485.34 was reported for the trans-Atlantic service; \$16,537.38 for the trans-Pacific service, and \$30,141.26 for services to and from the Isthmus of Panama, Central America, and the South Pacific; to Mexico, Cuba, and Porto Rico; to and from other West India Islands; to Brazil, the Argentine Republic, Paraguay and Uruguay; to Venezuela and Curaçoa, and to Canada and Newfoundland. Particulars of these several services are appended in statement marked A.

A comparison of the cost of foreign mail transportation for the fiscal year 1882 with the cost of the same service in 1880 shows the increase to have been as follows:

Cost of the service in 1882.....	\$280,163 98
Cost of the service in 1880.....	198,667 46
<hr/>	
An increase in two years of.....	81,496 52
or over 41 per cent.	

The expenses (chargeable to the foreign mail service) of maintaining the United States postal agencies at Shanghai (China), and at Aspinwall and Panama (United States of Colombia), for office rent, clerk hire, portorage of mails, and other miscellaneous items, amounted to \$2,695.55. These expenses have been materially reduced by a curtailment of the business of the agencies at Aspinwall and Panama, consequent upon the entrance into the Union, from July 1, 1881, of the United States of Colombia, the postal business of said agencies being now restricted to the receipt, custody, transfer, distribution (when necessary), and forwarding of mails in transit from and to the United States via the Isthmus of Panama.

The payments made by this department in previous years, on account of the Atlantic sea conveyance of the Australian closed mails from New York to Great Britain, were discontinued from July 1, 1881, the British post-office having agreed to pay directly to the conveying steamship lines the sums becoming due for the conveyance of such mails. Under this arrangement the appropriation made by Congress for ocean transportation of mails during the year 1882 was relieved from the payment of 70,360 francs 31 centimes = \$13,579.44.

The aggregate amount of the quarterly balances paid to this department on settlement of postage accounts with other Postal Union administrations was \$104,201.20, and the aggregate amount of the quarterly balances paid by this department to other Postal Union administrations was \$43,605.22.

The sums credited to this department by Postal Union administrations on account of the United States territorial and sea-transit of foreign mails, amounted to 657,728 francs 12 centimes=\$126,941.53, and the sums credited by this department to Union administrations on account of the foreign territorial and sea transit of United States mails, amounted to 423,392 francs 52 centimes=\$81,714.76.

The amounts estimated as necessary for appropriation for foreign mail service for the fiscal year 1883-1884, are as follows :

For transportation of mails .....	\$350,000
For balances due foreign countries, including the United States' portion of the expenses of the International Bureau of the Postal Union, and the subscription of the department for 25 copies of the monthly journal of the Union—"L'Union Postale" .....	60,000
Total .....	\$410,000

#### ADMISSIONS TO THE UNIVERSAL POSTAL UNION.

The additions to the Universal Postal Union during the year have been as follows :

The Republic of Nicaragua, admitted from May 1, 1882.

The Republic of Costa Rica, admitted from January 1, 1883.

The Postal Union now embraces all countries and colonies of the civilized world known to have organized postal establishments, except Bolivia in South America, and the British Australasian colonies. For full list of Postal Union countries and colonies, with dates of admission, see statement marked B, appended.

#### MODIFICATIONS OF POSTAL UNION ARRANGEMENTS AND DETAILS.

The following changes in the Regulations of Detail and Order under the Convention of Paris, have been adopted by votes of the Postal Union administrations, viz :

Paragraph 10 of Article XXXII has been amended so as to read : The post-offices which the Japanese administration has established at Shanghai (China), at Fusampo and Genzaushin (Corea).

Paragraph 4 of Article VI has been modified as follows, to take effect January 1, 1883 :

Registered articles must bear a label or impression of a stamp showing, in a distinct manner, the capital letter R in Roman text, it being left optional with each office to add to the letter R the special mark (indication of office of origin or country of origin, number of order, &c.) which it shall deem proper.

Consequent upon the adoption of this modification, and because of the uniform character of the stamp or label indicating registration thereby provided for use by all the postal administrations of the Union, Article XXIX of the Regulations has been also modified, to take effect on the same date, by suppressing the second subparagraph of paragraph 2, and numbering the third, fourth, and fifth subparagraphs thereof 2, 3, and 4, respectively.

Article XIV of the Regulations has been modified to read as follows :

1. Articles of correspondence addressed under initials are not admitted to registration.

2. No special condition of form or of fastening is required for registered articles. Each office has the right to apply to this correspondence the regulations established in its interior service.

Special arrangements have been concluded with Belgium and Switzerland, respectively, extending the limits of weight and dimensions, prescribed by Article V of the Convention of Paris for packets of samples of merchandise so as to admit such packets to circulation in the mails exchanged with each of those countries, respectively, when not exceeding the weight of 350 grams (12 ounces) and the dimensions of 30 centimeters (12 inches) in length, 20 centimeters (8 inches) in width, and 10 centimeters (4 inches) in depth. Copies of these special arrangements are appended.

With respect to the arrangement with Belgium it has been mutually agreed that it shall be so interpreted as to authorize its termination at any time on a notice by either government of one year.

Negotiations are pending between this department and the postal administration of Japan for an arrangement granting the reciprocal conveyance between the two countries, free of postage, of official correspondence in closed mails between each government and its legations and consulates near the other.

Detailed information on the following subjects relating to Postal Union exchanges will be found in statements hereto appended, marked C, D, E, and F, respectively:

1. Table of equivalents according to which postage rates are levied in those countries of the Universal Postal Union which have not the franc for a monetary unit, and the fees charged for registration and for return receipts.

2. A recapitulation of the regulations which determine, in the different countries of the Union, the length of time for retaining in the offices of destination unclaimed correspondence addressed "*poste restante*."

3. A recapitulation of the regulations within the Union respecting applications for the return of letters to the senders before their delivery to the addressees.

4. A statement of the surtaxes charged in certain Postal Union countries on correspondence addressed to the United States.

#### MODIFICATIONS OF POSTAL REGULATIONS AND DETAILS RESPECTING MAIL EXCHANGES WITH THE DOMINION OF CANADA, AND WITH COUNTRIES AND COLONIES NOT EMBRACED IN THE UNIVERSAL POSTAL UNION.

The second article of the postal arrangement between the United States and Canada of <sup>April 28,</sup><sub>May 3,</sub> 1881, has been replaced by a modified article designed to more effectually prevent the mailing in Canada of United States publications to addressees in this country with the object of evading the postage rates or regulations applicable to such matter in the United States. A copy of this article is appended.

The reduced sea-transit rates of 9 cents per ounce for letter mails and 4 cents per pound for printed-matter mails, accepted by this department from January 1, 1881, for the closed mails from the colonies of New South Wales, New Zealand, Victoria, and Queensland, respectively, for Mexico, the Central American States, and Panama, when transported entirely by sea from San Francisco, have been applied also to the closed mails for said colonies forwarded in the opposite direction from the British packet agency at Panama to San Francisco.

For the purpose of securing proper examination and treatment by United States customs officers, before transmission to the addressees, of books received by mail from Canada, an arrangement has been made with the Canada office to forward all book packets of Canadian origin

separately from other mail matter, in sacks addressed to certain designated United States exchange post-offices on or near the frontier line of Canada.

## FOREIGN MAIL STATISTICS.

*Estimate of the amount of mail matter exchanged during the fiscal year ended June 30, 1882, based upon the count of such matter exchanged during seven days in October, 1881, and seven days in April, 1882, as made at United States exchanging post-offices in pursuance of the Postmaster-General's order of September 10, 1879.*

From the above table it appears—

1. That 97.11 per cent of the letters sent to foreign countries were fully prepaid; that 2.43 per cent. were either unpaid or insufficiently prepaid, and that 0.43 per cent. were free of postage.

2. That 94 $\frac{3}{4}$  per cent. of the letters received in the United States from foreign countries were fully prepaid; that 5 per cent. were either unpaid or insufficiently prepaid, and that one-fourth of one per cent. were free of postage.

3. That of the total number of postal articles *sent*, 51 per cent. were letters; 2.78 per cent. were postal cards; 44.57 per cent. were newspapers, other printed matter, and business papers, and 1.65 per cent. were samples of merchandise.

4. That of the total number of postal articles *received*, 54.46 per cent. were letters; 2.01 per cent. were postal cards; 43 per cent. were newspapers, other prints, and business papers, and 0.53 per cent. were samples of merchandise.

5. The estimated amount of postages collected in the United States on the unpaid mail-matter received from other countries exceeded the estimated amount of unpaid postages on the mail-matter sent to other countries in the sum of \$94,407.29.

6. The estimated total postages collected in the United States (not including registration fees on registered articles) on the mails exchanged with foreign countries, amounted to \$1,956,614.18.

The general statistics of the postal services in the countries of the Universal Postal Union for the year 1880 (the latest collated and pub-

lished by the International Bureau), furnish interesting information respecting the interior postal services of each country, as well as of the international postal relations between the countries of the Union.

It appears by these statistics that the relative rank of the principal Union countries, in respect to the following particulars, was as follows:

1st. *In number of post-offices* the United States ranks first, with 42,989 offices; then Great Britain, with 14,549; Germany, with 9,460; France, 5,942; Japan, 4,665; Russia, 4,458; British India, 4,409; Austria, 4,025; Italy, 3,328; Switzerland, 2,852; Spain, 2,642; Hungary, 2,301; Sweden, 1,785; the Netherlands, 1,316; Norway, 924; Mexico, 897; Belgium, 792; Portugal, 755; Denmark, 560.

2d. *In respect of the relative proportion between the number of post-offices and that of population*, the principal countries of the Union rank as follows: Switzerland has an average of 993 inhabitants to each post-office; the United States, 1,167 to each office; Norway, 2,078; Great Britain, 2,372; Sweden, 2,565; the Netherlands, 3,085; Luxemburg, 3,175; Denmark, 3,537; Germany, 4,778; Austria, 5,498; France, 6,211; Portugal, 6,285; Spain, 6,333; the Argentine Republic, 6,400; Belgium, 6,991; Hungary, 7,258; Japan, 7,701; Italy, 8,545.

3d. *In number of letter-boxes for reception of correspondence*, the principal countries rank as follows: France, 57,960 letter-boxes; Germany, 57,782; Great Britain, 27,782; the United States, 18,460; Italy, 11,550; Spain, 9,406; Austria, 8,013; Russia, 7,957; Japan, 6,935; British India, 6,392; Belgium, 5,456; Switzerland, 5,270; Denmark, 3,382; Hungary, 3,263; the Netherlands, 3,047; Sweden, 2,700; Portugal, 1,303.

4th. *In number of letters conveyed in the mails*, the principal countries rank as follows: Great Britain, 1,176,423,600 letters; the United States, 847,830,029; Germany, 522,689,800; France, 488,462,763; Austria, 174,999,000; Italy, 151,471,018; British India, 118,072,439; Russia, 92,451,476; Spain, 66,525,891; Hungary, 64,647,572; Belgium, 61,209,200; the Netherlands, 48,070,539; Switzerland, 45,739,594; Japan, 36,898,795; Sweden, 27,130,454; Denmark, 22,011,999; Portugal, 14,124,919.

5th. *In number of postal cards conveyed in the mails*, the principal countries rank as follows: The United States, 275,324,224 postal cards; Germany, 135,135,100; Great Britain, 122,884,000; Austria, 36,026,000; France, 27,540,065; Japan, 19,884,451; Italy, 19,714,710; Belgium, 14,720,342; the Netherlands, 13,775,947; Hungary, 12,965,458; British India, 7,471,984; Switzerland, 6,649,297; Russia, 4,682,544; Sweden, 1,250,081; Roumania, 685,802; Portugal, 252,751; Norway, 209,014; Denmark, 173,128; Spain, 161,986; Luxemburg, 155,883.

6th. *In respect to the number of letters and postal cards per each inhabitant*, the principal countries rank as follows: Great Britain, 37.6 to each inhabitant; the United States, 22.8; Switzerland, 22.4; the Netherlands, 17.1; Belgium, 16.2; Germany, 15.6; France, 14.9; Denmark, 12.6; Luxemburg, 11.7; Austria, 11.1; Sweden, 6.9; Italy, 6.6; Norway, 5.7; Spain, 4.1; Portugal, 3.3; Greece, 1.7; Japan, 1.6; Roumania, 1.2; Russia, 1.1.

7th. *In number of newspapers conveyed in domestic mails*, the principal countries rank as follows: The United States, 730,269,063 newspapers; Germany, 420,944,000; France, 285,691,654; Great Britain, 133,796,100; Russia, 83,233,945; Italy, 81,060,778; Austria, 75,282,900; Belgium, 64,680,000; Switzerland, 49,967,736; the Netherlands, 33,682,452; Hungary, 27,722,577; Denmark, 25,007,457; Sweden, 21,087,036; Japan, 17,596,758; British India, 11,251,021; Norway, 10,402,002; Argentine Republic, 7,500,000; Greece, 1,688,811.

8th. *In number of newspapers dispatched in international mails*, the

principal countries rank as follows: The United States, 18,378,837 newspapers; Great Britain, 16,697,753; France, 15,894,252; Germany, 8,760,000; Italy, 5,030,860; Belgium, 4,001,000; Spain, 3,117,521; the Netherlands, 1,251,605; Russia, 1,235,686; Argentine Republic, 795,000; Sweden, 714,717; Greece, 502,047; Norway, 201,428.

9th. In respect to *the length of interior mail-routes of all kinds, on land and water, used for conveyance of the mails*, the United States occupies the first rank, with a total length of 550,221 kilometers (341,891 miles); France next, with 227,591 kilometers (141,418 miles); Russia next, with 171,268 kilometers (106,421 miles); and Germany next, with 101,609 kilometers (63,137 miles).

No reports on this head were furnished for Great Britain.

10th. In respect to *the number of miles of railway transportation of mails*, the United States ranks first, with 154,399,941 kilometers (95,939,491 miles); Germany next, with 102,799,339 kilometers (63,876,418 miles); then France, with 66,150,755 kilometers (41,104,095 miles); Austria, 29,167,664 kilometers (18,123,711 miles); Russia, 23,203,638 kilometers (14,418,045 miles); Hungary, 12,504,957 kilometers (7,770,205 miles); Spain, 5,942,754 kilometers (3,692,649 miles); Sweden, 5,656,897 kilometers (3,516,026 miles); Switzerland, 4,772,740 kilometers (2,965,637 miles).

No statements on this head were furnished for Great Britain.

11th. In respect to *the distance of transportation of mails effected by modes of conveyance other than by railroads*, the United States ranks first, with 121,713,592 kilometers (75,599,174 miles); Germany next, with 62,745,103 kilometers (38,989,925 miles); then France, 48,869,120 kilometers (30,365,805 miles); Russia, 33,415,955 kilometers (20,763,673 miles); Austria, 31,743,825 kilometers (19,724,661 miles).

No statements on this head were furnished for Great Britain.

12th. In respect to *the gross postal revenues*, the principal countries rank as follows: Germany, 190,229,319 francs; the United States, 176,453,627; Great Britain, 168,335,675; France, 112,687,572; Russia, 56,694,540; Austria, 41,519,703; Italy, 28,189,618; British India, 22,324,407; Spain, 18,723,485; Switzerland, 17,589,901; Hungary, 15,890,022; Belgium, 11,599,607; The Netherlands, 8,828,838; Sweden, 7,133,273; Japan, 6,439,847; Denmark, 5,550,803 francs.

13th. The postal service of the following countries in 1880 yielded *net revenues*, in francs, as follows: Great Britain, 64,944,200 francs; France, 32,303,646; Germany, 22,017,639; Spain, 10,751,753; Austria, 4,582,700; Belgium, 3,836,839; Italy, 3,831,683; Hungary, 2,766,615; The Netherlands, 2,180,341; Switzerland, 2,011,864; British India, 994,485; Sweden, 929,811 francs.

The annual deficit in the United States for the same year was 16,536,575 francs, and in Russia 4,520,176 francs.

The order of this department discontinuing the annual count of domestic correspondence has, it is regretted, rendered incomplete the statistics furnished the International Bureau for the fiscal year ended June 30, 1881, and will prevent any comparison for that year between our domestic correspondence and that of other countries of the Universal Postal Union.

#### SUBJECTS REQUIRING LEGISLATION.

Article 6 of the Universal Postal Union Convention concluded at Paris, June 1, 1878, provides for the payment, in case of the loss of a registered article, and except in case of *force majeure*, of an indemnity of 50 francs to the sender, or, at his request, to the addressee, by the

administration upon whose territory or in whose maritime service the loss has occurred; but permits, as a temporary measure, the administrations of the countries beyond Europe whose legislation was at that time opposed to the principle of responsibility to postpone its application until they shall have obtained from the legislative power authority to subscribe to it. To enable this department to carry into effect this provision of the Paris Convention, your predecessors have recommended in each annual report since the conclusion of the Paris Convention, that the necessary authority therefor be given by law. Bills have been introduced in Congress for that object which have passed the Senate, but have not been acted upon by the House of Representatives. I respectfully suggest that the attention of Congress be again called by this department to the importance of enacting the necessary legislation on this subject.

The countries and colonies of the Universal Postal Union outside of Europe which, up to the latest advices, have agreed to the principle of responsibility in case of loss on their territory, or in their maritime service, of a registered article, are as follows:

Egypt,	Bermudas,	Saint Christopher,
British India,	Ceylon,	Saint Lucia,
Persia,	Gold Coast,	Seychelles,
The Danish Colonies,	Dominica,	Sierra Leone,
The Spanish Colonies,	Gambia,	Straits Settlements,
The French Colonies,	Grenada,	Newfoundland,
The Netherlands Colonies,	British Guiana,	Tobago,
The Portuguese Colonies,	British Honduras,	Trinidad,
The United States of Colombia,	Hong-Kong,	Turk's Islands,
The Republic of Hayti,	Jamaica,	Virgin Isles,
Antigua,	Labuan,	Saint Vincent,
Bahamas,	Lagos,	Cyprus,
	Mauritius,	Barbadoes,
	Montserrat,	Chili,
	Nevis,	Hawaii.

This department, as also the postal administrations of Peru, the United States of Venezuela, and the Republic of Liberia, have advised the International Bureau of the Postal Union that they have submitted to their national legislatures projects of laws authorizing them to subscribe to the principle of responsibility in the matter of registered articles exchanged with other postal-union countries.

I also respectfully suggest that the recommendations of your predecessors for such a modification of the provisions of section 17 of the act of March 3, 1879, as will authorize the adoption, by the Secretary of the Treasury and the Postmaster-General, of regulations extending to all dutiable articles of mail-matter received by mail from foreign countries the same facilities of transmission by mail to destination and delivery to the addressees, subject to payment of customs duty, as are now extended to dutiable books received from countries of the Universal Postal Union.

#### SPECIAL POSTAL-UNION INTERNATIONAL EXCHANGES.

A project of an arrangement relative to an international exchange of small parcels not exceeding 3 kilograms in weight, which was submitted by the delegates of Germany to the Paris Convention of 1878, resulted

in the assemblage at Paris, in October, 1880, of a Postal Conference, which, on the 3d day of November following, concluded a convention to go into operation October 1, 1881, for an exchange of such parcels between Germany, Austro-Hungary, Belgium, Bulgaria, Denmark, Egypt, Spain, France, Great Britain and Ireland, British India, Italy, Luxemburg, Montenegro, The Netherlands, Persia, Portugal, Roumania, Servia, Sweden, Norway, Switzerland, and Turkey.

The postal-union countries which have taken advantage, to date, of the permission given in Article 14 of the Paris Convention to make mutual arrangements for the exchange of postal cards with paid reply are as follows: Argentine Republic, Austro-Hungary, Belgium, Brazil, Colombia [United States of], Cuba, France, Germany, Greece, Honduras [Republic of], Italy, Luxemburg, Netherlands, Netherlands Colonies in the East Indies, Norway, Paraguay, Persia, Porto Rico, Portugal, Portuguese Colonies, Roumania, San Salvador, Servia, Spain, Spanish Colonies, Sweden, Switzerland, Turkey, and Uruguay.

#### MISCELLANEOUS.

Postal intercourse between the United States and foreign countries has been maintained during the year with accustomed regularity, and without interruption, save in the following instances:

The prevalence of yellow fever during summer months, and the quarantine regulations resulting therefrom at New Orleans, La.; Galveston, Tex.; Key West, Fla., and several towns on the Rio Grande, compelled the temporary use of less direct routes for the transmission of exchanges between the United States and Mexico and Havana, Cuba, respectively, involving delay to the mails to some extent.

The occupation by Chilian forces of Peruvian territory, resulting in the suppression of the postal establishments of Peru, and the establishment in their stead of Chilian post-offices, under the charge and direction of the military forces of Chili, whilst giving rise to anomalous complications, has, at the same time, occasioned delays to the mails from the United States for Peru, and complaints of alleged loss of correspondence.

In connection with the above, it should be stated that direct postal intercourse with Brazil, and other countries on the east coast of South America, and with a considerable portion of the West India Islands, is entirely dependent upon the maritime commercial carrying trade with those countries and islands, the varying necessities of which render the mail service irregular and uncertain, and not infrequently prevent sufficient notice to the public of the dispatches occurring.

Very respectfully,

JOSEPH H. BLACKFAN,  
*Superintendent.*

## D.—POSTE RESTANTE LETTERS.

The following are the regulations which determine, in the different countries of the Universal Postal Union, the length of time for retaining in the offices of destination unclaimed correspondence addressed "*poste restante*":

Great Britain and Germany	1 month for correspondence of domestic origin, and 2 months for correspondence of foreign origin.
Curaçoa, West Indies	1 month, if originating in Venezuela or the West Indies, and 2 months when of any other origin.
Cyprus, Dominica, and Island of Montserrat.	1 month.
Ceylon	1 month; but if addressed to persons aboard of vessels <i>expected to arrive</i> it is kept 3 months.
Liberia	1 month for correspondence originating in establishments and islands on the West Coast of Africa, and 3 months for any other correspondence.
Antigua, Austria, Bermuda, British Honduras, Dutch Guiana, Egypt, France, Grenada, Hungary, Italy, Japan, Island of Nevis, Paraguay, Peru, Roumania, Salvador, Servia, Spain, St. Christopher, St. Lucia, Trinidad, Turk's Islands, Virgin Islands.	2 months.
Canada	2 months in country post-offices and 1 month in city post-offices, after which it is sent to the dead letter office.
Netherlands	6 weeks.
Denmark	2 months for correspondence originating in Germany, and 3 months for correspondence of all other origin.
British Guiana	2 months, as a general rule, and 3 or 4 months in exceptional cases.

San Domingo .....	{ 2 months for domestic correspondence, and 3 months for international correspondence.
Jamaica .....	{ 8 weeks.
Brazil, Danish West Indies, French Colonies, Gambia, Gold Coast, Greece, Lagos, Luxemburg, Newfoundland, Norway, Persia, Seychelles, Switzerland, Tobago, United States of America.	{ 3 months.
Belgium .....	{ Until the 5th of the third month following that in which the correspondence reached the office.
Hong-Kong .....	{ 3 months; but if addressed to persons on board sailing ships, 4 months.
Sweden .....	{ Until the expiration of the quarter following its arrival.
Russia and Bulgaria .....	{ 4 months.
British India .....	{ 4 months when the correspondence is addressed to Calcutta, to Madras, to Bombay, to Aden, to Rangoon, or to Kurra- chee; and for 1 month only when to other destinations.
Hawaii, Mexico, St. Vincent, Straits Settlements.	{ 6 months.
Portugal .....	{ 6 months for domestic correspondence, and 3 months for international correspondence.
Netherland East Indies .....	{ 3 months in the office of destination, and 3 months longer in the central administration.
Chili .....	{ 3 months in the office of destination, and 6 months longer in the dead letter office of the central administration.
Argentine Republic .....	{ 9 months in the office of destination, and 3 months longer in the central administration.
Honduras, Hayti, Mauritius, Singapore, and Uruguay.	{ 1 year.
Guatemala and Venezuela .....	{ 2 years.
Labuan .....	{ Until there is little or no hope that it can be delivered.

JOSEPH H. BLACKFAN,  
Superintendent of Foreign Mails.

#### E.—RECAPITULATION OF THE REGULATIONS WITHIN THE POSTAL UNION RESPECTING THE STOPPAGE, FOR RETURN TO THE SENDERS, OF LETTERS OF THE INTERNATIONAL SERVICE.

From information communicated to the International Bureau respecting the legislation of the different countries of the Universal Postal Union on the subject of the property of letters in course of transportation, and the authority to stop letters of the international service (ordinary or registered) circulating in their territory before delivery to the addressees, it appears that, in order to return them to the senders, the administrations of the Union which consent to stop upon their territory the letters of the international service, the withdrawing of which may be requested by the administration of the country of origin, are the following:

*Argentine Republic, Austria, Batavia, Belgium, Brazil, British India, Bulgaria, Chili, Curaçoa, Denmark, Danish Colonies, Egypt, France, French Colonies, Germany, Hayti, Honduras, Republic of; Hong-Kong, Hungary, Italy, Luxemburg, Montenegro, Netherlands, Nicaragua, Norway, Paraguay, Persia, Peru, Portugal, Portuguese Colonies, Roumania, Russia, Surinam, Sweden, Switzerland, Trinidad, United States of America, and Uruguay.*

Certain of these administrations, however, have made reservations as follows:

The administrations of *Bulgaria, Egypt, France, French Colonies, Portugal, Sweden, and the United States of America* consent to return letters of the international service,

under the reservation that the administrations of the countries of origin which make the request for withdrawal remain responsible for such withdrawal.

The administration of *Bulgaria* will return letters to the senders on their complying with certain forms for identification, and for taking any responsibility off that administration. "If a request for the return of a letter comes from abroad, either by letter from a foreign administration or direct from the sender, the letter the return of which is requested, if not yet delivered, will be sent to the dispatching office, which will be responsible for the consequences of such return."

The *French* office has notified the administrations of the Union "that when they address to it a telegram asking the return of a letter, they assume the responsibility of all the consequences of such a measure, and that the fact alone of sending the telegram implies that responsibility on the part of the office of origin, although it should not be mentioned in the demand."

The administrations of *Luxemburg* and *Norway* do not refuse to return letters of the international service if the request is made by the administration of the country of origin, unless the legislation of that country does not attribute to the sender the ownership of articles in course of transportation.

The administration of *Sweden* requires (1) that requests for return to the senders of letters of the international service destined for Sweden must always be made by the central administration of the country of origin, and must be addressed to the central administration at Stockholm; (2) that in addressing to the Swedish office a request for the return of a letter the administrations of the Union assume the responsibility for all the consequences of such a request, and that the simple fact of making such a request by telegram implies such a responsibility on the part of the office of origin, even if it should not be mentioned in the telegram.

The *Italian* administration consents only to return registered or insured letters.

In order that the *Brazilian*, *German*, and *Portuguese Colonies'* administrations may allow requests for withdrawal, it is indispensable that the requests should specify that the identity of the sender has been established.

The regulations of the *Swiss* administration authorize the return to the sender of an article of international correspondence, unless the addressee has been officially notified of the arrival of such article and has requested its delivery.

The administration of *Hong-Kong* cannot stop a letter circulating over its territory except by special order coming from the governor of the colony or from Her Majesty's consul.

The administrations of *Persia* and the *Virgin Islands* consent only to the return of registered letters.

The administration of *Haiti* will return letters of the international service in case the administration of the country of origin makes the request by telegraph.

The administration of *Montenegro* consents to return letters of the international service, if the sender makes the request by telegram or letter fully establishing his identity.

The administrations of *Uruguay* and *St. Domingo* consent to return letters of the international service if the request is made in the name of the sender, by the administration of the country of origin, which assumes all the consequences which may result from such a return.

The administration of *Chili* consents to return letters of the international service on the following conditions:

(a.) The demand for return must be addressed by the central administration of the country of origin to the General Direction of Posts of Chili.

(b.) The administration of the country of origin assumes the responsibility for all consequences involved in such return.

(c.) The simple fact of sending a telegram requesting such return implies this responsibility, even if no special mention is made of it.

The administration of *Nicaragua* consents to return letters of the international service at the request of the central postal administration of the country of origin if the sender is able to prove his identity by two witnesses in the presence of a postal agent, and is also able to prove the authenticity of his signature.

The regulations of the Post Office Department of the *United States* require conclusive proof of identity, and that the purpose shall be such as would justify a resort to a reserved power, never to be exercised except in an emergency which admits of no other remedy; and that the application for return be made by the sender, approved by the postal administration of the country of origin, and transmitted by it, such approval being understood in all cases to involve the assumption by such country of origin of any liability for damages that may arise out of such return.

The administrations of the Union which are not authorized to return letters of the international service, to have them placed at the disposition of the senders, are the following: *Antigua*, *Samamas*, *Barbadoes*, *Bermuda*, *British Guiana*, *British Honduras*, *Canada*, *Colombia*, *U. S. of*; *Cyprus*, *Dominica*, *Falkland Islands*, *Gambia*, *Great Britain*, *Greece*, *Grenada*, *Jamaica*, *Japan*, *Lagos*, *Liberia*, *Mauritius*, *Neris*, *Newfoundland*, *St.*

*Lucia, St. Vincent, San Salvador, Seychelles, Sierra Leone, Spain, Spanish Colonies, Straits Settlements, Tobago, Turkey, Turk's Island, Venezuela.*

The administrations which had not, on the 26th of September, 1881, replied to the inquiry made by the International Bureau on this subject are those of *Ceylon, Gold Coast, Mexico, Montserrat, Servia, and St. Christopher.*

JOSEPH H. BLACKFAN,  
Superintendent of Foreign Mails.

## AMENDED ARTICLE

TO REPLACE

### ARTICLE 2 OF THE ADDITIONAL ARTICLES OF AGREEMENT OF <sup>APRIL 28, MAY 3,</sup> 1881,

BETWEEN

### THE UNITED STATES OF AMERICA AND THE DOMINION OF CANADA.

In order to effectively protect the postal revenues of the United States from the evasive practices of persons or firms who seek to elude the postal laws and regulations of the United States by posting their publications in Canada, the undersigned, duly authorized by their respective governments, have agreed to replace Article 2 of the Additional Articles of Agreement of <sup>April 28,  
May 3,</sup> by the following

#### ARTICLE.

When newspapers, periodicals, and other printed matter, published or originating in the United States, or purporting to be published in the United States, or circulated on behalf of a person or firm doing business in the United States, are posted in Canada for destinations in the United States, apparently to evade the postage rates or regulations applicable to such matter in the United States, the Canada Post Office may require prepayment of the same to be made at a rate equivalent to the domestic postage chargeable thereon by the laws of the United States.

The present article takes effect immediately.

In witness whereof the Postmaster General of the United States and the Postmaster General of Canada have hereunto set their hands and affixed their seals at the date set opposite to each respectively.

[SEAL.]

TIMOTHY O. HOWE,

*Postmaster General of the United States.*

WASHINGTON, *February 16th*, 1882.

[SEAL.]

JOHN O'CONNER,

*Postmaster General of Canada.*

OTTAWA, *10th Feb'y*, 1882.

I hereby approve the foregoing Amended Article, and in testimony thereof I have caused the seal of the United States to be affixed.

[SEAL.]

CHESTER A. ARTHUR.

# AGREEMENT

BETWEEN

## THE UNITED STATES AND BELGIUM

FOR

INCREASING THE LIMITS OF WEIGHT AND THE DIMENSIONS OF PACKETS OF PATTERNS OF MERCHANDISE EXCHANGED THROUGH THE POST BETWEEN THE TWO COUNTRIES.

*Signed at Washington, February 7th, 1882.*

The Post-Office Department of the United States and the Postal Administration of Belgium, desiring to facilitate the postal relations between the two countries, and in exercise of the power given to them under Article XV of the Convention of the Universal Postal Union, concluded in Paris on the 1st June, 1878, the undersigned, duly authorized by their respective Governments, have agreed as follows: The limits of weight and the dimensions of packets of patterns of merchandize exchanged through the post between Belgium on the one part, and the United States on the other part, may be increased by the Postal Administration of the country of origin beyond those which have been fixed by Article V of the International Convention of the 1st June, 1878, under the express reservation that such limits shall not exceed the following: viz:

In weight, 350 grammes.

In dimensions,  $\begin{cases} 30 \text{ centimetres, length.} \\ 20 \text{ centimetres, breadth.} \\ 10 \text{ centimetres, depth.} \end{cases}$

The present Agreement shall take effect on the first day of April, 1882.

In witness whereof they have

L'office Général des Postes des Etats Unis et l'Administration des Postes de la Belgique, désirant faciliter les relations postales entre les deux pays, et usant de la faculté qui leur est laissée par l'Article XV de la Convention de l'Union Postale Universelle conclue à Paris le 1<sup>er</sup> Juin, 1878, les soussignés, dûment autorisés à cet effet par leurs Gouvernements respectifs sont convenus de ce qui suit: Les limites de poids et de dimensions des paquets d'échantillons de marchandises échangés par la voie de la poste entre la Belgique d'une part, et les Etats Unis d'autre part, peuvent être portées par l'Administration des Postes du pays d'origine au delà de celles qui ont été fixées par l'Article V de la Convention Internationale du 1<sup>er</sup> Juin, 1878, sous la réserve expresse que ces limites ne dépasseront pas, savoir:

Pour le poids, 350 grammes.

Pour les dimensions,  $\begin{cases} 30 \text{ centimètres, en longueur.} \\ 20 \text{ centimètres, en largeur.} \\ 10 \text{ centimètres, en épaisseur.} \end{cases}$

Le présent arrangement sera exécutoire à partir du premier Avril, 1882.

En foi de quoi ils ont signé le

signed the present Agreement, and présent arrangement, et y ont ap-  
affixed their respective seals. posé le cachet de leurs armes.

---

REPORT  
OF THE  
TOPOGRAPHER OF THE POST-OFFICE DEPARTMENT  
FOR 1882.

---

# REPORT

## OF THE

### TOPOGRAPHER OF THE POST-OFFICE DEPARTMENT

---

POST-OFFICE DEPARTMENT, TOPOGRAPHER'S OFFICE,  
*Washington, D. C., October 18, 1882.*

SIR: I have the honor to submit report on the work of the topographer's office during the past year (ending September 30, 1882), with estimate of appropriation required for the fiscal year ending June 30, 1884, for the general expenses of this office.

Previous to the past year this estimate has been made annually for a specific total amount, to include the salaries of the employés of this office, together with the miscellaneous expenses in "the preparation and publication of post-route maps," but, it having been thought better to depart from this special presentation, and to group these employés along with the regular personal force of the department, that plan was adopted last year and is now followed, the miscellaneous expenses of the office being provided for by an item of the contingent expenses of the Post-Office Department.

During this past year the regular duty of "keeping up," with all the successive changes, the exhibit of the mail service of the country on the maps and diagrams used by the officers and clerks in the several bureaus, and the furnishing the geographical data for the different branches of the department, has been accomplished to the full capacity of the force allowed and employed.

For the continuous (daily) use of the officers and corresponding clerks of the contract office, 142 maps or diagrams have been "kept up," showing the changes in the service at least once a month. There are also kept up, under the same conditions, two sets (50 maps) for use in the appointment office, and three sets (69 maps) for the offices of the Post-master-General, general superintendent of railway mail service, and topographer. In addition to this constant and indispensable assistance for these offices, there have been brought up, at longer intervals than a month, 184 maps for use in the under-named offices: Finance, money-order, post-office inspectors, dead-letter, Assistant Attorney-General for Post-Office Department, and for the office of the Sixth Auditor of the Treasury Department (located in Post-Office Department building).

In procuring data for the original construction and additions to the post-route maps, 324 letters of inquiry have been addressed to engineers and other officers of railroads, in most cases with inclosure of a special tracing of the immediate surrounding country, made in this office, to facilitate their returning the exact lines of their roads for transference to our maps. With the same view, 4,240 circular queries have been sent to postmasters to get the locations of their post-offices, where inadequately furnished by the data presented to and reported from the appointment office, or to get more precise definition of sites and adjacent topography.

The miscellaneous correspondence, exclusive of the above circulars consisted of 2,980 letters written by the topographer on matters appro-

priate to his work. The number of letters received, exclusive of these returned circular queries, was 3,119.

Eight thousand two hundred and fifty sheets of post-route maps, colored (with few exceptions), to exhibit the post-offices and the frequency of service on the several post-routes, have been distributed during the year. Of these, a large proportion has been, as in former years, sent to the larger post-offices in the several States and Territories, either for the first time or to replace (by new editions) those hitherto supplied but rendered obsolete by the great additions to and changes in the service. The largest distribution has been to the officers, clerks, and other agents of the railway mail service, the maps (with the latest information carefully transcribed) being furnished on requisitions from the general superintendent and division superintendents for their office use, and for distribution to employes in that special service. But it being impracticable, for various reasons, to furnish every one employed in the railway mail service with a copy of these elaborate (and constantly changing) maps, the attempt has been made during the past year to construct a series of smaller single sheet diagrams to show the railroad system of a State, with the more important side connections ("star route"). Diagrams of seven States have been thus made and a large number of copies placed at the disposal of the general superintendent of railway mail service; and from the satisfaction expressed from their use it may be advisable to extend this construction for other States. For post-office inspectors, whose duties require much traveling, many copies of the various maps have been specially prepared in portable form, showing, as closely as possible, the existing state of the service.

Thirty-seven per cent. of all the post-route maps distributed in various quarters from this (topographer's) office have been backed with muslin, mounted on rollers, or bound for portable use. A detailed statement of this distribution of maps during the past year is appended (marked A), with a side comparison with the numbers for the two preceding years.

The department has continued to furnish, when available, occasional copies of the post-route maps to the other governmental bureaus; their large scale, clearness of matter without superfluity of detail, rendering them acceptable for reference and for special exhibition and demarcation of district divisions, &c. Maps have been sent during the past year, in compliance with request, to the following:

- Treasury Department, Bureau of Statistics;
- Treasury Department, United States Coast and Geodetic Survey Office;
- War Department, Office of the Secretary;
- War Department, Office of the Chief Engineer, United States Army;
- War Department, Office of the Paymaster-General, United States Army;
- War Department, Signal Office, United States Army;
- Department of the Interior, General Land Office;
- Department of the Interior, Pension Office;
- Department of the Interior, Office of Auditor of Railroad Accounts;
- Department of the Interior, Census Office;
- Department of the Interior, United States Geological Survey Office;
- Department of Agriculture;
- National Board of Health.

It may be deemed proper that I should notice herein that the contribution in maps and books from the Post-Office Department of the United States to the exhibit at the International Congress of Geography, meeting at Venice, Italy, in September of last year, has been recognized by

the award of a "Letter of Distinction"—the highest class of awards conferred.

The calls for certificates of distances required in the settlement of mileage accounts by officers of the public service and in the adjustment of telegraphic rates for government messages, made a duty of the topographer of this department, have been, as usual, promptly answered. For this 192 letters have been answered, covering 412 queries. That number of queries is but small compared with those of some years back, but their reference to this office is necessitated by the absence of any authoritative table of distances. There are great practical difficulties in the compilation of an extended and correct table, still such a publication is a desideratum, the "Distance Tables" of this department, issued in 1873, having been long obsolete. In view of the great labor that would attend such a compilation, suggestions have at various times been made for a joint effort by the governmental departments most interested in this matter.

During the past year the preparation and publication—with successive editions to keep pace with the incessant progress of the postal service—of the series of post-route maps have been continued under my supervision. New editions have been issued of all the maps hitherto prepared (26 in number, covered by 65 sheets). Successive editions, at short intervals of three or four months, have been and always will be required to show the numerous additions and changes of post-offices, and the course and frequency of service on the several post-routes.

New maps (photolithographed to supersede former provisional copies) have been completed of New Mexico and Arizona, of Utah, of Oregon and Washington, and of the Territories of Montana, Idaho, and Wyoming, and engraved plates have been completed of Virginia and West Virginia. A new map (photolithographed) has been produced of the Mississippi River, showing the river and side-connecting service between Saint Louis and the mouth. There still remain under construction, at such opportunities as the draughtsmen can command, drawings for new maps of Florida, of North Carolina and South Carolina, and of California and Nevada.

It is to be noted that the greater part of the time of the employés of this office is absorbed in making the incessant additions and alterations to the maps *by hand*, particularly for those required for the daily use of the officers and clerks of the department headquarters, who must have the latest information graphically presented, to be used along with their books and papers of record. These requirements necessarily limit the number of copies of the maps available for outside issue.

The *personnel* of this office now consists of—

The topographer.

8 draughtsmen (1 acting as principal assistant, and 1 specially for lithographic work).

2 corresponding clerks.

20 map-colorists and copyists (ladies).

2 map-mounters.

1 messenger.

2 watchmen (day and night, for building occupied for office).

These will be found graded in the general appropriation bill (legislative, executive, and judicial) for the existing fiscal year, but in the estimate for next fiscal year, which I have the honor to present for your consideration, I would respectfully submit that one additional draughtsman (clerk of second class) and one additional messenger (at \$720) be added.

The present force of draughtsmen is not able to keep up with the con-

stant and urgent and ever-increasing calls for the bringing-up of the maps used daily throughout the department headquarters, and I have been obliged to detail Mr. W. B. Todd, hitherto acting so efficiently as corresponding clerk and general aid, for duty as a draughtsman in charge of one of the groups of States. The additional messenger is almost a necessity for the proper transmission throughout the office of the endless number of specific orders coming up at every moment of the day. The above, it is submitted, is but a reasonable increase of the force for these duties.

I take pleasure in testifying to the general faithful and steady work of the employes of this office, particularly mentioning the efficient help I have had from the principal assistant, Mr. Charles E. Gorham, and from the two corresponding clerks, Mr. W. B. Todd and Miss R. Howard, and, latterly, Mrs. I. H. Sykes.

Very respectfully, your obedient servant,

W. L. NICHOLSON,  
Topographer Post-Office Department.

Hon. T. O. HOWE,  
Postmaster-General.

A.—Detailed statement of distribution of post-route maps during the year ending September 30, 1882.

	During year ending September 30, 1882.	During year ending September 30, 1881.	During year ending September 30, 1880.
<b>Maps furnished (number of sheets):</b>			
To officers and clerks of the Post-Office Department at Washington.....	912	909	908
To postmasters.....	1,043	999	914
To railway mail service (besides special tracings and diagrams).....	1,571	2,042	1,542
To post-office inspectors.....	260	165	168
To officers of other governmental departments of the United States.....	962	667	1,239
To Senators and Members of House of Representatives.....	1,140	903	667
To committees of Congress.....	154	100	160
To miscellaneous: including educational and scientific institutions, libraries, and geographical publishers.....	924	523	2,216
To State authorities and State libraries.....	121	223	195
To foreign governments.....	57	209	32
Number of sheets sold during year.....	1,106	1,239	873
<b>Total.....</b>	<b>8,250</b>	<b>7,979</b>	<b>8,915</b>

B.—Condensed statement of a portion of the operations of the Topographer's Office, Post-Office Department, during the year ending September 30, 1882.

Number of maps and diagrams "kept up" in detail:	
For daily use of the contract office.....	142
For daily use of the appointment office.....	50
For daily use in office of Postmaster-General, general superintendent railway mail service, and in topographer's office.....	69
"Kept up" (with less close entering) for use of the finance, money-order, post-office inspectors', dead-letter, Assistant Attorney-General for Post-Office Department, and Sixth Auditor's offices.....	184
<b>Total of maps required to be kept up for changes and additions to post-offices and service.....</b>	<b>445</b>
<b>Sheets of post-route maps distributed.....</b>	<b>8,250</b>

Of these 37 per cent. were backed and mounted on rollers, or bound (in folio or 8vo).

Letters sent:

Letters sent to railroad officers (in most cases with prepared tracing inclosed for return of information as to new lines and extensions).....	324
Circular queries for locations sent to postmasters .....	4,240
Certificates of post-route distances (letters, 42; telegrams, 150) .....	192
Miscellaneous letters .....	2,980
	<hr/>
	7,736
	<hr/>

Letters received:

Answers from postmasters to location queries .....	3,252
Requests for certificates of post-route distances.....	192
Miscellaneous letters (including returns from railroad officers).....	2,927
	<hr/>
	6,371
	<hr/>

Establishments and changes in post-offices:

Reported by appointment office weekly, and entered in duplicate, by States, &c., for use of draughtsmen, &c. (averaging 107 cases weekly) .....	5,574
---	-------

Reports of changes in service received:

Monthly reports from corresponding clerks of contract office, taken direct from books of record.....	180
Daily reports (printed bulletins).....	304

All these items have been promptly transferred to working maps, sample-sheets for colorists, and to correction-sheets for engraving and lithographing.

ANNUAL REPORT  
OF THE  
AUDITOR OF THE TREASURY  
FOR THE  
POST-OFFICE DEPARTMENT  
FOR THE  
FISCAL YEAR ENDED JUNE 30, 1882.

---

543

# REPORT OF THE AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT.

## OFFICE OF THE AUDITOR OF THE TREASURY FOR THE POST-OFFICE DEPARTMENT, *Washington, D. C., October 31, 1882.*

SIR: I have the honor to submit herewith the annual report of the receipts and expenditures of the Post-Office Department, as shown by the accounts of this office, for the fiscal year ended June 30, 1882.

### REVENUE ACCOUNT OF THE POST-OFFICE DEPARTMENT.

#### Fiscal year 1882:

The revenue of the department for the fiscal year ended June 30, 1882, was.....	\$41,876,410 15
The expenditure for the service of the year was .....	40,039,634 75
Excess of receipts .....	1,836,775 40
Amount of balances due by postmasters charged to "bad debts" and "compromise" accounts .....	\$143,282 88
Amount of balances due postmasters, to credit of "suspense" account.....	2,817 53
	<u>140,465 35</u>
Balance available for service of 1882 .....	<u>1,696,310 05</u>

#### Fiscal year 1881:

The balance available for the service of 1881 at the close of the last annual report was .....	518,870 65
The amount paid during the last fiscal year was .....	399,314 58
Balance available for the service of 1881 .....	<u>119,556 07</u>

#### Fiscal year 1880:

The balance available for the service of 1880 at the close of the last annual report was .....	448,453 93
The amount paid during the last fiscal year was .....	42,032 76
Balance unexpended for 1880 .....	<u>406,421 17</u>

#### Fiscal year 1879 and previous years:

The amount placed with the Treasurer, under the act approved August 8, 1882 (Public, No. 205, pages 27 and 30), was .....	6,595 12
The amount paid to September 30, 1882, was .....	1,039 14
Balance available on this account .....	<u>5,555 98</u>

### SUMMARY OF REVENUES AND EXPENDITURES.

Revenue of 1882 .....	\$41,876,410 15
Grants from the Treasury, 1879 and previous years (claims).....	6,595 12
Total receipts.....	<u>41,883,005 27</u>
	545

Expenditures for 1882 .....	\$40,039,634 75	
Expenditures for 1881 .....	399,314 58	
Expenditures for 1880 .....	42,032 76	
Expenditures for 1879 and previous years .....	1,039 14	
Total expenditures .....		\$40,482,021 23
Net amount charged to "bad debts" and "compromise" accounts during the year, less credits by "suspense" .....		1,400,984 04
		140,465 35
Excess of receipts .....		1,260,518 69

Of the amount charged to "bad debt" and "compromise" accounts, \$133,672.84 is the sum of uncollectable balances of accounts found open from 1789 to 1856, the ledgers having been reviewed for that period.

The balance standing to the credit of the general revenue account at the close of the fiscal year ended June 30, 1881, was .....		\$3,979,814 46
Excess of receipts during last fiscal year .....		1,260,518 69
Balance to the credit of the revenue account at the close of the fiscal year ended June 30, 1882 .....		5,240,333 15
Due by late postmasters { accounts in suit .....	\$245,202 83	
{ accounts not in suit .....	225,828 60	
		471,031 43
		4,769,301 72

#### DEFICIENCY ACCOUNT.

The amount appropriated from the general Treasury to supply deficiencies in the revenue of the Post-Office Department for the fiscal year ended June 30, 1882, was .....	\$2,152,258 00
The amount remaining undrawn, there having been no deficiency, is .....	2,152,258 00

#### POSTMASTERS' QUARTERLY ACCOUNTS-CURRENT.

The net revenues of the department from postages, being the aggregate revenues at post-offices for the fiscal year, less the compensation of postmasters and clerks and the contingent office expenses, were:

For the quarter ended September 30, 1881 .....	\$6,199,870 23
For the quarter ended December 31, 1881 .....	7,236,620 49
For the quarter ended March 31, 1882 .....	7,480,798 28
For the quarter ended June 30, 1882 .....	6,872,633 57
Total .....	27,789,922 57

The number of quarterly returns of postmasters received and audited, on which the above sum was found due the United States, was:

For the quarter ended September 30, 1881 .....	44,502
For the quarter ended December 31, 1881 .....	44,808
For the quarter ended March 31, 1882 .....	44,979
For the quarter ended June 30, 1882 .....	45,285
Total .....	179,574

#### STAMPS SOLD.

The amount of stamps, stamped envelopes and wrappers, newspaper and periodical stamps, and postal cards sold, was:

For the quarter ended September 30, 1881 .....	\$9,040,588 29
For the quarter ended December 31, 1881 .....	10,179,991 18
For the quarter ended March 31, 1882 .....	10,486,540 42
For the quarter ended June 30, 1882 .....	9,996,237 11
Total .....	39,703,357 00

The amount of official stamps furnished the different departments, included in the above amount of stamps sold, was:

For the State Department .....	\$2,040 00	
For the War Department .....	139,935 98	
For the Interior Department .....	21,997 00	
For the Department of Agriculture .....	1,501 50	
For the Navy Department .....	680 00	
Total official stamps .....		\$166,15 48
Total ordinary stamps sold .....	38,537,202 52	

## LETTER POSTAGES.

The amount of postage paid in money was .....		\$97,585 32
Included in the above amount are the following sums paid by foreign countries in the settlement of their accounts:		
Kingdom of Great Britain and Ireland .....	\$14,779 44	
Dominion of Canada .....	12,756 46	
Republic of Mexico .....	2,645 85	
Empire of Japan .....	4,039 17	
Kingdom of Spain .....	1,936 89	
Colony of New South Wales .....	740 25	
Kingdom of Norway .....	101 90	
Empire of Austria .....	40 34	
Republic of Switzerland .....	39 18	
Colony of Queensland .....	53 56	
Postal administration of Hong-Kong, China .....	99 91	
Administration of Straits Settlements, East Indies .....	12 75	
		37,245 70
Balance collected by postmasters .....		60,339 62

The following balances were paid and charged to the appropriations for—

## BALANCES DUE FOREIGN COUNTRIES.

Service of 1882:		
Empire of Germany .....	\$4,444 62	
Kingdom of Belgium .....	8,829 49	
Republic of France .....	2,242 35	
Kingdom of Denmark .....	2,662 49	
Kingdom of Roumania .....	152 65	
Kingdom of Sweden .....	638 10	
Kingdom of Italy .....	2,093 14	
International Bureau—Postal Union .....	670 50	
Total, 1882 .....		\$21,733 34
Service of previous years:		
Empire of Germany .....	\$4,444 62	
Kingdom of Belgium .....	8,829 49	
Republic of France .....	2,242 35	
Kingdom of Denmark .....	2,662 49	
Kingdom of Roumania .....	152 65	
Kingdom of Sweden .....	638 10	
Kingdom of Italy .....	2,093 14	
Colony of St. Thomas, W. I. ....	809 04	
Colony of the Bahamas .....	61 07	
Total for previous years .....		21,932 95
Aggregate amount paid .....		43,666 29

## MAIL TRANSPORTATION.

The amount charged to "transportation accrued" and placed to the credit of mail contractors and others for mail transportation during the fiscal year was:

For the regular supply of mail routes .....	\$19,729,246 84
For the supply of "special" offices .....	42,939 24
For the supply of "mail messenger" offices .....	724,714 69

For the salaries of postal railway clerks, route agents, local mail agents, and mail-route messengers .....	3,235,907 95
For the salaries and expenses of the superintendents of the railway mail service .....	44,208 11
<b>Total .....</b>	<b>23,777,016 83</b>

## FOREIGN MAIL TRANSPORTATION.

New York, Great Britain and Ireland, and countries beyond, via Great Britain .....	\$191,654 94
New York, Great Britain and Ireland, and Germany, and countries beyond .....	62,576 53
Philadelphia, Great Britain and Ireland .....	3,233 16
Boston, Great Britain and Ireland .....	840 90
Post-Office Department of Canada, English mail .....	408 77
New York, Baltimore, Philadelphia, Boston, Key West, New Orleans, and San Francisco, West Indies, Central and South America, Mexico, &c .....	30,596 20
New York and Newfoundland .....	21 54
Boston and Nova Scotia .....	65 36
Baltimore and Bremen .....	28 69
Upper Pacific coast, local mail .....	727 06
San Francisco, China, Japan, Farther India, Australia, and South Sea Islands .....	16,537 38
Expenses of government mail agent at Aspinwall .....	705 00
Expenses of government mail agent at Panama .....	1,125 00
Expenses of government mail agent at Shanghai, China .....	1,043 61
<b>Total .....</b>	<b>309,564 14</b>
<b>Total .....</b>	<b>24,086,580 97</b>
The amount credited to transportation accrued and charged to mail contractors for over-credits, being for "fines and deductions," was .....	222,115 65
<b>Net amount of transportation accrued .....</b>	<b>23,864,465 32</b>
The amount paid during the year was .....	22,766,887 10
<b>Excess of transportation accrued .....</b>	<b>1,097,578 22</b>

## PACIFIC RAILROAD ACCOUNT.

Included in the above amount of transportation accrued are the following balances accrued for the transportation of the mails over Pacific railroads, certified to the Register of the Treasury under instructions of the Secretary, dated May 19, 1879, and August 28, 1880. The items are not charged as expenditures of the Post-Office Department (see Statutes, vol. 20, page 420):

<b>Regular service, 1882:</b>	
Union Pacific Railway Company .....	\$569,399 69
Central Pacific Railroad Company .....	463,856 48
Sioux City and Pacific Railroad Company .....	22,433 41
<b>Total .....</b>	<b>\$1,055,689 58</b>
<b>Use of postal cars, 1882:</b>	
Union Pacific Railway Company .....	68,716 03
Central Pacific Railroad Company .....	53,768 44
<b>Total .....</b>	<b>122,484 47</b>
<b>Total certified for service of 1882 .....</b>	<b>1,178,174 05</b>
<b>Regular service of previous years:</b>	
Central Pacific Railroad Company .....	36,000 60
Sioux City and Pacific Railroad Company .....	10 72
<b>Total certified for service of previous years .....</b>	<b>36,011 32</b>
<b>Aggregate amount certified during the fiscal year .....</b>	<b>1,214,185 37</b>

## STATEMENT OF THE CONDITION OF ACCOUNTS OF LATE POSTMASTERS.

Balance due the United States brought forward from last report .....	\$510,690 91
Balance due the United States on account of postmasters becoming late during the fiscal year .....	378,887 84
<b>Total .....</b>	<b>889,578 75</b>

Amount collected during the year.....	\$254,070 83	
Amount charged to "suspense".....	21,193 61	
Amount charged to "bad and compromise debts".....	143,282 98	
	<u>          </u>	\$418,547 32
Balance remaining due United States.....		471,031 43
Of which there is in suit.....	245,202 83	
Not in suit.....	<u>225,828 60</u>	<u>471,031 43</u>
Balance due late postmasters brought forward from last report.....	86,064 97	
Amount becoming due during the fiscal year.....	<u>51,941 27</u>	138,006 24
Amount paid during the year.....	66,501 26	
Amount credited to "suspense".....	<u>24,011 14</u>	<u>90,512 40</u>
Balance remaining due late postmasters.....		<u>47,493 84</u>
Amount in suit June 30, 1881.....		257,306 06
Amount submitted for suit during the fiscal year.....		<u>1,507 13</u>
		258,813 19
Of which there was collected during the year.....	6,419 53	
Amount otherwise settled.....	<u>7,190 83</u>	<u>13,610 36</u>
Balance remaining in suit.....		<u>245,202 83</u>
Amount of costs and interest collected in suit.....		<u>1,211 00</u>

*Statement of the net revenue derived from the domestic money-order transactions for the year ended June 30, 1882, and of the international money-order transactions for the year ended June 30, 1881.*

Revenue accrued on domestic money-order transactions, 1882.....	\$280,341 12
Revenue accrued on international money-order transactions:	
Revenue accrued on Canadian transactions for 1881.....	\$7,776 31
Revenue accrued on British transactions for 1881.....	41,666 79
Revenue accrued on German transactions for 1881.....	18,908 10
Revenue accrued on Swiss transactions for 1881.....	2,442 33
Revenue accrued on Italian transactions for 1881.....	8,469 25
Revenue accrued on French transactions for 1881.....	<u>1,163 40</u>
Total international.....	<u>80,426 19</u>
Total net revenue paid to postal account.....	360,767 35

The following tables, numbered from 1 to 19, inclusive, exhibit more in detail the financial transactions of the department for the fiscal year:

No. 1.—*Statement exhibiting quarterly the receipts of the Post-Office Department, under their several heads, for the fiscal year ended June 30, 1882.*

Accounts.	Quarter ended Septem-ber 30, 1881.	Quarter ended Decem-ber 31, 1881.	Quarter ended March 31, 1882.	Quarter ended June 30, 1882.	Aggregate.
Letter postage.....	\$48,218 32	\$20,880 54	\$25,609 37	\$2,817 09	\$97,525 32
